The Best Interface Is No Interface: The simple path to brilliant technology (Voices That Matter)

Book Synopsis

Our love affair with the digital interface is out of control. We've embraced it in the boardroom, the bedroom, and the bathroom. Screens have taken over our lives. Most people spend over eight hours a day staring at a screen, and some technological innovators are hoping to grab even more of your eyeball time. There's an app for that! Dead? Well, there's an app for that, too! And most apps are intentionally addictive distractions that end up taking our attention away from things like family, friends, sleep, and oncoming
