Where are the human rights? - pandemics, vaccines, microchips, quantum ID technology

The very first thing expected to happen is another pandemic, either a new wave of coronavirus, either a new virus. The next wave is estimated to start between September and end of this year. According to Bill Gates [<https://www.businessinsider.com/bill-gates-warns-the-next-pandemic-disease-is-coming-2018-4?op=1>], „a coming disease could kill 30 million people within 6 months”. I would rather believe that they are preparing a totally new virus as this coronahoax was a failure and everybody can see the lies, propaganda and manipulation surrounding this virus. The question is, what would be the new disease? According to the World Health Organization [<https://www.thesun.co.uk/news/11992909/china-swine-flu-who-world-guard-pig-virus-human-pandemic/>], a new swine flu virus discovered in a Chinese slaughterhouse has „human pandemic potential”. I believe this (staged) pandemic is likely to happen out of three reasons:

- In the New World Order people won't be allowed to cook and/or eat what they want anymore
- In the New World Order Europe will become the `Islamic States of Europe` and as everybody know, jews and the islamic conquerors that are supposed to take over Europe do not eat pork so why not finding a reason to slaughter the entire pork population on the entire planet? And this apply to all White countries over the globe.
- This would have a massive contribution to the highly desired food shortage and famine that is prepared for humanity. For a global reset of the system, the oligarchs will have to push extreme measures like this in order to create anarchy and chaos.

There are predictions saying that 3 major pandemics will be required to brainwash humanity enough to accept mandatory vaccination and microchips. Blacklisted News website [<https://www.blacklistednews.com/article/76172/projecting-wave-2-and-wave-3-of-the-coronavirus.html>] is mentioning about 3 potential waves of coronavirus, for example. We know the zionist globalist oligarchs need 3 world wars to implement the global state so 3 pandemics are also likely to occur as part of the agenda. In my opinion the coronahoax was also a test to verify the mass reaction to a `pandemic`, with all the propaganda and lies included. What is expected is that the next pandemic(s) will bring in more aggressive measures and more aggressive viruses. There is the prediction that there will be a pandemic every six months, so the next pandemic is expected to start in September 2020. There will be new job losses, new quarantines, new lockdown, exactly like before but probably more aggressive propaganda. Then relaxation measures will be implemented again, and then the third and most aggressive wave/pandemic would start in March 2021. The new viruses are expected to become more violent and to kill more people in shorter periods of time

and the mainstream propaganda will be spread in a way that most people will believe in the threat of the new virus and they will demand themselves more restrictive laws in order to stop the spread of the virus(es). If we combine the possibility of 3 pandemics, at 6 months difference of each other, with Business Insider's statement [<https://www.businessinsider.nl/us-coronavirus-warning-pandemic-will-last-18-months-multiple-waves-2020-3?international=true&r=US>] of „18 months of multiple waves”, we have a clear picture of the pandemic situation that is likely to occur in the following year.

Now we all know about the interview where Bill Gates openly stated that in order to be allowed to travel, one will be required to prove by a certificate that they have been vaccinated against coronavirus. Scientists are developing a quantum Tattoo ID [<https://21stcenturywire.com/2019/12/23/bill-gates-develops-new-id-tattoo-to-check-for-vaccinations/>] on one's skin that will be scanned to verify if one has been vaccinated:

„As tattoos continue to become more mainstreamed among certain demographics within society, it should come as little surprise that Big Pharma is keen to roll out this latest “wearable tech” solution.

To make sure that you've had all of your required doses of government mandated vaccines, scientists at MIT have created a new ink which can be embedded in the skin which can be read using a special infra-red smart phone camera app. (...)

“The invisible “tattoo” accompanying the vaccine is a pattern made up of minuscule quantum dots — tiny semiconducting crystals that reflect light — that glows under infrared light. The pattern — and vaccine — gets delivered into the skin using hi-tech dissolvable microneedles made of a mixture of polymers and sugar.”

Most likely the technology able to scan these ID tattoos is to be placed everywhere you go: in train stations, buses, supermarkets, restaurants, different public and private services etc. If one does not confirm through scanning of the tattoo that they have been vaccinated, they won't be allowed to use any of these facilities. These quantum dots will be capable of storing the vaccination history. This is exactly what Bill Gates [<https://vigilantcitizen.com/latestnews/bill-gates-calls-for-a-digital-certificate-to-identify-who-is-vaccinated/>] has been saying, this is how people will be scanned in public or private places in order to be allowed to carry on with their activities. There are already in some places like the entry of some supermarkets thermal scanners held by security that is scanning everybody entering the shop in order to verify whether their body temperature is higher than normal or not. In my opinion these `measures` are same meant to test the reaction of the masses to scanning as it will become a normality in the NWO. Government or whoever agency might say that `is not mandatory` to vaccinate or get the ID tattoo or microchip but in the same time one won't be allowed to exist in the society anymore without them. Who is behind the agenda of digital identity? None other than the ID2020 Alliance

[<https://www.americanpartisan.org/2020/05/bill-gates-is-setting-the-stage-for-the-mark-of-the-beast/>] founded in 2016 for this purpose by:

„**The Rockefeller Foundation** provided the seed money for the ambitious ID project and continues to be an ongoing supporter of ID2020’s work.(3) The project’s other founding members include **Gavi The Vaccine Alliance, Microsoft, Accenture and IDEO.org**.(4) **The Bill and Melinda Gates Foundation** gave \$750 million to set up the aforementioned Gavi in 1999 and “the (Gates) Foundation is a key Gavi partner in vaccine market shaping.”(5) Thus between Microsoft and The Gates Foundation ID2020 has been operating under the guiding hand of Bill Gates from the onset. ”

GAVI Alliance which is funded by Bill Gates is currently advocating for digital ID technology to track children’s identity and medical record in the context of coronavirus. [<https://www.gavi.org/call-for-new-id-technology-to-help-immunise-every-child>]

This here is one of the most obvious proofs that jewish oligarchs like Rockefeller and their close jewish friend Bill Gates [<https://brutalproof.net/2019/09/bill-gates-fake-christian-real-jew/>] who are ruling the planet are the ones behind coronahoax and New World Order. Furthermore, the quantum ID tattoo is just a precursory technology that will be followed by the forehead of right-hand microchip as written in the bible as you will see later. According to Rense, [<https://rense.com/general17/imp.htm>], microchips have been tested since decades both on humans and animals, in order for the scientists to understand how can a minuscule electronic device be used in one’s body to control his entire personality, his behavior, his thoughts and his reactions:

"Man does NOT HAVE THE RIGHT to develop his own mind. This kind of liberal orientation has great appeal. We must ELECTRICALLY CONTROL THE BRAIN. Some day armies and generals will be controlled by electric stimulation of the brain. (...)

In 1948 Norbert Wiener published a book, CYBERNETICS, defined as a neurological communication and control theory already in use in small circles at that time. Yoneji Masuda, "Father of Information Society," stated his concern in 1980 that our liberty is threatened Orwellian-style by cybernetic technology totally unknown to most people. This technology links the brains of people via implanted microchips to satellites controlled by ground-based super-computers.

The first brain implants were surgically inserted in 1874 in the state of Ohio, U.S.A., and also in Stockholm, Sweden. Brain electrodes were inserted into the skulls of babies in 1946 without the knowledge of their parents. In the 50's and 60's, electrical implants were inserted into the brains of animals and humans, especially in the U.S., during research into behavior modification, and brain and body functioning. Mind control (MC) methods were used in attempt to change human behavior and attitudes.

Influencing brain functions became an important goal of military and intelligence services.

(...)

Implanted human beings can be followed anywhere. Their brain functions can then be remotely monitored by supercomputers and even altered through the changing of frequencies. Guinea-pigs in secret experiments have included prisoners, soldiers, mental patients, handicapped children, deaf and blind people, homosexuals, single women, the elderly, school children and any group of people considered "marginal" by the elite experimenters. The published experiences of prisoners in Utah State Prison, for example, are shocking to the conscience.

(...)

Today's microchips operate by means of low-frequency radio waves that target them. With the help of satellites, the implanted person can be tracked anywhere on the globe. Such a technique was among a number tested in the Iraq war, according to Dr. Carl Sanders, who invented the intelligence-manned interface (IMI) biotic, which is injected into people. (Earlier during the Vietnam War, soldiers were injected with the Rambo chip, designed to increase adrenaline flow into the bloodstream.) The U.S. National Security Agency's (NSA) 20 billion bits/second supercomputers could now "see and hear" what soldiers experience in the battlefield with a remote monitoring system (RMS). "

Until then, Michigan has passed a law that makes employees microchipping voluntary [<https://www.jpost.com/international/michigan-house-passes-bill-to-make-employee-microchips-voluntary-632940>]: „Michigan State Rep. Bronna Kahle sponsored the successful bill, and while the microchips are not widely used throughout the state she believes they will become standard in the coming years.”

This speaks for itself. If you pay attention to how governments are handling measures that they want to impose on their citizens, you will notice that everything is passed as `voluntary` before it becomes mandatory. It was always voluntary for someone to open a bank account and have a card, nowadays you can't work anywhere without having a bank account. Since corona-hoax began, it was always voluntary to wear masks, now there are many countries in the world where if you don't wear one, you can't buy food, you can't work, and in extreme cases you can't even leave your house. It will be exactly the same with microchips, now they are voluntary and in the close future they will become mandatory. Other thing, we keep hearing that „nothing will be the same” after corona-hoax ends. This is exactly the same mantra spread by mass-media when 9/11 occurred. Most people know the mechanism of problem-reaction-solution. This happens now and this happened then as 9/11 has been engineered by the jewish americano-israeli deep-state [<https://www.dropbox.com/s/t7wctpzprfh652r/911-Exposed.pdf?dl=1>]. They knew what was about to happen and the goal of the event before it happened because they were the ones who planned it. After the event humanity has been brainwashed that

„terrorism” is our global enemy and that nothing will be the same after and so happened. The governmental surveillance increased exponentially with cameras being placed all over the streets, people’s mobile conversations being recorded and listened permanently by NSA and other related organizations, laws being passed to set the legal foundation for increased surveillance and ID and biometric technology being constantly developed and perfected, all for the purpose of „protection” and „security” [https://www.youtube.com/watch?v=YY-M2_mm7gM, link for a documentary about how mass surveillance works].

We hear exactly the same propaganda now, coronavirus is our new major „enemy” and after it nothing will be the same anymore, with China being blamed for the pandemic as Al-Qaeda has been blamed for 9/11, but in reality the real authors of the pandemic are those rich oligarchs who own Big Pharma, mass-media, the banks, the economy, who put their puppets at the leadership of the global organizations like UN, WHO, EU, all these institutions are ruled by private extremely rich oligarchs whom goal is to establish a global dictatorial government that will have 100% control over every single aspect of our lives: where we go, what we eat, what we do on the phones/computers, what we buy, what we speak with others, where we are in real time, everything is being recorded and tracked nowadays by cameras, software recording and collecting your „digital activity” on the internet or with your card and bank account, technologies intercepting and listening to our phone calls, GPS incorporated in your smartphone revealing your exact location in real time etc. Regarding surveillance, 5G has been designed for the purpose of making all these processes way faster and more efficient. Meanwhile, the human rights are strangled more and more, digital and biometric IDs are slowly taking shape and are aimed to track who is being vaccinated against the new flu virus, people are imposed to potentially damage their own health by wearing masks that reduces the oxygen amount entering the body without their consent, all for the same reason of „protection” and „security”. We can see that there is a obvious correlation between those two events, which shows that coronavirus has been purposefully spread all over the world and mass-media activated the brainwashing machine to create a 9/11-like event that will finish what has been started 19 years ago.

8 predictions from the World Economic Forum

8 Predictions to be implemented by 2030 according to the World Economic Forum [<https://www.weforum.org/agenda/2016/11/8-predictions-for-the-world-in-2030/>]:

1. All products will have become services. *“I don't own anything. I don't own a car. I don't own a house. I don't own any appliances or any clothes,” writes Danish MP Ida Auken. Shopping is a distant memory in the city of 2030, whose inhabitants have cracked clean energy and borrow what they need on demand. It sounds utopian, until she mentions that her every move is tracked and outside the city live swathes of discontents, the ultimate depiction of a society split in two.*

2. There is a global price on carbon. *China took the lead in 2017 with a market for trading the right to emit a tonne of CO₂, setting the world on a path towards a single carbon price and a powerful incentive to ditch fossil fuels, predicts Jane Burston, Head of Climate and Environment at the UK's National Physical Laboratory. Europe, meanwhile, found itself at the centre of the trade in cheap, efficient solar panels, as prices for renewables fell sharply.*

3. US dominance is over. We have a handful of global powers. *Nation states will have staged a comeback, writes Robert Muggah, Research Director at the Igarapé Institute. Instead of a single force, a handful of countries – the U.S., Russia, China, Germany, India and Japan chief among them – show semi-imperial tendencies. However, at the same time, the role of the state is threatened by trends including the rise of cities and the spread of online identities,*

4. Farewell hospital, hello home-spital. *Technology will have further disrupted disease, writes Melanie Walker, a medical doctor and World Bank advisor. The hospital as we know it will be on its way out, with fewer accidents thanks to self-driving cars and great strides in preventive and personalised medicine. Scalpels and organ donors are out, tiny robotic tubes and bio-printed organs are in.*

5. We are eating much less meat. *Rather like our grandparents, we will treat meat as a treat rather than a staple, writes Tim Benton, Professor of Population Ecology at the University of Leeds, UK. It won't be big agriculture or little artisan producers that win, but rather a combination of the two, with convenience food redesigned to be healthier and less harmful to the environment.*

6. Today's Syrian refugees, 2030's CEOs. *Highly educated Syrian refugees will have come of age by 2030, making the case for the economic integration of those who have been forced to flee conflict. The world needs to be better prepared for*

populations on the move, writes Lorna Solis, Founder and CEO of the NGO Blue Rose Compass, **as climate change will have displaced 1 billion people.**

7. *The values that built the West will have been tested to breaking point. We forget the checks and balances that bolster our democracies at our peril, writes Kenneth Roth, Executive Director of Human Rights Watch.*

8. *“By the 2030s, we'll be ready to move humans toward the Red Planet.” What's more, once we get there, we'll probably discover evidence of alien life, writes Ellen Stofan, Chief Scientist at NASA. Big science will help us to answer big questions about life on earth, as well as opening up practical applications for space technology.”*

The first point is related to mainly two things:

1. The „Internet of all things” as most human activities will move online and will be tracked, recorded and stored by the central network of super-computers administrated by the communist global state. There will be one online bank as all banks as we know them will collapse as a result of the global economic crisis that will be coming. We know that banks will collapse because major banks started already to fire personnel and are losing a lot of money. The stock market will crash as well and in the New World Order the government will take control of all public, social and private domains so nobody will own any actions anymore.

2. Private property will be outlawed. In Romania a new law has passed for a second national lockdown. Among all the new „measures”, there is this point, I translate: *„The quarantine of goods - measure to prevent the spread of infectious-contagious diseases, **by which is pursued the seizure of luggages, containers, transport vehicles and other potentially infected goods.**”*

What this means is the following: if you come from another country and have coronavirus (this in the first phase), they are likely to confiscate your luggage because it is suspected/assumed that you might have contaminated it with your virus. They can confiscate your car because you have coronavirus and you further passed it to your car. „Other potentially infected goods” is a very indefinite statement which allows the government to confiscate whatever they want from any target. What needs to be understood is that this is not a kind of crazy law adopted by a crazy government, this is the beginning of end for private property and more aggressive measures will follow everywhere, not only in one country.

Then there is another point in the law which says:

*„Suspected of being infected or contaminated – that person or object **considered to be exposed or possibly exposed** to an epidemiological or biological risk and who can represent a source of spreading the disease.”*

Again another vague statement. What they do is they deem every single person as suspect of having the virus (or maybe another virus of the next pandemics) so everybody is exposed to the risk of being ripped off their personal property in order to prevent the spread of the virus through objects and then quarantined away from their families in a certain „quarantine center” or hospital. This will slowly end in the prohibition of any private property while everything will become „services” provided to citizens by the government and dissidents will be easily arrested and quarantined under the „suspicion” of having the virus. The surveillance that followed 9/11 deemed every single person as suspect of being a terrorist, so everybody can be surveilled and tracked permanently. Now every single one is deemed as suspect of having coronavirus, so there will be increased surveillance laws and technologies being implemented to track and record everybody for „the general safety”. In Australia, **police have been given the right to enter houses without warrant** [<https://www.rt.com/op-ed/497095-melbourne-australia-covid-lockdown/>]: „Melbourne cops may now enter homes without warrant, after 11 people die of Covid – Australia, this is madness, not democracy”

It is not a secret that coronavirus deaths are false since government documents from UK [<https://www.gov.uk/government/publications/guidance-notes-for-completing-a-medical-certificate-of-cause-of-death>] and US [<https://www.cdc.gov/nchs/data/nvss/coronavirus/Alert-2-New-ICD-code-introduced-for-COVID-19-deaths.pdf>] (for example) have instructed or better said imposed to all medics and doctors to use coronavirus as a death reason when the patient had respiratory symptoms before dying, without any confirmation that the patient has been suffering from the virus or not. The only way that can certify that one person have died from coronavirus is by autopsy and World Health Organization has instructed not to perform any autopsies. Also, studies have shown that the vast majority of coronavirus victims had at least one other chronic or deadly diseases, so the statement that these people died only from coronavirus is at least inaccurate. Coming back to the above news, after everybody is deemed by law as a suspect of carrying the virus, police can (in Melbourne, Australia for now) to enter people’s houses without any warrant or permission, giving them the right to arrest anybody not obeying the new dictatorship. Furthermore, in Kentucky, US, family has been forced by court order to wear ankle GPS tracking monitors for refusing quarantine [<https://www.ibtimes.com/covid-19-kentucky-update-judges-order-ankle-monitor-coronavirus-patients-refusing-2950981>]: „Judges in Kentucky have started ordering positive COVID-19 patients who don't want to stay home during the quarantine to wear an ankle monitor.

In Louisville, Ky., two coronavirus patients, as well as one of their relatives, were ordered to put on the tracking devices after health officials discovered they were out shopping.”

It all starts on small scale as always, until will become a standard practice. If one have been unfortunate enough to catch coronavirus, the worst is not the flu itself that gives soft or no symptoms on vast majority of cases, the worst is they are forced into

house arrest until the body heals from the virus, basically depending on outside help to get food for them and their children as happening in the above case with parents with a small baby being forced to wear GPS monitors for disobeying the authoritarian regime.

The 5th point is related to what I said above that people won't be allowed to eat what they want anymore. Another major event that will be contributing to this crazy idea is the climate change propaganda which will allow the oligarchs to limit human rights more and more. They will enforce the notion that people will need to eat more „sustainable”, to consume resources more „sustainable” and to live more „sustainable”. Petrol cars will definitely be replaced with electric cars incorporated with GPS and all kind of technology working on 5G that allows those in power not only to know where every single person is, but also they will actually have remote control over the car and this allows them to eliminate any dissident using one. There is a foundation called XPRIZE [<http://2045.com/news/35210.html>] that offers \$10 million to whoever manages to create a robot than can be remotely controlled from at least 100 km / 60 miles away, so when they will develop this technology, it will be just a matter of time until they will incorporate it in a electric car. What else might happen is that kitchen appliances will be outlawed due to the second point from above (end of private property) and for the limit of electricity use for more „sustainability”, therefore food in a way or another will become a service by itself with people eating only what Jew World Order allows them to eat, most likely at social canteens and canteens placed in the workplace in factories, supermarkets, warehouses, offices etc.

There is another law adopted in Romania in June 2020 that allows to councils and government to close down farms due to „disturbing” strong smell which can potentially infect citizens in the proximity. One point from the law:
„Olfactory discomfort – the effect generated by an activity than can impact the health of the population and environment, which is subjectively perceived based on different stages of smell or is objectively quantified based on national, european and international standards.”

It further says that the activities undertaken by persons not conforming to this law can be temporarily or permanently closed. This most likely is not targeting farmers specifically, but any single person who can „disturb” others with the smell generated by their food being cooked. This is happening in Romania because the globalist oligarchs have the main grip over the country due to their puppets in the political positions, justice, the main intelligence service, health etc. As I said such measured will be proposed and voted everywhere in the close future if politicians and citizens do not oppose it. One can simply be reported for spreading disturbing smell and police can arrest them straight away as they have legal justification to do it. This will lead to people not being allowed to cook anymore, so they will be forced to eat at

state canteens in order to „protect the environment” or „promote sustainability”. One day this will become the new motto/mantra promoted in the societies by media and governments, exactly in the same way like they promote now „stop the spread of coronavirus” and other related political correct scientifically unfounded rubbish.

The 6th point is nothing more than Kalergi plan carried on until White race is totally eliminated, this was to be expected. Of course „climate change” is just a „political correct” excuse to cover the White genocide. In the global state the rulers will have power to move masses of people everywhere on the planet as they see fit, nobody will stop them anymore. The Global Compact for Migration [https://refugeesmigrants.un.org/sites/default/files/180713_agreed_outcome_global_compact_for_migration.pdf] is a UN agreement designed to legalize immigration among all member-states of United Nations, virtually on the entire planet.

„Illuminati confirmed” - Alleged formed Illuminati member exposes the New World Order

The following is a letter [<https://www.youtube.com/watch?v=hy0pfXmy6Tw>] written by a supposed/self-claimed former Illuminati member and posted on the Internet, apparently on Imgur to be more specific. It contains 8 programs or plans that would be implemented in the global state. It was first written in Spanish and then translated to Romanian, so I will try to translate to English word by word what the translator said and then the points of the agenda.

The translator:

The shocking confessions of a former Illuminati member, a document translated from Spanish that is unique on the Romanian Internet. Recently on the Imgur platform, an anonymous user named „Steve Steve 76” posted several letters where he stated that he was Illuminati member for neither more nor less than 47 years. (...) The material contains a lot of shocking information, this to realize what the New World Order and the world government want from us, to realize what this Illuminati who rules the planet wants to achieve. I do not guarantee that the following information is true but I cannot say that is false neither. Is likely that whoever was Illuminati member and decided to speak out about these things has little time left to live so maybe this is why „Steve Steve 76” decided to maintain his anonymity. He states that Illuminati has very dark plans for humanity. In one of his letters he said, I read word by word: „I was Illuminati member for 47 years, I was recruited when I was 19 and the information that I reveal herein is very dangerous. I am one of the 7 persons of the Illuminati`s history that ever performed the „exit ritual”. I had to leave when they revealed something to me in a reunion from June 2010. I`ve been for so many years knowingly about their beliefs, reasons and actions but recently was very difficult for me and I had to finish the „saint contract”. The reason here is to reveal everything about Illuminati, how someone becomes member, what they discuss in the reunions, their future plans.”

(reading of the letter ends here)

This member speaks about the underground bunkers which at this moment (2018) are in number of 57 in the United States. There are 439 bunkers all over the world. All these bunkers and underground bases are funded and controlled by Illuminati. The biggest bunker is located in Sao Paolo, able to store 5000 people for a period of 10 years. He said that he has been himself to these

bunkers and stated that they are far bigger than anyone can imagine. This bunker from Sao Paolo is prepared for the „end of times” and 5000 of the most richest persons can live here in case of wars, natural disasters and any kind of global catastrophes. The Illuminati plans for a New World Order in 8 points:

The 8 points that are likely to be implemented in the New World Order

1. The establishment of a world government, and their first move will be to reduce world population, they will pass laws to limit the number of children a family can have. Every family will have the right to maximum 2 children. The government will have full control of the birth rate. In this way the world population will be maintained under 1 billion.

2. Dissolution of the middle class. There will be only 2 classes, the masters and the slaves, The slave will have extremely difficult living conditions and will exist under total control of a global police force and supranational clerks who will respect the laws of the world government. All the countries will disappear and control will be organized territorially, in different regions that will be controlled from the center. Fire arms will be outlawed so the population won't be able to defend itself or revolt against the new world government. Citizens will have two options: they will either obey, either they will be ostracized from society and starve to death.

3. One unique religion, there will be one universal church. All religions and beliefs will be outlawed and there will be forced indoctrination.

4. All slaves will have personal ID numbers that will be stocked in the central archives of European Union, at Brussels.

5. Marriage will be outlawed. LGBT movements will be promoted.

6. Children will be taken away from their parents and brainwashed with the teachings of the new world government.

7. Drugs and sexual perversions will be mandatory. This oligarchic government will implement the broadcast in cinemas of all kind of sexual perversions. Drug use will be legal in order for the population to be subjected to this type of slavery. Some drugs will be administrated via drinking water or food products, without citizens realizing this.

8. *Slaves will have the right to work only in working camps. The elderly and sick citizens in terminal phases will be subject to euthanasia.*

The following are the comments of the translator about this points, again trying to translate word by word:

Regarding the first point, we see population reduction already happening in China, which is basically the laboratory of the New World Order, the „antechamber” of the world government. We see all kind of experiments on the population being carried in China. There we have organ trade, concentration labor camps. There we have birth control, in China you have the right to only 2 children, and this under highly severe sanctions, exactly like this alleged member said.

Regarding the disappearance of the middle class, we see this already happening all over the world, we see the gap between the rich and the poor is getting deeper and deeper. There is an oligarchy on the top and the rest are slaves. We see how the decisions adopted by these oligarchs are impoverishing the population more and more. Laws have been passed at labor and social level, the population is poorer and poorer and more and more obedient. He said that firearms will be outlawed. We see in US there is a strong propaganda going on for the prohibition of firearms. We know in US everybody has the right to a fire gun for self-defense and we see how the oligarchy wants to take away these weapons from the hands of the population so it can be easier to murder. Illuminati knows that at a certain point the citizens can rebel and for this, citizens will be forbidden to have fire guns so they can defend themselves anymore, basically this oligarchy will have decision-making power and the population will be massacred without opposing any resistance.

He speaks about one unique religion, about the universal church. We see in Romania there is already an universal church in Bucharest, with all kind of things (...) In the end the universal church will be ruled by the human antichrist by all kind of wrong beliefs, new age etc.

All slaves will have a unique number stocked in Brussels. We see already our information is stocked in these quantum super-computers. Basically they will know everything about us and we will be controlled in this way, by biometry, biometric passports, health cards, surveillance cameras, so all information is recorded there, everybody's identity will be stocked at this super-computer in Brussels.

Marriage will be forbidden, LGBT will be promoted. We see the goal of these LGBT movements is ruining the family. This has been stated by the leaders of these movements themselves because they don't care about homosexuals marrying each other, they only want to destroy the traditional family and nothing more. Basically they want to outlaw the family.

Children will be separated from parents to be brainwashed with the new teachings of the world government. We see already that oligarchs want to brainwash children in the preschool even since they are 3 years old. The age required now for preschool is 3 years old so children can be indoctrinated from small age so they can have no escape.

Mandatory drugs and sexual perversions. It is not mandatory yet but in the future the world government will do this in order to control the population. We see in present things like biometric cards, drugs and other things are optional but this will become mandatory. We see about sexual perversions and pornography in the cinemas, they will legalize all kind of perversions like zoophilia and pedophilia and other „miracles” of the New World Order.

Last point, slaves will work only in working camps, old and sick people will be euthanized. We see this happening already, any old man that is fed up with life can kill himself, there are doctors that perform deadly injections so this euthanasia is legal, is a kind of assisted death. Regarding the labor camps, these exist already for the „happy slaves”, such as the corporations for example and every person that accepts to work in a corporation have to use biometric sim so is a concentration camp there. Humans are already used to these ways of working, subject to control, monitoring with video cameras, universal worker is used to all kind of humility.

The translation ends here. I will add some comments myself.

There is already propaganda done by the brainwashing machine called mass-media and the political puppets advocating for a global government to „deal” with coronavirus, such as Gordon Brown, former British Prime Minister [<https://www.3ccorp.net/2020/03/27/former-british-pm-wants-temporary-world-government/>] or Tedros Adhanom Ghebreyesus, general director of WHO [<https://news.theceomagazine.com/news/dr-tedros-coronavirus/>]. Basically they have to prepare humanity to accept the idea that a world government is necessary to fix the world's problems, which are obviously created by the figures controlling those politicians.

Now government taking away your children is basically complying to the first prediction of the World Economic Forum. One won't even own their children anymore. This is happening already in Norway with a government agency called `Barnevernet` or „Norwegian Child Welfare Services” that basically strip alleged „irresponsible” parents from their children and I say alleged because there were numerous cases

[<https://www1.cbn.com/cbnnews/world/2019/july/norwegian-nightmare-barnevernet-preys-on-children-and-parents-nbsp>] where Barnevernet mis-estimated the gravity of the situation in some families and wrongly ripped parents of their kids as happened to a Canadian family that chose to home-school their child due to death threats received in the school. What is happening with these children? I don't know about Norway, but in Germany there was the infamous Kentler Experiment

[<https://www.thesun.co.uk/news/11098103/berlin-foster-experiments-kids-deliberately-paedos-sex-abuse-good/>] that has taken place between 1969 and 2003 and was designed to `scientifically prove` that pedophilia relations would provide mental help to homeless children:

The twisted logic behind the "Kentler experiment"— named after the leading sexologist Helmut Kentler who spearheaded it — was that paedophilia could have "positive consequences"

Astonishingly, in the late 1960s Kentler managed to persuade West Berlin's ruling Senate that homeless boys would leap at the opportunity to be fostered by paedophile dads.

It was successfully argued they would be "head over heels in love" with their new father figures.

About this time Kentler was publicly lobbying for decriminalization sex between adults and children in West Germany.

The academic argued youngsters "almost always more seriously damaged" by their abusers being prosecuted than by the abuse itself.

After the catholic church pedophilia global cases and the Jeffrey Epstein infantile sex network being exposed, we all know in this moment how many jews, politicians and other personalities are pedophiles, so it is clear now that in the New World Order some children will be taken away from their parents and sexually exploited by pedophiles, this is happening already as shown by the

Kentler Experiment but then it will happen legally because pedophilia will be legalized. They might scientifically argue that pedophiles can help children and people will have no rights to oppose and won't be able to take any measures. Pedophilia will be part of the LGBTQ, will be considered a normal sexual orientation by itself and will be promoted. I have heard from somebody who went to Thailand that pedophilia is legal there and many politicians and rich people are going there regularly for their sexual obsessions with children.

The Supermemorandum - The global government secretly voted in 2014

The Supermemorandum is basically the 21st century equivalent of the Protocols of the Learned Elders of Sion. The full document was on the internet only for a few days when it was posted in August 2014 but it was quickly removed and somehow a part of it was saved and is public in Romanian [<https://saltmin.com/2016/03/23/super-memorandumul-noua-sper-religie-masonica-mondiala-si-biserica-in-perioada-2016-2020/>] and Greek [<https://www.scribd.com/doc/305838955/%CE%A6%CE%A1%CE%99%CE%9A%CE%97-%CE%99%CF%83%CE%BF%CF%80%CE%B5%CE%B4%CF%89%CF%83%CE%B7-%CE%A4%CF%89%CE%BD-%CE%A0%CE%91%CE%9D%CE%A4%CE%A9%CE%9D>]

This is all I found in English

[<https://www.gloria.tv/post/H4CPaFmNXRzt2xAhze16qXUiH>], the original public document has around 12 pages and it regulates the legal foundation of the principles of the new world government. According to the available document, The Supermemorandum was drafted at Strasbourg, France, between 25 - 29 June 2014 with the name „MEMORANDUM: European Union, the Greek Government and Greek Church, Istanbul Church out of Istanbul, Christines Orthodox Churches, Catholic Churches, Russian Government and Cyprus Government”. According to the available document, it was signed by:

- Herman Van Rompuy, President of the European Council at the time
- Andreas Loverdos, Minister of Education, representing the Greek Government
- Gavril Papanikolaou, bishop representing the Greek Church
- Teoclit, metropolitan bishop representing the Orthodox Constantinopol Church
- Harion, archbishop of Volokolamsk, Russia, representing the Slavic Patriarchy and the Russian Government
- Efrem, hegumen representing the Athos Mount
- Neofyros de Morfou and Varnava de Trimythoyntos, representing the Church and the Government of Cyprus
- Elijah de Tripoli, representing the Church of Antioch
- Basil de Tripoli, representing the Church of Alexandria
- Timothy de Vostrom, representing the Church of Jerusalem

The Supermemorandum comprises major changes to be implemented in administration, religion, health and education. I will translate the most important points. The new „laws” were supposed to be implemented between 2016 - 2020 but they couldn't start the transition to the new globalist system within these years so it is most likely intended to take place from 2020 on. The articles were organized on specific dates for each new law but I ignored the dates since they have already passed now. Not all of them are organized chronologically. Here we go:

Regulations concerning Education

Article 2: All religious and national holidays at all educational institutions to be abolished.

Article 4: Mandatory attending at synagogues and mosques to be implemented for all categories of students in stages, starting from primary students and middle-school and high-school students, subsequently.

Article 8d: Religious funerals to be outlawed. Incineration to become mandatory.

Article 9d: Iris recognition and fingerprinting technology to be implemented in universities and public institutions for all citizens.

Article 10a: Conformable to the NATO models, multi-national armies to be implemented and national armies to be dissolved.

Article 10b: Electronic signature to be mandatory for all citizens when treating with the multi-national state of European Union.

The Toronto Protocols - Another leaked document describing the new world in the global government

As the title says, the Toronto Protocols [<https://rightedition.com/2017/09/15/the-toronto-protocols/>] is another document, this time leaked from secret freemasonry meetings that took place in Montreal, Canada, in 1967 and 1985. The participants were reported to be: „ those who run the 6 largest banks in the world, the 6 largest energy consortia on the planet (including the oil part), and the 6 largest consortia of agri-food (which includes the control of the main Food Roads of the World)”. The followings are the 27 points of this document:

1 – To multiply tenfold the “Society of the Leisure activities” which we have been so profitable to date. By serving to us as the invention of “Video” that we financed, and games which are connected with it, end up corrupting the morality of the youth. Let us offer him the possibility of satisfying now all his instincts. A being possessed by his senses and a slave of these, we know it, has neither ideal, nor internal strength to defend whatever it is. He is a “Individualist” by nature, and represents a perfect candidate whom we can model easily according to our desires and our priorities. Moreover, remember yourselves with which ease our predecessors were able to direct all the German youth at the beginning of the century by means of the disenchantment of the latter!

2 – Encourage the “Student Contesting” for all the causes connected with the “Ecology”. The compulsory protection of the latter will be a main advantage when we shall have urged Nation States to exchange their “Internal Debt” for the loss of 33 % of all their territories been left to the wild state.

3 – Filling in the interior vacuum of this youth by initiating him, from very young sound age, to the universe of Computers. Using that for the educational system. A slave in the service of another slave than we control.

4 – On another plan, establishing “International Free Trade” as being a priority absolved for the economic survival of Nation States. This new economic conception will help us to accelerate the decline of the “Nationalists” of all the Nations; to isolate them in diverse factions, and at the deliberate moment, to set them wildly some to the others in civil wars which will finish ruining these Nations.

5 – To assure us at all costs of the success of such an enterprise making sure that our Agents already infiltrated in the Ministries of Intergovernmental Affairs and Immigration of Nation States make indepth modifications to the Laws of these Ministries. These modifications will essentially aim at opening the doors of the western countries to a more and more massive immigration inside their borders (immigrations which we shall moreover have provoked by having taking care of

touching off, here and there, new local conflicts). By well orchestrated press campaigns in the public opinion of Nation States targeted, we shall provoke among them a significant refugees' influx which will have the effect, to destabilize their internal economy, and to make increase the racial tensions inside their territory. We shall see to make so that groups of foreign extremists made part of these immigrants' influxes; That will facilitate the destabilization.

6 – This “Free Trade” which, in reality, is not because it is already controlled by us all at the top of the economic hierarchy, infiltrating it by the “Tri-Lateral Commission”: [that of Asia, America and Europe]. It will bring us the discord inside Nation States by the increase of the unemployment connected with the restructurings of our Multinationals.

7 – Shifting slowly, but certainly, our multinationals acquired in new countries to the idea of “the Market economy”, such as the Eastern European countries, in Russia and in China for example. We do not care much, at the moment, if their population represents or not a vast pool of new consumers. What interests us, is to have access, first of all, to a “Workforce-Slave” (cheap and non-union) which these countries and those of the Third World are offering us. Moreover, are not their governments set up by us? Do they not rely on foreign aid, and in the loans from our “International Monetary Fund” and our “World Bank”? These transfers offer several advantages for us. They contribute to maintain these new populations in the illusion of a “Economic Liberation”, a “Political Freedom” while in reality, we shall dominate them by the appetite of the earnings and a debt which they can never settle. As for the Western populations, they shall be maintained in the dream of [Economic Well Being] because the products imported from these countries do not suffer any price increase. By contrast, without them being aware at first, more and more industries will be obliged to close their doors because of the transfers that we will have conducted outside of the Western countries. These closures will increase unemployment, and will bring major losses in revenue for the Nation States.

8 – So we shall set up a “Global Economy” at the world level which will escape totally the control of Nation States. This new economy will be over everything; no political or labor-union pressure can have power over it. It will dictate its own “Global Politics”, and will force a political reorganization, but according to our priorities at the world level.

9- By this ” Independent Economy ” having only Laws as our Laws, we shall establish a “World Mass Culture”. By the international control of the Television, Media, we shall establish a “New Culture”, but levelled, uniform for all, without any future “Creation” avoiding us. The future artists will be in our image or will not survive. Finished therefore the times when “Independent Cultural Creations ” put at any time in danger our globalist projects, like that was so often the case in past.

10- We will find it then possible to make use of the military forces of the Nation States (such as those of the United States) in humanitarian goals. In reality, these “Forces” will be used to submit our control to recalcitrant countries. Thus the Third World countries, and others like them will not be able to escape our desire to use their people as slave labor.

11 – To control the world market, we shall have to divert the productivity of its first goal (free the man from the hardness of the work). We shall direct it to turn it against the man by enslaving the latter in our economic system where he will have only the choice to become our slave, and even a future criminal.

12 – All these transfers abroad of our Multinationals, and the world reorganization of the economy will, among others, aim at making climb the unemployment in the western countries. This situation will be all the more practicable because at first, we shall have favoured the massive import of basic products inside the Nation States and, at the same moment, we shall have overloaded these States by the exaggerated employment of their population in the production of services which they cannot pay any more. These extreme conditions will multiply by millions the masses of welfare recipients of all kinds, of illiterates, of homeless persons.

13 – By the loss of millions of jobs in the primary sector, from covert evasions of foreign capital out of the Nation States, thus we will find it possible to set in danger of death the social harmony by the specter of civil war.

14 – These international manipulations of the governments and the populations of Nation States will supply us the pretext to use our I.M.F to urge the western governments to set up “Budgets of Austerity” under the lid of the imaginary reduction of their “National Debt”; of the hypothetical preservation of their “International Credit rating”; of the impossible conservation of the “Social Peace”.

15 – By these “Emergency Budgetary Measures”, we shall so break the financing of Nation States for all their “Mega-Projects” which represent a direct threat to our world control of the economy.

16 – Moreover all these austerity measures will allow us to break the national wills of modern structures in the domains of the Energy, the Agriculture, the Transport and the new Technologies.

17 – These same measures will offer us the ideal opportunity to establish our “Ideology of Economic Competition”. This will be translated, with the Nation States, by the voluntary reduction of salaries, voluntary departures with [Presentation of Medals for Services rendered]; which will open to us doors to the establishment

everywhere of our “Technology of Control”. In this perspective, all these departures will be replaced by “Computers” in our service.

18 – These social transformations will help us to change in depth the “Police and Military” workforce of the Nation States. Under the pretext of the necessities of the moment, and without arousing of suspicions, we shall get rid once and for all, all the individuals having a “Judeo-Christian Consciousness”. This “Restructuring of the Police and Military Bodies” will allow us to dismiss without contesting, the old staff, as well as all the elements not conveying our internationalist principles. These will be replaced by young recruits devoid of “Consciousness and Morality”, and already quite entrained, and favorable to the mindless use of our “Technology of Electronic Networks”.

19 – In the same time, and always under the pretext of “Budgetary Cuts”, we shall ensure the transfer of the military bases of the Nation States towards the United Nations organization.

20 – In this perspective, we shall work on the reorganization of the “International Mandate of the United Nations”. From “Peacekeeping Force” without decision-making power, we shall bring it to become a “Rapid Deployment Force” where will be merged, in a unified whole, the armed forces of the Nation states. This will eggettively permit us, without combat, the demilitarization of all these States in a way that none of them, in the future, are not sufficiently powerful (independents) to question our “World Power”.

21 – To accelerate this process of transfer, we shall imply the current force of the United Nations in conflicts impossible to sort out. In this way, and by means of the Media which we control, we shall show to the populations the impotence and the uselessness of this “Force” in its current shape. The helping frustrations, and pushed to its ckimax at the appropriate moment, will push the populations of Nation States to beg the international authorities to form such a “Multinational Force” as soon as possible to protect at all costs the “Peace”.

22 – The next appearance of this global willpower of a “Multinational Military Force” will keep pace with the establishment inside the Nation States, a “Multi-Jurisdictional Task force”. This combination of the “Police and Military Staff”, created straight from the pretext of the increase of the growing political and social instability inside these States collapsing under the burden of the economic problems, will allow us to control better the western populations. Here, the excessive use of the identification and the electronic recording information on the individuals will supply us a complete surveillance of all the intended populations.

23 – This interior and exterior police and military reorganization of Nation States will allow the convergence towards the obligation of the implementation of a “Judicial World Center”. This “Center” will allow the various “Police Bodies of Nation States” to have quick access to “Data Banks” on all the potentially dangerous individuals for us on the planet. The image of a better judicial efficiency, and the more and more narrow links created and maintained with the “Military”, will help us to emphasize the necessity of a “International Court” doubled by a “World Judicial System”; the one for the civil affairs and criminal individuals, and the other one for the Nations.

24 – During the growth accepted by all of these new necessities, it will be imperative for us to complete as soon as possible the world control of firearms inside the territories of Nation States. To do it, we shall accelerate the “ALPHA PLAN” implemented during the 60’s by some of our predecessors. This “Plan” originally aimed at two objectives which remained the same even today: by the intervention of “Crazy Shooters”, create a climate of insecurity in the populations to bring to a tighter control of firearms. Direct acts of violence so as to make it appear the responsibility of religious extremists, or persons affiliated to religious allegiances of “Traditional” tendency, or still, persons claiming to have privileged communications with God. Today, to accelerate the “Control of Firearms”, we can use the “Fall of the Economic Conditions” of the Nation States which will entail with it, a complete Social destabilization; thus increase of the violence. I do not need to remind you, nor to demonstrate to you, Brothers, the foundations of this “Control” of firearms. Without this one, it would become almost impossible for us to put on their knees the populations of the targeted States. Remember yourselves with which success our predecessors were able to control Germany of 1930 with the new “Laws” applied in the time; laws moreover on which are based the current Laws of Nation States for the same control.

25 – The last “Stages” relate in the “OMEGA PHASE” experimented from the experiments made at the beginning of the 70’s. They contain the application, at the world level, “Electro-Magnetic Weapons”. The “Changes of Climate” entailing the destruction of the harvests; the bankruptcy in these conditions, farmlands; the denaturation, by artificial means of foodstuffs of regular consumption; the poisoning of the nature by an exaggerated and mindless exploitation, and the massive use of chemicals in the agriculture. All this, Brothers, will lead to the ruin assured by the food industries of Nation States. The future of the “Control of the Populations” of these States passes necessarily by the absolute control, by us, of the food production at the world level, and by the takeover of the main “Food Roads” of the planet. To do it, it is necessary to use Electro-Magnetics, among others, to destabilize the climates of the most productive States on the agricultural plan. As for the poisoning of the nature, it will be accelerated all the more as the increase of the populations will push it without restriction there.

26 – The use of Electro-Magnetic cause “Earthquakes” in the most important industrial areas of the Nation States will contribute to accelerate the “Economic Fall” of the most threatening States for us; as well as to amplify the obligation of the implementation of our New World Order.

27 – Who can suspect us? Who can suspect used means? Those who will dare to raise themselves up against us by broadcasting of the information as for the existence and for the contents of our “Plot”, will become suspicious in the eyes of the authorities of their Nation and their population. Thanks to the disinformation, to the lie, to the hypocrisy and to the individualism which we created within the peoples of Nation States, the Man became an Enemy for the Man. So these “Independent Individuals” who are of the most dangerous for us exactly because of their “Freedom”, will be considered by their fellow men as being enemies and not liberators. The slavery of the children, the plunder of the wealth of the Third World, the unemployment, the propaganda for the liberation of the drug, the exhaustion of the youth of the Nations, the ideology of the “Respect for the Personal freedom” broadcasted within the Judeo-Christian Churches and inside the Nation States, obscurantism considered as a basis for the pride, the inter-ethnic conflicts, and our last realization: “Budgetary restrictions”; all this allows us finally to see the ancestral fulfillment of our “Dream”: that of the institution of our “NEW WORLD ORDER”].

Again everything is identical to what has been mentioned in the Illuminati letter, the predictions of the World Economic Forum and the Supermemorandum. Rape and drugs to be legalized and even imposed, dissolution of national states, United Nations becoming the global government, immigration to carry on until the Europeans and their „western values” are destroyed etc. Note the point 26 which connects to the volcano picture of the Economist subliminal image. The earth is definitely about to be hit with natural disasters.

FEMA, the hidden communist government of United States

Federal Emergency Management Agency (FEMA) - their secret power over US [<https://educate-yourself.org/cn/femaoverview06sep05.shtml>]:

FEMA was created in a series of Executive Orders. A Presidential Executive Order, whether Constitutional or not, becomes law simply by its publication in the Federal Registry. Congress is by-passed. Executive Order Number 12148 created the Federal Emergency Management Agency that is to interface with the Department of Defense for civil defense planning and funding. An "emergency czar" was appointed. FEMA has only spent about 6 percent of its budget on national emergencies, the bulk of their funding has been used for the construction of secret underground facilities to assure continuity of government in case of a major emergency, foreign or domestic. Executive Order Number 12656 appointed the National Security Council as the principal body that should consider emergency powers. This allows the government

to increase domestic intelligence and surveillance of U.S. citizens and would restrict the freedom of movement within the United States and grant the government the right to isolate large groups of civilians. The National Guard could be federalized to seal all borders and take control of U.S. air space and all ports of entry.

Here are just a few Executive Orders associated with FEMA that would suspend the Constitution and the Bill of Rights. These Executive Orders have been on record for nearly 30 years and could be enacted by the stroke of a Presidential pen:

** EXECUTIVE ORDER 10990 allows the government to take over all modes of transportation and control of highways and seaports.*

** EXECUTIVE ORDER 10995 allows the government to seize and control the communication media.*

** EXECUTIVE ORDER 10997 allows the government to take over all electrical power, gas, petroleum, fuels and minerals.*

** EXECUTIVE ORDER 10998 allows the government to seize all means of transportation, including personal cars, trucks or vehicles of any kind and total control over all highways, seaports, and waterways.*

** EXECUTIVE ORDER 10999 allows the government to take over all food resources and farms.*

** EXECUTIVE ORDER 11000 allows the government to mobilize civilians into work brigades under government supervision.*

** EXECUTIVE ORDER 11001 allows the government to take over all health, education and welfare functions.*

** EXECUTIVE ORDER 11002 designates the Postmaster General to operate a national registration of all persons.*

** EXECUTIVE ORDER 11003 allows the government to take over all airports and aircraft, including commercial aircraft.*

** EXECUTIVE ORDER 11004 allows the Housing and Finance Authority to relocate communities, build new housing with public funds, designate areas to be abandoned, and establish new locations for populations.*

** EXECUTIVE ORDER 11005 allows the government to take over railroads, inland waterways and public storage facilities.*

** EXECUTIVE ORDER 11051 specifies the responsibility of the Office of Emergency Planning and gives authorization to put all Executive Orders into effect in times of increased international tensions and economic or financial crisis.*

** EXECUTIVE ORDER 11310 grants authority to the Department of Justice to enforce the plans set out in Executive Orders, to institute industrial support, to establish judicial and legislative liaison, to control all aliens, to operate penal and correctional institutions, and to advise and assist the President.*

** EXECUTIVE ORDER 11049 assigns emergency preparedness function to federal departments and agencies, consolidating 21 operative Executive Orders issued over a fifteen year period.*

** EXECUTIVE ORDER 11921 allows the Federal Emergency Preparedness Agency to develop plans to establish control over the mechanisms of production and distribution, of energy sources, wages, salaries, credit and the flow of money in U.S. financial institution in any undefined national emergency. It also provides that when a state of emergency is declared by the President, Congress cannot review the action for six months. The Federal Emergency Management Agency has broad powers in every aspect of the nation.*

FEMA ORDERED 102,000 BOXCARS WITH SHACKLES AND GUILLOTINES – WHY ARE MODERN GUILLOTINES ON MILITARY BASES THROUGHOUT NORTH AMERICA?

(...)

The use of guillotines for “governmental purposes” was lobbied for and passed in the U.S. Congress:

– The information we received is that 15,000 are currently stored in Georgia and 15,000 in Montana.

– Are the beheadings by muslims today meant to desensitize us against U.S.

Government beheadings in the future?

Think about this; Why does the US government need 30,000 Guillotines and over 600 Million rounds of hollow point bullets?

There are over 800 prison camps in the United States. All fully operational and ready to receive prisoners. They are all staffed and even surrounded by full-time guards.

But they are all empty.

These camps are to be operated by FEMA (Federal Emergency Management Agency) should Martial Law need to be implemented in the United States and all it would take is a presidential signature on a proclamation and the attorney general's signature on a warrant to which a list of names is attached. Ask yourself if you really want to be on THE list. -Full Article [HERE](#)

FEMA has three-layer boxcars for transporting shackled prisoners to the more than 800 empty and guarded concentration camps across the USA, with 20,000 new prisoner boxcars and 40-foot railroad containers arriving in Oregon from China for our forests for planned martial law in time for military exercises for martial law.

The FEMA lists

Red List – Blue List – Yellow List – Black List

We are all on a Red or Blue list somewhere, those on the red list will be woken at 4am and taken to the camps and probably killed.

Red List – These people are the enemies of the NWO. They are the leaders of patriot groups, outspoken ministers, outspoken talk show hosts, community leaders, and even probably NETleaders. These people will be dragged out of their homes at 4:00 am and will be taken to FEMA detention centers and killed. This will take place approximately 2 weeks before martial law is enforced.

Blue List – These are also enemies of the NWO, but are followers of the Red List folks. These people will be rounded up after martial law is in place, and will be taken to the detention centers and 're-educated'. Various mind-control techniques will be used on them. Most will not survive this. Mr. Springmeier was not specific on exactly who was on the Blue List, but I would guess that people such as you and I are on that list.

Yellow List – These are citizens who know nothing about the NWO and don't want to know. They are considered to be no threat at all and will be instructed as to how to behave and will most likely do whatever they are told. Unfortunately there are too many of these to be effectively controlled, so many will be killed or starved.

Black List – If anyone reading this is politically active and is an outspoken champion of personal liberty, then it is probably safe to assume that you are already on some sort of list, at least a "watch list". You might also be on a cyber black list, targeting you for disinformation/discrediting campaigns or perhaps for DDOS ping attack hacking. (It is no coincidence that DDOS ping floods are more frequently directed at politically outspoken blogs and web sites.)

Secret meeting in United States House Of Representatives in Washington, 2008,
[\http://www.fourwinds10.com/siterun_data/government/new_world_order/news.php?

[q=1220578507](#)] reveals the course of events in case of economic and civil emergency:

The imminent collapse of the U.S. Economy to occur sometime in late 2008

The imminent collapse of the U.S. Government finances sometime in mid 2009

The possibility of Civil War inside the United States as a result of the collapse

The advance round-ups of "insurgent U.S. Citizens" likely to move against the government

The detention of those rounded up at The REX 84 Camps constructed throughout the United States

The possibility of public retaliation against members of Congress for the collapses

The location of safe facilities for members of Congress and their families to reside during massive civil unrest

The necessary and unavoidable merger of The U.S. with Canada and Mexico establishing The North American Union

The issuance of a new currency called the AMERO for all three nations as an economic solution.

May I add, AMERO would most likely be a digital currency.

The economic collapse did not take place with the first wave of coronavirus but it will manifest after the second or third wave of pandemics, although the first wave had a great impact over the entire global economy. Regarding the civil war, we obviously have BLM as the "insurgent U.S. Citizens" to riot against the government as part of the communist revolution that in theory will manifest under the flag of progressivism, globalism and multiculturalism.

The above is exactly what the communist regimes have done to the anti-communist movements after they took over countries. The Bolsheviks have killed tens of millions of Russians in the gulags, in China the communists have killed around 40 million Chinese people last century and so on. This is exactly what FEMA will do in their concentration camps to those who will oppose and fight against New World Order. Why would FEMA buy hundreds of thousands of disposable coffins [<https://www.youtube.com/watch?v=m3zSDdm-SHI>] if not for storing dead people there? This means that at least hundreds of thousand of people will die in US in the close future. Let's not forget that FEMA concentration camps are just a Conspiracy theory [https://en.wikipedia.org/wiki/FEMA_camps_conspiracy_theory] in the eyes

of Wikipedia and when Wikipedia labels something as a conspiracy theory then you can be sure it's real. They did exactly the same with the Protocols of Zion, with Holocaust denial and generally everything that exposes the enemy agenda.

The Economist: symbolism predicting the next major events - Do they know something?

The Economist is a newspaper partly owned by the Rothschild family [<http://cosmicconvergence.org/?p=12241>]. It has been stated by many that they show symbolism or subliminal messages on their images predicting major events likely happen before the world government will be fully implemented. Specifically in the present case is about this image from 25th of June 2020:

[<https://www.economist.com/leaders/2020/06/25/politicians-ignore-far-out-risks-they-need-to-up-their-game>]

A Romanian youtuber [<https://www.youtube.com/watch?v=TXEzNSO79t0>] „decoded” the meaning of this picture and I will translate what he said, also I will add some of my interpretations of the pictures.

Apparently he is not commenting this out of his imagination, he suggested that he has inspired from other people as well. His first mention was about the clock, which shows the hour 11:59. He says this means that we are very close to the implementation of new world order, the idiom „at the eleventh hour” seems to describe very well the last moments before the chaos is globally installed, also as suggested by this image. Well he actually said that we are very close to the second coming of Jesus but I will try to filter any religious nonsense and focus on the proper events.

Next is the first picture with the pig. He connects that picture to the pig virus that was discovered in China and which might be turned into another global wave of pandemic. He says police will be coming in the people's houses to take their pigs because of risk of infection with this new swine flu that I have mentioned at the beginning (he actually mentioned about the bubonic plague that emerged in China but I think the connection here with the picture is the swine flu as I pointed above). Therefore I believe that a global pig slaughter is definitely part of the agenda. This was also indirectly suggested above by World Economic Forum when they said that people will be eating less meat.

Nex picture is the one with the volcano. He says the oligarchs have HAARP technology that allows them to control the weather. This is true and my opinion is the volcano picture predicts a natural disaster that will hit humanity and this is also mentioned in the bible but we will expand this a bit later. What needs to be known by everybody is that humans can produce earthquakes [<https://web.archive.org/web/20010312004056/http://www.geocities.com/Area51/Shadowlands/6583/project140.html>] and most likely the military own such technology. Earthquakes are one of the causes of volcanic eruptions. From my point of view there will be volcano eruptions in the future designed to move populations in white countries as suggested by the World Economic Forum, that climate change will displace around 1 billion people.

Next is the third picture with the Sun and a penguin on a piece of ice in the middle of the ocean. This again relates to climate change and it might anticipate the melt of icecaps and glaciers, a phenomenon constantly mentioned in the media. The Sun in clear sky might be a symbol of desertification and food/water shortage, contributing to the potential famine that the jews are preparing.

Next is an asteroid heading towards the earth. There are mentions in the bible about „stars” falling from sky to earth but it must be meaning something else that a simple asteroid. He says media and NASA will manipulate and scare people with comets and asteroids hitting the earth.

Next is three wild ducks of whom two are flying and one is falling but is the only one having a shadow. He says this signifies the „third part of humanity” that will die, probably in WW3 / the messianic war, as written in the bible as well. I will speak about this as well a bit later.

The next picture next to the birds most likely symbolize the next pandemics as they show coronavirus on the bottom and other viruses above it. As seen with coronavirus, a pandemic is a powerful way to forcefully impose control over the masses and the jews will be using them to establish the global state.

The next picture in white/black is a nuclear explosion which most likely symbolizes WW3/the messianic war. There are also mentions in the bible about wars and environmental destruction (caused by the use of nuclear weapons).

The last picture underneath shows solar explosions which the youtuber mentions to be the potential cause of a global electricity cut. This subject will be expanded below. Now what experts have been saying is that UV radiation is constantly increasing and this has a negative impact on people's health, leading to lose of sight and skin cancer from radiation. The enemy might use this as an excuse to impose further control and ripping of human rights.

Last is the family sitting on the couch. He says it is a european family as shown by the european type of electricity plug next to the couch. The parents and the cat wearing gas masks is a symbol of a future war happening in Europe potentially between Greece and Turkey with Russia (and the other BRIC countries) involving to support Greece and EU/NATO involving on the other side against BRIC, basically it would be a religious war between christianity and islam. The kid with helmet means that he was recruited into the war and this is also shown by his anxious facial figure. He says that the red and white symbol on the kid's shirt is a symbol of peace, which probably means that the enemy will use propaganda to manipulate the masses that WW3 will be carried in the name of peace. It seems that they keep trying to fire the war somewhere. There are also conflicts in other areas in the world, between USA and China, Ukraine and Russia, North and South Korea, USA and Iran, Middle East. What is for sure is that the two alliances in this war will be on one side US with the NATO countries and on the other side Russia, China, India (and maybe Brazil which all form the BRIC alliance) and Iran. I heard the version that `WW3 will start when a great western personality will be killed`. It seems that Iran issued an arrest warrant [<https://www.thedailybeast.com/iran-issues-warrant-donald-trumps-arrest-on-murder-and-terrorism-charges>] on Donald Trump for the assassination of Soleimani so you never know. As happened in WW1, the pretext to start the war might be again a murdered influential personality.

Rockefeller Foundation Document from 2010 gives a precise insight of the next pandemic

Scenarios for the Future of Technology and International Development (pdf) [<http://www.nommeraadio.ee/meedia/pdf/RRS/Rockefeller%20Foundation.pdf>] is a document released by the Rockefeller Foundation in 2010 predicting the changes that are about to take place in the future. Regarding the actual pandemic, one section gives a highly accurate 10 years old account of the course of the events, which proves once again that everything was executed according to a well defined plan/agenda, fact proven by Event 201 as well. It also proves that the jewish elite that runs the planet is behind this pandemic, as they knew exactly what was following to happen.

LOCK STEP

A world of tighter top-down government control and more authoritarian leadership, with limited innovation and growing citizen pushback

In 2012, the pandemic that the world had been anticipating for years finally hit. Unlike 2009's H1N1, this new influenza strain — originating from wild geese — was extremely virulent and deadly. Even the most pandemic-prepared nations were quickly overwhelmed when the virus streaked around the world, infecting nearly 20 percent of the global population and killing 8 million in just seven months, the majority of them healthy young adults. The pandemic also had a deadly effect on economies: international mobility of both people and goods screeched to a halt, debilitating industries like tourism and breaking global supply chains. Even locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers.

The pandemic blanketed the planet — though disproportionate numbers died in Africa, Southeast Asia, and Central America, where the virus spread like wildfire in the absence of official containment protocols. But even in developed countries, containment was a challenge. The United States's initial policy of "strongly discouraging" citizens from flying proved deadly in its leniency, accelerating the spread of the virus not just within the U.S. but across borders. However, a few countries did fare better — China in particular. The Chinese government's quick imposition and enforcement of mandatory quarantine for all citizens, as well as its instant and near-hermetic sealing off of all borders, saved millions of lives, stopping the spread of the virus far earlier than in other countries and enabling a swifter post-pandemic recovery.

China's government was not the only one that took extreme measures to protect its citizens from risk and exposure. During the pandemic, national leaders around the world flexed their authority and imposed airtight rules and restrictions, from the mandatory wearing of face masks to body-temperature checks at the entries to communal spaces like train stations and supermarkets. Even after the pandemic faded, this more authoritarian control and oversight of citizens and their activities stuck and even intensified. In order to protect themselves from the spread of increasingly global problems — from pandemics and transnational terrorism to environmental crises and rising poverty — leaders around the world took a firmer grip on power.

At first, the notion of a more controlled world gained wide acceptance and approval. Citizens willingly gave up some of their sovereignty — and their privacy — to more paternalistic states in exchange for greater safety and stability. Citizens were more tolerant, and even eager, for top-down direction and oversight, and national leaders had more latitude to impose order in the ways they saw fit. In developed countries, this

heightened oversight took many forms: biometric IDs for all citizens, for example, and tighter regulation of key industries whose stability was deemed vital to national interests. In many developed countries, enforced cooperation with a suite of new regulations and agreements slowly but steadily restored both order and, importantly, economic growth.

(...)

By 2025, people seemed to be growing weary of so much top-down control and letting leaders and authorities make choices for them. Wherever national interests clashed with

individual interests, there was conflict. Sporadic pushback became increasingly organized and coordinated, as disaffected youth and people who had seen their status and opportunities slip away — largely in developing countries — incited civil unrest. In 2026, protestors in Nigeria brought down the government, fed up with the entrenched cronyism and corruption. Even those who liked the greater stability and predictability of this world began to grow uncomfortable and constrained by so many tight rules and by the strictness of national boundaries. The feeling lingered that sooner or later, something would inevitably upset the neat order that the world's governments had worked so hard to establish.

Obviously the pandemic didn't take place in 2012 but I guess **few people know that there was actually a regional coronavirus outbreak in Middle East in 2012** [https://en.wikipedia.org/wiki/2012_Middle_East_respiratory_syndrome_coronavirus_outbreak], which killed around 400 people. For some reason they have probably changed their mind and haven't turned this coronavirus outbreak global. Remember there are 3 pandemics expected to happen. As the time goes, propaganda will

intensify and measures will become more and more aggressive. **Keep in mind this target of 8 million victims in 7 months.** This apparently is expected to happen with the third pandemic. This will be the moment when the present deniers will become believers of the propaganda and everybody doubting the official narrative will face repercussions for their disobedience. As I said above, by law they will deem every single person as suspect of carrying the virus so any dissident, denier and opposer of the official story will be arrested, separated from their family and „imprisoned” in „quarantine centers” so to say, or maybe the concentration camps like the ones owned by FEMA will be receiving inmates by the time. Notice how many people are already agreeing to give up their rights and freedom in exchange for „prevention” of the new „deadly” disease, which in reality is „deadly” only because is deemed so by the brainwashing machine called mass-media. You can see all these manipulated individuals on the socialization platforms, in the streets etc. All signs are pointing right to the direction drawn by Rockefeller Foundation 10 years ago. There is a general acceptance of wearing masks, which is an initial step towards enslavement, a step by which is tested the mass reaction to a mandatory, albeit pointless and unhealthy rule. Scientific research has brought to light that wearing masks on prolonged periods of time has negative effects over the health [<https://jennifermargulis.net/wearing-mask-can-harm-your-health/>]. However people willingly jeopardize their own health in order to comply with a rule that is supposed to stop the spread of a non-lethal and rather soft virus, but the paradox of this matter is that masks have been deemed as inefficient in preventing the virus from entering new hosts [<https://www.theguardian.com/world/2020/apr/07/face-masks-cannot-stop-healthy-people-getting-covid-19-says-who>].

The Venezuela Experiment – generating total chaos in a few days with a major electricity cut

In March 2019 the entire state of Venezuela entered a power cut that lasted around one week. Same youtuber [<https://www.youtube.com/watch?v=ERWgctIThcY>] from above has commented the subject and I will write about what he said since I could not find any information in English. In the video he played another videos with venezuelans recording the streets and you will also see other images during the anarchy and crisis. He labels what happened as a „social engineering experiment” designed to test the mass reaction to a national electricity cut because this seems to be prepared at a global scale in the future. Without electricity basically there is no tap water because the pumps that are pumping and moving the water are working on electricity, schools and hospitals were closed, the supermarkets and all other shops were closed because tills/pay points and lights were working on electricity, cash machines were not working so people's money were blocked in their bank accounts, petrol stations were closed and they were using some pumps fueled with diesel that were used by drivers to top up their cars with petrol since the normal electricity based pumps were not working.

The above image with „Ice Master” is an ice factory where people were gathering to buy ice. Because the refrigerators were not working anymore, people were buying bags of ice to keep their food at cool temperatures inside their refrigerators. In the image there seems to be a queue of cars where people are probably waiting to buy

ice. The youtuber says speculators were selling a bag of ice for \$5 and they were accepting both dollars and the native currency, bolivar, which was and is still extremely inflated as the country was already going through a strong economic crisis. Now in 2020, 1 dollar (USD) worth around 226.000 bolivars (VES). There are images with somebody in a supermarket working on electricity generators (working probably on petrol/diesel or batteries) and the youtuber mentioned about how expensive the products were because of inflation. He was saying that in Venezuela the bolivar was weighed when paying and not counted.

People were not working basically anywhere because of the lack of electricity. In hospitals people have been dying because they could not receive dialysis anymore and also babies were dying in incubators, he was also mentioning about doctors manually ventilating babies for extra oxygen. People were gathering at the closed doors of the hospitals probably concerned about the health of their family members. Politicians at the time were blaming the lack of infrastructure and the rival parties/politicians for this national tragedy, which is obviously typical political manipulation. The civil anger was constantly increasing and people started to break into closed shops, to fire objects and take over entire streets. He says people were collecting contaminated water from a river in Caracas since there was no tap water and that over 100 people died because of this crisis. Some shops were working with cash money without electricity and they were having electricity generators probably petrol/diesel based and for dollars people could charge their mobiles, but obviously at the time most people did not have any money. When the darkness sets, gangs and other people start breaking into buildings to steal food or money. He mentions about a tourist who was visiting Venezuela and four armed persons heard that he is a foreigner visiting the country so they followed him to his motel to kill him and take his dollars. They haven't found him because the security did not know where his room was.

He says that a national electricity cut by accident was impossible because Venezuela has 20 extremely powerful electricity sources, which is normal for one of the most richest countries in petrol in the world. He says the oligarchs have deliberately organised this national power cut to take notes of the human behavior and reaction. Keep in mind all this was happening while Venezuela was going through a devastating economic crisis with inflation and shortage of basic aliments and medicine. In order to fight against the economic collapse, the socialist president Nicolas Maduro has reinforced the venezuelan cryptocurrency „Petro” which was advocated as the best way to attain monetary sovereignty and to fight the economic crisis. The cryptocurrency was to be based in Venezuela's natural resources like petrol, natural gases, gold and diamonds so basically Venezuela was about to sell its natural resources in exchange for Petros which were to be used as an amount of money to invest into and fix the economy. In the end it proved to be a failure.

[<https://bitcoinist.com/venezuela-petro-cryptocurrency-scam-merchants/>]

This is exactly what they prepare for the entire world. First they will use those 3 pandemics to ruin the world economy, then governments will print fiat currencies (dollars, euros, british pounds etc) in desperation to fix the economy, the inflation will increase to the point where people, already poor and unemployed, will barely afford to live anymore. And after this, what will happen is exactly what happened in Venezuela: gangs breaking into houses and to kill people for food and money, shortage of food and medicine, a potential global power cut expected to take place in this period. All this will lead to martial law being imposed all over the world in order to keep the population from hunting down the oligarchs and politicians responsible for this. After this they will start replacing cash money with digital currencies, push mandatory vaccination and microchipping and there would in theory be global chaos and anarchy.

There was and will be a constant lobby for cash money to be completely abolished. We all knew this was part of the jewish agenda but now we know exactly who are the villains, according to the Lew Rockwell Website

[\[https://www.lewrockwell.com/2020/05/no_author/bill-gates-and-his-war-against-cash-are-a-threat-to-our-liberty-economist-warns/\]](https://www.lewrockwell.com/2020/05/no_author/bill-gates-and-his-war-against-cash-are-a-threat-to-our-liberty-economist-warns/):

*A consortium of powerful interests that include **Visa and Mastercard, the International Monetary Fund, billionaire Bill Gates and the US Treasury** have been slowly lobbying for cash to be abolished worldwide and replaced with digital only currencies.*

***Norbert Haering** holds a PhD in economics and is co-founder and co-director of the World Economics Association, the second largest association of economists worldwide. Dr Häring is a financial journalist, blogger and author of popular books on economics.*

His two most recent books covered the campaign to abolish cash. The latest “Schönes neues Geld” (Brave new money) published in German in 2018 just came out in Chinese (...)

Furthermore, Microsoft [<https://nationalfile.com/microsoft-owns-patent-on-cryptocurrency-system-using-body-activity-data/>] owns a technology that allows cryptocurrency mining using human body and brain activity data:

“”Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the

cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified,” according to the patent.”

The „device of the user” is probably a microchip that is connected to the remote server and collects and transfer body and brain information to assess if the given task has been done. Apparently, after this, the system transfer cryptocurrency in the account of the given person, so this is one proved example of how the cashless society of the future will look like. People will be paid with cryptocurrency for their work and then they will use the microchip to pay with this cryptocurrency for everything they will buy in supermarkets or online. It makes it extremely easier for the state to have full control over the population, again being able to turn off the account or microchip of anybody they don't like. We see Bill Gates [<https://www.smartcitiesdive.com/news/bill-gates-is-building-his-own-smart-city-in-arizona/510729/>] involved in shaping this dystopian reality:

„Bill Gates is building his own smart city in Arizona

Bill Gates' investment group Belmont Partners has spent \$80 million on a 24,800-acre plot of land outside of Phoenix with the goal of turning it into a smart city, according to KPNX-TV and others.

Belmont Partners released a statement explaining the community will have a communication and infrastructure spine that embraces cutting-edge technology, designed around high-speed digital networks, data centers, new manufacturing technologies and distribution models, autonomous vehicles and autonomous logistics hubs.”

Genocide, natural disasters, microchipping, famine, global war: All steps are in the bible!

Most here on the forums know already that the bible is the blueprint of the jewish domination over the planet and christianity is the religion used to spiritually and mentally enslave humanity. This is a multi-millennial old agenda, as shown by the ancient jewish Talmud, a book where they claim their supremacy over the planet. If someone is not aware of the above, just pay a visit to Exposing Christianity.

[https://www.satanslibrary.org/ExposingChristianity/EXPOSING_CHRISTIANITY_MAIN.html]

The following verses are extracted from the Revelation book and they pretty much describe what has been stated above.

2:26

”And he that overcometh, and keepeth my works unto the end, to him will I give power over the nations”

This is obviously the jewish „messiah” that will be the ruler of the world government. The christians call this leader „the Antichrist” but obviously most of them are slaves and totally clueless about their own beliefs and they always try to interpret events in a way that fits their own religious views.

4:1

And he that sat was to look upon like a jasper and a sardine stone: and there was a rainbow round about the throne, in sight like unto an emerald.

I only wanted to mention here about the rainbow which is used multiple times in the Revelation book. The rainbow is the symbol of LGBT and since LGBT will be pushed and promoted in the new world order, there will be rainbows all over the place everywhere in the world. I even heard about street crossings to be painted into the LGBT rainbow colors. There might be a subliminal connection with this biblical rainbow.

6:8

And I looked, and behold a pale horse: and his name that sat on him was Death, and Hell followed with him. And power was given unto them over the fourth part of the earth, to kill with sword, and with hunger, and with death, and with the beasts of the earth.

I think it means that 1/4 of the world population will die as a result of famine, war (sword) and pestilence/epidemics which is not mentioned in this translation. All this as you can see is slowly taking place already.

7:2-3

And I saw another angel ascending from the east, having the seal of the living God: and he cried with a loud voice to the four angels, to whom it was given to hurt the earth and the sea,

3 Saying, Hurt not the earth, neither the sea, nor the trees, till we have sealed the servants of our God in their foreheads.

The „seal” is the microchip. The angel ascending from east might mean that the microchip will be developed in China and then exported all over the world. It seems from these verses that 144.000 jews will be the first to receive microchips.

8:5

And the angel took the censer, and filled it with fire of the altar, and cast it into the earth: and there were voices, and thunderings, and lightnings, and an earthquake.

The earthquake mentioned in the Toronto Protocols, also other natural disasters. The „fire of the altar” might represent an alien spaceship that will be manifesting these thunderings, lightnings and the earthquake.

9:4

And it was commanded them that they should not hurt the grass of the earth, neither any green thing, neither any tree; but only those men which have not the seal of God in their foreheads.

The ones who will oppose and refuse the microchip will be punished in a way or another. It further says that „And in those days shall men seek death, and shall not find it; and shall desire to die, and death shall flee from them”. I heard in the communist camps the torturers were taking measures to ensure that the tortured inmates will not commit suicide. So these verses definitely signify that people refusing the microchip will be arrested by „horses prepared unto battle” as the verse goes, which are the police/military forces, and transported to the concentration camps like the FEMA ones mentioned above and tormented while ensuring that they won't commit suicide as stated in the bible.

9:15-16

And the four angels were loosed, which were prepared for an hour, and a day, and a month, and a year, for to slay the third part of men.

And the number of the army of the horsemen were two hundred thousand thousand: and I heard the number of them.

It says 200 million soldiers were prepared for the exact moment when they will be released for war and they will kill 1/3 of the population. The 14th verse says they were bonded on the Euphrates river which means that WW3/the messianic war might start in Middle East. I heard the version that these 200 million soldiers represents actually the Chinese army invading Middle East with tanks, described in the bible as

„horses with the heads of lions, and out of their mouths issued fire and smoke and brimstone”.

11: 13, 19

13. And the same hour was there a great earthquake, and the tenth part of the city fell, and in the earthquake were slain of men seven thousand: and the remnant were affrighted, and gave glory to the God of heaven.

19. And the temple of God was opened in heaven, and there was seen in his temple the ark of his testament: and there were lightnings, and voices, and thunderings, and an earthquake, and great hail.

Again natural disasters. The „temple of God” opening in the heaven seems like an alien spaceship that will cause these anomalies on earth.

12: 7, 9

7. And there was war in heaven: Michael and his angels fought against the dragon; and the dragon fought and his angels,

9. And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him.

Most likely this means that there will be war between the Gods and the reptilians and greys. In the bible they say the reptilians will win the war. It has been mentioned here before that the Gods will intervene in case of events that will be far out of our hands.

13:16-17

16. And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads

17. And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.

Every single person to be microchipped. We have already seen ID2020 and Neuralink of Bill Gates and Elon Musk developing microchips able to store human identities, medical record and so on. Then nobody will be able to buy or sell without microchips, which means that besides personal identity, they will contain the credit/financial information of everybody and this will allow the government to turn off from the main computer the ability to pay with the microchip in case someone is disobedient against the system.

16.18

And there were voices, and thunders, and lightnings; and there was a great earthquake, such as was not since men were upon the earth, so mighty an earthquake, and so great.

The biggest earthquake ever seen by humanity will apparently be engineered as part of the transition to the global government.

21.1-2

1. And I saw a new heaven and a new earth: for the first heaven and the first earth were passed away; and there was no more sea.

2 And I John saw the holy city, new Jerusalem, coming down from God out of heaven, prepared as a bride adorned for her husband.

The „new Jerusalem” is the global government implemented.

I recall a message posted on in January.

So expect the worst. Prepare yourself for the biggest crisis that humanity ever seen. Just think about what crisis will be strong enough to kill 85-90% of the world population. There will be everything from starvation, thirst to diseases, epidemics, people killing each other for a piece of bread, no food in the stores, no petrol available etc. This would happen if the jews will be unstoppable in their plans, which is why we have to spam the Final RTR more than ever.

Do not expect the top jews to get hit by this, they will hide themselves in underground bunkers in Switzerland, USA, Russia and wherever they have. If you google it, you will see how many bunkers have been built in these areas. If I remember right, only in Switzerland there are bunkers that can store up to 20.000 people. Why Switzerland? Because it is a economic paradise of the jews and in case of war, Switzerland was always neutral, being therefore a safe place for the jews to hide.

144.000 jews would rule the "earthly heaven" which is the world government. According to the talmud, every jew will have 2800 slaves, which adds up to about 403 million people, the rest of the humanity would be simply eradicated.

So in case of such crisis, in the worst case, prepare yourself to survive without tap water, electricity, gas, petrol and alimentary shops. Buy yourself blankets, duvets, sheets thick clothes and pillows to keep you warm in the night. Buy yourself sponges, shower gel, wet tissues and towels to clean yourself in the case you won't have shower water. I would rather recommend shower gel instead of soap because the shower gel is creamy and the soap is dry and can be used only in contact with water, which is I wouldn't really recommend in a situation where you have to keep all the water possible for drinking.

IF you can afford photovoltaic solar panels, it might be extremely helpful in providing you with free energy from the Sun. This will allow you to cook food on an electrical cooker and warm up your house with electrical heaters/radiators. If you have these solar panels, you can get yourself foods like rice, pasta and green beans which you can boil and they can resist for very long times if kept in proper conditions. In this case you need to allocate water separately for boiling food.

But if you can't buy solar panels, then you can only get can food which you can eat straight away without having to cook it. Two meals per day for one person might be enough in case of crisis, to avoid starvation. What we cannot estimate is how long would such crisis be. Get yourself food, water and healthcare supply for at least one year. One 2 liters water bottle for one person should be enough in one day. Depending on how many members have your family, buy water to be more than enough for one year.

Buy yourself toilet rolls and adult diapers for toilet needs since there is a possibility that toilet water won't be provided anymore. As I said expect the worst.

Buy yourself hydrogen peroxide (H₂O₂) and distilled water because they'll be extremely important in keeping you healthy. If you do this, is extremely important to read "The One Minute Cure" by Madison Cavanaugh because there are instructions on how to safely use H₂O₂ for health purposes.

DO NOT keep your savings/economies in your bank accounts. In a case of a mass electricity cut and inflation, the numbers that you have in your bank account will be equal to zero. Save your money in paper, coins and especially gold if possible because gold might become the main trade coin in case of inflation. This will be important if stores will be still opened to sell food, water and other stuff, but as I said above, if a crisis of such magnitude will come, people will kill each other for a piece of bread, which is only telling me that there are big chances that you won't find any open shops/supermarkets to sell food or water, but in any case it might help to save money in everything but just don't keep all of them in your bank accounts because in case of economic collapse, the banks will fall first because all the transactions are done via bank transfers. Also an electricity cut will be enough to cut you off from your bank account "money".

Also buy yourself lanterns and batteries in case you'll need light in the night, of even candles with lighters can do. One year is just a number, if you can afford to save up for longer time, do it now as the prices are still low compared to what will be in the future.

Unfortunately everything seems to start taking shape. The biggest question is how will humanity overcome these hard times without getting enslaved? We have done it once with the Renaissance that ended the christian tyranny and somehow we have to do it again.

Hail Satan and all the ancient Gods of humanity!
