FAQ

How long does the server last?

Servers are billed monthly, you will receive a new server for a month unless you continue with our service.

When will I get my VPS/RDP?

We aim for 1-2 days.

Is the VPS/RDP fast?

Yes, but that's on perspective, don't buy a 1 Core machine and expect the speed of 8-16 core.

Are these cracked/carded?

NO! They are ours (AmazonAWS).

TOS

No refunds. Replacement only.

Prices are high because these are VERY high quality servers.

If you change the password and are not able to login due to a wrong password, warranty is voided and you will not get a replacement. Remember your password.
