# SILVER DAILY

Trend: bearish / short-term bullish

Key levels: support 20.10, 20.57, 21.30 resistance 21.96, 22.70, 23.46, 24.40, 25.20

Coinciding with the demand to buy gold on Monday, silver also grew by 6.17% under the pressure of buyers and reached the range of 21.79 kilos.

Now, according to the price position in the 4-hour chart, any drop in the price towards lower levels is a buying opportunity, and the path is ready to continue the upward movement towards the 22.46 range.

Buying at the levels of 21.45 and 21.13 is a low-risk option.

The possible reaction of sellers in the range of 22.46 is important.
