(note this is per 100,000 of each vaccination demographic so the population size of each vaccination status does not confound the numbers).

unvaccinated 66 cases per 100,000

one dose 75 cases per 100,000

two doses 163 cases per 100,000

boosted 189 cases per 100,000

T- here is new important evidence on the pathology of vaccine deaths and vaccine injury! Prof. Dr. Arne Burkhardt has presented first proof after the evidence on March 11, 2022. Among other things, negative control for the nucleocapsid present in the virus can now be used to demonstrate that the spike protein in the damaged tissue is vaccine-induced. It has also been possible to detect spike proteins in the brain - the vaccine spike protein can apparently cross the blood-brain barrier! Yesterday, [Te Punaha Matatini published](#) a 21 page document entitled "[The Murmuration of Information Disorders](#)" designating those opposed to the government's pandemic policies as violent right wing insurrectionists planning the weaponised storming of parliament and the execution of public servants, academics, journalists, politicians, and healthcare workers. An utterly false characterisation worthy of the worst excesses of historical propaganda.

This 21 page document, represented to the public as a scientific paper, contains not a single discussion of the scientific concerns being raised in opposition to government pandemic policy. It omits for example analyses of the government's own official figures which show that the vaccinated are more vulnerable to infection, hospitalisation, and death than the unvaccinated, a fact that has been deliberately hidden from the public.

As **reported on Sunday May 22nd**,

the WHO, according to inside sources, has tabled 12 of the 13 amendments that were to be voted on during the WHO annual meeting in Geneva Switzerland.

This is good news.

But there is a new group of amendments just drawn up instead.

The new amendment document was drafted by Australia, Bosnia and Herzegovina, Colombia, European Union and its Member States, Japan, Monaco, Republic of Korea, United Kingdom of Great Britain, Northern Ireland and the United States of America (at least that's what the document says).

It is important to note that any amendment proposed must be given to member nations at least 4 months before the voting will occur.

If these amendments are voted on during this meeting, the WHO will be in violation of their own operating procedures.

CARBON FOOTPRINT TRACKER

What is Davos Man up to?

Controlling you, tracking you, tracking your money.

That is the exciting theme that millionaires are discussing this week at the Davos World Economic Forum.

Unelected people giving themselves power over you.

WEF says that we need to create a "global surveillance infrastructure" to detect and control future outbreaks.

A carbon footprint tracker for everyone - I guess this means poorer social credit scores if you eat too much meat, use too much petrol etc.

It will integrate with your banking systems so the kill switch will go on your bank account if you are over carbon footprint.

COVID UPDATE - WHAT IS THE TRUTH

The COVID-19 pandemic is one of the most manipulated infectious disease events in history, characterized by official lies in an unending stream lead by government bureaucracies, medical associations, medical boards, the media, and international agencies.[3 , 6 , 57] We have witnessed a long list of unprecedented intrusions into medical practice, including attacks on medical experts, destruction of medical careers among doctors refusing to participate in killing their patients and a massive regimentation of health care, led by non-qualified individuals with enormous wealth, power and influence.

This is the amazing story behind the real men who recruited Klaus Schwab, who helped him create the World Economic Forum, and who taught him to stop worrying and love the bomb.

<https://intelligence.weforum.org/topics/a1G0X000006O6EHUA0?tab=publications>

The World Economic Forum is spearheading a multistakeholder, evidence-based policy project in partnership with the Government of New Zealand. The project aims at co-designing actionable governance frameworks for AI regulation. It is structured around three focus areas: 1) obtaining of a social licence for the use of AI through an inclusive national conversation; 2) the development of in-house understanding of AI to produce well-informed policies; and 3) the effective mitigation of risks associated with AI systems to maximize their benefits.

https://www3.weforum.org/docs/WEF_Reimagining_Regulation_Age_AI_2020.pdf

One must also keep in mind that this event never satisfied the criteria for a pandemic. The World Health Organization changed the criteria to make this a pandemic.

To qualify for a pandemic status :

the virus must have a **high mortality rate** for the vast majority of people, which it didn't (with a 99.98% survival rate)

+

the virus must have **no known existing treatments**—which this virus had—in fact, a growing number of very successful treatments.

BIOLABS IN UKRAINE

Let’s entertain for argument’s sake, that the US government and media are telling the truth this time about the Biolabs in Ukraine, and these facilities are truly being used exclusively for “defensive” research.

There are approximately 330 documented US DoD funded biolabs worldwide, in addition to the CDC, the WHO, the Bill and Melinda Gates Foundation, the Clinton Foundation, Pfizer, Moderna, etc.; all of which are pouring billions and billions of dollars into “preventative” biological research and vaccines.

All these global resources, and what did they accomplish? How did they do anything to deter, prevent, treat, or cure C19? And now Monkeypox? Whatever they are doing with the billions and billions of our tax payer dollars, doesn’t appear to be working. In fact they only seem to make it worse.

So for those who still refuse to subscribe to the inconvenient reality that the US biolab network is malicious... you cannot deny that the US biolab network has been at least completely incompetent, if not willfully negligent.

And this malice/negligence caused Russia to use military force to intervene in US biological activity near the Russian border, because the US has clearly shown they are not to be trusted with our biological capabilities.

Keep in mind, the US government and western media denied the existence of these labs at all. Only for them to reluctantly have to admit the labs exist days later. If these labs truly were defensive and they have nothing to hide, why did they vehemently deny the existence of the labs in the first place? Why did they launch a mass censorship and smear campaign against me for pointing out these labs existed? Why did 43 separate publications label me by name and label my story as a “conspiracy theory”? Why put forth so much effort to cover up something if there’s nothing to cover up?

The US government and media are admitting they lied to you earlier about there being no labs... but they are being super serious and honest THIS time when they tell you the labs they said didn’t exist, are actually 100% defensive, not nefarious at all, and nobody needs to investigate it or talk about it in any way, shape, or form.

You don’t need to be a psychologist to recognise rudimentary tells of human dishonesty and deception.

Russia has been complaining to the UN about these facilities for months, and now they have released more information allegedly linking Big Pharma companies to the scheme. "It should be noted that the ideologues of US military-biological activities in Ukraine are the leaders of the Democratic Party," Russia's latest briefing stated. "Thus, through the US executive branch, a legislative framework for funding military biomedical research directly from the federal budget was formed. Funds were raised under state guarantees from NGOs controlled by the Democratic Party leadership, including the investment funds of the Clintons, Rockefellers, Soros and Biden."

Guy Mettan: Ukraine is the First Battle of the Third World War

Guy Mettan discusses the deep thousand year history of Russophobia which informs the current Ukraine crisis. Europe had divided in two parts along religious lines which can still be seen in Ukraine today. He traces Russophobia from medieval Germany to France to Britain and back again to Germany and today the U.S. and EU. Brzezinski outlined the importance of conquering Ukraine because it's the pivotal power of Europe. Ukraine is the first battle of the Third World War. It won't be a total war, it will be a global unlimited war, unlimited in space and time where everybody will be affected. He agrees that there is a neo-totalitarian trend in the West and that democracy is a false flag. He's pessimistic regarding the future development of our world as the U.S. and EU develop into a totalitarian new empire. But he's optimistic that the light of the truth can't be extinguished.
