

ABOUT THE

Moravian Star

For many years, the Moravian Star has been a favorite decoration appropriate for the Advent and Christmas seasons, the first having been made in the Moravian settlement of Niesky, Germany around 1850. Today, these stars shine in homes, schools, and churches in many parts of the world.

The Moravian Star is a reminder of the star that led the wise men from their home in the distant east to Bethlehem, where they presented gifts to the baby Jesus.

It is appropriately displayed from the first Sunday in Advent (the fourth Sunday before Christmas) until the Festival of Epiphany (January 6th).

CAUTION

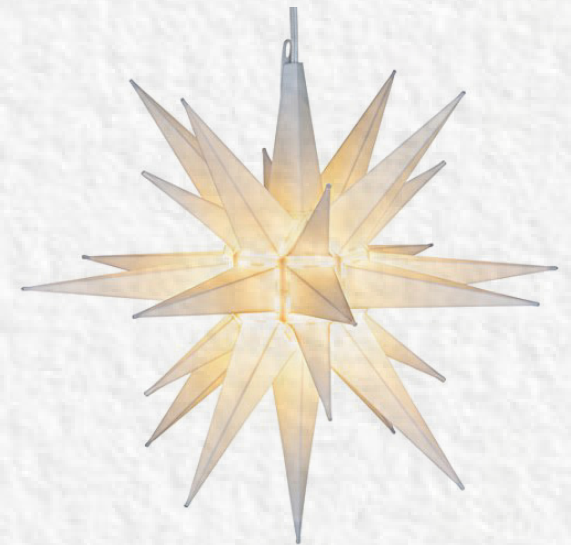

- As with most electrical appliances, electrical parts in this star are electrically live. Please use caution.
- Minimize exposure to water. Be aware of sharp points. Keep out of reach of children.

ADVENT & CHRISTMAS

12-INCH

Moravian Star

PARTS LIST

- A** - Star points
(17) large star points
(8) small star points
- B** - LED light
- C** - Star base
- D** - Socket point
- E** - Tree Stick Attachment
- F** - Zip Ties

INSTRUCTIONS

STEP 1 Remove all pieces and discard of any loose plastic packaging.

STEP 2 Place the bottom of the larger star point (A) on top of one of the squares on the star base (C) at an angle (Diagram 1). The clasps on the bottom of star point (A) should be under the frame of star base (C).

STEP 3 Twist the bottom of star point (A) so that it is parallel with the frame of the star base (C). This will lock the base of star point (A) into place (Diagram 2). Repeat this for all larger star points.

STEP 4 Place the bottom of the smaller star point (A) on top of one of the triangles on star base (C) at an angle (Diagram 3). The clasps on the bottom of star point

(A) should be under the frame of star base (C).

STEP 5 Twist the bottom of star point (A) so that it is parallel with the frame of the star base (C). This will lock the base of star point (A) into place (Diagram 4). Repeat this for all smaller star points.

STEP 6 Screw the LED light (B) into the socket point (D).

STEP 7 Twist the base of the socket point (D) and turn to lock into place (Diagram 5).

STEP 8 Insert tree stick attachment (E) through the small opening located on the base of the star (Diagram 6). Secure the tree stick attachment with the included zip ties (F).
