

Business Name:

Laser Pointer World

Description:

We carry the highest quality laser lights and outdoor laser lights available. Founded in 2021, we wanted an easier way for people to decorate for their holiday season. We were tired of grabbing a ladder and staple gun. Risking danger and the cold to hang strand after strand of lights. We knew there had to be a better and more efficient method. Unfortunately, at the time, there was not. Since the release of our Laser Lights, demand has been astonishing. It seems there are plenty of other people that agree, that there is a need for a more efficient form of lighting setup.
