1339	<u>GOD ALMIGHTY'S GRAND UNIFIED THEOREM Nicknamed GAGUT Gijj0 infallibly proved that all theorems and all equations past present and future originate out of one invariant Gi which has orthogonal components Gij and a divergence of Gijj0 which radically unifies all of mathematics defined as the study of theorems as well as all knowledge of provable truth also called theorems into one singular equation Gij j 0 GAGUT hence contains all of Mathematics because Mathematics is the study of theorems GAGUT also contains all of Physics all of Chemistry and all other parts of knowledge of all provable truths and all of existence because provable truths and existence are theorems GAGUT together with its infallibility hence constitutes the only global source of all theorems and the only global source of determining if any hypothesis or conjecture is a theorem or not The legendary Cambridge University mathematician Sir Professor Michael Atiyah was reported to have been delighted to see the review of GAGUT by another legendary mathematician Professor Grigoris Tsagas over 200 MR's during a briefing on GAGUT presented by a young mathematics researcher to Sir Professor Michael Atiyah who requested to keep a copy of the GAGUT review at SUNY Stony Brook on November 3 2010 Sir Professor Atiyah who was at SUNY Stony Brook to deliver a lecture entitled "From Algebraic Geometry to Physics: A Personal Perspective" had his research works "Collected Works" by Michael Atiyah and "Field Medallists' Lectures" by Sir Michael Atiyah and Daniel</u>	1

lagolnitzer as well as the work "Knowledge and Mathematical Thinking" by the legendary Goettingen University Mathematician Professor David Hilbert together with the GAGUT work "Grand Unified Theorem: Discovery of the Theory of Everything and the Fundamental Building Block of Quantum Theory" by Professor G Oyibo selected by Goettingen University to Honor the Greatest Mathematician Carl Frederick Gauss in 2005 GOD Almighty's Grand Unified Theorem GAGUT Gijj0 as stated earlier has infallibly proven that all theorems and all equations past present and future originate out of and can be represented by one invariant G_i which has orthogonal components G_{ij} and a divergence of G_{ijj0} GAGUT has therefore unified all of mathematics into one equation G_{ijj0} and so has already provided solutions to all mathematics problems the reason GAGUT was used to honor Gauss including all of those discussed by Sir Professor Atiyah during his lecture at SUNY Stony Brook on November 3 2010 GAGUT specifically solved the Quantum Gravity and all the Unified Field Theory including absolute infinity problems discussed by Sir Professor Atiyah exactly since G_i can represent Unified Force Field or Quantum Gravity Function or Invariant having orthogonal components G_{ij} and a divergence G_{ijj0} The Infallibility of that representation is established by $\eta_{sub n}$ the fundamental solutions to GAGUT G_{ijj0} where the quantum part is represented by $\eta_{sub 0}$ and the gravity part is represented by $\eta_{sub 1}$ The Clay Mathematics Millennium Problems which were also discussed by Sir Professor Atiyah particularly the Navier-Stokes Equation the Yang-Mills Equation and the Riemann Hypothesis have all been solved exactly by GAGUT G_{ijj0} This is why GAGUT was declared a "Tenured Radical" by a research categorizing institution Whereas the Navier Stokes Equation solutions through GAGUT were directly reviewed by the American and European Mathematical Societies AMS and EMS eg by Professor Dubovski of the Russian Academy of Sciences and Professor Pozzi of Italy while the Yang Mills Equation solutions through GAGUT together with Riemann Hypothesis resolution through GAGUT were reviewed within the "Generalized Proof of Einstein's Theory using a New Group Theory" Paper by Professor G Oyibo by the American and European Mathematical Societies eg by Professor Jaume Carot and Professor G Tsagas GAGUT again represented an expanded new version of Riemann Hypothesis resolution through GAGUT within a paper entitled "GOD Almighty's Grand Unified Theorem GAGUT G_{ijj0} has revealed proven solution to Riemann Hypothesis a Clay Mathematics Millennium Problem by Professor

G Oyibo” which a group of distinguished mathematicians was invited to review in addition to its previous general review by the AMS and EMS Gauss 2005 celebration selected works as expected for the greatest expert in any field of knowledge constitute some of the greatest recognitions in Mathematics That is clearly seen by the partial list in the link below which includes the works of Professor David Hilbert recommended to be studied during week 24 of the 52 weeks of 2005 who was a successor to Professor Carl Frederick Gauss as the head of the Mathematics Department at Goettingen University and who was also recognized as the last of the great mathematicians The List also contains the works of Sir Professor Michael Atiyah who was a successor to Sir Professor Isaac Newton as Master of Trinity College of Cambridge University as well as an Abel Prize Laureate King Faisal Prize Laureate and a Field Medalist with each of the three prizes being equivalent to a Nobel Prize and Professor Daniel Jagolnitzer recommended to be studied during week 19 of the 52 weeks of 2005 as well as another work by Sir Professor Michael Atiyah recommended to be studied during week 18 of the 52 weeks of 2005 The List further contains the work of Alain Connes who was also a Field Medalist again equivalent to a Nobel Prize and Matilde Marcolli recommended to be studied during week 17 of the 52 weeks of 2005 The work recommended to be studied during week 14 of the 52 weeks of 2005 by Professor Ovidiu Calin and Professor Chen Chang was on Geometric Mechanics of Riemann Manifolds named after Professor Bernhard Riemann another Great Mathematician from Goettingen University Professor Carl Frederick Gauss’ Doctoral Student and who proposed the Riemann Hypothesis GAGUT has its work recommended to be studied during week 26 of the 52 weeks of 2005 placing it in the center of the Gauss 2005 celebration which is consistent with the reality of GAGUT containing all of the other works selected on that list as well as all of the other works of Mathematics Thus clearly one can see that GOD had already certified GAGUT as having earned Abel Prize King Faisal Prize Nobel Prize as well as Clay Mathematics Institute Millennium Prize particularly for the Riemann Hypothesis at least since the distinguished reviewers including Sir Professor Michael Atiyah did not disagree with the infallibility of GAGUT the additional basis for accepting and publishing the paper entitled “GOD Almighty’s Grand Unified Theorem GAGUT Gijj0 has revealed proven solution to Riemann Hypothesis a Clay Mathematics Millennium Problem by Professor G Oyibo” in the GAGUT Unified and Radical Mathematics Research Journal

Number 1 Volume 1 November 2010 which can be obtained in the following as well as GAGUT containing all of the Mathematics works that have earned or shall earn in the future all Abel Prizes all King Faisal Prizes all Nobel Prizes as well as all other prizes including Clay Mathematics Institute Millennium Prizes

1467	I am a teacherThe first time I heard You're going to be a teacher in the future! was when I was eight My parents watched me	1

playing school with my brother for hours I realised it much later
However since then I couldn't imagine myself doing any other job I
am keenly interested in bilingual education CLIL Content and
Language Integrated Learning and teacher collaboration My
current research interest includes CLIL teacher collaboration in
the primary education in Poland I am a traveler Travel is the only
thing we buy that makes us richer It absolutely does and enriches
in every aspect I am a backpacker who loves adventure
experiments with a local cousine and appreciates unspoiled
nature When I am not on the move I read travel literature My true
passion is combining teaching and travelling This summer I will
teach English as a volunteer in a town in Kyrgyzstan!! am a
language lover I am a native speaker of Polish I teach English to
young learners I speak Italian when I go back to Italy to visit my
friends I communicate in Spanish when I travel I understand
German when other four languages don't work My goal for 2016 is
to learn some basic Russian
