## Sea Cargo

Sea cargo is not as fast service as air service but cheaper than air service. These sea cargo parcels take about 6 to 8 weeks to reach their destination in Pakistan. Our sea freight charges per kg from Sharjah and Dubai to Pakistan are very reasonable. If you are not in a hurry and have time and are on a budget then this is the most important and good choice. You will also need to make an option between a 20ft container and a 40ft container. If you are not taking much, you can share the container with others (also known as LCL). With all of these, your shipping company can help you with these decisions. The majority of our suppliers offer a helpful door-to-door service. 30 KG minimum requirement for SEA cargo. Ocean cargo shipping is perfect for those who have time and want to pay less. So, what are you waiting for, if you are interested order now.

## Air Cargo

Air Cargo is the fastest way to deliver your goods in just minutes. Recommended if you have a good budget and want quick delivery. It is very good and fast service but it is more expensive than ocean service. Our service is also a powerful and expert logistics network that provides you the cheapest air cargo service from Dubai to Pakistan. A minimum of 3 kg is required for air cargo service. Our service also provides cheapest air cargo from Sharjah and Dubai to Pakistan. Airports in Pakistan that provide you the lowest rates and fastest delivery service, due to which you will enjoy the service and never be disappointed.

## Why Choose us

Our company will provide you prompt delivery and low-cost rates. Charges will be affordable and user friendly. We ensure our door to door cargo Dubai to Pakistan.
