

H3X

H3X is a social experiment and tokenomic case study to measure the feasibility of deflationary staking smart contracts.

The rules are simple.

There were originally 300,000,000 H3X in existence.

Each time H3X is transferred, 10% of the transaction is destroyed.

Each time H3X is unstaked, 10% of the transaction is redistributed to current H3X stakers.

The token burn is capped at 3,000,000 H3X, 1% of the original total supply.

There will never be newly minted H3X.

H3X Smart Contract Platform

H3X is not intended for day-to-day transaction, only daily staking. It acts as a decentralized hedge against traditional inflationary instruments. Through a system of immutable smart contracts and continuous staking and burning mechanics, H3X rewards long time holders for their locked up assets through the weak hands of others.

The screenshot displays the H3X Smart Contract Platform interface. At the top, there is a navigation bar with 'H3X Wallet', 'Uniswap', and 'More'. The main content area is divided into several sections:

- Your H3X Tokens:** A green box showing '300M' (labeled 1).
- Your H3X Wallet:** A section with a verified H3X Contract address: `0xB5eBa557C06c348395fD49e35d860F58a4F7c95a`.
- Staking Summary:** Three cards showing:
 - Circulating H3X:** 300M (labeled 2).
 - Total Staked H3X:** 0 (labeled 3).
 - Your Staked H3X:** 0 (labeled 4).
- Stake H3X:** A form with 'Amount of H3X to Stake' and a 'Stake H3X' button (labeled 5).
- UnStake H3X:** A form with 'Amount of H3X to UnStake' and an 'UnStake H3X' button (labeled 6).
- Staked H3X Dividends:** A section showing '0' and a 'Withdraw H3X to Wallet' button (labeled 7).
- Transfer H3X:** A form with 'Receiving ETH Address' and 'Amount of H3X to Send', and a 'Transfer H3X' button (labeled 8).

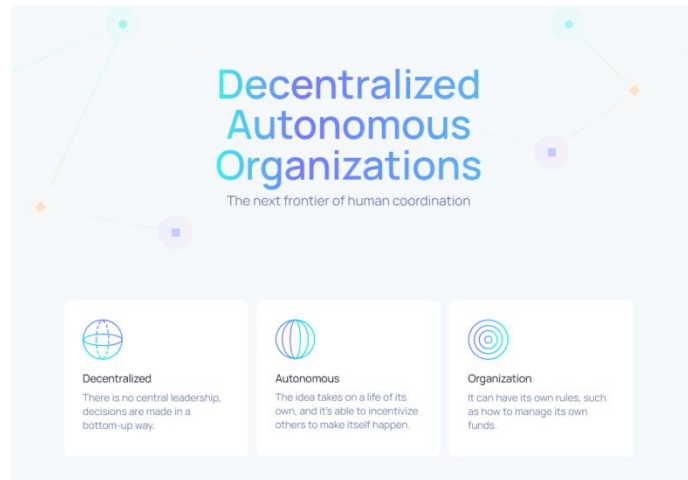

1. The H3X tokens currently found in your Web 3 enabled Ethereum wallet
2. The H3X circulating supply is updated in real-time
3. Total staked H3X by current H3X holders on the platform
4. Your staked H3X currently earning passive, redistributed H3X
5. Stake H3X currently found in your Web 3 wallet (No transaction burn to stake)
6. UnStake H3X to your Web 3 Wallet (5% to H3X stakers, 5% burned = 10% Fee)
7. Withdraw H3X Dividends earned to your Web 3 wallet (No transaction burn to withdraw)
8. Transfer H3X to any compatible Ethereum wallet address (10% transaction burn)

H3X DAO Platform

Up to 90% of originator H3X will be sent to the various DAOs upon Aragon vote this week.

(Today is June 6th)

(Source Colony.io)

1. Tasks can be completed by community and H3X or ETH will be distributed upon completion.
2. Add new possible feature requests or ideas in the suggestions.
3. See other members within the community who have joined the H3X DAO.
4. Stay up to date on the transactions and rewards earned within the DAO.
5. Available Funding can be increased with a simple vote on the Aragon platform.

H3X RoadMap

1. June – Balancer Pool DAO initiation, complete DAO Authentication and hand over access to token ownership, create various complete listings on Etherscan, initiate basic social media campaigns

2. July – Find initial larger exchange listings

3. August – Coming.

4. September – Soon.

Q 4 – 2020 – The Sky is the limit.

H3X More Info

So.... That's it?

Yes and No.

This is a living document. This initial Paper will be collaborated on and edited by H3X holders. And will be constantly updated to reflect the developments of the platform.

Please understand **Kevin Heart** cannot make all the decisions for H3X, it has grown much larger and quicker than anyone could have anticipated. We have one chance to make H3X the best it can be.

The community has shown a great positivity and support.

Over the next few days I will be much more open and active on the social channels to engage with the community and plan the next steps.

I hope that we can all agree that we are living in strange times; we can't forget the world around us. Stay humble and positive.

Let us make H3X the best project in 2020.
