Marenggre Community awareness

Students Participating in Rally- Anti Child Labour Day

Child Line Se Dosti (Childrens Day)

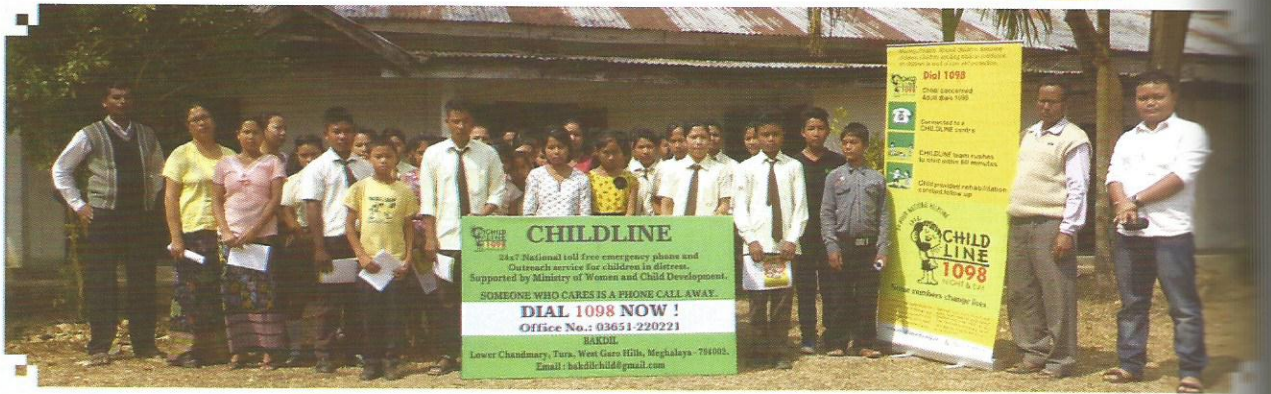

4) *Impact of the project*

People are mobilized and sensitized about the various child related issues and become aware about the Child line project and its functions. People on their own are able to approach Child-line to resolve various child related cases as and when required. In 2015-2016 we have intervened 72 child related cases.

Sl. No.	Type of Case	Total Number of case from April-February
1.	Rape	3
2.	Molestation	6
3.	Suicide	3
4.	Accident	4
5.	Missing/ Lost & Found	7

5) *Constraint*

Most of the time our Child Help Line number became non operational and therefore sometimes we are unable to intervene cases on time or unable to get information on time.

6) *Case Studies*

• **A MISSING CHILD REUNITED WITH HIS PARENTS AFTER ONE YEAR**

It was on August 26th 2014, seven years old boy originally from Kamrup, Assam stayed with his aunty in Nagaland and was longing to go home back to Assam. One day he came out from his aunt's house to nearby railway station Dimapur after loitering for a whole day and there by virtue of luck he boarded a train going to Sealdah and fell asleep. The next morning when he woke up, it was like imagination to him that finally he reached in some big city (Sealdah) railway station of West Bengal. Being very young he was unable to decide where he had to go about and

he was moving within the station. The duty officers from Kalighat police station traced the boy and handed him over to Kolkata Child line. Kolkata Childline tried to communicate with the boy and came to know that he was speaking Garo language and Kolkata Childline contacted Shillong Childline and Tura Childline. Tura Childline published a missing report in local news paper Salantini Janera and Shillong Times on 25th May 2015. The boy's uncle saw the paper and contacted Tura Childline and after conversation with the caller it was confirmed that he was the boy's uncle and also spoke with the boy's mother on the next day. Tura Childline with permission of Deputy Commissioner and Child Welfare Committee went to Kolkata on 21st July 2015 and brought back the boy to Tura on 26th July 2015 and after all formalities were done, Child Welfare Committee Member handed over the boy to his parents. Finally the boy (Tengrim Sangma) met his parents after one year.

• **MINOR GIRL MOLESTED**

A minor girl of 12 years old studying in a private school in class 3 (three) was molested two times by her neighbour who is a father of four sons. One day after school the girl was going to the farm to help her parents in work, on the way she met the man and he gave the girl ten rupees and held her hand tight but the girl did not take the money and somehow escaped from him. The girl told her parents after reaching home but her parents kept quiet thinking that it would affect their social life because the man is also from the same village. The same

man molested her twice tried to hold her hand and when the girl tried to shout he covered her mouth with his hand and threatened her with a knife. The girl somehow managed to free his hand from her mouth, she bite his hand and ran away. After hearing this all the maharis of girl and the accused had a mahari meeting, the maharis from both side agreed to compromise giving him the last chance where the accused had given a written agreement to Headman that if in future he repeated the same he would be punished.

Childline getting the information from social media went to intervene the case and filed a case against the culprit because compromise in this type of matter is not acceptable. The culprit was arrested after two days.

VIII. Agriculture and Horticulture Development Programme

A) INTEGRATED TRIBAL DEVELOPMENT PROGRAMME

1) Introduction

Integrated Tribal Development Programme is funded by NABARD and being implemented by Bakdil in Zikzak Block, South West Garo Hills to improve the livelihood of the families through plantation of horticulture crops and decreasing the wastage of agricultural land. During the 1st year a total number of 40 mango saplings (Amrapali mangoes) and a total number of 30 litchi saplings (Tezpur seedless litchi) were distributed to

500 families. The saplings were planted in a total area of 500 acre that is one acre per family. The beneficiaries were trained on the scientific plantation method and about the maintenance of the saplings. They were also trained on the inter-cropping methods and were given turmeric seeds for free of cost which cost nearly rupees seven lakhs. The beneficiaries were trained on the importance of fencing and were encouraged to use the local fencing methods. They were also given agricultural tools for the digging and maintenance of the land. The project duration is for five years and it was launched on 31st March 2015 and the total project outlay is 248.15 lakh (Rupees Two crore forty eight lakh and fifteen thousand) including loan component of 35 lakh. Now we are in the 2nd year of the project and the project could build up the confidence of the beneficiaries with in short time and they are motivated for economical development. The survival rates of the saplings are physically verified through field visit and continuous guidance is given for their improvement.

Distribution of tools to the farmers at Zikzak

2) Project goal

To improve the livelihood of 500 families under Zikzak Block through plantations of horticulture crops.

3) Impact of the project :

Unity among the farmers has been built up through this project. 500 families have planted 40 mango and 30 litchi saplings in a total area of 500 acre and became aware of wastage of land, scientific plantation methods, soil conservation and water conservation methods and have begun to apply those methods. Total number of 47 SHGs and 16 Farmers Clubs has been formed through this project, out of which 22 SHG's have received loan from Mahendraganj Meghalaya Rural Bank and 20 of them have started piggery and two SHGs have started small scale industries. Farmers Clubs in Digligre village bought a Mahindra pick-up truck, for which half of the amount Rs. 300000/- was provided by Horticulture Department as grant for the post harvest marketing scheme and the other half of the amount Rs. 3,00,000/- was given from Mahendraganj Meghalaya Rural Bank as loan.

Activities done during April 2015 to March 2016

Sl. No	Programme Details	Beneficiaries under these Project	Activities done	Achievements	Gaps	Total fund sanctioned	Fund utilized	Fund unspent
1	Plantation of mango & litchi sapling	500 beneficiaries of SHG	Survey of beneficiary villages under the project, conducted training on scientific method of planting the saplings.	500 families became beneficiaries of the project and all of them have followed the scientific method of planting	Difficulty in transportation of sapling due to bad road condition & network	2,725,000/-	2,725,000/-	0
2	Soil conservation	500 beneficiaries of SHG	Training on soil conservation methods & various kinds of soil conservation activities by beneficiaries	Soil conservation works have been done by every beneficiaries like mulching, bunds, etc	Unwillingness to make more effort by the beneficiaries	4,37,500/-	4,375,00/-	0
3	Water resource development	500 beneficiaries of SHG	Training on water conservation or resource development & digging of rain water harvesting ponds	Rain water harvesting ponds has been completed.	Beneficiaries are not motivated enough to carry on the work on their own	4,37,500/-	4,37,500/-	0
4	Capacity building & community organization	500 beneficiaries of SHG	Training on programme promotion for ITDP, farmers training, farmers exposure, nonfarm training, group formation & training to PIA staff	Beneficiaries are aware of different types of farming like scientific farming, soil & water conservation and rain water conservation, through training and exposure. Have been united among themselves & villages	slow progress in banks	48,500/-	48,500/-	0
5	Women development	500 beneficiaries of SHG	Training on gender & smokeless chullas	Women take part in decision making	Male members try to dominate women	9,000/-	9,000/-	0
6	Community health	500 beneficiaries of SHG	Health awareness programme & health education	Pregnant women go to health centres for delivery and villagers became aware about diseases & vaccines	Unavailability of doctors, medical persons and medicines	7,000/-	7,000/-	0

4) *Constraints*

- Lack of network and communication facilities.
- Non-cooperation from some of the line departments.
- Lack of interest among villagers towards taking up developmental initiative.
- Due to law and order situation in Garo Hills, the programmes progress slowed down.

Inter cropping of Turmeric in the mango wadi

5) Case Study

Through the Integrated Tribal Development Programme 16 villages under Zikzak Block, South West Garo Hills has formed 16 farmers club and 47 self help groups. Digligre farmers club has approached the Horticulture Department for the post harvest marketing scheme, because the club has cultivated the seasonal vegetables like cabbage, cauliflower, potato, tomato, broccoli, lettuce, spinach, etc. in three acre of land and earned Rupees one lakh (approx.) as net income. So the Horticulture Department has rewarded Rupees three lakhs for purchasing of Mahindra pickup truck and the other half of the amount Rupees three lakhs has been provided by Mahendraganj Meghalaya Rural Bank (MRB) as a loan. After purchasing of vehicle the farmers club availed the vehicle for hiring, for carrying goods and agricultural products. They are getting an income of Rs. 15,000/- to Rs.20,000/- per month from which they have been repaying their loan amount Rs.12,000/- per month. With the purchase of vehicle the villagers could transport the agricultural products without delay to the market which gradually increased their income.

B) PRODUCER ORGANIZATION

1) Introduction

Producer Organization is a Government of India Programme which is implemented by NABARD through institutions such as NGOs, Farmers Club, SHG Federations, and Cooperative Societies. The programme is initiated with the aim to improve the economic conditions of the farmers' especially tribal women and build up local capacity and create local institutions. Bakdil has formed and registered five Producer Organizations in Dalu, Purakhasia, Dadenggre, Baghmara and Zikzak. The different existing activities have been undertaken area wise with a Plan for Scaling Up in those activities namely in Dalu and Purakhasia piggery, poultry, dairy, ginger and turmeric production and in Dadenggre, Baghmara and Zikzak for cashew nut processing. Through Producer Organisations these producers will be able to scale up production and get assistance on various inputs required to increase production as well as assistance for marketing their products and also resolve post marketing harvest related issues. Therefore Bakdil as Producer Organization Promoting Institution (POPI) has started various activities to promote these Producer Organizations.

2) Project Goal

The overall goal of the project is the Improvement of the Economic Condition of Farmers' Especially Tribal Women.

3) Activities done during April 2015 to March 2016

Learning through games- Leadership Training at BTC

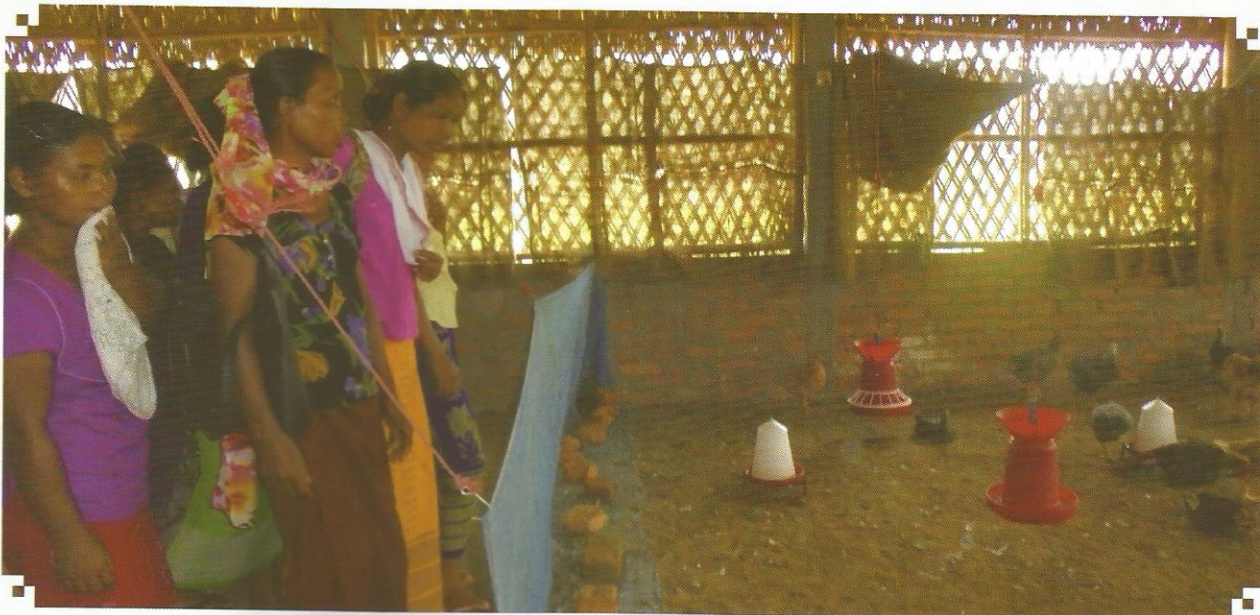

4) *Impact of the Project*

- 904 farmers were mobilized and they were enrolled in Producer organization.
- 245 farmers are motivated to carry out piggery farming activities, 76 farmers for poultry farming, 73 farmers for dairy farming, 46 farmers for ginger cultivation, 23 farmers for turmeric cultivation and 241 farmers for cashew nut processing.
- Developed rapport with line departments and supported to carry out various activities under this project.

Implementation of proposed project “Integrated Rural Livelihood Development Project” under Producer Organisation has started in Dalu Farmers Producer Organisation (FPO) from 1st March, 2016. In other FPOs preparation of Detailed Project Report is going on. In Dalu, Krimkro FPO, up to 31st March, 2016 seven women beneficiaries has received Poultry Loan in which 200 kroiler chicks along with drinker, feeder and feed for two months were given as loan.

5) *Constraints*

- Geographical remoteness, high transportation cost, no travelling allowance.
- The fund allotted for the exposure and training of farmers is not sufficient, it was possible only for few farmers to get trained. Non availability of model demonstrational units and training units in nearby areas.
- Lack of experts in preparation of Detailed Project Report (DPR) for related field.
- Non availability of concern officials from line departments.

Exposure visit to Thibapara Poultry Farm

Exposure visit to individual poultry farmers

C) **FARM** (Three years report in additional attachment)

IX. Promotion of Good Governance

A) **MGNREGS**

1) *Introduction*

Bakdil has been involved in social audit through Mahatma Gandhi National Rural Guarantee Scheme for the past eleven years. It is one of the best and effective schemes in enhancing the efficiency of good governance and development of the society.
