Part 2:

Confession: The Real Story That End My Money Frustration!

My story started when I was sleeping in the street after I returned from National Youth Service Corps in 2009. After getting tired of searching for limited jobs to survive, I gave up and started seeking a hassle free and secured online business to do, I fell into several scams and lost hundreds of naira out of nothing. Enough I told myself. As I gave up again. Shortly after my decision, I saw a piece of newspaper on floor where I slept, the title reads: **"How A Lagos House Wife Made Millions in 3months Importing Hot-in-Demand Goods from Abroad"**.

I copied the link and discovered the e-book was then N5,500. I was unemployed then and had neither helper nor a reasonable accommodation in Lagos. So, I went to apply for a volunteer work at a tutorial center in Lagos. I was paid N200 daily as a Graduate of International Law & Diplomacy from a prestigious Private University in Nigeria, Imagine. After two months I had saved N5,500 and returned back to the website to place order for the e-book. Sorry, it was N10,500. Wow, I called the guy and begged, but he said no way. I went back to save more for another 2 months to gather N10,500. Unfortunately, the sales have gone up to N20,500. And I did not give up, I saved up N20,500 in 6 months from earning N200 daily which amounted to N9,000 monthly. But, the price went up by 6 months. So, it was now at the highest price of N25,500 and at the 8th month was when my savings was able to buy the very guide that helped me make over N90,000 in 2Days. Are you surprised? Yes, a whole 8 months.

One thing was clear to me, I saw a lifetime opportunity beyond my present situation and as a result, **"I never allowed my circumstances and background to put my back on the ground"**.

Just to save enough money to buy "The Importation E-book About a Lagos House Wife Who Made Millions from Home", I trekked from Iju-Ishaga to Berger Daily for 8 months to and fro. Finally, I saved N25,500 and paid for the product that changed my life. This all happened between 2010-2012.

Lessons from My Story!

- ✚ There is a price you must pay to become successful in life when seeking financial freedom. But you must have the ability to discern the right opportunity when you see one if you don't want to end up forfeiting your future dream and God's direction

- ✦ You have to be ready to drop little and unproductive things in order to reach the peak in your financial goal. One major enemy here is replacing being productive with been busy working or chasing after money
- ✦ Time is sensitive, due to the fact that I wasted time to gather required money to purchase the Importation guide, I paid 4times higher when I decided to buy 3months later. Take note, at a time, I felt like using the money for something else because I had a fiancé at this period. Imagine, in your own case, don't wait if you have the money or if you can borrow please do for the sake of securing the future.
- ✦ Excuse don't make you rich, taking timely action does. At the end of this report, you would be asked to take action, only the first lucky 25 people today would replicate my success story because they took action.
- ✦ I was focused and determined to grab the GOLDEN IMPORTATION BUSINESS opportunity at all cost and I never gave up till I got it.
- ✦ I never allowed my background to put my back on the ground. No one is interested in why you failed, in fact, people will forget you exist if all you carry about is how you were scammed or how your father, uncles and government refuse to borrow you money or help you in any endeavor. Why not do the same thing I did? Success doesn't run away, if you are serious, focused and dedicated and follow the rules of success you will become successful with online importation in 6months if you follow my mentoring.
- ✦ I spend N25,500 to enrich my brain and left with nothing to start the business. But, I started the business because I had all the tools needed in the e-book I bought to become a millionaire in the e-book except capital. I tested my negotiation skills as indicated in the guide and sharp, sharp I got a manufacturer to ship 2 pieces of "Female Wrist Watch"

with free shipping. This trick alone will give you hundreds of imported products free from abroad without spending a dime as much as you want.

Part 3:

What I learned From The N25,500 Importation Guide That Changed My Life!

I learnt 5 important ingredients needed to start small and grow rich importing hot-in-demand products from china without leaving your room and sell it to customers here in Nigeria without having any physical contact or seeing your buyers face-to-face. Seat tight, stop everything you are doing now, this is the most important part of this lecture, until this lecture ends, don't miss any line again. Here are the 5 most important lessons I am giving away absolutely free:

Lesson #1:

What is Mini Importation Business?

Mini importation business involves the shipment of goods in small quantities from country A (China, UK, USA, Dubai or Canada) to country B (Nigeria or any country you live).

Lesson #2:

What Do You Need To Start Mini Importation Business?

1. Internet connection
2. Naira ATM / Visa or MasterCard
3. Start-up Capital (less than 10k or \$30)
4. Telephone/ WhatsApp or Facebook Profile

Lesson #3:

Where Do I Import From?

You import from legitimate and tested importation portals or websites. I will not hide anything in this video because it's an open confession.

You can import from Japan, China, USA, UK, Canada, Dubai and Malaysia. But, the popular cheap and quality manufacturing country the world import from is China. I will focus on China importation portals. But before I expose the sites, here is the True Confession about Chinese Products from my experience. You will get the list of major portals to import from in part 4 below.

Are Chinese Products Fake?

In my opinion, I will say No. Why do we have fake Chinese products in Nigeria? Some Nigerians who are big importers look for cheap companies and ask them to product sub-standard product and import to Nigeria. But, Why? Because, they are greedy and want to be rich overnight. Check all original gadgets you have at home, you will see "Made in China". Check your laptops from original big brand names and your Smartphone, open the back or battery area; you will see most parts were "Made in China". So, most importers import original items from China. The whole Truth I just told you.

TAKE YOUR PEN NOW AND PEN DOWN ALL WEBSITE I AM REVEALING NEXT. AFTER READING, TAKE YOUR TIME IN THE NEXT 1 HOUR ARE RESEARCH THOSE SITES AND SEE HOW CHEAP THE PRODUCTS ARE. THEN HEAD TO JUMIA.COM.NG AND SEE HOW MUCH THE ITEMS YOU PICKED ARE SOLD FOR. THEN COME BACK TO MY FACEBOOK PAGE AND GIVE US TESTIMONY, SEND YOUR TESTIMONIES VIA EMAIL @ jerrysingeronline@gmail.com OR SMS OR WHATSAPP AT 07033347547. LET'S CONTINUE.

Lesson #4: What are the hot-in-demand products that one can import from and sell almost immediately above 100% Profit?

The list is endless but let me mention **Top 10** so you have a variety of options to choose from.

1. Phone/Tablets
2. Children wears
3. Phone Case & Charger
4. Jewelries
5. Dinner/night/sport/formal or casual wears (Male & Female)
6. Engagement Rings
7. Designer T-shirt
8. Wrist Watch (Male & Female)
9. Make-up Kits
10. Educational Toys

These products sells like pure water in Nigeria daily, but some sell faster than the rest. Do your research well or join my link here: www.jerrysingerimportbiz.com/sales for full list of hottest selling items that will not go out of fashion till the world ends. Well, it not free, you pay to get the full gist.

Warning:

Don't buy laptops from china, china has substandard laptops. You can get a good one from Alibaba but not other Chinese sites. You can buy it from Ebay and Amazon. Take note of these vital importation mentoring advice. This advice alone made me lose all my first mini laptops I imported in 2013 and discouraged my importation business. I have to quit for a

while after this loss because it was huge. You see, learning from the solder of an expert well experienced will save you a fortune. Secondly, I also when to buy Tablet PC and I ended up dashing them out. Why? Because I never knew the top selling Chinese tablets that are hot cake in Nigeria. Now, I know better. Ensure you don't make same mistake. At the end of this report, I will show you how to tap into the most "Evergreen Niche Products and exact ones to buy" so you wouldn't waste time, effort and money buy and having no one to buy from you. Let's move ahead faster.

Lesson #5: How To Sell Without Leaving Your Room

Do this 3times daily

Share testimony of those who used similar product and got better result

Part 4:

Here are the 5 mostly used portals by importers around the world!

Importation Portal Number 1: Alibaba E-commerce Portal

Website: www.alibaba.com

Summary: Some sellers here manufacture the product. Majority sell in bulk like 100 units per order. You can request for sample of 1 unit and they will ship to you in Nigeria or any country you live.

Importation Portal Number 2: DHGATE E-commerce Portal

Website: www.dhgate.com

Summary: This is another portal for importing your goods.

The remaining two Chinese websites I will show you below have the cheapest price than the three above websites and they are meant for Chinese local market and the websites are written in China.

Importation Portal Number 3: TAOBOA E-commerce Portal

Website: www.taobao.com

Summary: This is a Chinese website meant for local market and not open to those outside China to shop. You have to be in China or have access to someone living in China to benefit from the discount in price and array of products to choose from the site.

Importation Portal Number 4: 1668 E-commerce Portal

Website: www.1668.com

Summary: This is solely a Chinese portal for local market and not meant for international traders. Which means to buy from this site, you must be in china or have someone in china. All products here are cheaper than every international importation portal. The primary language of the site is Chinese.

As bonus, let me give you two major shopping sites in the US: www.amazon.com and www.ebay.com

Part 5:

THE REAL DEAL THAT EARNED ME N90,000 IN 2DAYS

How I Made At least N90,000 In 2Days From Mini Importation Without Leaving My Room!"

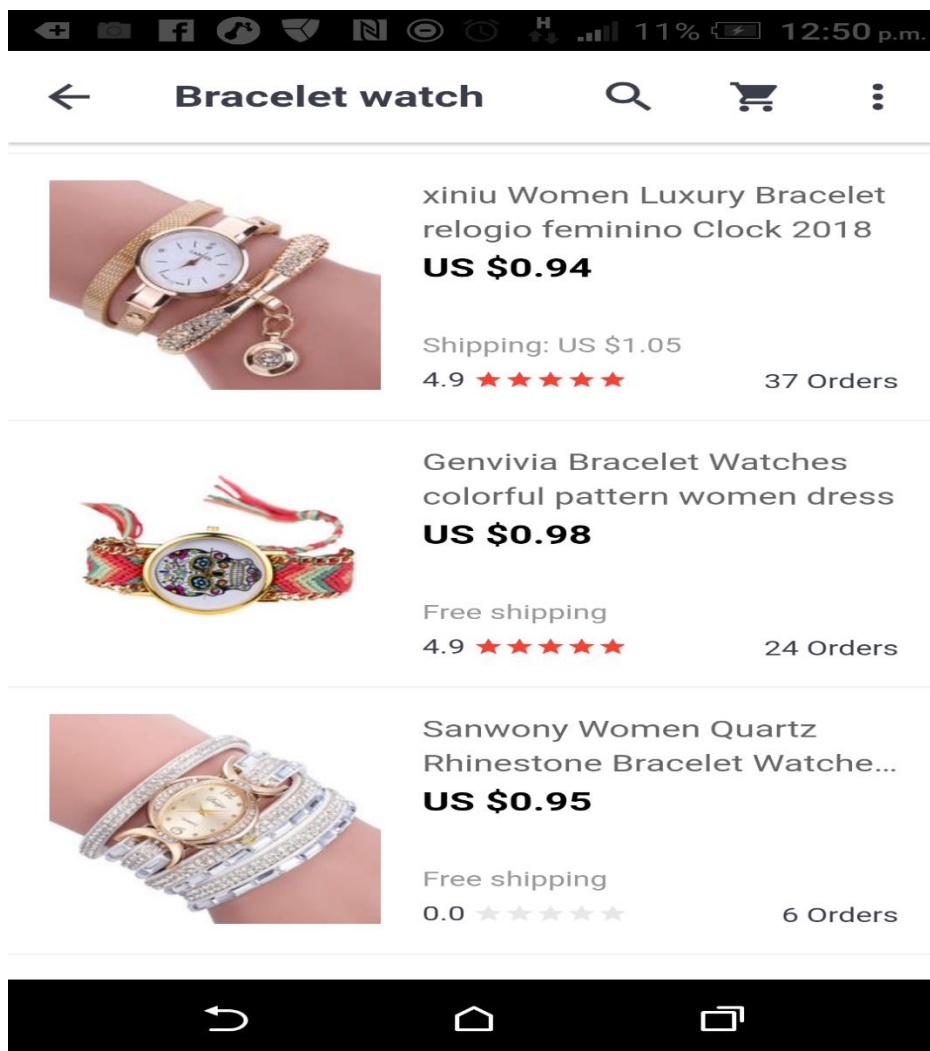

This is how I made at least **N90,000** in 2Days plus more ways you can earn above N250,000 weekly or monthly depending on your importation goal.

I researched a hot selling product using one of the 10 products listed above. I used one secret import portal to ensure I placed a secure order for 2 units and I got it FREE of charge. This secret is known to only me and my students who practically started Mini Importation Business with ZERO CAPITAL. If you want to get all the Steps to starting and running a successful Mini Importation Business from the comfort of your home tomorrow without CAPITAL click here: www.jerrysingerimportbiz.com/sales (Site Launching on 23rd June 2018).

Back to my story, I made use of only Facebook free advert and promoted the product for 2 days and the sales came in as I sold 153units @ N1500 with minimum of N1000 profit.

PAY ATTENTION AT THIS TIME. I AM EXPOSING MY PERSONAL EXPERIENCE. OTHERS WILL TELL YOU, SEE “HOW THEIR STUDENTS EARNED XYZ AMOUNT IN WEEKS” BUT, IT IS A LIE. IF THEY ARE TRUE, TELL THEM TO GIVE YOU THEIR STUDENTS CONTACT TO FIND OUT AND ASK THEM TO SHOW YOU THE IMPORTED PACKAGE FROM COURIER AND YOU WILL SEE IT’S ALL A MAKE-UP.

PRODUCT #1: BRACELET FEMALE WRIST WATCH (\$0.95) N342 @ 360 PER DOLLAR

SANWONY WOMEN QUARTZ SELLS FASTER THAN OTHERS. THE LAST IMAGE IS WHAT I IMPORTED 2 PIECES FREE AND WHEN I SOLD IT, I GOT LITTLE ABOVE N3,000 AS CAPITAL IN 7DAYS TO BEGIN MY IMPORTATION JOURNEY. HERE IS HOW I GREW IT INTO N177,700 AND NOT N90,000.

WEEK 2:

I imported 8 pieces of the same wrist watch for a total of N2736 @ N342 per piece with free shipping. Within 7days I sold all for N1500 each. Making a total of N12,000.

WEEK 3:

I imported 35 pieces of same product @ N342 per piece with free shipping to my door step. The total cost for the 35 pieces was **N11,970.**

In 7days it landed as usual and I sold in same week for N1500 each.

My profit has increase to **N52,500**

WEEK 4:

I imported 153 pieces of the same product @ N342 per piece with free shipping to my door step. The total cost for the 153 pieces was N52,326

In 7days it landed as usual and I sold in same week for N1500 each.

My gross profit has increase to **N229,500**

Let's minus capital of 52,326 from 229,500 = N177,174

NET PROFIT IS N177,174

From ZERO capital to N177,174 Profit.

This is not a onetime occurrence; I do this regularly to raise emergency cash on demand. I can truly say that I have turned myself into a cash breathing machine.

I know you have several questions in your mind to ask me right now. And one of them is this

Question: Mr. Jerry-Singer, How are my able to sell everything same week my goods arrived?

I get buyers ready waiting with their money before I ever import. Most successful importers will not expose this to you freely like I am doing here. You have nothing to fear, the simple way to get buyers is to place advert of the imported items on Facebook profile and use it as your DP on WhatsApp before it lands you will get orders much more than the pieces imported.

WHY?

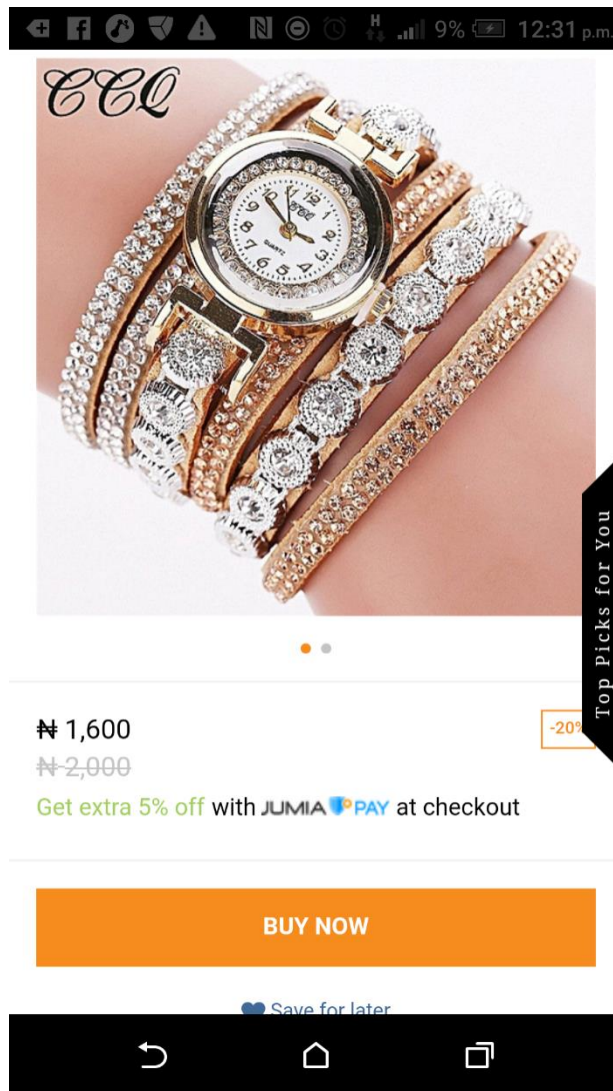

Because, those on your Facebook or WhatsApp list already have relationship with you, directly or indirectly and you don't need to canvas them to trust you before they can ever buy from you.

Would you like to learn how to raise emergency cash every time without going broke by learning the simple steps to “Turn Yourself into a Cash Breathing Machine Importing Hot-in-Demand Products” and earn your worth weekly?

If Yes Click Here: www.jerrysingerimportbiz.com/sales To Grab a copy of the **“Mini Importation Business Guide 2.0”** Manual before Midnight (11:59PM) (Site Launching on 23rd June 2018).

[Back to my product, see the image below to see how much this same product is sold on Jumia today. Secondly, you would get to know if it's a hot product to sell or not in the second image below. Enjoy viewing](#)

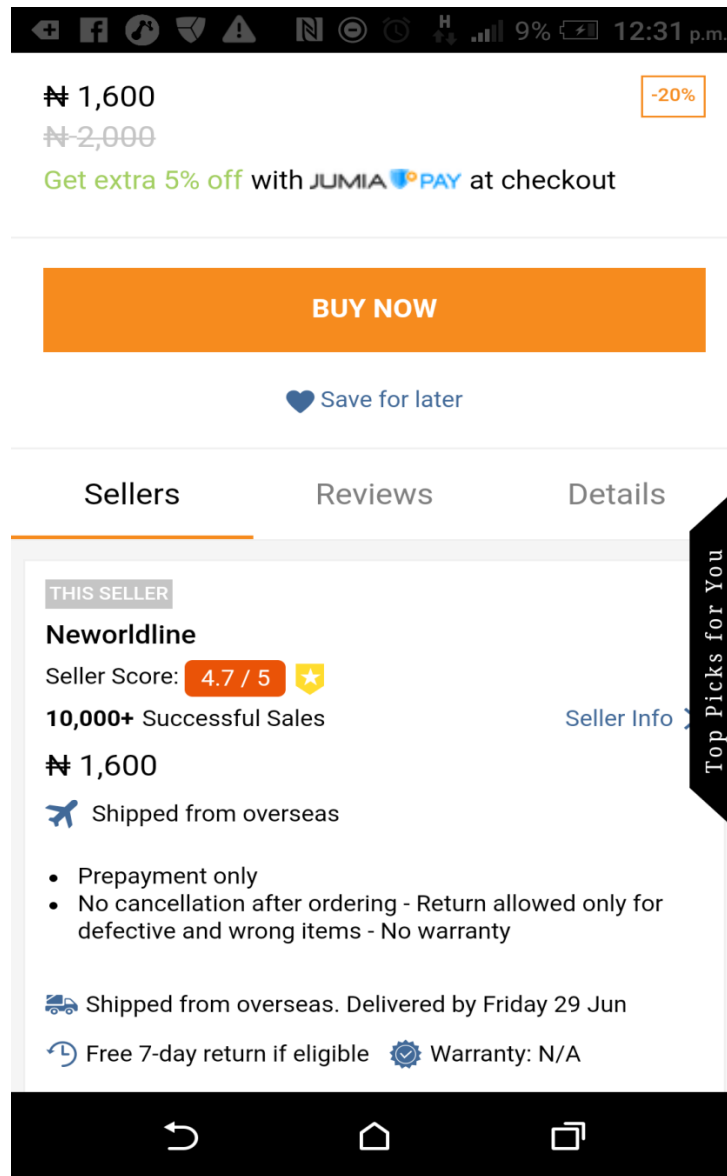

SEE HOW MUCH JUMIA SELL'S THE SAME PRODUCT

It is sold for N1600. You can import it for maximum of N400. Minus courier of N200. Total expense is N600. The seller makes N1000 profit per unit sale of this wrist watch.

Let's see how many he sold on his Jumia Store.

SEE HOW MANY PIECES THIS SELLER SOLD SINCE JANUARY 2018

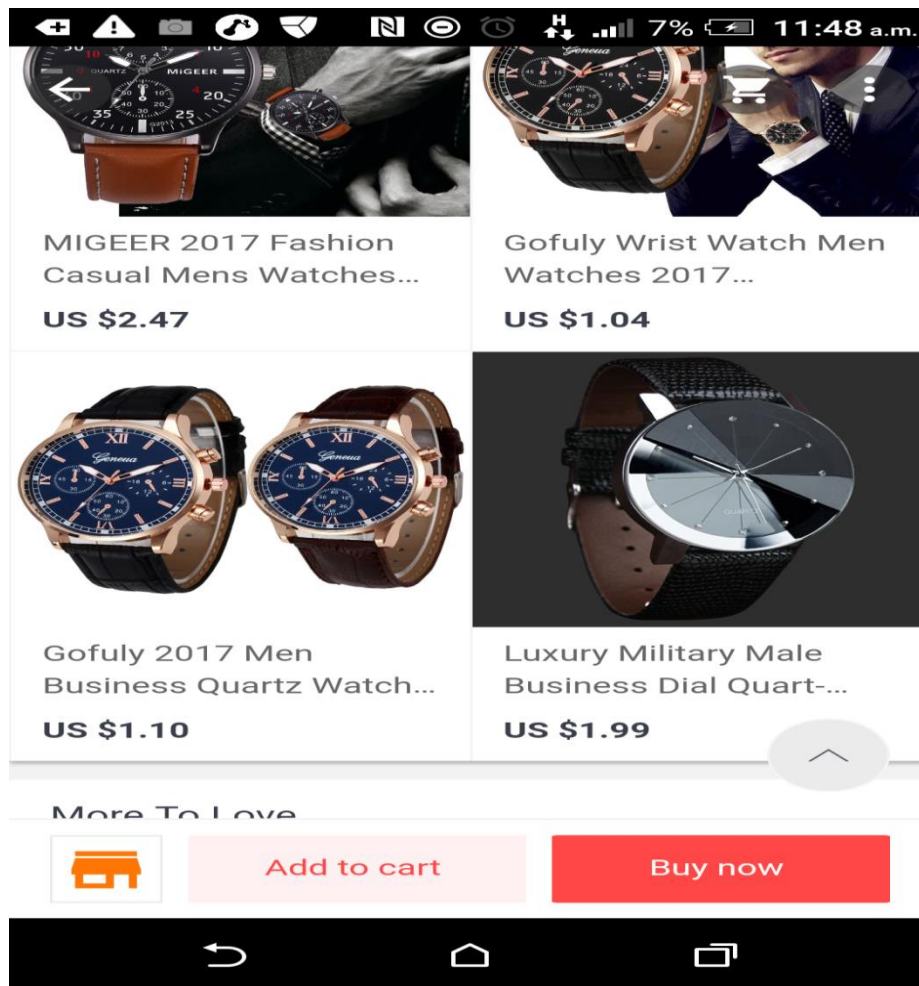

OVER 10,000 PIECES HAVE BEEN SOLD. WOW! ASUMING HE BOUGHT IT N400,
COURIER CHARGE N200 AND SELLS FOR N1600 MAKES PROFIT OF N1,000 PER
SALE. TOTAL PROFIT WOULD AMOUNT TO

N10,000,000 + WOW!

TEN MILLION NAIRA is an Amazing Cool Cash Right? You could be banking this millions in a matter of days if you order for a copy of your own **“Mini Importation Business Guide 2.0”** (Site Launching 23rd of June 2018). What are you waiting for? Let me ask you this simple question. Do you need 10,000 capital to start making N90,000 weekly or even monthly? No. with ZERO CAPITAL you can grow into N10,000,000 before December. If you seat there and do nothing, you end up getting nothing. Make a move now.

Another Example Below

PRODUCT #2: LUXURY MILITARY MALE BUSINESS WATCH (\$2.00) @ 360 = N720

The last image at lower bottom above with price \$1.99 but we round it up to \$2.00.

This is a real life story of my student; his name is Tobi, a graduate of Babcock University.

Here is what he did to raise emergency cash.

He made use of his pocket money to place order for this product. I didn't know this product sells fast in Nigeria because I do not wear wrist watch. When I asked him how he got to know how hot this product was, he said it was exposed inside the **"Mini Importation Business Guide 2.0"** and that he can immediately spot hot selling product from any industry and sell imported product on them any time any day. Wow. If you want to know how Tobi got that idea, click here: www.jerrysingerimportbiz.com/sales (Site Launching on 23rd of June 2018)

Tobi placed order for 50 pieces @ N720 per piece (\$2.00) = N36,000 capital investment

He sold each for as little as N2,000 on campus. Within 7Days his imported items landed on campus and it took him 2 weeks to completely sell off 50 pieces of the wrist watches.

How much was his profit? Let's do the mathematics now....

Cost price 720 – sales price 2000 = 1,280 profit.

N1280 x 50pieces = N64,000

He invested N36,000 and made total of N64,000 as profit in 30Days.

Important Notice: This is a conservative price as the wrist watch in question sells easily for N4500 in Nigerian market.

What Tobi did next marveled me. But, he did exactly how I mentored him. He saved his capital and re-invested the whole interest or profit to re-purchase same items, this time; he doubled his purchase to 100 units. This was going to cost him to pay huge amount of money for CUSTOM DUTY. But, I quickly reminded him of the exact page that exposed how to beat the custom duty charges without reducing his order quantity and still get his goods delivered at his hostel on campus. If you don't know this secret and you go ahead to start importation business, your entire goods will be seized because, your import duty charges will be 70% of the items you bought. But, if you follow the secret outlined in the **"Mini Importation Business Guide 2.0"** as found here: www.jerrysingerimportbiz.com/sales (Site Launching 23rd June 2018) you will still get

same goods delivered to you absolutely free of charge without paying custom a dime. Every successful importer is fully aware of this secret known to few of us. If you want to grow your importation business to importing over 100-3000 pieces, you need to grab the full gist. May I also remind you, you can't make millions of naira from importation if you buy products below 100 because the profit margin will not reach a million Naira.

2nd Month

My student Tobi have been experienced once and the second month he wants to take his business beyond the school environment and he ordered for 100 pieces of wrist watch worth \$200 which is N72,000. He was really scared investing this much because of the custom wahala issue, but, I told him it would not be a problem. I stood by him and promised to refund his entire N72,000 if the custom charge him a dime after applying **"Custom Free Charge Secret"** as exposed in the importation business guide 2.0.

Finally, he made payment and got the goods tracked, on the 6th day it arrived at the custom here in Lagos, Nigeria, and on the 7th day the courier man arrived at his hostel and called him for pick-up. He called me immediately that his goods arrived fully without any issues and said he has a gift for me. Then, he shipped a copy of the wrist watch to me and that is how I got the exact Hot selling watch my students used to pay his school fees in 3months without any prior experience but with little capital of **N36,000**.

I want you to calculate his profit yourself. At N2000 per copy and he sold 100 copies in 1month.

N200,000 – N72,000 capital =

N130,000 Profit.

He started with N36,000 and 2months down the line he is already earning 4times his initial capital almost every 30Days.

THE PROBLEM

- ✚ Price of fuel is always up
- ✚ Price of gas is not predictable, it goes up and down
- ✚ Cement is in constant increase without coming down
- ✚ House rent keeps rising
- ✚ Cost of living is too high
- ✚ Cost of feeding is multiplying as we grow daily
- ✚ School fees is going up annually
- ✚ Transportation and fuel price is synonymously working hand-in-hand
- ✚ The worst is, SALARY is STATIC

Except you are not yet fully aware, this is the danger most people fail to admit its reality, and that is the fact that the economy is going down pretty fast and lots of workers are losing their jobs on a daily basis from the big telecommunication, oil and gas, banks, government offices and even the forces. Nowhere is safe when it comes to getting a secured job and earning big salary. Shun that old advice, it doesn't work anymore. Remember my story, if I kept waiting for corporate job, today you wouldn't have heard about me. Let me ask you a serious question now, how many people working in big companies do you hear their success story except politicians, comedians, actors, music artists and entrepreneurs? Only those who change people's life will be remembered. Those in the corporate world change the lives of their EMPLOYERS and we only hear about the company and their EMPLOYERS. All the employees get in return for selling their time and helping to grow the dream of the employer is thank you in a paycheck monthly.

Listen, the same tool that changed my life few years ago when I had nothing is what am still offering you today after years of making success with it, it is still relevant and till the world come to an end. Hear me well, people will still buy and sell. Click here: www.jerrysingerimportbiz.com/sales (Site Launching 23rd of June 2018) to grab a copy of the e-book or loose entirely.
