	SECOND AME	ENDED COMPLAINT			

SECOND AMENDED COMPLAINT

Plaintiff Crytek GmbH ("Crytek") brings this Complaint against Cloud
Imperium Games Corporation ("CIG") and Roberts Space Industries Corporation
("RSI") (collectively, "Defendants"), and in support thereof alleges as follows, upon
personal knowledge as to itself and upon information and belief as to all others:

6

NATURE OF ACTION

7 1. This Court has exclusive subject matter jurisdiction over this action
8 under 28 U.S.C. §§ 1331 and 1338(a) because federal courts have exclusive
9 jurisdiction in copyright cases, and because those claims are federal questions. This
10 Court also has diversity jurisdiction over this action under 28 U.S.C. § 1332 because
11 Defendants are citizens of California, Plaintiff is a citizen of a foreign state, and the
12 amount in controversy substantially exceeds \$75,000.

Crytek is an industry-leading video game developer, publisher, and
 technology provider. It has created some of the most popular and award-winning
 video game franchises in the world, including Far Cry and Crysis. Crytek is also
 long renowned for pushing the boundaries of video games with its highly acclaimed
 CryEngine, a cutting-edge, powerful, and feature-filled video game development
 platform and computer program that provides game developers access to today's
 most advanced game engine technologies.

3. In 2012, Defendants sought to develop a new game called "Star 20 Citizen," which was billed as an epic space adventure, trading, and dogfighting video 21 game. To make that game a reality, Defendants sought to use the CryEngine video 22 game development platform as its foundation. Crytek and Defendants agreed to 23 preliminary license terms, and Crytek invested significant time and expense in 24 creating impressive demonstrations and proofs-of-concept that were used to persuade 25 the public to contribute financially to a "crowdfunding" campaign to support 26 27 development of the video game. As a direct result of Crytek's efforts, the

crowdfunding campaign for Star Citizen was a monumental success, raising over 150
 million dollars — a record for video game crowdfunding projects.

4. Crytek and Defendants subsequently formalized their relationship by
entering into a Game License Agreement. In that Agreement, Defendants promised,
among other things, (i) to promote the CryEngine game development platform within
the video game, (ii) to collaborate with Crytek on CryEngine development, and (iii)
to take a number of steps to ensure that Crytek's intellectual property and competitive
position were protected. Defendants utterly failed to follow through on those
promises, and their actions and omissions constitute breaches of contract and
copyright infringement and have caused substantial harm to Crytek.

5. By this action, Crytek seeks damages that will fairly and fully
 compensate it for Defendants' breach and infringement. If this relief is not granted,
 Defendants will continue to profit unjustly at Crytek's expense.

14

PARTIES

6. Plaintiff Crytek is a German corporation with its principal place of
 business in Frankfurt, Germany. Crytek is, and at all relevant times has been, the
 owner of a copyright in the CryEngine computer program ("CryEngine" or
 "Copyrighted Work"). CryEngine is the subject of a valid Certificate of Copyright
 Registration issued by the United States Register of Copyrights.

20 7. Defendant Cloud Imperium Games Corporation ("CIG") is a
21 corporation organized under the laws of Delaware and registered to do business in
22 California with its principal place of business in Los Angeles, California.

8. Defendant Roberts Space Industries Corporation ("RSI") is a
corporation organized under the laws of Delaware and registered to do business in
California with its principal place of business in Los Angeles, California.

- 26
- 27
- 28

JURISDICTION AND VENUE

9. This Court has exclusive subject matter jurisdiction over this action
 under 28 U.S.C. §§ 1331 and 1338(a) because federal courts have exclusive
 jurisdiction in copyright cases, and because those claims are federal questions.

5 10. This Court also has diversity jurisdiction over this action under 28
6 U.S.C. § 1332 because Defendants are citizens of California, Plaintiff is a citizen of a
7 foreign state, and the amount in controversy substantially exceeds \$75,000.

8 11. This Court has personal jurisdiction over Defendants because their
9 principal place of business is in Los Angeles, California; they transact business in the
10 State of California; they have engaged in actionable conduct within the State of
11 California; and they maintain agents in the State of California and have other
12 contacts with the State of California. The causes of action asserted herein arise out
13 of Defendants' transactions and business within the State of California.

14 12. Venue is proper in this District pursuant to 28 U.S.C. § 1391.
15 Defendants regularly conduct business in this District, and a substantial part of the
16 events giving rise to this action occurred in this District.

17

FACTS GIVING RISE TO THIS ACTION

18 13. Chris Roberts, a video game designer, and Ortwin Freyermuth, an
19 entertainment lawyer, founded Defendants. On October 10, 2012, Defendants
20 initiated a crowdfunding campaign to raise money for Star Citizen, a game to be
21 developed by Defendants.

14. At significant time and expense, Crytek created demonstrations and
proofs-of-concept for Defendants related to Star Citizen, and Defendants used those
materials as part of the crowdfunding campaign for Star Citizen.

25 15. On November 20, 2012, Crytek and Defendants entered into a Game
26 License Agreement ("GLA") that was extensively negotiated. The negotiations on
27 behalf of the Defendants were led by one of the Defendants' co-founders,

28 Freyermuth. In prior years, Freyermuth had represented Crytek in negotiations of

similar license agreements with third parties and had confidential information about
 Crytek's licensing practices. The negotiations on behalf of Crytek were led by Carl
 Jones, then an employee of Crytek. Jones later left Crytek and became an employee
 of Defendants.

5 16. Under the GLA, Defendants agreed to pay Crytek a license fee for
6 access to and use of CryEngine in the Star Citizen video game. Crytek agreed to
7 charge Defendants a below-market license rate for CryEngine in exchange for
8 Defendants' agreements that they would — among other things — prominently
9 display Crytek trademarks and copyright notices in the Star Citizen video game and
10 related marketing materials.

17. Having met their initial funding target and hoping to raise further
contributions from the public, Defendants added additional "stretch goals" to their
crowdfunding campaign and made further use of Crytek's materials in that process.
Defendants promised to expand the scope of the crowdfunding project whenever
each stretch goal was reached, and these expanded promises successfully induced
additional funding contributions from the public. Defendants raised over \$50 million
by 2014, over \$100 million by 2015, and over \$150 million by 2017. Star Citizen
has hit a record for video game crowdfunding projects and is one of the highestfunded crowdfunding campaigns of all time.

20 18. Yet, even as funding for Defendants' campaign reached new heights,
21 Defendants breached several promises they made to Crytek in the GLA and infringed
22 Crytek's copyrights in the CryEngine computer program.

23 24 А.

Defendants Are Developing a Separate Game Using CryEngine Without Permission

19. Section 2.1.2 of the GLA contained a promise by Defendants to use
CryEngine for the development of only one video game. During the negotiation of
the terms of the GLA, Crytek made it clear that the game license would not cover
anything more.

Section 2.1.2 of the GLA expressly states that CIG has a license <u>only</u> to
 "embed CryEngine in the <u>Game</u> and develop the <u>Game</u>" (emphasis added). The
 GLA limits the use of the CryEngine computer program to a single video game
 called Star Citizen.

5 21. Exhibit 2 of the GLA states that "the Game does not include any content
6 being sold and marketed separately," such as content "sold and marketed as a
7 separate, standalone PC game."

8 22. On December 16, 2015, Defendants announced that "Squadron 42," a
9 single-player video game involving space combat, would be sold separately from
10 Star Citizen. In the GLA, Defendants had expressly promised Crytek that Squadron
11 42 would be a "[f]eature" of Star Citizen, not a video game that would be sold
12 separately.

13 23. On January 29, 2016, Defendants made a further public announcement
14 about Squadron 42, stating that it would be made available for purchase as a stand15 alone video game.

16 24. On February 5, 2016, Crytek notified Defendants that their plan to
17 distribute Squadron 42 as a standalone game was not covered by the GLA's license,
18 because the GLA did not grant Defendants a license to embed CryEngine in any
19 game other than Star Citizen.

20 25. On February 14, 2016, Defendants moved forward with their plan for
21 Squadron 42 notwithstanding their failure to obtain a license and began offering the
22 video game for separate purchase. As a result, Defendants are intentionally and
23 willfully using CryEngine without a license and in violation of copyright laws.

24 26. On December 23, 2016, in reference to Star Citizen and Squadron 42,
25 Defendants announced that "[b]oth games are currently in development and are
26 backed by a record-breaking \$139 million crowd funded effort" (emphasis added).

27 27. Crytek has not been compensated for Defendants' unlicensed use of
28 Crytek technology in the Squadron 42 game, and has been substantially harmed by

being deprived of that compensation, which would ordinarily include a substantial
 up-front payment as well as a substantial royalty on game sales.

3 4

B. Defendants Removed Crytek Trademarks and Copyright Notices from Their Games and Marketing Materials Without Permission

5 28. Sections 2.8.1, 2.8.2, and 2.8.3 of the GLA contained promises by
6 Defendants that they would prominently display Crytek's trademarks and copyright
7 notices in the Star Citizen video game and related marketing materials.

8 29. Section 2.8.1 of the GLA expressly states that the "splash screen, credits
9 screen, documentation and packaging (if any) as well as the marketing material
10 (print, online etc.) of the Game <u>shall include</u>" Crytek's copyright notice (emphasis
11 added).

30. Section 2.8.2 of the GLA further states the "splash screen, credits
screen, documentation and packaging (if any) as well as the marketing material
(print, online etc.) of the Game <u>shall include</u> the trademarks 'Crytek' and
'CryEngine''' and that such trademarks would be prominently displayed (emphasis
added).

17 31. Section 2.8.3 of the GLA states that any changes to Crytek's trademarks
18 and copyright notices in these materials requires "Crytek's prior written approval"
19 and a ten day approval period.

20 21 22 23 24 25 26 27 28 6 SECOND AMENDED COMPLAINT 32. In accordance with those provisions of the GLA, the Star Citizen video
 game initially contained a splash screen that included Crytek's trademarks and
 copyright notices:

33. Defendants knew Crytek's right to display its trademarks and copyright
notices in the Star Citizen video game and related marketing materials was a critical
component of the GLA. Yet, by at least September 24, 2016, Defendants' co-founder
Chris Roberts publicly sought to minimize Crytek's contribution to Star Citizen,
stating that "we don't call [the video game engine] CryEngine anymore, we call it
Star Engine" (https://www.youtube.com/watch?v=fDROliuDczo).

18 34. Shortly thereafter, Defendants removed Crytek trademarks and
19 copyright notices from the Star Citizen video game and related marketing materials
20 in breach of the GLA.

35. The licensing fee negotiated under the GLA reflected a substantial
reduction from Crytek's usual licensing fees in view of the promotional consideration
and other consideration that Defendants promised to Crytek in Sections 2.8.1, 2.8.2,
and 2.8.3 of that Agreement. In view of the fact that Crytek has been deprived of
that promised consideration, Crytek has been substantially damaged, and has failed
to receive the balance of its full, usual license fee.

SECOND AMENDED COMPLAINT

1

C.

Defendants Broke Their Promise Not to Compete with CryEngine by Adopting And Promoting a Competing Game Engine

3 36. In the GLA, Defendants promised that they would not adopt or promote
4 another game engine in connection with Star Citizen. Among other provisions,
5 Section 2.4 of the GLA contained a critical promise from Defendants that, in
6 connection with StarCitizen, they would not engage in various activities that might
7 benefit game engines which compete with CryEngine:

Buring the Term of the License, or any renewals thereof, and for a period of two years thereafter, Licensee, its principals, and Affiliates shall not directly or indirectly engage in the business of designing, developing, creating, supporting, maintaining, promoting, selling or licensing (directly or indirectly) any game engine or middleware which compete with CryEngine.

14 (Emphasis added.)

15 37. By at least September 24, 2016, Defendants had announced that they 16 were using what they described as "Star Engine" as a video game engine in Star Citizen in place of CryEngine. On December 23, 2016, Defendants further 17 18 announced that they had licensed and intended to use the Amazon Lumberyard video 19 game engine for Star Citizen in place of CryEngine, and promoted Lumberyard extensively in that announcement. The GLA does not permit Defendants to promote 20 21 any other video game engine in connection with Star Citizen until at least two years 22 after the GLA's termination, including by announcing and promoting their adoption 23 of a different game engine.

38. Since that announcement, Defendants have continued to breach Section
2.4 of the GLA by directly or indirectly developing, creating, supporting,
maintaining, and promoting not only Lumberyard but also the so-called "Star
Engine."

39. Crytek has been damaged by Defendants' breach of Section 2.4 of the
 GLA, including for the reason that Crytek has failed to receive the benefit of the
 favorable attention that it otherwise would have derived from Defendants' use of
 CryEngine in Star Citizen and attendant promotion of CryEngine.

- 5 6
- **D.** Defendants Broke Their Promise to Collaborate On CryEngine Development

7 40. Section 7.3 of the GLA contained a promise that Defendants would
8 provide bug fixes and optimizations to CryEngine on at least an annual basis.

9 41. Section 7.3 of the GLA states that "[a]nnually during the Game's
10 development period, and again upon publication of the final Game, Licensee shall
11 provide Crytek with any <u>bug fixes, and optimizations</u> made to the CryEngine's
12 original source code files (including CryEngine tools provided by Crytek) as a
13 complete compilable version" (emphasis added).

4 42. On November 16, 2015, Crytek requested long overdue bug fixes and
optimizations from Defendants. Defendants did not make a good faith effort to
provide Crytek with the promised bug fixes and optimizations to the CryEngine as a
complete compilable version.

18 43. On November 24, 2016, Crytek informed Defendants that they were in
19 breach of Section 7.3 of the GLA. Although Defendants claimed that they were
20 ready and willing to comply with their obligations, they did not comply.

44. On June 22, 2017, Crytek sent another letter to Defendants, again
requesting the bug fixes and optimizations that were promised under the GLA. To
date, Defendants have not made a good faith effort to provide Crytek with the
promised bug fixes and optimizations to the CryEngine as a complete, compilable
version.

26 45. Crytek has been damaged by Defendants' breach of Section 7.3 of the
27 GLA, including for the reason that Defendants have failed to provide the technology
28

to Crytek that they promised to Crytek under the GLA, and Crytek accordingly has
 not benefited from use of that technology.

3 4

E. Defendants Disclosed CryEngine Technology to Third Parties Without Permission

5 46. Sections 2.2.1, 2.2.2, and 2.6 of the GLA contained a promise by
6 Defendants that they would keep the underlying technology for CryEngine
7 (including computer source code) confidential and not share it with anyone else
8 without first disclosing that third party and obtaining prior written approval.

9 47. Section 2.2.1 of the GLA states that Defendants shall not "publish or
10 distribute the CryEngine in any way, be it in source code or object code."

48. Section 2.2.2 of the GLA states that Defendants shall not "use
CryEngine in any manner which may disclose the CryEngine source code or other
Crytek proprietary information to any third party not otherwise authorized herein."

49. Section 2.6 of the GLA states that a third party developer is permitted to
access the Crytek technology so long as Defendants obtain "prior written approval"
from Crytek and the third party developer enters into non-disclosure and noncompetition agreements with Crytek.

18 50. On May 6, 2015, Defendants began posting a series of videos online
19 titled "Bugsmashers." The videos contain excerpts of information from CryEngine
20 that were confidential, in breach of the GLA, and should not have been shown to the
21 public. The series continues today.

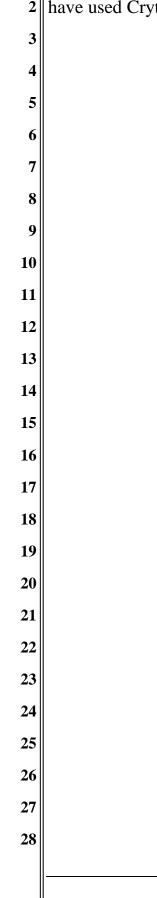

51. On August 26, 2017, news reports announced a partnership between
Defendants and a third party developer, Faceware Technologies. Upon information
and belief, as a result of the partnership, Faceware received access to the underlying
technology for CryEngine (including computer source code). Defendants did not
disclose this third party developer's involvement to Crytek, let alone obtain Crytek's
prior written approval. This was entirely in breach of the GLA.

28

52. Crytek has been damaged by Defendants' breach of these provisions of

¹⁰

1 the GLA, including for the reason that third parties not authorized by Crytek may
2 have used Crytek's technology to Crytek's detriment.

COUNTS

COUNT 1: BREACH OF CONTRACT

3 53. Crytek incorporates by reference the allegations in the preceding
4 paragraphs of this Complaint.

5 54. The GLA constitutes a writing to which Crytek and Defendants were
6 parties. By their actions and conduct, Defendants established that RSI was bound by
7 the GLA as if it were a signatory thereto. Through the GLA, Crytek provided
8 Defendants with a limited license to use the CryEngine computer program. At all
9 material times, Crytek performed the acts and conditions precedent necessary under
10 the GLA.

11 55. The GLA limits the use of the CryEngine computer program to a single
12 video game called Star Citizen.

13 56. Defendants intentionally breached the GLA by using CryEngine to
14 market, develop, and incentivize funding for more than one game, thereby enriching
15 themselves by millions of dollars without payment for such use.

16 57. Defendants further intentionally breached the GLA by refusing to17 provide agreed upon annual bug fixes and optimizations to CryEngine.

18 58. Defendants further intentionally breached the GLA by, among other
19 things, removing Crytek's trademarks and copyright notices from the Star Citizen
20 video game and related marketing materials.

59. Defendants further intentionally breached the GLA by breaking their
promise to not directly or indirectly engage in the business of designing, developing,
creating, supporting, maintaining, promoting, selling or licensing (directly or
indirectly) any game engine or middleware which compete with CryEngine.

25 60. Crytek has suffered and will continue to suffer harm by Defendants' past
26 and ongoing breaches of the GLA and is entitled to monetary damages in an amount
27 to be determined at trial.

28

1

COUNT 2: COPYRIGHT INFRINGEMENT

2 61. Plaintiff incorporates by reference the allegations in the preceding
3 paragraphs of this Complaint.

62. Crytek is the copyright holder of the copyrighted CryEngine computer
program. The CryEngine computer program constitutes copyright expression
protected by 17 U.S.C. § 101, *et seq*. A true and correct copy of Crytek's Certificate
of Registration is attached as Exhibit 1.

8 63. Under the GLA, Defendants were granted a limited license to embed the
9 copyrighted CryEngine computer program in a single video game called Star Citizen.
10 However, the GLA did not grant a license to embed the copyrighted CryEngine
11 computer program in content sold and marketed as a separate, standalone video
12 game. Squadron 42 is currently being sold and marketed as a separate, standalone
13 video game.

14 64. Defendants have intentionally reproduced, displayed, and distributed
15 unauthorized copies of the CryEngine computer program to which they had access.
16 Such unauthorized copies exceed the permissible license terms and therefore
17 constitute unlawful reproduction, display, and distribution of the CryEngine
18 computer program.

19 65. Defendants' intentional acts violate the exclusive rights of Crytek as the
20 copyright holder to reproduce, display and distribute the CryEngine computer
21 program and to create derivative works from it, as set forth in 17 U.S.C. § 106.

22 66. Defendants continue to intentionally reproduce, display, and distribute
23 new versions of Squadron 42 that embed the copyrighted CryEngine computer
24 program without authorization.

25 67. Additionally, if RSI is not deemed to be bound by the GLA as if it were
26 a signatory thereto, then RSI's intentional reproduction, display, and distribution of
27 the Star Citizen video game that embeds the copyrighted CryEngine computer
28 program is also unauthorized.

68. Crytek is informed and believes and thereon alleges that the
 infringement of Crytek's copyright was willful, reckless, and/or in blatant disregard
 for Crytek's rights as a copyright holder, and as such, claims willful, exemplary and
 enhanced statutory damages, and/or a preclusion from claiming certain deductions or
 other benefits during the calculation of damages.

6 69. Defendants' infringements of Crytek's copyrights are the direct and
7 proximate cause of damages to Crytek, and Crytek is entitled to compensatory
8 damages in an amount to be determined at trial.

9 70. Crytek is further entitled to recover from Defendants all of the gains,
10 profits, and advantages they have obtained as a result of the infringement, and for
11 disgorgement of any additional gains, profits, and advantages Defendants obtained
12 that are attributable to their infringement of the CryEngine computer program in an
13 amount to be proven at trial, together with attorneys' fees and costs pursuant to 17
14 U.S.C. §§ 504 and 505.

	SECOND AMENDED COMPLAINT

PRAYER FOR RELIEF

2 WHEREFORE, Plaintiff respectfully requests that this Court enter the
3 following legal and equitable relief in favor of Plaintiff and against Defendant as a
4 result of its infringing conduct and other inequitable practices:

5	a.	awarding Plaintiff all direct damages (estimated to be in excess of
6		\$75,000), indirect damages, consequential damages (including lost
7		profits), special damages, costs, fees, and expenses incurred by reason
8		of Defendants' breach of contract and copyright infringement;
9	b.	entering a permanent injunction enjoining and restraining Defendants
10		from continuing to possess or use the Copyrighted Work and a
11		preliminary and permanent injunction requiring Defendants, and all
12		those acting in concert or participation with Defendants, from infringing
13		or encouraging, aiding or abetting others to infringe the Copyrighted
14		Work;
15	с.	awarding actual damages and disgorgement of Defendants' profits in an
16		amount to be determined at trial, together with interest, attorneys' fees,
17		and costs of suit as provided by law and as set forth in the contracts at
18		issue;
19	d.	awarding all remedies provided for under 17 U.S.C. § 504;
20	e.	granting such other and further relief as the equities of the case may
21		require and as this Court may deem just and proper under the
22		circumstances.
