

THEY DID IT
FROM YOU

THE BEGINNING

Book They hid it from you PDF

[They Hid It From You](#) reveals the hidden truths falsified by powerful institutions controlling humanity since ancient times.

At the heart of this manipulation is the Dark Elite Illuminati, led by non-human beings who seek to keep us asleep, trapped in an illusory Matrix designed to deceive and block our perception of true reality.

Many live and die unaware, caught in a cycle of reincarnation programmed by fear and guilt—tools used by religion for centuries to control the masses.

This book challenges the accepted narrative, sparking curiosity and awakening critical questioning lost through societal programming from birth to death.

It invites readers to break paradigms and start their own journey of investigation.
