sometimes clearing your mind is hard. Personally for me a long drive helps so much. A walk can help a run can help, whatever helps you. But make sure to clear your mind and not hold onto everything because it can really get too much and it's not good for you. You can also reach out to family and friends for advice but not everyone may be comfortable with that. Always know that you're never alone and that there are always people willing to help. My dm is always open for anyone and everyone. Never go

through anything alone no matter how small you think it is..
