"They have stolen our lives"

that causes a vibration in your brain. It's torture! My dogs all have sore, matted, eyes and I believe it's from the VOC'S coming from this compressor station. The next day, after all the flaring, you could see a giant cloud over my property. Blow offs, alarms sounding from the hilltop, giant flares, which leave clouds of stuff floating over my property. We can't live this way!! Who could? They have stolen our lives!!"
