OUR STORY

EDITORS LETTER

We know how difficult the challenge is, there is so much we do, that not many people always get to see, that goes in to being part of a sound system and putting a session on.

Sound Systems we experience the same challenges you face. Our Sound is Emperorfari Sound System based in the UK. There is always the other side of the coin, such as all the heavy loading we do, the financial constraints, the hard work that goes in to building the sound, promotions and so much more.

And Promoters, we also feel the same challenges too, such as in putting a session on, finding a venue, financially, marketing, building your sessions. We know this, as for a long time we have had to become our own promoters.

We all share the same challenges and that's why we have created this, to build a support network.

Where The People / Sound Systems / Artists / Bands / Producers and Promoters can work together in UNITY.

Sometimes we can lose our vision and forget why we are doing this, always remember though this is for us all OUR PASSION.

We all do this for the Love, and most important this is not about fame or money, so lets us not lose sight, and remain true.

We have a higher purpose and a gift to spread the message of Unity, Peace and Love. This is for the people. Let us all keep up the AWESOME WORK.

Last but not least a BIG THANK YOU and LOVE for all the Sound Systems, Promoters, and Everyone that Attends the Sessions and last but not least Emperorfari Family THANK YOU for the inspiration always, and Everyone That Supports Sound System culture.

THANK YOU
