

If You Want To Replace Or Not

Amx mod x is one of counter strike. It base on Metamod. it have some plug ins, statitcal, fun. we can also integrate some module like gun game , death match an etc.

for installing just take few steps:

1. Download Amx installer
2. Install it to your counter strike server folder like[C:\HLDS]
- 3 restart!

Installer features;

>amx mod x 1.81

>Gun Game to enable write 'gg_enabled 1 at cammand

>Death match to enable write 'csdm_enable 1 at cammand

Bots with Amx Mod X , Deathmatch , Gungame, Soccer mod

I have made bots patch which work with amx , deatmatch, gungame and Soccer mod [work on non-steam + steam]

Download All in one Bots pack

Copy cstrike and platform folder to your game or dedicated server directory like Copy cstrike and platform folder to C:\Program Files\Counter-Strike 1.6 and ask you If you want to replace or not, then press YES!

>To enable Deatmatch mod go to config folder of amxmodx which is in Program Files\Counter-Strike 1.6\cstrike\addons and rename file disable-csdm.ini to plugins-csdm.ini

> to enable GunGame mod go to config folder of amxmodx which is in Program Files\Counter-Strike 1.6\cstrike\addons\configs, open plugins.ini and write "gungame.amxx" under ; Custom - Add 3rd party plugins here heading

> to enable Soccer mod go to config folder of amxmodx which is in Program Files\Counter-Strike 1.6\cstrike\addons\configs, open plugins.ini and write "faketeambot.amxx" and "soccerjam.amxx" under ; Custom - Add 3rd party plugins here heading.
