# Company Overview

## WE ARE A U.S.A. MANUFACTURER

### ★★ Why Buy American Made Goods? ★★

- As the US manufacturing ability fades, future generations of US citizens will be unable to find relevant jobs. Buy American and help keep your friends, neighbors and even yourself earning a living wage.
- Factories and money are shifting to countries not friendly to the USA or democracy. When you avoid imported goods in favor of American-made items, you help ensure that the United States does NOT find its access to vital goods impacted by political conflict.
- Lack of minimum wage, worker safety or environmental pollution controls in many countries undermines the concept of "fair and free trade". No Western nation can ultimately compete on price with a country willing to massively exploit and pollute its own people. When you buy only American made products, you insist on a higher standard.
- Foreign product safety standards are low. For example, poisonous levels of lead are in tens of millions of toys shipped to the USA. When you buy toys and other goods made in the USA, you can be confident that American consumer protection laws and safety standards are in place to protect your family.
- The huge US trade deficit leads to massive, unsustainable borrowing from other countries. Debt is NOT good for you and it is NOT good for America.
- The growing lack of USA ability to manufacture many products is strategically unsound. When you seek out American-made goods, you foster American independence.
- Many countries have no minimum wage restrictions, or the minimum wage is outrageously low. When you choose products made in the USA, you contribute to the payment of an honest day's wages for an honest day's work.
- US manufacturing processes are much cleaner for the environment than many other countries. Many brands sold here are produced in countries using dangerous, heavily polluting processes. When you purchase American-made product, you know that you're helping to keep the world a little cleaner for your children.
- Jobs shipped abroad almost never return. When you buy goods made in the USA, you help keep the American economy growing.
- Foreign labor standards allow unsafe worker conditions in many countries. When you buy American you support not only American manufacturers but also American workers, safe working conditions and child labor laws.

# Letter from our President and VP

We know our clients and employees have a lot of choices when it comes to where they shop and work. To earn their trust and their business, not only do we need to offer great service and products, we also need to be a company they can be proud of. Doing our part to create a safe and environmentally friendly atmosphere plays an important role in that. As our business continues to evolve, our efforts have evolved as well. Transparency around these subjects has become increasingly important and we want to keep our clients informed on how we run our company.

In our continued success and growth of our business, we believe that it is always important to grow our community as well as develop our employees. We will all rise together as a team so we can provide the best customer service and products.
