BABY WHITE TIGER is not in any way e-money and/or fiat money, or an asset backed stable-coin, whether global or limited in scope. This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, nor is it an invitation, solicitation or offer to invest in BABY WHITE TIGER or acquire or use BABY WHITE TIGER tokens in any way and with any expectation of profit therefrom. Any user of BABY WHITE TIGER represents and warrants that such user has received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this Whitepaper or the Website, and/or using any portion or element of BABY WHITE TIGER (including the BABY WHITE TIGER token). The user hereby acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, token, platform, software or interface, including BABY WHITE TIGER, and further disavows any claim of any kind against any community member directly or indirectly involved with BABY WHITE TIGER, for any damage suffered, including total loss. Due to local regulations, citizens of the USA are not entitled to take part in the pre-sale. The BABY WHITE TIGER team does not provide financial guidance or advice, and by investing in this coin you risk losing your investment. Always do your own research when investing.

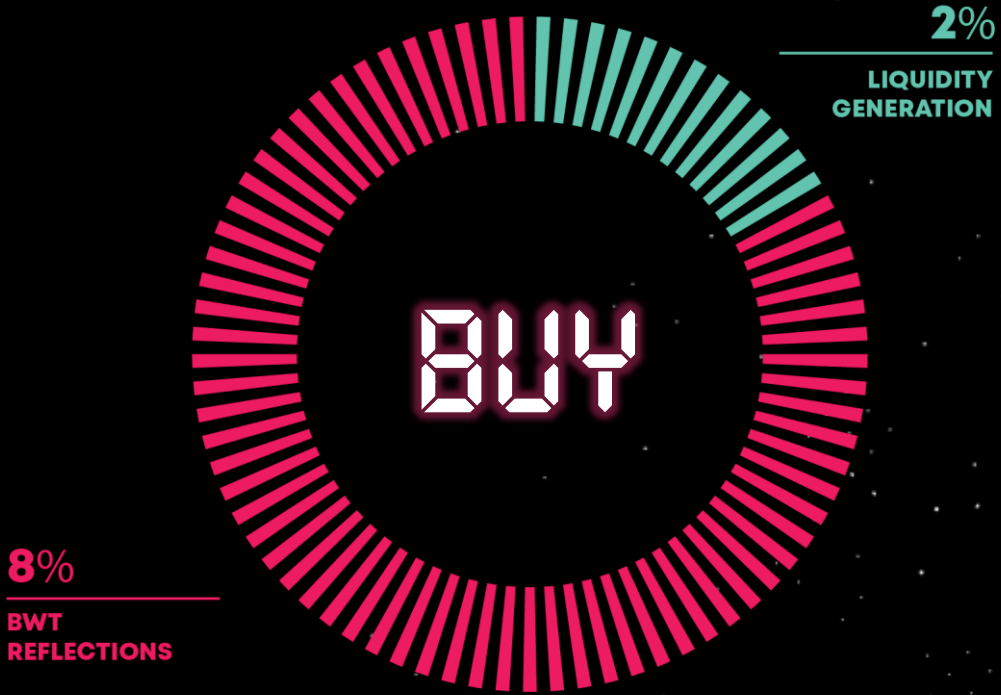

**Baby White Tiger** (BWT) is a decentralized and community driven project built on the Binance Smart Chain (BSC). Lead by a team whos members have each played a major role in various successful projects, the mission to the moon will only be a matter of time.

Rather than having extremely complicated tokenomics like other projects of recent, BWT will be going back to basics and implementing it in 2 parts: BWT reflections back to holders and a liquidity generation protocol - a formula of success that has proven to work for other BSC giants like Safemoon and Baby Doge.

Besides having simple tokenomics, the contract has also been vetted by the PooCoin developers and has implemented a few other mechanics that are required to achieve roadmap goals such as non-fungible tokens (NFTs) !
