

OUTBACKXRPL

\$OUTBACK ECOSYSTEM: NFT'S OF UNIQUE NATIVE AUSTRALIAN ANIMALS, DEX, NFT MARKETPLACE, WALLET APPLICATION AND GAMES!

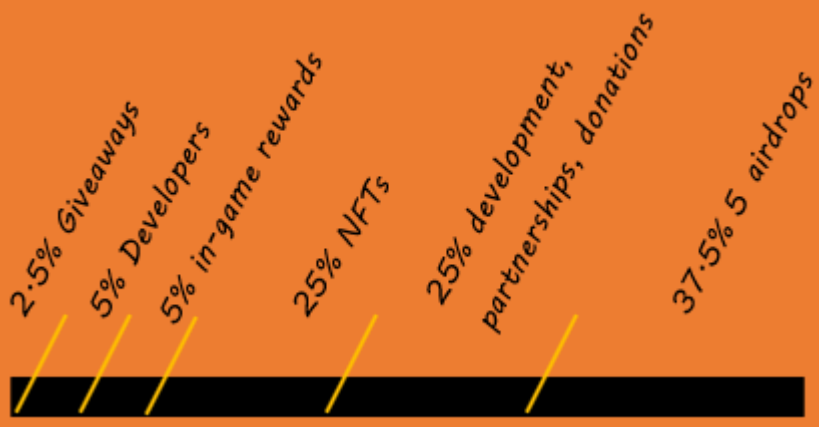

What is Outback?

Outback is the native token in the Outback's ecosystem. It will be used for Outback's future platforms, such as Decentralized Exchange, Wallet/Swap Application, Games, Merchandise Store, Outback NFTs and NFT marketplace.

Distribution of OUTBACK

10 000 OUTBACK distribution: 37.5% over 5 airdrops (Dates on twitter), 2.5% for giveaways, 5% for developers, 5% for in-game rewards, 25% for development, partnerships, donations and 25% for NFTs.

NFTs

Each Outback NFT is created uniquely and not made from an NFT generator tool. This is to help create a smaller range of NFTs that have a significant purpose and meaning behind each individual one. The total number of NFTs that will be created and minted is 500. There will be 5 collections, each with a different native Australian animal. A collection will have 100 variants of the same animal, although each will be crafted to look unique and stunning. 5 collections of 100 NFTs per Collection, total of 500 NFTs. The 5 different animals that will be featured in the collections is a kangaroo, emu, Tasmanian devil, koala, and echidna. The animals were selected as they are popular native Australian animals and are aesthetically appealing. OutbackNFT has secured partnerships with other projects to feature exclusive NFT collaborations, Stay Tuned.

PRE-SALE The first 100 NFTs will be purchased with XRP, this is to ensure all members are able to secure a pre-sale Outback NFT. The pre-sale price for 1 OUTBACK will be 15 XRP. To be eligible to secure an Outback NFT you will need 5 Outback tokens. Therefore, the presale price for an NFT is 75 XRP. 15 XRP for 5 Outback = 75 XRP. 5 outback tokens x 500 NFTs = 2500 Outback tokens (25% of the supply).

MINTING The NFTs will be minted on the XRPL with the integration of (XLS-20d).

All users with 5 Outback tokens will be able to secure an NFT before it gets minted. After, the NFTs will be tradeable on the Sologenic NFT marketplace (Fees will be covered for Pre-sale NFTs).

Australian Animal Knowledge

Kangaroo

Population - Total population of kangaroos in Australia is 34 million.

Family - Macropodidae, commonly known as kangaroos, wallabies, tree-kangaroos, wallaroos, pademelons and quokkas.

Facts - Kangaroos Are the Largest Marsupials on Earth, Most Kangaroos Are Left-Handed, A Group of Kangaroos Is Called a Mob, Kangaroos Can Hop 25 Feet, Use their tail as a fifth Leg.

Emu

Population - In Australia there are between 625,000 to 725,000 wild emus.

Family - The emu is the sole living member of the family Dromaiidae of the order Casuariiformes, which also includes the cassowaries.

Facts - Emus are the second largest bird in the world, can grow up to 2m tall, live between ten and twenty years in the wild, two sets of eyelids one for blinking and the other for keeping the dust out.

Koala

Population - The Australian Koala Foundation estimates that there are less than 100,000 Koalas left in the wild, possibly as few as 43,000.

Family - They are so different from any other marsupial, however, that they have been classified into their own family, called Phascolarctidae.

Facts - Koalas aren't bears - they're marsupials, The Koalas closet relative is the wombat, hug trees in the summer to cool down, the trunks are up to 7 degrees Celsius cooler, Koalas have 2 thumbs on each hand.

Tasmanian Devil

Population - Tasmania's devil population has plummeted from 140,000 to as few as 20,000, and the species is now classified as endangered.

Family - The Tasmanian devil is a carnivorous marsupial of the family Dasyuridae.

Facts - They have a loud disturbing scream, bite power is so powerful it can crush human bones, store fat in their tails, sleep inside the bodies of their prey, largest carnivorous marsupial in the world.

Echidna

Population - 10,000 mature individuals, the population is decreasing.

Family - Echidnas, sometimes known as spiny anteaters, are quill-covered monotremes (egg-laying mammals) belonging to the family Tachyglossidae.

Facts - They are named after the mother of monsters, have toothless jaws, body temperature is the second lowest out of all mammals, Echidna's maximum speed is 2.3 kilometers per hour.

Merchandise Store

The merchandise store will be created and integrated into our website, so that fans will be able to easily purchase the items. The merchandise will include stickers, t-shirts, hats, and other miscellaneous items. The merchandise items will be inspired by NFTs that we have created. The priority goal for the merch store is to give an amazing opportunity for holders/fans to create and inspire designs, which we can create and reward the designer with royalties. The merch will be purchasable with not only fiat, but many various crypto's including OUTBACK.

Decentralized Exchange

OutbackDEX will be a decentralized exchange that will allow users to use peer-to-peer (P2P) transactions, with OUTBACK as the native token. Further details will be discussed as the project develops.

Game Development

The Outback games will allow users to earn OUTBACK tokens and NFTs. The first game to be developed is a 2d endless runner. This game will feature an endless evolving level and mini games to earn OUTBACK and NFTs faster. To earn OUTBACK tokens the player will simply play the game and earn points that will be stored on their account, and sent to their XUMM account, when they have cashed out.

Wallet/Swap Application

The wallet/swap application will allow users to store Outback and other cryptocurrencies securely. A swap feature will also be implemented to change one crypto to another in seconds! More to be discussed as development continues.

NFT Marketplace

The NFT marketplace will allow users to buy and sell non-fungible tokens. Rewards and royalty plans will be discussed for buyers of Outback NFTs on the marketplace. Further information will be released during development.

Outback wants to be a successful project and become driven by the community, we encourage your opinion about the development of the project, as we are open to suggestions and ideas. Don't be afraid to contact us on our email. Cryptocurrency investing is high risk, make sure you DYOR before investing into any project including Outback.

Thanks, Outback Team.
