

Drive-Thru Safari Opens May 8th

Melissa Sharpe, Salley, SC 5/5/2020

Want to get out of the house and still maintain safe social distancing? Eudora Farms is opening a drive-thru safari just in time for Mother's day!

Eudora Farms announces an exciting new adventure for families in the Southeast. A drive-thru wildlife safari park will be opening Friday, May 8th on their 125-acre farm in Salley, SC. Guests can ride in the comfort and safety of their own cars through expansive natural habitats observing animals from around the world in their natural herding environments. Experience close encounters with

herds of zebra and antelope, caravans of camels and our majestic endangered reticulated giraffe.

"We are excited to give families an affordable way to have some fun and learn about these amazing animals," owner Mark Nisbet explains. "We know that education is the key to conservation, so we are building even more educational exhibits in the future that will help people connect with these animals and have an adventure they will never forget."

"For now our guests can get hands-on and feed the birds in our Parakeet Adventure with over 200 parakeets or feed the animals as they drive through our Safari Park", Nisbet says. "Guests can also pay electronically if they want to have a hands-free adventure while maintaining their social distance".

Experience the safari for yourself for just \$20 per car during this promotion! Guests can also enjoy access to our large free parking and picnic areas. Eudora Farms is a USDA licensed and accredited family-owned business that has been operating in South Carolina for over 25 years. Eudora focuses on educational adventures that help support conservation and protection of animals for future generations. For more info, visit Eudora Farms on Facebook or call (803) 606-6325.
