What are the Park and Country Club doing?

The Park are aware of other caravan parks and independent businesses with restaurants and indoor public spaces that due to covid outbreaks have been **forced to close** due to members of the public and team members testing positive for COVID and/or self-isolating.

The Park's stance is based upon one factor and one factor alone...
"the duty of care to all."

Hand Washing - Highly Recommended

Please use the hand wash station upon entry to the Country Club and hand sanitising stations throughout.

Face Coverings - Highly Recommended

Recommended in crowded and enclosed spaces to help prevent spread of infection. Whilst we understand this is a personal choice we encourage and praise anybody who continues to wear a face covering.

Check In - Highly Recommended

This is the best way to keep a track of which customers were in the venue at the same time – easily contact customers if there is a positive case.

Covid Pass - Highly Recommended

Whilst this is not legislation – UK Government has stated restaurants and public spaces / events such utilise the covid pass to prevent spread of infection.

Guy's Café Bar & Restaurant

Cashless – **This reduces transmissions through money.**

Whilst the rule of six is redundant as of the 19th July, there is still a duty of care to one another, therefore...

Bar service returning - **Please do not stand at the bar. Customers can order at the bar, collect and please return to your table.**

It is highly recommended to reduce minimal moving as possible and therefore no 'table hopping'

Dinngly will continue to operating in dining areas. **If no one responds to your call button request, please see a team member for assistance.**

No table booking? – find a table and a team member will come over to your table.
Takeaway collection? – customers can come to the bar to collect their takeaway.
