## **Expressing the right side ID's Corporatocracy in the case of International refusal to recognize the rights of the World Diamond International Alliance in relation to the claim of sovereignty in the European territories, the autonomous act to exercise decisive for the acceptance of the claim sovereign rights on behalf of Corporatocracy**

---

*27.03.2017 Europe, Vienna*

The federal government Imperium of Diamond's representing the rights which are based on the process of the legal provisions of International law, the UN Charter and the UNGA conventions that guarantee obligation of countries around the world together to ensure the act of cooperation in order to stop the right of sovereignty of all states in terrorist alliance, and thus replace their right to sovereignty in use rights acquired party Imperium of Diamond's like a legitimate claim for selection debt amounts which outstrip value economic ratifications territories, financial and material production capacity civilizations terrorist states, and therefore for this reason there is a duty application of the UN Charter, as the principles of the rights of peaceful development of the states and ensuring prevention of conflicts and disputes, the use of rights representing UNGA Convention on the rights States' economic, social and cultural rights, meaning in this claim and the size of the debt catastrophic consequences, to ensure the prevention of disasters and extinction of civilization, that it will be exercised act obligations under the UN Charter presenting duties UN Security Council decision on the designation of national sovereignty in the act of strategy for UNSC resolution defining such conditions.

In order to further the principles of the UN Charter, act as an international base of world politics, UNSC own duty, in any case, to ensure to ensure justice and also achieving a just claimed the restoration of values and rights. UNSC must not in any way impair the value of any legal entity, such as the Imperium of Diamond's rights and enforcement of European debt. Therefore, is can not select a different option than to confirm the sovereignty of the Imperium of Diamonds in the territories of the European countries, the act of the UN resolution the Security Council.

UNSC half qualify for the act of veto against this relationship. European governments surpasses terrorist crimes at the statistics of the Second World War. Therefore, there is no possibility that the European terrorist states could use their own rights policy and territorial sovereignty.

If the UNSC veto the law, then the UNSC violates the principles and reasons of the United Nations, it is a direct violation of the basic principles of the Charter of the United Nations Charter and other items.

Violation of the UN Charter and the basic principles of the United Nations, therefore, represents a violation of equal justice at the international level and the establishment of a hierarchy, after a period hienistic European governments and rogue states such levels in monopolies on international policy level, in support of the United Nations.

By this act expires stability of the legal format of the United Nations and the principles of claim UNGA convention if such a crime act will be respected UNSC  $\frac{3}{4}$  democracy UNGA States. UNGA States has never owned competence to harm the values of another entity so UNGA States may not vote for the purpose of opposition against the sovereignty of the name of Diamond's Imperium.

UNGA own right, merely for the act of democratic elections for voting as an act of confirmation or denial of the validity of the United Nations and such rights. If confirmed, that the UN is a valid entity, then it means that too right Imperium of Diamonds are valid for eligible full sovereignty in the territories of all states in the European Partnership criminal terrorist organization. If UNGA decides that the United Nations is not a valid entity that represents the rights the UN is losing value and of the applicable claim, complete loss of validity of the entire international level. Therefore, Imperium of Diamond's losing rights act of sovereignty in the territories of the European terrorist states, but in natural interest is a right exercisable use rights Imperium of Diamonds entitlement act of sovereignty in the territories of European states according to the principles of nature policy on the aftermath of crime and thereby enable secure usage rights enforcement justice and entitled to act to open the hierarchy purpose of call rights, the existence of a terrorist entity because of its natural obligation to act to stop the crimes. In case of loss of legitimacy of the United Nations, it is not necessary to respect the rights of the state and civilization territories criminal groups. Criminal entity does not have any rights, and the government of Diamonds Imperium own any claims for the use of practices that aim to ensure the sovereignty of the territories of terrorist states, and in confirmation be ID's legal claim from time's of validity about UN law principles which confirmed right's of claim to recompensation in level of the valuable power than all European territories and values of European civilization's.

Therefore, this means that the Imperium of Diamonds own right to establish its own right to sovereignty over the territories, while also authorized to decide on the political determination of the government functions that body.

The federal government therefore Imperium of Diamonds Strategy at King directed to recognize act World Diamond International Alliance as a legally valid sovereignty over territories that are survivors of all states in the crime of terrorist states of the European Partnership. World Diamond International Alliance must be confirmed subject to the foreign countries that constitute this joint act of sovereignty in these territories in accordance with the constitution of the World

Diamond International Alliance. If the World Diamond International Alliance gets the number of members with more than three quarters of all countries in the world, then this is applied to act full claim to achieve recognition of the more important legitimacy than legal claim UNSC resolutions, if such an act and interpretation of the resolution will be in conflict with the vast majority States in the World Diamond International Alliance, and the WD used the Alliance act in the nature of the claim of the UN Charter on the rights of use claim UNGA vote majority to overthrow the legal legitimacy of the UNSC entity, and thus secure a claim which implies recognition of its own system named rezolution of UNGA.

However, if the UNGA States shall refuse their membership in the International Alliance WD, then the law of Imperium Diamonds on establishing sovereignty claim is therefore still valid and lawful permanent entitlement. Government Imperium of Diamonds and decide on the measure usage rights inherent sovereignty in the territories of terrorist states, and thus to create the sovereign rights of government to the size of Corporatocracy government, meaning the opening of entitlement to use plan law to establish a joint authority to rule over territories, the cooperation between all business entities European territories as this confirm the full force of our collective authority at the territory of terrorist states as the subject of a new government Corporatocracy.

This creates a provision in which all entities trading companies own claim to launch a joint organized cooperation for the creation of joint stability of the new government Corporatocracy. Corporatocracy government entity established for the purpose of joint sovereignty as a collaboration of all business corporations in the world, and this with an open claim to build a common centralized Corporate Markets for the joint development organizations global networks Industry and Resource To this for us, will serve as a source of common strength for to create a common system and by ensuring the stabilization of the sovereignty of the territory Corporatocracy government as an act of compensation for illegitimate sovereignty of European terrorist states.

Business corporations, firms and companies with headquarters or active business branch in the territory of all states in the terrorist partnership between the criminal alliances therefore have a duty to ensure cooperation for the establishment of a common political infrastructure and use common commercial network for the growth of our business corporations, and thus a right to suspend responsibility against terrorist cooperation with governments of countries as an act of recognition of the jurisdiction of a terrorist state, as well as an aid to stabilize terroristic occupation forces providing sovereignty terrorist entity.

Business corporations, companies and firms create their own duty to act together with coordination by the state organizations, institutions and NGOs from quite common legal order of coordination in order to stop terrorist and replacement parties, and this will be made Corporatocracy sovereignty.

Business corporations, companies and firms own the rights to launch the convert police and military forces of terrorist states, in order to establish their own armies and security forces that this will be applied for the purpose of combating terrorism.

Business corporations, companies and firms own the rights to start issuing citizenship to all applicants and current citizens of terrorist states, and thus stop their criminal responsibility for the support and recognition of a terrorist state. Corporatocracy issuing citizenship is possible only in cooperation with the departments IAIC.

Business corporations, companies and firms own obligation to contact and inform all law associations in the country and further promote communication with the Legal Profession offices and centers for the possibility of full mobilization and function organized International Advocacy Intelligence Council.

## **The current legal status of government Imperium of Diamonds in the conflict against terrorist states of the European governments**

European governments have created well ahead of the crimes of World War II. Therefore, such a body can never be legitimized with a valid activity sovereignty. This creates a government bankruptcy, extinction and termination of validity of sovereignty in the territories.

European governments terroristically criminally terrorist purposes and cooperate with European countries, this means that European nations also have a responsibility for their act of crime against terrorism cooperation, and in recognition of their own citizenship terrorist entity as its own sovereignty. The government and the nation loses its sovereignty rights and recognition of the State in international legal scales. Partly because Territory remains valid as terra nullius.

Imperium of Diamonds is the government entity that owns entitled to recover debts from legitimate organizations that represent territories of terrorist states. Territories are not represented by any legal entity. Therefore, Imperium of Diamonds own full rights to the act of execution of criminal territories and the use of such property for the purpose of establishing his own sovereignty over the territories.

At the same time, the territories of European countries are not represented by any legal subject with valid legitimed existence. The federal government Imperium of Diamonds own right execution of values within which the debt

capacity outstrip all dimensions of economic nature territories of all states in terrorist alliance. The value of legal property rights is a much larger dimension than the GDP of a terrorist state and capacity of such a civilization.

The federal government Imperium of Diamonds is in the European territories of terrorist states, more legitimate entity and a much more responsible and legal identity in a political position. Significant political value than the legal name of the constitution of state and government, the president, government, parliament and entitled jurisdiction mention, state law and jurisdiction.

Such a right, under international law and internationally accepted political responsibility to represent the government Imperium of Diamonds, King and the government, the state of Imperium Diamonds and everyone who is in the jurisdiction of the Imperium of Diamonds.
