✓  Going lower/higher places unnecessary stress on the anterior deltoid, which over time, under constant overuse & heavy load, could cause issues with the shoulders.

Issa WaveOlution. If this doesn't encourage you up and comes to keep going, idk what will.. I started my journey in bodybuilding in 2012, turned pro in 2013 and qualified for the Olympia in 2015 where I've consecutively remained in the top 5 until my win in 2018.. every single year I've faced adversity, losses, sacrificed so much, lost friendships and relationships, yet through it all I got better and better..mentally, physically and spiritually..I found myself and my true strength through bodybuilding.. If you ever doubt yourself, challenge yourself to keep going to find out YOUR "why" □□□□□♂□□
