Made by BAYER. Methenolone enanthate. 100mg x 1 ampul(1ml) Rimobolan (Primobolan Depot) is an injectable version of the steroid methenolone. This is the same constituent in Primobolan orals (methenolone acetate), although here an enanthate ester is used to slow the steroid's release from a site of injection.

Today is a year since my injury, I wanted to share my progress and more importantly my experiences with how I coped with my struggles throughout. It's a bit long but give it a watch if you're in need of some motivation, setting a new goal and figuring out how to deal with your own struggles. □□□ You may take something away from it. .

Thank you everyone and thanks Vicky. You really do know your stuff 🤔🤔 on a super hot day and a bit of fatigue from the day before in the semi's. I felt super charged and fully hydrated. As the UK Hyrox director said, I smashed through the hardest workout at a consistent pace. The recovery has been amazing and I was still able to make the gym for 6am this morning albeit slightly sore.
