What is Thrive Architect

- **Alternative to Clickfunnels at a more affordable price**

‘Thrive Architect is the visual page builder that is built from the ground up for business and conversion focused websites’

It is a plugin installed on your wordpress site, with which you can create any **landing/presell page** you’d like, using the different templates.

What Makes Thrive Architect Different?

Build at the Speed of Thought

WITH INSTANT DRAG & DROP EDITING

When you load up the Thrive Architect editor, everything follows one simple idea. We call it "*click-to-edit*". If you want to change something, you click on it and you'll see your edits instantly. If you want to move something, you click, drag and drop. We've removed every obstacle between you and building the content you want.

Landing Page Templates

NO DESIGN OR CODING SKILLS NEEDED

325 beautifully designed and *100% conversion focused landing page templates* that come bundled with Thrive Architect. It's simply the fastest way to create professional looking sales pages, opt-in pages, webinar pages and more, that are instantly publishable yet still completely customizable.
