## Helping Out "Jerry's Kid"

CARNIVALS ARE FOR KIDS or those who are a kid at heart which was the case for those who attended or helped out at the Annual Muscular Dystrophy Carnival held recently at the Kent School. Kiddie rides, cotton candy, refreshments and all the other ingredients needed to make a carnival successful were made available through numerous donations, all for the sake of "Jerry's Kids." ## Federal Money To Fund Partnership Programs

Mayor Kevin H. White announced recently that Boston has received a \$431,938 federal grant to develop partnerships between the Parks and Recreation Department and 15 to 20 neighborhood organizations to manage and maintain park facilities and programs.

Boston was awarded the grant in a nationwide competition and will receive a larger percentage of the \$5 million in available funds than any other American city. The city has named the program "Boston Partners in Urban Recreation." The program will serve as a national model for public sector/neighborhood/private sector partnerships.

The grant will fund a two-year program under which Boston neighbor-

hoods will have the opportunity to upgrade their maintenance and recreation programs in their park areas. Under the program, neighborhood groups and organizations will be invited to make proposals, in an effort to acquire a portion of this grant to help maintain a relevant park facility or program. Program guidelines will be developed in conjunction with the private sector.

Community organizations will design their own programs, with technical assistance from the Parks and Recreation Department. Each neighborhood group will first determine the community's priority needs, which might range from maintenance of ex-

## WHAT IS THE THE BEST PRICE FOR YOUR HOME?

The Best (Marketing) Price for Your Home is the Price That SELLS Your Home for The MOST MONEY in the TIME YOU HAVE for Selling.

**MARKET UPDATE:** The good news about the Charlestown market is that it is healthy, with prices holding up (while in some other real estate markets prices are actually falling.) The bad news is that it now takes longer to sell a home, resulting in more good properties on the market than ever before. (Which means your home sale has stiffer competition than ever before). Home buyers are comparison-shopping long and hard. What does that mean for you? It means that **over-pricing your home will only help sell some other home!**

At Gibson Associates we think, that other than finding the Buyer, our most important job is supplying the home-owner with full and complete pricing information to help the owner set a price that SELLS the home for the highest possible price and within your schedule. The only way we will give you pricing advice is by performing a "competitive market analysis", which compares your home with (a) similar homes that have sold recently, (b) comparable homes on the market now — competing listings, and (c) comparable homes put on the market that did not sell because they were over-priced. If a broker can't tell you how they arrive at their suggested price or if they can't give specific examples of comparable sales and listings, beware: You may list your house at an unrealistically high price, with the end result of wasting many months before finally accepting an offer at market value. Remember, the only money you can spend is the money you collect at closing—not an unrealistic price on a listing sheet.

Gibson Associates have used competitive market analysis for years and our market analysis predict final sales prices with exceptionally high accuracy. Our careful pricing policy pays off: **GIBSON IS SELLING CHARLESTOWN HOMES IN THIS SLOW MARKET: OVER \$2,000,000 IN CHARLESTOWN SALES TO DATE** (completed sales, contracts and outstanding offers)

If you want a careful market analysis, an explanation of our marketing plan, and results with the sale of your home, please call:

by Sal Giarratani  
**EYES OF THE TIGER?**

I've been told since last week's softball story that I should remain permanently on the sports page, the reason being, I jump all over the place in my column and could very well enter the 1984 Los Angeles Olympic Games for marathon writing. I personally don't believe I go all over the page like I'm informed. Did you know last Friday was international Left-Handers Day? Thought you might like to know that according to a recent national poll, eighty percent of the American people are educated beyond their intelligence. Finally, the Red Sox have decided to save us all the suspense by folding a month early this year. After all, why should we have to wait until Labor Day? Right?

Still don't know why I titled this section "Eyes of the Tiger" but it grabbed your attention—Right? Wrong?

**MEDICATION?**

Wonder what drug store that certain Somerville State Senator buys his medication in?...Gov. King signed the state's new Drunk Driving Bill last week. Hope it'll be enforced across the board!

**NEVER LEARN DEPT.**

Judge Garrity's going to appoint a "master" to run the Boston School system. After eight years, \$150 million and 200 individual orders, Garrity wants to get out but not all the way I guess.

He still wants to control the system through the charade of a court master to watchdog the superintendent.

I'm not surprised the present school board just accepts everything on a silver platter. They don't really want to question anything. If they did that, they would have to use their eyes and ears and God help them if they used their eyes and ears to see things as they are.

Boston schools are nothing but education dumps. People, as soon as they can afford, place their children in private or parochial schools where education is given top priority.

I don't think Garrity is evil but he sure is wrong in the way he sees things as far as equality for all children in Boston's public schools. There are truly none so blind as those who will not see!

**TIPONOMICS**

The race for the 8th District seat currently held by Cong. Thomas P. "Tip" O'Neill since 1953 is going to be far more interesting this year than ever before. Not since the days of the "Tip" O'Neill/Mike LoPresti Sr. clash has so much interest been focused in this congressional district.

Its not a Heckler/Frank type clash but its going to make for some interesting days ahead. Bob Cappucci is going after "Tip" on his liberal—oops I said that again—Cappucci is going after "Tip" on the House Speaker's preoccupation on national issues with lit-

tle attention being given the needs of the congressional district's various communities. Issues like forced busing, tax-financed abortions etc.

Meanwhile, Bill Barnstead is getting primary attention from young Frank McNamara in the Republican primary. For years Republicans have had as much change in this district as the Chicago Cubs—this year the Cincinnati Reds—have of winning the NL pennant. However, this year things could develop making it quite possible for a McNamara to win!

# City Conducting Property Inspections

Boston's Office of Property Equalization (OPE) is now conducting inspections of the city's business personal property in compliance with the State Supreme Judicial Court mandate that all cities and towns in the Commonwealth revalue all properties to determine full and fair market value.

These inspections will assure fair and accurate valuations of taxable personal property, according to OPE Director Arthur Shea.

The on-site inspections are being conducted by OPE representatives carrying photo identification cards bearing the City of Boston seal.

Shea expressed his gratitude for the cooperation that his office has received thus far.

The Office of Property Equalization was established by the City of Boston as the department to complete the task of revaluation by the fall of 1982.

## C.Y.H.A.

Welcome to the 1982-83 hockey season. The season will get underway possibly the second week in September.

The Board of Directors has been busy over the summer months trying to unravel the mystery and rumor of why our rink was scheduled to be one of the rinks to be closed. As of this writing, we have no commitment from the MDC that the rink will be opened.

There will be a Coaches meeting and Board Members meeting on September 2, 1982 at 7:00 p.m. at Papa Gino's.

If any boy wants to play in CYHA this coming season and has not registered yet, please call Mr. Lou Marino, Player Personnel Director at 241-9010.

Any boy who has not fulfilled his financial obligation, will not be allowed to play until his financial status is settled. If in doubt, please call Bo Whitlock, at 242-1225.

# Irish Update

by John J. Walsh  
The Bunker Hill Irish Heritage Society is pleased to announce that, along with several other organizations, we are continuing the picket of the Boston Globe regarding their ethnic slur on the Irish American community July 27th. To date, there has been a great impact on the Globe as to the awareness of the many

Globe readers.  
The groups are planning to gather some 12,000 signatures and addresses to submit to the various businesses that advertise daily in the Globe (namely the Jordan March Company). We are shocked and incensed with the Boston Globe's "Non-Human Slurs" on those of Irish heritage. We ask Boston Globe advertisers to persuade the Boston Globe to appropriately readdress, in an equitable manner, the dehumanizing racial slur. Our buying power may well reflect the indignation vested upon us by the

Globe's anti-Irish sentiments. We are neither rats nor sheep.  
The picket line is each Saturday from 2:00 to 4:00 p.m. at the Globe Office on Morrissey Boulevard.  
\*\*\*\*

One of our members, Maureen Moriarty, and her family are on holiday in County Kerry. As you know, Maureen is President of the Cedar Sports Club and is very active in the Rose of Tralee Contest held each year for year for young women wishing to compete in Ireland for the Crown-Of-Rose of Tralee. I'm sure she will fill us in on her journey to the festival when she return.  
\*\*\*\*

Pat Locke from Wall Street has just returned from a holiday in the Emerald Isle. Pat, as you know, has done a great job coaching our Junior Irish Football teams. His sister, Rosellen, is presently in Ireland visiting cousins. I may add that the Locke family is enjoying a visit here from several of their relatives of County Antrim.  
\*\*\*\*

Our president Bernie Kelly and his wife, Rita, are busy these days planning our next social and installation of officers. Please keep tuned.  
\*\*\*\*

Hats off to fellow "Townie" and member, Jack Connolly, president of the A.O.H., Watertown. Jack has just completed a two year term as National President for the Ancient Order of Hibernians. He has accomplished much in American and Irish relations, and has set up a broad spectrum of a united and free Ireland.  
\*\*\*\*

One of our active members of the Society, Mrs. Doloris Stelle, of Bartlett Street, is entertaining some guests from Dublin, Mrs. Boyle and her 12 year old daughter, Mair'ead. We wish them a happy three week holiday in America.

## Letters To The Editor

Letters to the Editor must be signed and include name, address and telephone number for verification. The name will be withheld if the writer so requests. Anonymous letters will NOT be published.

## The Rat Corner

To the Editor:

It is unfortunate that the Bunker Hill Irish Heritage Society has chosen to use the "Irish Update" to expound political views concerning the ongoing war in the north eastern corner of Ireland. (Irish Update-Thursday, August 12, 1982). The "Irish Update", originally edited by Marty O'Brien the correspondence secretary for the Society, is the voice of the B.H.I.H.S. The "Irish Update" is a forum to be used to further the stated goals of the Society by keeping members and the public in general informed about activities which are relevant to Irish heritage, culture, etc.

As one of the founders of this organization, I hate to see the goals of the Society abandoned. The original group that took the idea of a Charlestown-based Irish cultural organization and brought it into being, included people who differed politically. There were those that were vocally anti-I.R.A.; those who supported the I.R.A.; and those that said nothing about the current political and military situation in Ireland (none were pro-British), but everyone agreed on one thing—the organization would remain neutral. These feelings are incorporated in the constitution and the by-laws. They call for the Society to stay clear of politics, be they local, national or international. As an early member of the Society and a current member of the Board of Directors, Mr. Walsh must be award of these principles. As the editor of the Update he should stay clear of politics in his choice of articles. If he wishes to speak as an individual he has a guaranteed right to do so.

The author of the Echo article displays a short-sighted political outlook. He is caught up in the ballyho which has been stirred up, yet he uses the same sledge-hammer tactics employed by the Globe. He falls into their trap by simplistically dividing the Irish community between those who support "the I.R.A. actions and the overwhelming majority of peace-loving Irish men and women....". The Globe cartoon is a phony issue. It is a red-herring and we should not let it become the center of a new Irish solidarity. Anyone that needed this cartoon to raise their political consciousness enough to make them realize that the Boston Globe and the U.S. news media in general are pro-British and anti-Irish must have been sleeping for at least the last fifteen (15) years. (You would think that Bonnie Prince Charles and Lady Di were our first family).

The cartoon is a ploy. The Globe has intimidated the Irish community, and worse, ruffled the feathers of the lace-curtain Irish. The Globe is saying "either declare yourself anti-I.R.A. or be associated with the RAT." Another victory for British propoganda!

John, you are out of your league. Charlie Ross's comments on Ireland in his S.T.O.P. article (same issue) comes closer to the heart of the issue. Who was the source of the ECHO article?

Paul Morceau  
Past Historian and  
Full member of the B.H.I.H.S.

## Our Thanks

Maria Girvin

Dear Ms. Girvin,  
Thank you for your well written article and kind words about Mrs. Bee's Gardens.

Because of your article, many tenants were made aware that we were not employed by the Boston Housing Authority as they had previously thought.

This then gave them the initiative to borrow tools and prepare gardens on their own without waiting for assistance from the Garden Club but furthering the goals of the Garden Club. Our sincerest thanks agains for an excellent article.

Warmest Regards,

### Views On Dental Health

by Jeffrey D. Cohen, D.M.D.

**WORLD'S MOST PREVALENT DISEASE**

What is the world's most prevalent disease? If your answer is the common cold - wrong! Tooth decay is the most universal disease in the world. Only a minute fraction of the world's people are free of it. Only 2 percent of the American population has been spared. Earliest cavities show up right after primary teeth erupt. The average 13-year-old already has at least five cavities in permanent teeth. Girls seem to get more cavities than boys; but then, girls get their teeth sooner.

A cavity is a hole in a tooth caused by decay which is produced by the combination of plaque and acid. It doesn't take a few days for trouble to develop. Tooth decay can start in less than 15 minutes after eating. All that is needed are three ingredients; a tooth, bacteria (in dental plaque) and sugar. When the bacteria and sugar meet, acid is formed. When the acid and tooth meet, the acid starts etching a hole in the tooth.

Today's diets, high in refined sugars and carbohydrates, are conducive to decay. But careful and PROMPT oral hygiene procedures after eating will reduce, if not eliminate, the decay-producing activity of the modern diet.
