This person is making you look guilty also. This is just some of what he's doing. You could be totally messing with me and this is all could be you. These are the only reasons why I don't like stuff out there regularly taking shots at me as it stirs up the pot and real lunatics grows from it. I could give two shits if people make jokes about me. I'm really not as thinned skinned as it appears, but people taking shots and my wife and kids, and then contacting my gigs and trying to cancel them is just way to far.

I just got an email from you about 10/20 and Facebook. I'm not sure what your talking about, I didn't contact your Facebook page. I'm being trolled what did it say?
