

## Business Registry Training Course by John Spencer Ellis

Learn how to get your business listed, registered and promoted in search engines around the world. Find out how to give yourself a real shot at success with your online store or offer. Official reports, case study information and much more is available at John's site. You can also see the Wikipedia details, recent pictures, company updates, SEO strategies, document sharing, video training, his movie and even info about his institute for coaches. Are you stuck on a problem or challenge? Do you know the breakthrough is right around the corner, but you just can't reach it? I've seen so many entrepreneurs who are tired of making mistakes, and feel unsure of how to move forward. This is where I can provide the critical tools and clarity to move you into action. Let's get past your challenge and move you to success, once and for all.

For many years, people from around the world have asked me to offer a private one-on-one coaching and mentoring program. Due to my travel schedule and previous obligations, I wasn't able. Beginning in 2014, I started my personal mastermind for a small group of just 12 people. The results of our members is nothing short of incredible. Many members doubled their income in less than 12 months while they increased their "play time" and personal fulfillment.

Although the mastermind results (as you can read) and nothing short of incredible, some people still want more one-on-one consulting/mentoring and more extensive help on business processes, mindset, work flow and automation, etc. That's why the JSE One-on-One Full Day Intensive was created.
