
International petition for the emergence of an international territories The World Diamond

International petition is designed to create the transformation of European territories, Czech Republic, Slovakia, Hungary, Romania, Bulgaria, Turkey, Austrian, French, Italian, Portuguese Republic, the Federal Republic of Germany, the Swiss cantons of the Republic, the kingdom of Spain, Belgium, Netherlands, Luxembourg Grand Duchy and in the interest of the international law and justice, maybe a few other territories of other countries' governments that will be confirmed as terroristic entity.

Date of Release petition
.06.2015

Explanation of the European situation and politically responsible reason for the transformation of European territories, the transformation of territories is based on the European political effort for the operation of international terrorism and inhumanity against mankind, damage to international law and endangering world security, stability and economics and world politics. Abuse of political power for the promotion of world terrorism, robbing other governments in the country to finance strongly in the values of major values of planet Earth, stolen by the illegal blockade and censorship against most governments around the world and other others. At the same time, uropean governments cooperate for the operation of international terrorism and the creation of the biggest genocide in the history of humanity through organized criminal group to commit strategicého and political terrorism against the world. Expanding step that can cause new world war and the expansion of other genocides. European governments severely damaging to the stability of international politics and justice is life threatening for 3/4 of humanity on our planet earth.

European governments are the biggest terrorist country in the history of mankind.

Evopské governments are working together to violations of international rights and making many public actions against humanity, torture, tortured to death, rape of children forced into slavery, robbing of finance and blocking values, freedoms blocking, blocking of the human rights and the inhumane treatment of people blocking legislation , protective or medical assistance, the creation of value of special camps in the Holocaust as a European national reality show that is intended for public entertainment and European nations to support the genocide in the values of 230 million children. Many other other criminal acts in the values of inhumanity against people perverted or psychologically unhealthy to treat people, global terrorism against all the governments of countries around the world.

Reason, European governments the country in the interests of international law and in the interest of values, demands my people and governments of other countries, according to a Justice system European governments the country does not have enough value for the political enforce any right or claim of a political entity with legally sovereignty and therefore such a decision my people must be in the interests of justice, law and political duty To for maintaining world stability, it must support the decision of any other court or tribunal from around the world. Therefore, the constitution in order to The World Diamond may be in the interest of the legal relationship to the European territories considered valid and the other governments or other citizens, have the right to require such values. Any court or tribunal which will oppose against legal decision, the Board of Directors must be investigated by anti-corruption police.

At the same time, in the interests of international law and the United Nations Declaration, each nation's own full rights to determine their own governments for territorial supremacy. This means that the vote for the creation of The World Diamond could any person from around the world, if the vote according to the constitution of The World Diamond, thereby taking advantage of this petition has a right to every person on the planet Earth since World Diamond The constitution and its government recognizes that The World Diamond territory is international territory in which it is in the interests of the internal territories, every living person on the planet Earth, he is therefore a special citizen. European governments are run by global terrorism in terms that in the interest of international rules dictate that European governments have no right to any political group and their existence must be immediately removed, be International law and reall confirmation. It is therefore in the interest of legal and certified values of European financial debt to my person, as the interest values of such financial debts that are inherent ratio values sharply critical of the existence of European civilization, economy, society, politics and the stability of any European law or unity of society and maintain security European continent, in which the interest is because of my physique The World Diamond greater value and validity than the political values of the European governments, for reasons of legal theorists statistics in this case that European governments are not illegally block and censor my real person.

The information in the interest of real properties and values can be confirmed. Therefore, in the interest of the petition, every person who lives on planet Earth belongs or the value of the human race, in league race, that person owns all the voting rights in the World petition for the establishment of international sovereignty The World Diamond in the territories of the European governments in the interests of international rules, they are losing all political value and the right to conduct sovereignty in their countries.

Final confirmation of international law by the members of the General Assembly UN during the consultation for preparation of independence and national elections.

Description The World Diamond territories. Territory The World Diamond is a form of international sovereignty of most governments around the world, common government. Governments of countries together leading sovereignty and territory is therefore a special part of each man all over the world, every person is therefore a form of special citizen in the interests of the territory The World Diamond, so everyone can use the same civil rights, therefore rights for the common selection of national self-determination. Every citizen who lives in the country in which the conduct of international sovereignty in the interest of the entity The WD citizen and has all rights for the enforcement of civil

rights in the country The WD, The WD territory, subsequently, the constitution of The World Diamond. Changeover constitution does not block for any person, without penalty, from around the world. The World Diamond territory's international areal which belongs to every person around the world and everyone has the right to move freely in this space.

The World Diamond territory is therefore in the interest of decomposition illegally blocked and be the legal rights in territories free today and into outer space not civilizational an area of solar planets in several areas, galaxies and the space around them, space who can be colonized in time of International governmental cooperation.

The World Diamond territory in the interests of illegal blocking again lies in the territories of the European governments, because of their silent and confirmed on terrorism against humanity, terrorism, which exceeds the value of the political rights of these countries. At the same reasons the European financial debt to my person, financial debts that decide on the existence of European civilization, economy, politics and society function and security on the European continent, the number of participating interests in these countries and their territories. Other special specificity determines the constitution of The World Diamond.

The WD is because in legal interests and not contrary to international law or the rules, because The World Diamond can determine again in the interest of international law that the constitution The WD is based The right of everyone to the planet Earth, for having a special form of citizenship The World Diamond.

It reaffirms that the elections can take place every citizen around the world and the governments of countries must support national elections and decisions in the interests of international law on national rights to self determination of peoples, who steers the transformation in the interests of European territories.

If another nation self-government of a country by majority number of votes will decide on the transformation of European territories, it means that the country's government must respect his decision and subsequently promote the interests of their political activities and common rights of nations.

Support such a decision has the right of every government to countries around the world, be the justice and claims, cooperation for world peace, safety, freedom and world political and economical stability. Each government land can use your own right to a decision on the transformation of European territory, each country's government currently owns the right to sovereignty and due to the system of joint entitlement to lost profits for a period of a few years back, in 1998 until today.

In the event of a conflict with international law or declarations of safety and rights of countries, governments, nations, or in conflict with the personal agreements, then it is possible to disregard all the rules because of the situation which broadens the European governments the country, it is the value of the world's largest and terrorism which means that removal of such entity is a social and political duty To any entity capable around the world. In the interest of all mankind, the natural laws of society, the physical laws of the existence of a duty to our responsibilities to the real incident in the interests of human intelligence and psychology define modern law, the law of nations or a duty To other legal persons in the interests of civilization. That is, the reality and the duty to safeguard the

values of peace and the existence of all humanity, it is more important values than the values of international law, rights, system or custom policies in the interest of today's rules. Such values are real and enforceable in the interests of anti-monopoly system.

Author World petitions and determines its legal crowd that spread, promotion petitions and petitions share votes own everyone from around the world, each of which has an interest to support the extension petition any legal way.

Nobody is in any case discriminated or offended. Flaws own equal rights to petition the spread and use of the possibilities of transformation petitions in the interest of the legal system of the country sovereign governments in the territories in which probýhá petition selection of international voices from around the world.

The author also claims that the petition and the information will be utilized in the interest of the legal process and the protection of personal information. Personal information of other persons may be obtained and used for any purpose other than that arranged by petition. The petition is designed to present the world's voice in the United Nations General Assembly, before the governments of other countries around the world and also in the interest of affirming the rights of the others before the courts and tribunals of foreign countries, Senetes, Parlaments or Mean Constitutional councils.

Petition used for re-affirmation of the right of the Government of The World Dimond, for keeping sovereignty in the interests of European territories, the governments of countries that support terrorism against the whole world.
