Our Vision

NTSFinancial was created on the idea the financial freedom should be something easy for everyone to achieve. Many countries still do not have central control. We can bridge that gap by providing financial Institutions that will provide the resources to grow to empower their lives. Some of those countries include Andorra, ISLE of Man, Kiribati, Marshall Islands, Micronesia, Monaco, Nauru, Palau. With our unique financial ecosystem, we can provide those countries with a means of financial freedom. Give people a place they can trust to store the money that works for them rather than against them. Alongside the countless countries unbanked there are billions of people worldwide without access to financial institutions. This makes it hard to apply for credit, loans, get a mortgage. NTSFinancial wants to make it easy to access your money and take control of your life.

We are working to create a financial ecosystem that works like a traditional banking system but is powered by blockchain. Unlike traditional banking systems, we will be open 24/7 and have branches worldwide. The core of our financial system will feature an online exchange that offers cryptocurrency trading, online banking, stocks, shopping, nft trading, and much more coming soon.
