

Welcome to McLaren Dental

McLaren Dental is proud to present its comprehensive 2015/16 catalogue.

McLaren Dental is a South Australian owned dental supplies company with over a decade of experience in the dental industry.

We have travelled the world to form partnerships with manufacturers and suppliers of high grade, yet sensibly priced consumables to help your practice save on daily costs.

We strive to provide exceptional service with our friendly staff and easy to navigate website and catalogue, allowing for streamlined order processing.

If you don't see what you need in our catalogue, feel free to contact us and we will do our very best to source it for you.

To our existing and new customers, we look forward to working with you in the future.

Powercut Tungsten Carbide Burs

H31PC 190595 H7PC 190596 H245PC 190597 H31RPC 190594 Pack of 5 \$43.90

PowerCut Carbides offer maximum cutting performance without jamming or catching. The unique cross-cut geometry incorporating an effective cutting angle guarantees maximum cutting performance with a smooth cut, without jamming or catching, even with materials that are difficult to prepare. The high quality tungsten carbide used to manufacture PowerCut burs guarantees longer cutting life.

DiaDent

Steri Bur Block w/ Cover A

Each 837-001 **\$19.90**

Holds 24 Friction Grip (high speed) Burs. Both plastic cover and bur block are Autoclavable. Dimensions: 60 x 45 x 44mm (WxHxD)

DiaDent

Germicide Round Bur Box

Each 915-001 **\$24.90**

Holds 36 Right Angle (Slow speed) Burs. Both plastic cover and bur block are Autoclavable. Dimensions: 60x45x50mm (WxHxD)

CLEANING AGENTS AND DISINFECTANTS

Cleaning Agents/Detergents

Whiteley

Aidal® Plus

5 Litres 10082 **\$52.90**

Aidal® Plus is a stable, odour suppressed, mildly acidic 2% glutaraldehyde based sterilant suitable for use in Hospitals, Dental/Medical Surgeries and Veterinary Hospitals for the Sterilisation and High Level Disinfection of Critical and Semi Critical Medical Devices.

Whiteley

CliniMax

1 Litre 30402 **\$10.90**

5 Litre 30404 **\$31.90**

CliniMax is a mildly alkaline, nonhazardous, multipurpose detergent for Medical and Dental applications. CliniMax can be used for manual and ultrasonic instrument cleaning, equipment cleaning and also for the cleaning of environmental surfaces such as surgical tables, lighting and trolleys.

Whiteley

Instrumax® Pink

500ml Spray 90043 **\$9.90**

5 Litre 90041 **\$39.90**

Instrumax® Pink is a specially formulated instrument grade disinfectant-low level. This fantastic product is the only approved instrument grade disinfectant, low level, within Australia. Instrumax® Pink helps reduce the risk of cross infection and is suitable for numerous applications.

Whiteley

Matrix

1 Litre 132102 **\$29.90**

5 Litre 132104 **\$129.90**

Matrix® is a breakthrough in validated cleaning protocols. Matrix® has been demonstrated to remove conventional biological soils and bacterial biofilms. Bacterial biofilms in which both bacteria and other micro-organisms may be imbedded are more difficult to remove than conventional biological soils alone. Traditional cleaning solutions have been demonstrated to be ineffective against bacterial biofilm soiling.

Whiteley

Medizyme

500ml 131034 **\$13.90**

5 Litre 131042 **\$77.90**

MEDIZYME is a specialised enzymatic detergent solution that is capable of removing blood and other protein deposits. MEDIZYME rapidly solubilises and disperses blood, body tissue, carbohydrates, mucopolysaccharides, lipids and other proteinaceous soils. When combined with physical cleaning, MEDIZYME provides an effective method for cleaning complex instruments.

Whiteley

Viraclean®

500ml Bottle 210574 **\$8.90**

500ml Spray 210564 **\$9.90**

5 Litre 210556 **\$27.90**

Viraclean® passes TGA Option B and kills a broad range of other bacteria including Enterococcus Faecalis (VRE), Acetobacter and Acinetobacter and is also proven effective against Hepatitis B Virus, Herpes Simplex Virus and the Influenza Virus.

Whiteley

Sonidet®

5 Litre 90041 **\$27.90**

Sonidet® is a highly active NEUTRAL liquid detergent specifically designed for both machine and manual cleaning operations in the medical field. Sonidet® is odourless, non-staining and is a safe detergent for the removal of hospital and surgical soils. Its concentrated formula provides rapid cleaning action and effectiveness in hard and soft water.

PDS

Isopol Clear Solution

Clear 5L 34250 **\$35.90**

Blue 5L 34252 **\$35.90**

Hospital Grade disinfectant containing Isopropyl Alcohol 70% for broad spectrum use in surgeries. Hospital Grade, broad spectrum disinfecting agent (bactericide) for use in situations requiring immediate but non-residual action. Active against gram+ve and gram-'ve bacteria.

PDS

NeutraDet Solution

750ml Spray 35301 **\$19.90**

5 Litre 35300 **\$29.90**

Neutral, non-ionic detergent solution for surface and pre-disinfection cleaning. Will not deactivate disinfectants or chemical sterilants. Can also be used in ultrasonic baths to assist cleaning.

PDS

NeutraDet Clear Solution

750ml Spray 35303 **\$18.90**

5 Litre 35302 **\$29.90**

Neutral, non-ionic detergent solution for surface and pre-disinfection cleaning. Will not deactivate disinfectants or chemical sterilants. Can also be used in ultrasonic baths to assist cleaning.

Handwashes

Whiteley

Bactol® Alcohol Gel

500ml	20066	\$11.90
1 Litre	20059	\$22.90

Bactol® Alcohol Gel provides antibacterial hand cleansing without the need for water. It has been specially formulated with a natural emollient to replace the skin's lipids which are removed by alcohol, leaving your hands hygienic, soft and replenished.

Whiteley

Dermalux Everyday

500ml	40092	\$9.90
1 Litre	40147	\$17.90
5 Litre	40098	\$37.90

Dermalux for Everyday Use is a pH Neutral soap for hand and body washing. Dermalux for Everyday Use is mild enough to be used throughout the day and is ideal for frequent hand washing. It is ultra mild with the fragrance of peaches and apricots.

Whiteley

Dermalux Natural

500ml	40182	\$9.90
1 Litre	40183	\$17.90

Dermalux Natural Hand and Body Wash is specifically designed for sensitive and dry skin. Dermalux Natural uses Tea Tree oil as a natural preservative and is pH balanced to maintain skin integrity.

Whiteley

Handisan®

200ml	80072	\$7.90
1 Litre	80074	\$18.90

Handisan® Sanitising Foam is a non-flammable, alcohol free, instant hand sanitiser - kills 99.999% of germs. Handisan® Sanitising Foam contains Lipidure®, a biomimetic moisturiser which leaves hands feeling soft and refreshed.

DIA-PT™ NICKEL TITANIUM

Dia-PTTM File ensures rapid and high quality canal shaping with new cutting efficiency. The difference of Dia-PTTM File nickel-titanium rotary files with a uniform shape can be achieved superior flexibility and precision for successful procedures.

Superior Cutting Efficiency:

Allows stronger and more sharp blades to more deeper in the canal. A triangular cross section reduces contact with the canal wall.

High Flexibility

Offers outstanding flexibility and reduces a user fatigue. Has high corrosion resistance with a coated surface of files

Short Shaping Time

Decreases total shaping time versus a traditional rotary technique. Easily shape in calcified or highly curved canals.

OdontoEDTA is a saturated EDTA solution at a neutral pH. It contains cetrimide at 0.85%.

Dentalife

Pulpdent EDTA 17%

60ml 8791891 **\$25.50**

17% solution of EDTA buffered to a neutral Ph. Used to facilitate instrumentation of canals.

Medicaments

DiaDent

DiaPex Plus

Regular Kit 1001-501 **\$33.00**

Premixed Calcium Hydroxide + Iodoform paste for root canal treatment. Temporary root canal filling material after a pulpectomy. Ideal for the treatment of infected root canal and for vital pulpotomies in deciduous teeth.

Benefits

Quiets "Hot Abscess"
Disinfects canal
Promotes Apexification
Radiopaque
Antibacterial

Regular Kit

2g of paste
20 disposable tips

DiaDent

DiaPaste

Regular Kit 1001-401 **\$33.00**

Premixed Calcium Hydroxide + Barium Sulfate paste for root canal treatment. Temporary root filling. Root canal filling for primary teeth. Use after pulp extirpation treatment. Filling on the pulpotomy. Temporary Pulp Capping.

Benefits

Water Soluble: Easy to clean & remove, reduce operative time
Easy and quick access.

Regular Kit

2g of paste
20 disposable tips

ADM

Odontocem

Liquid 10ml ODCL **\$39.00**

Powder 8g ODCP **\$66.00**

Odontocem powder and liquid are mixed to form a calcium silicate (calcium sulphate, calcium hydroxide and calcium phosphate) based cement liner for use as a calumative liner in deep cavities, pulp capping of vital exposures and for deciduous pulpotomies.

ADM

Odontocide

Paste 8g OC8 **\$66.00**

Odontocide contains 20% calcium hydroxide and 7% ibuprofen. Odontocide is combined with a non-steroidal analgesic to assist in reducing the incidence of post operative sensitivity. Calcium hydroxide pastes, whilst having the advantage of being effective against bacteria in biofilm, however, they have an increased incidence of post-operative sensitivity.

ADM

Odontopaste

Paste 8g OC8G **\$88.00**

Odontopaste is a zinc oxide-based root canal paste with 5% clindamycin hydrochloride and 1% triamcinolone acetonide. Formulated to ensure colour remains white over time. Can be used as an alternative to Ledermix. **Odontopaste comes in an 8 gram tube.**

ADM

Odontoprep

Paste 15g OPR15G **\$33.00**

Odontoprep contains mandelic acid and EDTA in a water soluble gel. Designed to be used in conjunction with Odontopaste, Odontoprep makes for an excellent lubricant for endodontic files. Odontoprep is a completely water-soluble gel which allows for maintenance of vision especially when using endodontic microscopes. **Odontoprep is available in an 15 gram tube.**

Pulpdent

Pulpdent Paste

3ml Paste 8791880 **\$31.90**

Kit 8791889 **\$44.85**

Pulpdent Paste is a calcium hydroxide methylcellulose pulpal dressing. Used for vital pulp therapy, pulpal healing, dentin bridge formation and root canal therapy. It is indicated for direct pulp capping, pulpotomy and pulpal curettage procedures, and it is used routinely as an antimicrobial intracanal dressing between office visits to disinfect root canals and prevent flare-ups.

Kit Contains:

3ml Syringe Pulpdent Paste, 24 dispenser needles

Vitality Testing

ADM

Frostbite

248ml FB248 **\$17.50**

Frostbite attains temperatures approaching -55°C. Frostbite is designed to be sprayed directly onto a cotton pellet and placed onto a tooth with tweezers.

H & W

Miracold Spray

225ml HW554213 **\$24.50**

Miracold Spray attains temperatures approaching -50°C. Miracold Spray is designed to be sprayed directly onto a cotton pellet and placed onto a tooth with tweezers.

Obturation

DiaDent

Paper Points

MMPP is marked to provide preliminary guidance in measuring the root canal depth before proceeding clinically with the application of the Gutta Percha Points.

These points are highly absorbent and color coded to identify ISO tip sizes.

DiaDent

DIA-Kondensor

4 Piece Set 551-191 **\$155.00**

Having both a nickel-titanium end and a stainless steel end, it can be used in any common endodontic obturation technique including warm and cold condensation. Excellent durability. Convenient use with color-coding on the condensers. Lightweight and comfort design

DiaDent

DiaProseal

Kit Contains
6.5g of base
9.5g catalyst
1 Mixing Pag
1 Spatula

Kit 1003-201 **\$59.90**

The ideal root sealer with Low Shrinkage reduces gap between the sealer and canal wall. Low solubility makes it resistant to breaking down over time. Fast and Easy Preparation and Less Waste. Excellent flow properties allow it to reach and seal lateral canals, making it especially suited to warm gutta-percha methods. Offers 1 hour working time and 7-hour setting time.

Benefits:

- 1:1 paste to paste manual mixing system.
- Fast and Easy Preparation and Less Waste.
- Mixing and handling is very smooth
- Low risk of cytotoxicity with short setting time.
- Better biocompatibility for a solution to the sensitivity and periapical inflammation.
- High radiopacity
- Lightly coated Gutta Percha Points with a good film thickness
- Alternative product to AH-26

Obturation Devices

DIAPEN Cordless Warm Vertical Compaction Device

DiaDent

Regular Kit

4002-1001

\$1,195.00

DiaPen has the optimum functionality and quality and is fully proven effective for the downpack obturation system.

Techniques

- **Softening** the root canal filling material (Gutta Percha Points) during the root canal treatment
- **Spreading** the root canal filling material (Gutta Percha Points) laterally and vertically
- **Cutting** the root canal filling material (Gutta Percha Points)
- **Compacting** the root canal filling material (Gutta Percha Points) using with the heat

Features

- Excellent result with warm and vertical compaction for all canals including lateral canals. DiaPen offers reliable results with tightly sealed root canals
- Cordless, Ergonomic and Lightweight design make it easy for handling, cleaning and storage
- Quick heating tip reaches high level of temperature within one (1) second to save treatment time
- Color-coded pen tips are available in various sizes (#XF, F, FM, M, ML) for easy identification
- Three temperature settings (High, Medium, Low)
- Simple operation

Kit Includes

DiaPen Handpiece & Charger
Silicone Coverx2
Power Adapter & Cord

Pen Tips
#F - included Endo stops x1
#FM - included Endo Stops x1

DIAGUN Cordless backfill Obturation Device

DiaDent

Regular Kit 4001-100 **\$1,195.00**

DiaPen has the optimum functionality and quality and is fully proven effective for the downpack obturation system.

Features

- Cordless and Compact Design allows complete freedom of movement
- Reliable Gutta Percha Filling to the desired level without delay
- Fast and continuous flow of filling tightly seals the canal
- Variable Temperature Settings (160°C, 180°C, 200°C): precise control of obturation flow
- Quick Heating System: temperature reaches 200°C within 25 seconds
- Ergonomically designed 360°C Swivel Needle offers improved access
- Thinner needle can easily fill the narrow root canal

Kit Includes

DiaGun Handpiece & Charger	Disposable Gun Tips 23G x4
Safety Cap x3	Multipurpose wrench

Micro Torches

McLaren Dental Butane Torch

Torch MD200 **\$24.90**

- Features an adjustable high BTU output flame.
- Constructed of hi-tech polymers provides a sturdy, yet lightweight feel.
- The internal brass and ceramic parts ensure precision operation and long life.

ADM Handy Can

215ml HDY215 **\$11.40**

Handycan is a convenient way of recharging small portable gas burners commonly used in dental surgeries. Handycan comes with its own set of adaptors allowing it to be used on most popular flame torches. Handycan gas has been deliberately odourised to ensure detection in the event of a leak. **215ml can.**

Ventti Universal Butane Gas Can

300ml VENTTI01 **\$9.90**

Ventti gas contains near zero impurities for a pure, clean fill every time. Ventti Gas is odorless and double scrubbed for purity. The cap is fitted with 6 different nozzle sizes to ensure the right fit for your lighter or torch.

Accessories

DiaDent DIA-GP Gauge

Blue 781-001 **\$19.90**

Designed to size a perfect master cone from any Gutta Percha Points. Drop it into the apical size and cut off with a blade. Autoclavable Dimensions: 92 × 3 × 20mm (W × H × D)

DOCHEM Endo Ruler 6

Steel 1A9250 **\$8.90**

Stainless-steel endo ruler.

DiaDent Endo Stop Dispenser

Dispenser 701-000 **\$19.90**

Contains 120 Assorted Round stops. Easy to use. Features ruler for measuring.

DiaDent Endo Stop Dispenser

Endo Stops 701-291 **\$9.90**

Directional type 120 Stops and Assorted colors packed in a plastic box. These endo stops can not be used with ENDO STOP DISPENSER. **120 pcs.**

DiaDent Helix Organiser

Red 806-103 **\$39.90**

Blue 806-104 **\$39.90**

Ideal for Organizing Helix Files. Holds 10 Helix Files. Removable insert for Cleaning. Dimensions: 50 × 50 × 45mm (W × H × D)

DiaDent Steri Endo Guard W/Ruler

Yellow 716-203 **\$15.90**

Blue 716-206 **\$15.90**

Holds 16 NiTi Rotary Files. Right or left hand use. Available to insert sponge to clean or hold files. Diameter: 75mm, Height: 35mm.

DiaDent

Small Round Type B

Red	802-003	\$24.90
Blue	802-004	\$24.90

Ideal for Organizing Hand Files. Holds 20 instruments. Removable Insert for Cleaning. Diameter: 40mm, Height: 60mm

DiaDent

Small Combi Type E

Each	816-050	\$35.00
------	---------	----------------

A Compact Organizer for Hand & Rotary Files. Holds 72 Endo Instruments. Removable Insert for Cleaning. Dimensions: 105 × 52 × 44mm. (WxHxD)

DiaDent

Small Combi Type G

Each	816-070	\$35.00
------	---------	----------------

A Compact Organizer for Hand & Rotary Files. Holds 48 Endo Instruments. Removable Insert for Cleaning. Dimensions: 105 × 52 × 44mm. (WxHxD)

DiaDent

Endo Grip (Mini)

Each	833-001	\$14.90
------	---------	----------------

Commonly Used for Cleaning Files. Holds sponge or gauze. Available in Blue. Diameter: 40mm, Height: 35mm

DiaDent

Endo Cleaner

Open	834-001	\$14.90
------	---------	----------------

Commonly Used for Cleaning and sterilizing Files. Top unscrews for easy replacement of Gauze. Diameter: 40mm, Height: 30mm.

ADM

Odontohex

1 Litre	ODOHEX1	\$26.50
5 Litres	ODOHEX5	\$112.50

Odontohex is a 2% chlorhexidine gluconate solution for use as an endodontic file cleaning solution. Odontohex is available in five and one litre containers. One activation of the pump system dispenses sufficient chlorhexidine for the Odontostand well.

ADM

Odontostand

Each	OSTNDB	\$39.90
------	--------	----------------

Odontostand is engineered to withstand repeated exposure to extreme heat and pressure. It comes with a three-year guarantee against damage from autoclaving

DOCHEM

Endo Sponge

50pcs	1A2505	\$14.90
-------	--------	----------------

Endo Sponge are round foam pieces suitable for the storing and cleaning of files during endodontic procedures. Foams can be autoclaved if necessary.

ADM

Endodontic Foam PVP. Autoclavable up to 137 degrees. **Pack of 49.**

Hygenic

Wedjet

Extra Small	8442044	\$39.90
-------------	---------	----------------

Small	8442042	\$39.90
-------	---------	----------------

Large	8442040	\$39.90
-------	---------	----------------

Wedjets Cord is a faster, easier method of retaining dental dam than stainless steel clamps. Wedjets is a stretchable cord made from natural latex rubber. This cord is placed like dental floss to hold the dental dam in place during treatment. Wedjets can reduce patient trauma and discomfort caused by metal clamps.

Rubber Dam

Ivory

Curing Lights

D-LUX Cordless Curing Light

DiaDent

Regular Set

4004-1001

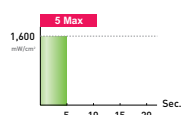

\$495.00

D-Lux is a new advanced cordless LED curing light. Made from the highest quality aluminum, D-Lux dissipates heat quickly to prevent overheating problem so that it can produce the maximum light intensity safely and consistently.

Features

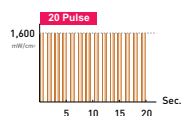

- OLED panel: unique and advanced one-button control
- A high intensity of 1,600 mW/cm² offers extremely short curing times of no more than 5 seconds
- Cordless, highly portable and lightweight (only 155g)
- Unique ergonomic design: provides comfortable grip and easy-to-read OLED panel
- Durable one-piece aluminum design is robust and easy to disinfect
- High-performance lithium ion battery technology:
- A new fully charged battery provides 160 x 10-second cures
- OLED panel conveniently indicates battery life and a countdown timer for the next needed charge
- Battery can be fully recharged in 90 minutes
- 5 versatile curing modes for every indications
- Easy to change the battery pack
- **2 YEAR Full Replacement Warranty for mechanical faults!**

Five Curing Modes

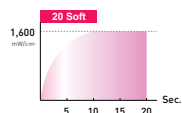

5 Max:

Maximum light intensity output for 5 seconds

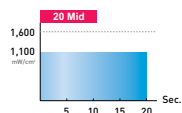

20 Pulse:

Pulses every 0.15 seconds for 20 seconds at maximum light intensity

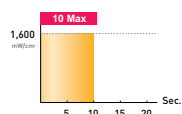

20 Soft:

An initial 10% output of maximum light intensity that gradually increases to full power in 10 seconds, followed by 10 seconds output at full power

20 Mid:

70% output of maximum light intensity for 20 seconds

10 Max:

Maximum light intensity output for 10 seconds

Kit Includes

Lux L LED Curing Light

DTE

Regular Set

LUX.L

\$129.00

Features

- 220 degrees head rotation.
- Disposable sleeve: Save autoclaving time.
- Easy-to-change battery.
- Automatic memory. Avoid setting frequently.
- Stable output of light intensity, the solidification effect is not affected by the consumption of remaining power.
- Efficient transfer from electricity into light. A full charge can be used more than 400 times continuously under 10s working time.
- **1 YEAR Full Replacement Warranty for mechanical faults!**

LED B Dental LED Curing Light

Woodpecker

Regular Set

AC-H2

\$149.00

An ergonomically designed, lightweight cordless curing light with 4 different time settings. It also features an automatic sleep mode which turns the unit off if unused for 3 minutes.

Features

- Ergonomically designed
- Lightweight
- Cordless sealed handpiece
- 4 time settings: 5, 10, 15 and 20 seconds
- Automatic sleep mode
- Low standby power consumption with 70 days' standby time
- Large capacity battery. A full charge can be used for more than 500 times continuously under 10s working time mode.
- Full charging time: 4-6 hours
- Constant light intensity
- **1 YEAR Full Replacement Warranty for mechanical faults!**

Ultrasonic Cleaners

Ultrasonic Cleaner - 3L

Codyson

Regular Set CD-4830 **\$199.00**

High quality Codyson digital ultrasonic cleaner built to the highest quality with German TUV approval. Ideal for use for dental instruments, jewelry, tattoo instruments, precision machinery, lab equipment, silver, brass, copper, gold, etc.

Features

- 3L stainless steel USU304 and corrosion resistant compartment
- Strong 36,000Hz frequency
- 3 colour LED display
- Ceramic heating element with 5 temperature settings up to 65 degrees
- Adjustable timer from 1 to 30 minutes
- Solution usage timer
- Industrial grade moisture proof PCB
- Overheat protection and radiator fan increases the life of the unit
- Quiet operation
- Basket and compartment shield for ease of removal of items from the compartment
- Stylish appearance with viewing window

Ultrasonic Cleaner - 6L

Codyson

Regular Set CD-4860 **\$299.00**

High quality Codyson digital ultrasonic cleaner built to the highest quality with German TUV approval. Ideal for use for dental instruments, jewelry, tattoo instruments, precision machinery, lab equipment, silver, brass, copper, gold, etc.

Features

- 6L stainless steel USU304 and corrosion resistant compartment
- Tank size: 32.3 x 20.5 x 9.9cm
- Strong 35,000Hz frequency
- 2 colour LED display
- Ceramic heating element with 5 temperature settings up to 65°C
- 2 industrial grade ultrasonic transducers (2 x 70W=140W)
- 2 ceramic heaters (2 x 80W=160W)
- Adjustable timer from 1 to 30 minutes
- Working status indicators
- Degas feature
- Industrial grade IC and moisture proof PCB
- Overheat protection and radiator fan increases the life of the unit
- Quiet operation

In healthcare, nothing is more important than maintaining a clean and safe environment. Whiteley Medical understands this and for over 82 years has been manufacturing innovative products that clean and disinfect to international standards. Whiteley Medical is a global leader with a strong reputation for high standards in manufacturing, distribution and technical support. As Australians, our business remains committed to

innovation in technology and service towards the Medical Industry.

Whiteley Medical is the only TGA licensed plant of its kind in Australia. Whiteley Medical offers a range of products suitable for creating a clean and safe environment in the dental practice setting. These products include surface cleaners, disinfectants, instrument cleaners and hand hygiene products.

DiaDent®

DiaDent is a leading manufacturer and exporter of dental materials, consumable supplies, instruments and other dental products used by dental professionals. DiaDent develops and manufactures the highest quality endodontic products and other dental products since 1985.

Aspirating Tips

McLaren Dental Sterile Disposable Aspiration Tip

Pack of 20 1A5160 **\$29.90**

Sterile tips designed for aspiration during surgical procedures. Made from plastic with coloured removable tip. Tip diameter: 2.5mm; Aspiration tip diameter: 4.8mm. Comes in individual sterile packaging (EO gas). Each box contains 1 adapter (11mm and 16mm).

Steriblue Steritip Sterile Surgical Aspirator

Box of 20 681001 **\$54.90**

Perfectly adapted for endodontics and implantology. 2.5 mm opening for very precise aspiration. Individual, sterile wrapping. Single use. 2 aspiration diameters 2.5 mm with the tip provided and 4.8 mm without tip. 2 double autoclavable adapters 11mm and 16 mm.

DOCHEM Disposable Surgical Aspirator Tips

1/4" 6.4mm	1A5190	\$9.90
1/8" 3.2mm	1A5192	\$9.90
1/16" 1.6mm	1A5193	\$9.90

Made from sturdy medical grade material. Angled curve design for increased patient comfort. 30 degree angle. Tips are designed to fit all high-volume evacuation systems. May be used for cheek retraction during procedures (will not bend). **25 pcs.**

DOCHEM Disposable Surgical Aspirator Vented

3/8" 1A5194 **\$9.90**

Made from sturdy medical grade material. Angled curve design for increased patient comfort. 30 degree angle. Tips are designed to fit all high-volume evacuation systems. May be used for cheek retraction during procedures (will not bend). **25pcs.**

Saliva Ejectors

McLaren Dental Saliva Ejector Clear

100pcs 1A5100 **\$3.90**

High quality latex-free saliva ejectors. Easy to use with rust resistant alloy wire (brass coated) forms easily to desired shape. Comfortable soft, round, pliable tip. Bonded non-removable tips. **100pcs.**

Crosstex Saliva Ejector Clear

Blue Tip	50108	\$6.60
White Tip	50109	\$6.60

Crosstex Premium Saliva Ejectors provide optimal suction without aspirating tissue. They have a soft, non-removable tip which has been bonded to the tube for maximum patient safety. **100pcs.**

Evacuation Tips

McLaren Dental Evacuator Tips

Non Vented	1A5150	\$3.90
Vented "S"	1A5151	\$3.90

High quality latex-free evacuation tips. Reduce splatter with ideal efficiency of 45 degree angled tip. Unique "S" tip for maximum patient comfort with no sharp edges. Straight handle allows for increased control and direct access to working area. **100pcs.**

Crosstex Evacuator Maxvac Combo

White	711230	\$6.60
Blue	711231	\$6.60
Green	711232	\$6.60
Pink	711233	\$6.60
Purple	711234	\$6.60
Yellow	711235	\$6.60

Crosstex MaxVac Plus Combo Tips are available in 6 colours with a unique "S" tip design which eliminates any sharp edges for maximum patient comfort. They are also two tips in one with a vented end on one side and a non-vented end on the other. **100pcs.**

McLaren Dental Suction Tip Sleeves

10pcs 1A5154 **\$7.95**

Made from soft silicone material. Autoclavable. Fits all standard evacuation tips to increase patient comfort. **100pcs**

DOCHEM HVE Suction Tubes

16mm Blue 1A5155-ANB **\$19.90**

High quality latex-free HVE suction tips. Autoclavable. Curved for easier placement. **50pcs.**

Triplex Air/Water Tips

DOCHEM Disposable Air/Water Triplex Tips

100pcs 1A6877 **\$19.90**

High quality top-lock safe disposable tips with metal inner core. Interchangeable with most metal tips. No adapter required. Separates air and water lumen. **100pcs.**

Cleaners

Whiteley

Matrix

1 Litre	132102	\$29.90
5 Litre	132104	\$129.90

Matrix® is a breakthrough in validated cleaning protocols. Matrix® has been demonstrated to remove conventional biological soils and bacterial biofilms. Bacterial biofilms in which both bacteria and other micro-organisms may be imbedded are more difficult to remove than conventional biological soils alone. Traditional cleaning solutions, most notably enzymatic detergent cleaners, have been demonstrated to be ineffective against bacterial biofilm soiling.

Steriblue

Bluebrush Aspirator Cleaning Brushes

Bag of 6	681003	\$10.90
----------	--------	----------------

BlueBrush Standard are perfect for cleaning aspirators as they are fine and flexible. Maximum brush width 15mm. They are also autoclavable. **Bag of 6.**

Cattani

Pulse Cleaner

Each	110501	\$109.90
------	--------	-----------------

Used to mix and aspirate Pulijet PLUS through the suction system, the Pulse Cleaner breaks up deposits on the inner walls of suction tubes by creating air-fluid turbulence.

Cattani

Funnel Spittoon

Non Vented	110510	\$19.90
------------	--------	----------------

Fits into both the 11mm and 17mm terminal.

Cattani

Antifoaming Disinfectant Tablets

Box of 50	110502	\$69.90
-----------	--------	----------------

Destroys foam in the suction system and releases a disinfectant throughout the working day.

Foam is an enemy to your suction system. Although correct cleaning procedures should not allow for the introduction of foam, blood under negative pressure does foam. Antifoaming disinfectant tablets destroy foam and release a disinfectant whenever fluids pass through the filter. Regular use will help to prevent damage to your suction system caused by foam. **Box of 50 Tablets.**

Lubricants

Cattani

LubriJet Spray Lubricant

150ml	110503	\$20.40
-------	--------	----------------

Designed to increase the life of rubber and plastic components in the suction system. Recommended for use on O`rings and connections. May also be used on articulators and hinged instruments.

Cattani

Pulijet Plus

1 Litre	110511	\$58.90
---------	--------	----------------

Daily disinfection of your suction system is vital to keep suction lines clean and maintain your system's equipment and pump. Puli-jet Plus NEW's strength as a disinfectant means that it kills bacteria, helping to maintain a safer work environment."

Puli-Jet Plus is a commercial grade disinfectant designed for use with semi wet, wet and dry suction systems. 1 litre makes 100 doses. Being a super concentrate Puli-Jet is easier to use, store & handle. The dispensing nozzle fitted in the lid allows for easy measurement and dispensing of the liquid.

Gloves

The wide thumb ball area combined with Ansell's soft latex formulation ensures greater comfort and less hand fatigue. **40 Pairs.**

Alginate

Cavex

Impressional Alginate Normal Set

500g 96 **\$16.90**

Normal setting chromatic alginate with spearmint flavour. Indicated for removable prosthesis, study models, antagonists in fixed and removable prostheses. Unique combination of high elasticity and tear resistance. Detail reproduction 25 µm. Dustfree. Set Time: 1½ minutes. Excellent for the stiff alginate technique and the alginate - hydrocolloid combination technique.

Cavex

Impressional Alginate Fast Set

500g 97 **\$18.90**

Fast setting chromatic alginate with spearmint flavour. Indicated for removable prosthesis, study models, antagonists in fixed and removable prostheses. Unique combination of high elasticity and tear resistance. Detail reproduction 25µm. Dustfree. Set Time: 1 minute. Excellent for the stiff alginate technique and the alginate - hydrocolloid combination technique.

Cavex

Colour Change Alginate Fast Set

500g 344 **\$18.90**

The alginate with virtual intelligence. Colour changes are visualizing the major decision points in impression taking. Setting time 1 min. 9 days dimensional stability, 9 days without shrinking. Innovative reaction mechanism. Rapid hardening reaction. Highly elastic, ideal for orthodontics. Good tear and deformation resistance. Detail reproduction at least 50 micron. Dust free.

Cavex

Orthotrace Alginate Extra Fast Set

500g 313380 **\$18.90**

Cavex Orthotrace Extra Fast Set Alginate is tuned to the needs of orthodontic practices and the orthodontic lab. Natural smell of fruit encourages biting. Extra fast set (2.1 min incl. mixing). Fast water absorption, for easy and dust-free mixing into an paste without lumps. Highly elastic and high tear strength, so impression can easily be removed from mouth without tearing and can be cast twice. High consistency/solid body simplifies the making a complete impression with high muco-buccal fold. 50µm detail reproduction.

ZHERMACK

Tropicalgin

453g AC-V16 **\$12.90**

Fast setting chromatic alginate with tropical flavour. Designed for removable prosthesis, study models, antagonists in fixed and removable prostheses. Fast water absorption. Easy mixing. Homogenous mass, smooth, compact surfaces. Long impression storage. 5-year guarantee. Three-phase chromatic alginate. Fast working and setting time. Dust free.

Bite Registration

Cavex

SiliconA Bite

2x 50ml 313051 **\$81.90**

The a-silicone bite registration material that is "Perfect the first time – every time" Superior hardness of Shore D 40. Working time & Setting time of 30 seconds, resulting in a procedure of just 1 minute. Highly Thixotropic; stays exactly where you want it to be. Perfectly suitable for CAD/CAM scanning, without powder. The highly filled material is very easy to trim with a scalpel or grinder. Easily distinguishable lavender colour. Included Bite Registration tips enable a consistent, even layer of material.

Parkell

Blu-Mousse

Classic Set 8750310 **\$84.90**

Ac Super-fast 8750311 **\$84.90**

Precision bite registration is only the beginning. Featuring: Exceptional accuracy. Plaster-like hardness (85-durometer: Blu-Mousse® only). Dependable, no-slump consistency. Choice of setting speeds.

ZOE

Cavex

Outline Light Body Impression Paste

Paste 615030 **\$42.90**

Eugenol free impression paste. Individual tray technique for edentulous jaws and rebasing of a prosthesis. Blue and white paste with a fine structure. Homogenous paste within 30 seconds mixing. Low viscosity for an accurate impression. Flows under light pressure. Pleasant odour.

SS White

Impression Paste

Set 9531950 **\$19.90**

The original Zinc Oxide and Eugenol Impression paste. Designed for full impressions. Undergoes no dimensional change.

Contains: 1 x 150g zinc oxide paste 1 x 60g eugenol paste, mixing pad.

Addition Silicones

Cavex

SiliconA

Soft Putty Yellow	313054	\$98.90
Heavy Body Green	313055	\$64.90
Light Body Blue	313056	\$64.90

The latest generation A silicone impression material. Addition silicone with long term dimensional stability. Precise reproduction of finest details. Suitable for single-step sandwich and two-step double impressions technique. No inhibition of polymerisation due to optimal platinum catalyst system. Surface active additive showing superior hydrophilic properties resulting in voids free impressions. Regular set allows maximum working adaptability. Shelf life of 3 years. Ideal matched thixotropic consistencies. Soft putty yellow. Heavy body monophase green. Injection type blue. **Contains 313054 - 2x250ml 313055/6 - 2x50ml.**

Bukwang

DuoSil Light Body Normal Set

4x50ml	HDI012	\$49.90
--------	--------	----------------

DuoSil Light Body is a light viscosity polyvinyl siloxane (PVS) material used for very accurate capturing of details in the mouth. Commonly used in a dual phase technique where the light body is placed onto prepped tooth and soft tissues and the impression taken with a medium or hard body in the impression tray. Can also be used for precise duplication of models, capturing multiple unit impressions and other impression techniques requiring light body material.

Contains 4 x 50ml Cartridges.

Bukwang

DuoSil Regular Body Monophase Fast

4x50ml	HDI013	\$49.90
--------	--------	----------------

DuoSil Regular Monophase is a medium viscosity polyvinyl siloxane (PVS) material used for very accurate capturing of details in the mouth. Ideal for taking impressions of inlay, crown, bridge and dentures. Commonly used in a dual phase technique where the light body is placed onto prepped tooth and soft tissues and the impression taken with a medium or hard body in the impression tray. Can also be used for precise duplication of models, capturing multiple unit impressions and other impression techniques requiring medium body material.

Contains 4 x 50ml Cartridges.

Bukwang

DuoSil Heavy Body Tray Fast Set

4x50ml	HDI014	\$49.90
--------	--------	----------------

DuoSil Tray is a heavy viscosity polyvinyl siloxane (PVS) material used for very accurate capturing of details in the mouth. Commonly used in a dual phase technique where the light body is placed onto prepped tooth and soft tissues and the impression taken with a medium or hard body in the impression tray. Can also be used for precise duplication of models, capturing multiple unit impressions and other impression techniques requiring heavy body material. **Contains 4 x 50ml Cartridges.**

Bukwang

DuoSil Putty Set 1kg

2x500g	HDI016	\$89.90
--------	--------	----------------

DuoSil Putty is an elastomeric impression material. It is a hydrophilic addition reaction silicone that allows for highly accurate impression of the oral tissues. Very easy to handle and has low deformation. Ideal for impressions of inlays, crowns, bridges and partial dentures.

Contains 1 x 500g Base 1 x 500g Catalyst.

Bukwang

DuoSil Putty Hard Set

2x450g	HDI017	\$84.90
--------	--------	----------------

DuoSil Putty Hard is a dental impression material used commonly for model duplication and laboratory use.

Contains 1 x 450g Base 1 x 450g Catalyst.

Bukwang

DuoSil Gum Elastic

2x50ml	HDI018	\$59.90
--------	--------	----------------

Dentistry elastomeric impression material used for model duplication. An addition reaction PVS for accurate gingival reproduction on models.

Contains 2x 50ml.

Zhermack

Elite HD+ Putty Soft Normal Set

2x250ml	MD008	\$129.90
---------	-------	-----------------

Very high viscosity A-Silicone for fixed prostheses. Suggested technique: two-stage with standard trays. Orange Colour. **Contains 2x 250ml.**

Zhermack

Elite HD+ Light Body Normal Set

2x50ml	MD009	\$49.90
--------	-------	----------------

Hydrophilic low viscosity A-silicone for fixed prostheses. Suggested technique: two-stage or single-stage technique with two viscosities with Elite HD+ Tray Material or Elite HD+ Maxi Tray Material. Light viscosity. **Contains 2 x 50ml Cartridges, 12 x Mixing Tips.**

Condensation Silicones

Cavex

Stabilil

Activator Paste	30	\$43.90
Putty	313030	\$48.90

The latest generation c-silicone impression material. 7-Day dimensional stability. Variable setting time. No inhibition. Thixotropic wash material. Intra-oral snap set. Excellent detail reproduction. Colour contrast green wash/white putty. Elastic and tear resistant. Wash and activator 3 years shelf life. **Activator Paste 60ml, Putty 900ml.**

Zhermack

Zetaplus Impression Kit

Kit	AC-V14	\$149.00
-----	--------	-----------------

Zetaplus Soft Putty 900ml

Very high viscosity C-Silicone for Two-stage technique or single-stage technique with two viscosities. Reduces mucous compression in the phase of insertion in the oral cavity. Excellent hardness after setting. Variable working and setting times according to catalyst quantity (Indurent gel).

Oranwash VL 140ml

Low viscosity C-Silicone. Flowable consistency. Perfect flowability in the gingival sulcus. Hydrophilic. Blue colour

Indurent Gel 60ml

Red gel for homogeneous mixing control. Single catalyst for all Zhermack clinical C-silicones and technical.

Contents
1 x 900ml Zetaplus Soft Putty
1 x 140ml Oranwash VL
1 x 60ml Indurent Gel
1 x Mixing Pad

Denucord is available in a knitted type cord, which has better absorbency and expansion than braided or twisted types. Denucord is made with 100% cotton, which is safe and makes moisture control effective without gingival irritation. Denucord is dyed with hydrophilic dye without whitening agents, making it safe to use without any side effects. Bobbin design which the gingival retraction cord is spooled on, helping it stay tangle free and provides convenience and swiftness in use and decreases the chances of contamination. Smart Ruler on the label, letting you measure the required length, simple and accurate. Easy Cut cutting blade in the case, so the cord can be easily cut, keeping it hygienic. It is convenient and also decreases the chances of contamination. Clear Window that makes checking the remaining length of the gingival cord easy. **Each.**

Tray Adhesives

ADM

Attach2

60ml Bottle	ATT2B	\$34.90
215ml Spray	ATT2C	\$34.90

Attach2 is an alginate tray adhesive suitable for most types of alginates. Attach2 contains no toxic aromatic compounds as solvents. Attach2 was designed to dry almost immediately when sprayed on impression trays. This means that cohesive failure of the Attach2 adhesive resin is minimised and the alginate can be placed in the tray almost immediately. Attach2 is available in a 60ml bottle with brush integrated within the cap or 200gram aerosol container.

ADM

Black Magic Polyether

60ml Bottle	BMGB	\$34.50
-------------	------	---------

Black Magic is a polyether tray adhesive suitable for all types of polyether impression materials. Black Magic has minimal toxic solvents and can be used with Impregum or Permadyne Impression materials. Black Magic comes with a brush integrated within the cap. Comes in a 60ml bottle. **Qty 1.**

H&W

Miratrax

225ml Spray	HW554210	\$49.90
-------------	----------	---------

Miratrax Adhesive Spray is a high quality super-adhesive spray, for stronger adherence of the impression material to the impression trays. It is suitable for all types of impression materials. **Qty 1.**

ADM

Vector VP Tray Adhesive

60ml Bottle	VP60B	\$35.90
-------------	-------	---------

VectorVP is a silicone tray adhesive suitable for all types of silicone impression materials. Vector VP has an extremely safe solvent-base with minimal aromatic solvents. Vector VP comes with a brush integrated within the cap. 60ml bottle. **Qty 1.**

Cavex

Alginate Tray Adhesive

14ml Bottle	313099	\$21.90
-------------	--------	---------

Improves both physically and chemically the adhesion between impression tray and alginate impression material. Cavex Alginate Adhesive is exclusively developed for use in combination with alginate impression material. **Qty 1.**

ADM

DZolve Tray Adhesive Thinner

100ml Bottle	DZLV100	\$19.90
--------------	---------	---------

DZolve can be used to thin down tray adhesives that have thickened. DZolve was specifically designed for ADM tray adhesives. So, if you leave the cap off accidentally or if your adhesive thickens for whatever reason DZolve will bring it back to life. **Qty 1.**

Waxes

Investo

Bite & Boxing Wax

500g Stick INW130 **\$39.90**

Investo Bite & Boxing wax is a softer wax used for bite registration which offers excellent stability. A soft wax which is red in colour. The sheet size is 160mm x 80mm, and thickness 1.5mm.

DiaDent

Modelling Wax

500g Box 940-040 **\$18.90**

High quality modelling wax. Very aesthetic pink colour. Used for Pros and Bite registration. Provides sufficient stability for base plate. Remains solid and stable in the mouth and room temperature. Dimensions: 170 x 1.4 x 100mm (W x H x D).

Ainsworth

Modelling Wax

500g Box AIW042 **\$24.90**

A general all-purpose wax for set-ups, bite rims and try ins. Medium hardness and pink in colour. Sheet size 170mm x 90mm thickness 1.5mm.

Investo

Modelling Wax

500g Box INW100 **\$26.90**

Investo Modelling Wax is Australia's most popular modelling wax - and with good reason! It is ideal for set-ups, bite rims and try ins. It is a medium hardness wax and pink in colour. The sheet size 160mm x 80mm and a thickness of 1.5mm.

Cavex

Set-Up Modelling Wax

500g Box 313060 **\$19.90**

The modelling wax of choice. The unique well balanced composition makes Cavex Set up Wax easy to work with. Size: 18.6 x 8.9 cm.

DiaDent

Utility/Periphery Wax

250g Box 940-021 **\$18.90**

Used to build a bank along the tray. Has superior flexibility. Diameter: 5mm, Height: 315mm.

Ainsworth

Periphery Wax Soft

100g Box AIW075 **\$32.90**

Light blue wax sticks used to expand the periphery of the impression tray. Soft and easily moulded. Stick size 150mm (L) x 7mm (D).

Ainsworth

Periphery Wax Hard

100g Box AIW076 **\$32.90**

Dark blue wax sticks used to expand the periphery of the impression tray. Firm and stable. Stick size 150mm (L) x 7mm (D).

DiaDent

Sticky Wax Beige

100g Box 940-010 **\$18.90**

Made of superior resins and wax. Used for the temporary joint in denture repair works. Easy to scrape off dentures after plaster cast is made. Diameter: 7mm, Height: 80mm.

Ainsworth

Eziset Wax Sticks Medium

Box of 48 AIW058 **\$28.00**

Preformed bite rims for setting teeth into. Medium hardness and pink in colour. Stick size 125mm x 10mm thickness 10mm.

Ainsworth

Sticky Wax

Box of 31 AIW059 **\$74.90**

Box of 8 AIW060 **\$19.90**

Ideal wax for denture repairs - acts like glue, holding the denture in place for repair. Sets to a brittle consistency when dry. Medium hardness and yellow in colour. Stick size 100 x 10mm, 10mm thick.

Cavex

Soft Wax Sticks

Box of 20 313061 **\$43.90**

Soft wax in sticks mainly used for blocking out undercuts and adjusting edges of impression trays. The wax is flexible and easy to model. It can be modelled at room temperature. Product has a 5 year shelf life.

Tray Cleaners

DENU

Tray Cleaner

1kg Pack HDI011 **\$24.90**

Metal Tray Cleaner with Alginate decomposing Agent. The strong alginate-decomposing agent naturally melts away alginate off the trays without the brushing.

ADM

Detach Solvent

100ml Bottle DTCH100 **\$22.90**

215ml Aerosol DTCH215 **\$27.90**

Need a solvent to remove tray adhesives from impression trays? Now with ADM's "DETACH" you need not look any further. DETACH will remove polyether, polysulphide, polyvinyl siloxane and alginate tray adhesives. DETACH comes in a handy 100ml bottle and a 215ml Aerosol and is used by simply applying a small amount to a piece of gauze and gently rubbing the impression tray.

ADM

DryNoAL

1kg Box NoALD1 **\$29.90**

DryNoAL is an effective powdered formulation for the cleaning of alginates from impression trays. It contains a combination of chalking agents which, when dissolved in water, remove the hard-to-get-at alginate found in used impression trays. DryNoAL is safe to use on stainless steel and plastic impression trays and contains biodegradable ingredients making it safe for the environment.

ADM

NoAL

1L NoAL1 **\$35.90**

5L NoAL5 **\$143.00**

NoAL is a concentrated dental tray cleaner. It is suitable for all types of trays and will remove most stubborn deposits quickly. NoAL contains chelating agents that are medically safe. NoAL is diluted to a 1:10 ratio so one litre will go a long way.

Ainsworth

Orange Solvent

200ml AIOSL-200ML **\$29.90**

The classic cleaning solution which easily removes alginate and other impression materials and plasters from impression trays, hands and other surfaces.

Ainsworth Dental

CLINICAL

Barrier Products

135x280mm	YSP-135280	\$17.90
190x360mm	YSP-190360	\$23.90

Easy Identification of contents through the transparent medical film. The YK certified film improves medical film and flexibility when in use. The 60GSM, and 70GSM Paper offers a superior barrier against contamination prior to use. Accurate, Contrasting obvious indicators: Steam, EO Gas, Formaldehyde. All imprints are positioned outside the actual packing area to prevent ink contamination reaching the products. Strong, Durable, stable multi-line seals. Clean Fibre-free opening of packs, with clean peel making sure the safety of the products. All Material complies with international standards, and making sure that the products has evidence of every details. **200pcs.**

Sterilisation Monitoring

Yipak

Bowie-Dick Test Pack

Each	YBD	\$5.50
------	-----	---------------

Pre-assembled Bowie-Dick test pack for detection of defects in the sterilisation process. Easy to read test sheet with detailed instructions for use and interpretation of results. Small size (115mm x 125mm) for ease of handling and storage. External process indicator for ready identification of ready test packs.

Yipak

Sterilization Indicator Strip

200pcs	YSIS-15100	\$12.50
--------	------------	----------------

Class A indicator strips. Indicator changes to blue after sterilisation process. Conforms to EN867 and ISO 11140 standards.

Austmel

TITEMS Monitor HP

2000pcs	142100	\$110.00
---------	--------	-----------------

Titems Monitors HP (High Precision) are a class 4 chemical indicator designed for use in steam sterilisers, providing an integrated response to defined combinations of time, temperature and presence of moist saturated steam. These attributes are monitored to a point that is well in excess of biological spore kill where upon the indicator spot will change to black.

Austmel

TITEMS Emulator

250pcs	142102	\$64.90
--------	--------	----------------

The Titems Diagnostic Class 6 Emulator is designed for use in steam sterilisers, providing an integrated response to various defined combinations of temperature, time and pressure and the presence of steam. Titems Diagnostic Emulators provide an easily identifiable visual confirmation of correct sterilization conditions within the steriliser chamber, in addition to aiding in the detection of a variety of sterilizer malfunctions and human factor occurrences. A Titems Diagnostic Emulator exceeds the performance of a biological indicator at the stated temperature.

Ongard

Sterilisation Pouch

57x102mm	4560175	\$10.50
90x130mm	4561000	\$11.90
70x230mm	4560500	\$13.50

Well Built, Rigid, Sterilizing Container. Features Locking System, Fits many sterilizing units. Holds 10 Endo Instruments. Dimensions: 185×35×145mm (W×H×D).

DOCHEM

Germicide Tray

Each 1A6706 **\$29.90**

Used for cold sterilisation of instruments and small accessories. Efficient high-volume germicide tray designed for maximum use of chemicals to clean/disinfect/sterilize instruments. Designed with perforated basket with retractable handle. Instruments in basket are immersed into disinfection solution. Easy loading and unloading. Dimensions: 263×72×115 mm (W×H×D).

DiaDent

Container (Sterilizing) Type B

Each 824-002 **\$89.90**

Well Built, Rigid, Sterilizing Container. Features Locking System, Fits many sterilizing units. Holds 18 Endo Instruments. Dimensions: 185×35×286mm (W×H×D).

DiaDent

Flat Tray (Sterilizing) Type A

Blue 827-001 **\$12.90**

Sterilizing Tray. Ideal for Operatory Instruments. Anodized Aluminium. Dimensions: 200×20×105mm (W×H×D)

DiaDent

Instrument Tray Type A Perforated

Each 826-001 **\$39.90**

Holds 10 Instruments. Ideal for Instrument Sterilization. Perforations Facilitate Sterilization & Drainage. Dimensions: 190×35×150mm (W×H×D).

DiaDent

Flat Tray (Sterilizing) Type B

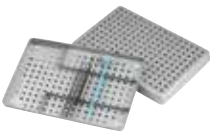

Red 827-002 **\$10.90**

Sterilizing Tray. Ideal for Operatory Instruments. Anodized Aluminium. Dimensions: 180×10×100mm (W×H×D)

DiaDent

Instrument Tray Type B Perforated

Each 826-002 **\$49.90**

Holds 16 Instruments. Ideal for Instrument Sterilization. Perforations Facilitate Sterilization & Drainage. Dimensions: 280×35×180 (W×H×D).

DiaDent

Sterilizing Drum Large

Each 828-002 **\$39.90**

Diameter: 115mm, Height: 100mm. Autoclaving burs & smaller instruments Drainage.

DiaDent

Germicide Tray

White 711-001 **\$44.90**

Used for Cold Sterilization. Easy & Safe to handle. One Large & One Small compartment. Easy loading and unloading. Dimensions: 263×72×115mm (W×H×D).

DiaDent

Germicide Round Bur Box

Each 915-001 **\$24.90**

Contains perforated insert for drainage. Practical & Durable. 1xBasin bowl 1xPerforated insert 1xCover. Diameter: 75mm, Height: 35mm

DiaDent

Germicide Tray Type B

Blue 711-106 **\$49.90**

Efficient high-volume germicide tray designed for maximum use of chemicals to clean/disinfect/sterilize instruments. Dimensions: 350×150×250 mm (W×H×D).

DOCHEM

Bur Mesh Holder

Each 1A6728 **\$3.90**

Ideal for small items like burs, files, etc. Perfect for pre-cleaning sterilisation and use in ultrasonic baths. 5cm diameter and spring action ensures the basket is shut securely.

Accessories

PDS Anti Rust Powder

500g 34351 **\$20.90**

Used to prevent rusting of metallic instruments during prolonged exposure to cleaning and disinfectant solutions.

Integra Instrument Stain Remover

85g 392740 **\$10.90**

Removes stains and tarnish and restores lustre to instruments, trays, sterilizers and ultrasonic cleaners. Ideal for use on stainless steel, chrome, nickel, brass, copper and silver.

Integra Surgical Instrument Lubricant

240ml 392700 **\$10.90**

Pre-mixed, non-silicone and anti-corrosive formula in a ready to use 240ml spray pump bottle. Steam permeable and water soluble. Helps prevent spotting, staining and rusting. Lubricates instrument box locks, screw locks, scissors blades and any other metal on metal moving parts

Cleaning

Integra Instrument Cleaning Brush

Nylon 392100 **\$14.90**
Steel 392200 **\$14.90**

Manufactured for quality cleaning, these brushes are fully autoclavable. Nylon bristles for effective cleaning of instrument box locks. Stainless steel bristles for cleaning serrations. Autoclavable.

McLaren Dental Metal Bur Brush

Each MD016 **\$7.70**

Adjustable and autoclavable. Metal Bur Brush.

Whiteley Instrumax® Pink

500ml Spray 90043 **\$9.90**
5 Litre 90041 **\$30.93**

Instrumax® Pink is a specially formulated instrument grade disinfectant-low level. This fantastic product is the only approved instrument grade disinfectant, low level, within Australia.

Stones and Plasters

Ainsworth

Yellowstone

20kg Bag	AIYS20B	\$109.90
20kg Pail	AIYS20p	\$119.90
5kg Pail	AIYS5P	\$44.90

Ainsworth Yellowstone with its super smooth pouring, excellent hardness and a very low setting expansion make this the ideal dental stone for most laboratory processing tasks. Ainsworth Yellowstone is a modern classic, trusted by thousands of professionals for its unique physical properties. It sets to a smooth, shiny surface and offers minimal splintering when grinding. No wonder it is Australia's favourite dental stone.

Ainsworth

Superwhite Plaster

20kg Bag	AISWP20B	\$85.90
20kg Pail	AISWP20P	\$89.90
5kg Pail	AISWP5P	\$39.90

Ainsworth Super White Plaster is a medical grade superfine, extra white and strong plaster for study models and orthodontic work.

Ainsworth

Bluestone

20kg Bag	AIBLS20B	\$109.90
20kg Pail	AIBLS20P	\$119.90
5kg Pail	AIBLS5P	\$44.90

Ainsworth Bluestone is a hard type III dental stone with excellent properties for general purpose model making. It is easy to pour and grind.

Ainsworth

Dental Plaster

20kg Bag	AIDP20B	\$49.90
20kg Pail	AIDP20P	\$59.90
5kg Pail	AIDP5P	\$19.90

Ainsworth Dental Plaster is a high grade economy plaster ideal for all general laboratory work. It offers low expansion, excellent positioning, and hard & smooth edges when set to enable easy trimming & sanding for an excellent finish

Ainsworth

Pinkstone

20kg Bag	AIPDS20B	\$114.90
20kg Pail	AIPDS20P	\$125.90
5kg Pail	AIPDS5P	\$49.90

Ainsworth Pink Diestone is an extra hard type IV die stone. It is ideal for crown, bridge & chrome work due to its high accuracy of fit as a result of a low setting expansion. It is very smooth & a very hard surface.

Ainsworth

Diamond Rock

5kg Pail	AIDR5P	\$84.90
----------	--------	----------------

Ainsworth DiamondRock is the new standard in scannable Ultra-Hard Die Stones. It offers a class leading hardness and wear resistance thanks to extremely high transverse and compressive strengths. It mixes easily with a low water content, pours cleanly and offers a long working time and a rapid setting time. It also has an ultra-low setting expansion of just 0.07%. Nothing else comes close for accuracy and strength. Ainsworth DiamondRock is ideal for all crown and bridge work, and also suitable for other work when maximum accuracy is required.

Ainsworth

Orthostone

20kg Bag	AIOS20B	\$109.90
20kg Pail	AIOS20P	\$119.90
5kg Pail	AIOS5P	\$44.90

Ainsworth Orthostone is used for orthodontics casts and study models. It is easy to mix, has a good fluidity and is harder than ordinary orthodontic plaster. It is easy to grind & polish. It has a shiny, ultra-white surface.

PDS

Finale Solvent

15ml	34465	\$9.50
1 Litre	34460	\$35.50

Finishing solvent for smoothing the trimmed edges of mouthguards, impression trays and splints. Use Finishing solvent for the smoothing of trimmed edges on mouthguards, impression trays and splints for improved patient comfort and acceptance.

Ainsworth

Buffstone

20kg Bag	AIBUS20B	\$109.90
20kg Pail	AIBUS20P	\$119.90
5kg Pail	AIBUS5P	\$44.90

Ainsworth Buffstone is ideal for laboratory processing. It has a popular cream colour, good hardness, good fluidity and low expansion.

Waxes

Investo

Bite & Boxing Wax

454g Stick INW130 **\$39.90**

Investo Bite & Boxing wax is a softer wax used for bite registration which offers excellent stability. A soft wax which is red in colour. The sheet size is 160mm x 80mm, and thickness 1.5mm.

Ainsworth

Periphery Wax Soft

100g Box AIW075 **\$32.90**

Light blue wax sticks used to expand the periphery of the impression tray. Soft and easily moulded. Stick size 150mm (L) x 7mm (D).

DiaDent

Modelling Wax

500g Box 940-040 **\$18.90**

High quality modelling wax. Very aesthetic pink colour. Used for Pros and Bite registration. Provides sufficient stability for base plate. Remains solid and stable in the mouth and room temperature. Dimensions: 170 x 1.4 x 100mm (W x H x D).

Ainsworth

Periphery Wax Hard

100g Box AIW076 **\$32.90**

Dark blue wax sticks used to expand the periphery of the impression tray. Firm and stable. Stick size 150mm (L) x 7mm (D).

Ainsworth

Modelling Wax

500g Box AIW042 **\$24.90**

A general all-purpose wax for set-ups, bite rims and try ins. Medium hardness and pink in colour. Sheet size 170mm x 90mm thickness 1.5mm.

DiaDent

Sticky Wax Beige

100g Box 940-010 **\$18.90**

Made of superior resins and wax. Used for the temporary joint in denture repair works. Easy to scrape off dentures after plaster cast is made. Diameter: 7mm, Height: 80mm.

Investo

Modelling Wax

500g Box INW100 **\$26.90**

Investo Modelling Wax is Australia's most popular modelling wax - and with good reason! It is ideal for set-ups, bite rims and try ins. It is a medium hardness wax and pink in colour. The sheet size 160mm x 80mm and a thickness of 1.5mm.

Ainsworth

Eziset Wax Sticks Medium

Box of 48 AIW058 **\$28.00**

Preformed bite rims for setting teeth into. Medium hardness and pink in colour. Stick size 125mm x 10mm thickness 10mm.

Cavex

Set-Up Modelling Wax

500g Box 313060 **\$19.90**

The modelling wax of choice. The unique well balanced composition makes Cavex Set up Wax easy to work with. Size: 18.6 x 8.9 cm.

Ainsworth

Sticky Wax

Box of 31 AIW059 **\$74.90**

Box of 8 AIW060 **\$19.90**

Ideal wax for denture repairs - acts like glue, holding the denture in place for repair. Sets to a brittle consistency when dry. Medium hardness and yellow in colour. Stick size 100 x 10mm, 10mm thick.

DiaDent

Utility/Periphery Wax

250g Box 940-021 **\$18.90**

Used to build a bank along the tray. Has superior flexibility. Diameter: 5mm, Height: 315mm.

Cavex

Soft Wax Sticks

Box of 20 313061 **\$43.90**

Soft wax in sticks mainly used for blocking out undercuts and adjusting edges of impression trays. The wax is flexible and easy to model. It can be modelled at room temperature. Product has a 5 year shelf life.

Prosthetics

Briteguard

Mouthguard Square Clear

1mm	290000	\$19.90
1.5mm	290001	\$19.90
2mm	290002	\$19.90

Briteguard EVA mouthguard material provides maximum choice of colour combinations, is easy to use in clinical practice and has been protecting mouths for a generation. The superior moulding and composition properties make it easier to trim and finish. **10pcs.**

Separators

Ainsworth

Separating Medium

500ml	AISM-500ML	\$19.90
1 Litre	AISM-2L	\$39.90
5 Litre	AISM-5L	\$69.90

Ainsworth Separating Medium is a versatile separating solution which can be painted on to form a separating barrier between the plaster and the acrylic in the flask.

PDS

Thermosplint Soft

1mm	34455	\$38.90
2mm	34456	\$38.90

PDS Thermosplints are for the preparation of bleaching trays. 10 splints per pack. All 2mm and 1mm blanks are soft. Sheets measure 128x128mm. **10pcs.**

Ainsworth Dental

CLINICAL

Couplings & Adaptors

ADM

Multitech Oiling Adaptor

Kavo Handpieces & E-Type Slow Speed

Each MTOA-KAVO **\$17.50**

NSK Handpieces

Each MTOA-NSK **\$17.50**

W&H Handpieces

Each MTOA-W&H **\$17.50**

ADM's MULTITECH adaptors are compatible with most of the popular handpieces including W&H Highspeed, NSK Highspeed, all E-type slow speeds and our patented dual high and slow speed adaptor suitable for Kavo handpieces – one adaptor fits both the highspeed and slow speed handpieces. All MULTITECH adaptors will fit existing aerosol based lubricating oil cans.

Astek

Pegasus Handpiece Lubricant

500ml 990201 **\$19.90**

Quick/Intra 990202 **\$10.90**

Multiflex 990203 **\$14.90**

Pointed 990204 **\$14.90**

Pegasus Handpiece Lubricants are excellent value and can be used with all types of handpieces. Available separately is a choice of 3 metal, precision engineered nozzles. These are **Quick/Intra** for use with handpieces with an E-fitting connection, **Multiflex** for use with Multiflex type handpieces and **Pointed** for use with turbines and air motors with fixed connections. Pegasus Handpiece Lubricants are non-toxic and non-allergenic, have no odour or taste and have a good wetting capacity to cover all internal moving parts. Pegasus Handpiece Lubricants are heat resistant, do not evaporate and are autoclavable up to 135 degrees.

Maintenance & Accessories

ADM

Technic Oil

Standalone - 500ml aerosol

Each TOS500 **\$24.90**

Jerry Can - Automated Oiling Machines

Each TOF **\$46.90**

ADM's TechnicOil is a universal handpiece lubricant. The oil is low in esters and therefore minimises any damage or plasticization to rubber components. TechnicOil is available in a 500ml jerry can for use in automated oiling machines and in a 500ml aerosol can for use with Multitech Adaptors.

PDS

Rotagen Aerosol Can

350g 36350 **\$22.90**

High-pressure aerosol lubricant spray for High and Low Speed Handpieces and Air motors. Contains an Ultra-Pure autoclavable lubricating solution which is stable under High Temperature and Pressure and leaves no residue. Suitable for use with all dental handpieces and air turbine machines. Safe, non-toxic spray that can be used pre and post sterilisation procedures. Withstands autoclaving (steam sterilisation).

ADM

Technic Clean

1 Litre TCL **\$43.90**

TechnicClean is ADM's handpiece cleaner that can be used in conjunction with the Technic Oil in automated handpiece cleaners to ensure that saliva and blood are thoroughly removed. Technic Clean contains a combination of alcohols and highly specific detergents to maximise the reduction of the bacterial load within the handpiece. Available in a one litre jerry can container.

Water Line

Blu Tab

BluTab Waterline Tablet

750ml 221001 **\$47.90**

2 Litre 221002 **\$61.90**

BluTab is specially formulated to be continuously present in your water lines and to keep lines clean. An effervescent tablet is added to a self-contained water bottle each time it is refilled. Weekly shock treatments are not necessary. Purging water lines at the end of the work day is not necessary. Achieving clean water can be that easy.

Fluoro Disclose Gel

30ml 33605 **\$19.90**

Fluorescein 0.7% stained plaque will glow when activated by "black" neon lighting or blue wavelength light. For staining of dental plaque on tooth surfaces where the patient may be unable to remove the stain after demonstration or may not wish to have erythrosine (red) staining of plaque.

Fissure Sealants

DiaDent

DiaSeal

Regular 2001-5101 **\$55.00**

Refill 2001-5201 **\$22.00**

Designed for sealing enamel pits and fissures to prevent caries. UDMA series monomer and Nano-filler offers high flowability, excellent wear resistance and strength. Optimal viscosity to flow easily and helps for easy application. Ensures hygienic and easy delivery and outstanding versatility. High visual verification during application.

Kit: Sealant 2 syringes × 1.2ml, Etchant 2 syringes × 1.2ml, 10 disposable needle tips for Dia-Seal, 10 disposable needle tips for Dia-Etch.

Refill: Sealant 1.2ml Syringe, 5 disposable needle tips for Dia-Seal.

Fluoride Products

PDS

Chlorofluor Gel

30ml 35530 **\$11.90**

250ml 35532 **\$23.90**

100ml Pump 35533 **\$18.90**

Chlorhexidine helps control plaque and eases localised gingival and oral infections. Also used as an aid to oral hygiene after surgical procedures or jaw fixation. Used to control plaque growth on removable prosthodontic or orthodontic appliances.

PDS

Chlorofluor Mouthrinse

250ml 35500 **\$16.50**

1 Litre 35535 **\$54.90**

Chlorhexidine and Fluoride mouth rinse for use in the treatment of oral gingival infections and plaque control. Helps increase resistance to dental caries.

Laclede

Fluoride Foam 165ml

Apple Cinn 704000 **\$55.00**

Punch 704001 **\$55.00**

Grape 704002 **\$55.00**

Candy mint 704003 **\$55.00**

Bubble Gum 704004 **\$55.00**

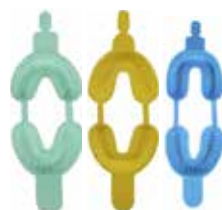

Berry 704005 **\$55.00**

Mallow 704006 **\$55.00**

Laclede Fluoride Foam contains no thickening agents but is actually a liquid. Thousands of bubbles continuously collapse on the tooth surface, releasing fluoride and ensuring maximum fluoride coverage. This unique formula eliminates the inherent problems of traditional gel formulas. Less gagging as there is no drip from the tray.

McLaren Dental

Disposable Fluoride Foam Trays

Large 1A5940 **\$9.90**

Medium 1A5941 **\$9.90**

Curaprox 5460 Toothbrushes

Curaden Swiss

Each	CS5460	\$5.20
Pack of 36	CS5461	\$176.90

More than 5460 ultra-fine compact tufted CUREN bristles form an effective, durable and exceptionally gentle bristle surface. The individual ultra-fine bristles reach even the most difficult areas of gum and teeth. A regular toothbrush has less than 500 thick bristles, over 10 times fewer bristles compared with the CS 5460. With fewer bristles cleaning efficiency is less. Bendable neck allows for angulation to reach difficult areas. Elegant octagonal handle for perfect manipulation whilst brushing at every angle. CS 5460 PRIME "ultra-soft" (Curen 0.10 mm thin!). This is the ultimate toothbrush. It cleans better, softer and will NOT hurt your gums.

Curasept Toothpaste .05%

Curaden Swiss

Each	ADS705	\$7.95
------	--------	---------------

Curasept Toothpaste with 0.05% sodium fluoride and 0.05% chlorhexidine for daily use. With our patented ADS (Anti Discolouration System) - so no staining of the teeth, gums or tongue. Especially suited to patients with orthodontic appliances or bands but recommended to all as an excellent every day toothpaste. An ideal gel/toothpaste containing NO sodium lauryl sulphate ("SLS"). Recommended where the patient is using chlorhexidine mouthwashes. Chlorhexidine will adhere to the patient's gums and teeth for up to 12 hours doing its job. SLS is a detergent-like substance which washes the chlorhexidine away - something we definitely do not want to happen. SLS is an ingredient in most commonly available toothpastes. SLS is also often associated with the formation of aphthous ulcers - again something to be avoided. **75ml.**

Curasept Toothpaste .12%

Curaden Swiss

Each	ADS712	\$7.95
------	--------	---------------

Curasept gel/toothpaste with 0.12% Chlorhexidine Digluconate. An ideal gel/toothpaste containing NO sodium lauryl sulphate ("SLS"). Recommended where the patient is using chlorhexidine mouthwashes. Chlorhexidine will adhere to the patient's gums and teeth for up to 12 hours doing its job. SLS is a detergent-like substance which washes the chlorhexidine away - something we definitely do not want to happen. SLS is an ingredient in most commonly available toothpastes. SLS is also often associated with the formation of aphthous ulcers - something to be avoided. **75ml.**

Curasept Gel .50%

Curaden Swiss

Each	ADS350	\$12.50
------	--------	----------------

All Curasept chlorhexidine products are alcohol free, non-staining and they will not affect your taste perception. They offer excellent protection and improved efficacy through better patient compliance. Curasept gel is a free flowing 0.50% chlorhexidine gel. Curasept 0.50% chlorhexidine gel in a 30ml tube. Our gel is smooth flowing and easy to use. It is, of course, non-staining and alcohol free. Popular with Periodontists and general dentists alike. Chlorhexidine is the gold standard in chemical plaque control. For application in the spaces between your teeth. No need to rinse afterwards. **30ml.**

Curasept Chlorhexidine Rinse .20%

Curaden Swiss

Each ADS220 **\$11.50**

For intensive use - up to two weeks non-stop use. Rinse 10ml twice per day for one minute. If still needed after two weeks, take one week's break and then use again for the two week non-stop use. Mild mint flavour and pH 6.2 protects tooth enamel. Alcohol and sugar free. Our strongest and most popular rinse. Do not drink black coffee, tea or red wine for 30 minutes after use. **200ml.**

Curasept Chlorhexidine Rinse .12%

Curaden Swiss

Each ADS212 **\$11.50**

To be used for up to 6 weeks non stop use. Rinse 10ml twice per day for one minute. If still needed after six weeks, take one week's break and then repeat the process. Do not drink black coffee, tea or red wine for 30 minutes after use. Our mid strength rinse at 0.12% chlorhexidine. Always use Curasept Gel/Toothpaste with your Curasept mouthwash. Curasept Gel/Toothpaste does not contain Sodium Lauryl Sulphate, a detergent-like substance which will wash out the chlorhexidine in your mouthwash. Remember that Curasept contains no alcohol and does not stain your teeth, gums or tongue. And you will still be able to taste your food. **200ml.**

Curasept Chlorhexidine Rinse .05%

Curaden Swiss

Each ADS205 **\$11.50**

A daily rinse. All Curasept chlorhexidine rinses are alcohol free, non-staining and they will not affect your taste perception. They offer excellent protection and improved efficacy through better patient compliance. In other words, if it doesn't hurt and if it doesn't stain without any loss of performance, then patients will use it. ADS 205 contains not only 0.05% Chlorhexidine but also 0.05% Sodium Fluoride. This enables long term use. In the low concentrations fluoride and chlorhexidine can be combined together to provide a powerful mouthwash. Use Curasept Gel/Toothpaste in conjunction with your Curasept mouthwash. **200ml.**

Prophylaxis

Ainsworth

Prophylaxis Paste

200g	AIPP	\$15.90
------	------	----------------

A spearmint flavoured prophy paste ideal for cleaning and polishing the teeth. The splatter-free formula offers enough initial abrasion to remove discolourations and stains, and will gradually become less coarse in the mouth to facilitate final polishing of the tooth surface. Ideally suited for use in conjunction with rotary bristles, brushes or rubber prophy cups.

Crosstex

Prophy Paste Jar Sparkle

Mint	711240	\$10.90
------	--------	----------------

Crosstex Sparkle Prophy Paste is a gluten free prophy paste formula with Xylitol. It contains 1.23% Fluoride Ion and is a spatter free formula that leaves no residual grit. Cleans and polishes - maximum stain removal with minimal enamel loss. Available in pleasing mint flavour with coarse grit.

Ceramics 3 Å BK 86	520084	\$41.90
Frictions 3micron (BK 87)	520085	\$41.90

Arti-Spot is a contact colour for testing the accurate fit of crowns, inlays, on lays, telescoping crowns and clasps and the friction surface of debris. **15ml Can.**

Bausch

Arti-Spray - Occlusion Spray

White BK 285	520095	\$44.90
Red BK 286	520096	\$44.90
Blue BK 287	520097	\$44.90
Green BK 288	520098	\$44.90

Arti-Spray is a universal colour indicator to test the occlusal contacts and accurate fit of crowns and bridges. Arti-Spray is easy to handle and leaves a thin coloured film which can easily be removed with water, leaving no trace of residues. **75ml Can.**

Bausch

Bio-Ink Intra-Oral-Ink

Green BK 209	520089	\$44.90
--------------	--------	----------------

Bausch Intra Oral Ink = BIO Ink green is also used to mark sore spots on the gum. BIO-Ink is a highly viscous, aqueous solution containing green food dye. It can be applied directly to the oral mucosa using a cotton pellet. The sore spot on the gum is gently marked. After replacing the denture, a green contact mark can be detected on the lower side of the denture showing the area to be adjusted. **15ml Can.**

Bases/Cements/Liners

DiaDent

DiaPex Plus

Regular Kit 1001-501 **\$33.00**
Premixed Calcium Hydroxide + Iodoform paste for root canal treatment. Temporary root canal filling material after a pulpectomy. Ideal for the treatment of infected root canal and for vital pulpotomies in deciduous teeth.
Regular Kit: 2g of paste, 20 disposable tips

DiaDent

DiaPaste

Regular Kit 1001-401 **\$33.00**
Premixed Calcium Hydroxide + Barium Sulfate paste for root canal treatment. Temporary root filling. Root canal filling for primary teeth. Use after pulp extirpation treatment. Filling on the pulpotomy. Temporary Pulp Capping.
Regular Kit: 2g of paste, 20 disposable tips

ADM

Odontocem

10ml Liquid ODCL **\$39.00**
8g Powder ODCP **\$66.00**
Odontocem powder and liquid are mixed to form a calcium silicate (calcium sulphate, calcium hydroxide and calcium phosphate) based cement liner for use as a calumative liner in deep cavities, pulp capping of vital exposures and for deciduous pulpotomies. Odontocem is eugenol and turpene-free with no zinc oxide chemistry. Can be used for direct pulp capping.

ADM

Odontocide

8g Tube OC8 **\$66.00**
Odontocide contains 20% calcium hydroxide and 7% ibuprofen. Odontocide is combined with a non-steroidal analgesic to assist in reducing the incidence of post-op sensitivity.

ADM

Odontopaste

Paste 8g OC8G **\$88.00**
Odontopaste is a zinc oxide-based root canal paste with 5% clindamycin hydrochloride and 1% triamcinolone acetonide. Formulated to ensure colour remains white over time. Can be used as an alternative to Ledermix.

SS White

Zinc Cement

32g Yellow 992232 **\$15.90**
32g White 992233 **\$15.90**
15ml Liquid 992234 **\$14.90**
Zinc oxyphosphate cement for cementation and use as a base liner.

ADM

Odontoprep

Paste 15g OPR15G **\$33.00**
Odontoprep contains mandelic acid and EDTA in a water soluble gel. Designed to be used in conjunction with Odontopaste, Odontoprep makes for an excellent lubricant for endodontic files. Odontoprep is a completely water-soluble gel which allows for maintenance of vision especially when using endodontic microscopes.

Pulpdent

Pulpdent Paste

3ml Paste 8791880 **\$31.90**
Kit 8791889 **\$44.85**
Pulpdent Paste is a calcium hydroxide methylcellulose pulpal dressing. Used for vital pulp therapy, pulpal healing, dentin bridge formation and root canal therapy. It is indicated for direct pulp capping, pulpotomy and pulpal curettage procedures, and it is used routinely as an antimicrobial intracanal dressing between office visits to disinfect root canals and prevent flare-ups.
Kit Contains: 3ml Syringe Pulpdent Paste, 24 dispenser needles.

Pulpdent

Lime Lite Cavity Liner

Each 8791882 **\$44.90**
Lime-Lite Light Cure Cavity Liner Contains Hydroxyapatite in a urethane dimethacrylate resin Fluoride Releasing Radiopaque Sooth Shade specially formulated for use with adhesives, composites and conventional restorative materials. Releases favourable calcium, hydroxyl, fluoride and phosphate ions. Light Cure base/liner, sets extremely hard. Chemically bonds to adhesives and composites. Calcium and hydroxyl ions provide benefits of calcium hydroxide. Stimulates secondary dentin formation.

Ongard

Resin Bonded Cement

40g Powder 9538505 **\$35.90**
15ml Liquid 9538510 **\$35.90**
Ongard Resin Bonded Zinc Oxide Eugenol cement features a reinforcing polymer incorporated into the powder. This gives the cement the strength to resist condensation forces and to ensure adequate life when used as a temporary filling. By incorporating the reinforcing agent in the powder instead of the liquid, the mixing properties are excellent. Can be easily removed when used in a temporary situation.

Vitrebond Glass Ionomer Kit

Kit 7510 **\$169.90**
Glass Ionomer Complete Kit 9g Powder 5.5ml Liquid, Mixing Pads, Spatula.

Bonds & Etchants

Adper Single Bond 2 Dental Adhesive

6ml 51202 **\$119.90**
Single Bond 2 Dental Adhesive - 6ml.

DiaDent

Diaplus - Bonding Agent

5ml 2001-2202 **\$49.90**
Superior strength and bonding properties ensure quality restorative longevity. Out performs many more expensive bonding agents on the market as tested first hand by our team of dentists.

DiaDent

Diaplus G7

Kit 2001-2701 **\$99.00**
Refill 2001-2701 **\$88.00**
DiaPlus G7, the innovative 7th Generation bonding agent and offers superior and consistent bonding results on dentine and enamel with one coat self-etching bonding agent system. Superior strength and bonding properties ensure quality restorative longevity. **Kit Contains:** 1x 5ml bottle, 1 Mixing well, 50 disposable brushes. **Refill:** 1x 5ml bottle

Cavex

Quadrant Uni SE Bond

4ml 313080 **\$69.90**
Cavex Quadrant Uni-SE-Bond is a 7th generation, light-cured, self-etching bonding system used in combination with light-cured restoration materials. Bonding of direct composite restorations. Bonding of indirect restorations in combination with light curing cements. Sealing of hyper sensitive elements.

DiaDent

Diaetch 37% Economic Package

Kit 2001-3101 **\$33.00**
Refill 2001-3202 **\$9.90**
Phosphoric acid etchant gel used for enamel and/or dentine etching. High quality etch removes smear layer and impurities to ensure enamel and dentine tags free to adhere to bonding agents and glass ionomers. **Kit:** 5 syringes, 20 mixing tips. **Refill:** 1 Syringe, 5 Mixing Tips.

Ongard

Acid Etch Gel

50ml Kit 355070 **\$56.90**
50ml Bottle 355071 **\$47.90**
A 40% aqueous phosphoric acid etchant designed to provide convenient preparation of enamel prior to placing resin based restorations. The etch gel produces micromechanical interlock for the keying of resin based cements and restoratives.

Scotchbond Multi-Purpose Etchant

9ml Bottle 3007 **\$44.90**
Multi-Purpose Etchant Dental Etch 9 ml Bottle.

Core Materials

DiaDent

Diafil Core Automix

White 2001-8101 **\$88.00**
Dual-curing (Light and self-curing) core build-up and radiopaque two-component composite materials in Automix delivery system. Comfortable dispenser: Automix syringes deliver a correct and consistent mix on every use. Dual curing: Light cure for 40 seconds or Chemical cure within 4 minutes. High compressive strength composite resin and long-term durability. **Contains 2 x 9g syringes, 10 Intraoral tips, 10 Automix tips.**

Sealants

DiaDent

DiaSeal

Kit 2001-5101 **\$55.00**
Refill 2001-5201 **\$22.00**
Designed for sealing enamel pits and fissures to prevent caries. UDMA series monomer and Nano-filler offers high flowability, excellent wear resistance and strength. Optimal viscosity to flow easily and helps for easy application. Ensures hygienic and easy delivery and outstanding versatility. High visual verification during application.

Kit: Sealant 2 syringes x 1.2ml, Etchant 2 syringes x 1.2ml, 10 disposable needle tips for Dia-Seal, 10 disposable needle tips for Dia-Etch.

Refill: Sealant 1.2ml Syringe, 5 disposable needle tips for Dia-Seal.

Composites

DiaDent

Diafil Starter Kit

Kit 2001-1102 **\$129.95**

Micro hybrid composite resin for use in Anterior and Posterior restorations. Unique fillers offer minimum polymerization shrinkage which helps reduce stress and sensitivity on the tooth potentially. Has excellent fracture toughness, high tensile, compressive strengths for long lasting results. Very easy handling of acceptable viscosity and good marginal adaptation. **Contains: 5 syringes x 4g Shades (A2, A3, A3.5, B2, B3), Bonding agent (5ml), Etching gel 1 syringe (3ml), 50 Brush tips, 1 brush handle, mixing well, mixing pad, 10 disposable tips.**

Anatomical wooden wedges for a perfect point of contact. Kit contains 50pcs Small, 50pcs Medium, 50pc Long, 50pcs Wide.

Varnishes/Desensitisers

Cavex

Quadrant Finisense

5ml	303010	\$94.90
-----	--------	----------------

Quadrant Finisense is used to relieve pain caused by exposed roots or dentine. It is also used to prevent and relieve post-operative sensitivity. Can be used under all types of filling materials and crowns and bridges. 150 doses per bottle. The active ingredients of Quadrant FiniSense are glutaraldehyde and HEMA. Quadrant FiniSense has a long treatment durability: at least 12 months.

Temporary Filling Materials

DiaDent

DiaTemp

Blue	2003-1101	\$39.50
Yellow	2003-1201	\$39.50

Light Cured material with nano-sized silver for temporary/intermediate restorations of inlay and onlay, for relining prefabricated crowns and bridges. Quick and simple removal: Can be removed in one piece. High wear resistance and mechanical strength. Ensures a fast set. Excellent adhesion. Blue Dia-Temp is ideal for posterior teeth. Yellow Dia-Temp is ideal for anterior teeth. **Contains 3 x 3g Syringes.**

DiaDent

E Temp

30g	2004-1001	\$18.90
-----	-----------	----------------

Temporary Filling Material for Standard Cavities. Easily setting initiated by saliva. Excellent adaptability. Easy to remove. Adheres to dentine, expands slightly during the setting and hardens rapidly to ensure hermetical seal. Improved the mechanical properties for the quick temporary filling.

DiaDent

DiaCem TempNE

Kit	2004-2101	\$49.00
-----	-----------	----------------

Non-Eugenol Temporary cement for trial cementing restorations or temporary crowns and bridges. Easy and precise direct dosing. No hand mixing and stable mix of base and catalyst viscosity with the automix tip. High bond strength to prevent leakage and sensitivity to cold and heat. Easy removal for the patient comfort. Low film thickness with high compressive and flexural strength. Fast working time (3min) and setting time (5min in the mouth). **Contains 2 x 10g Syringes & 10 Automix Tips.**

Relyx Temp Temporary Cement NE

Kit	56660	\$59.90

Stabilok Dentine Pins are an effective and economical way to provide extra mechanical retention for restorations in both anterior and posterior teeth. Once in place in the tooth, they can be reduced in length and / or bent into the desired position. A major advantage of Stabilok Dentine Pins is that the pin is securely held in a contra-angle shank until it is ready to automatically shear off in the tooth at the correct depth. **Jumbo: 100pins, 5 Drills, Others: 20 pins 1 Drill, Drill: Each**

DemeTech's Silk Sutures are a non-absorbable, sterile, surgical suture composed of an organic protein called fibroin. They are processed to remove the natural waxes and gums from its origin and as silk is a natural fibre, it does illicit an acute inflammatory reaction which is followed by gradual encapsulation of the suture by fibrous connect tissue.. **12pcs**.

NOTES

This image shows a full page of white paper with horizontal orange dotted lines. The lines are evenly spaced and run across the width of the page, providing a guide for handwriting practice. There are no margins, text, or other markings on the page.

NOTES

Terms and Conditions.

Office Hours

Our office is open from 8am to 8pm Monday to Saturday.

Trading terms

30 day accounts are granted on approval by McLaren Dental P/L. Please contact us for an account application. We reserve the right to suspend accounts without notice.

Conditions of Sale

Any issues regarding delivery discrepancies must be identified within 48 hours of receiving the order. McLaren Dental will not be liable for any discrepancies after this period.

Prices

All prices are GST inclusive and are calculated in Australian Dollars (AUD).

All prices are subject to change.

Payment Terms

Payments for all invoices must be made in full. Payments must be made within the terms agreed to by the purchaser and McLaren Dental.

We accept payment via EFT, Paypal, Visa and Mastercard.

Returns

Returns will only be accepted with prior authorisation and within 14 days of invoice date.

All returns must be in original, unopened packaging and in a saleable condition.

Goods ordered in error must be returned at purchasers expense.

Backorders

We will endeavour to reduce backorders to a minimum, however in the event that we don't have your item in stock, the waiting time is usually 3-5 days. All backorders are sent freight free.

Product Substitution

We reserve the right to substitute generic products at a similar or higher quality where supplies are not available. Notification of this will be provided forthwith.

Freight

Freight free applies to orders above AUD \$50 in Adelaide Metropolitan orders and AUD \$200 in most other metropolitan areas (This excludes NT, WA and North QLD where standard freight charges apply). Contact McLaren Dental to find out more about freight to your area. We reserve the right to charge a fee for bulky items. We also reserve the right to choose the best freight option for you based on your location and order size.
