Testosterone Propionate 30 mg Testosterone Phenylpropionate 60 mg Testosterone Isocaproate 60 mg Testosterone Decanoate 100 mg Omnadren is often compared with Sustanon. Some time ago, Omnadren-250 was produced with the ester caproate. It differed little from Sustanon, but this difference was reduced to only a little faster action by the Omnadren.

"We all have dreams. But in order to make dreams come into reality, it takes an awful lot of determination, dedication, self-discipline, and effort." - Jesse Owens

Confession: I've been lifting too light. It's so easy for me to dip into the habit of lifting at a weight I'm comfortable at and justify to myself that I'm focusing on form. Although I think there's no doubt a place for this, I've been doing way too much of it lately. Went heavier today and the first rep was a slap in the face
□ Got over it though and pushed through some sets. I need to continue lifting heavy, and for me I think it's mostly my head holding me back.
