

LIGHTAILING

Instruction
for lego 75192
The Millennium Falcon
by Lightailing.co

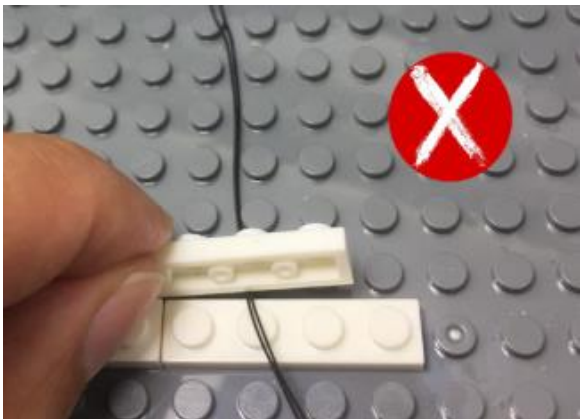

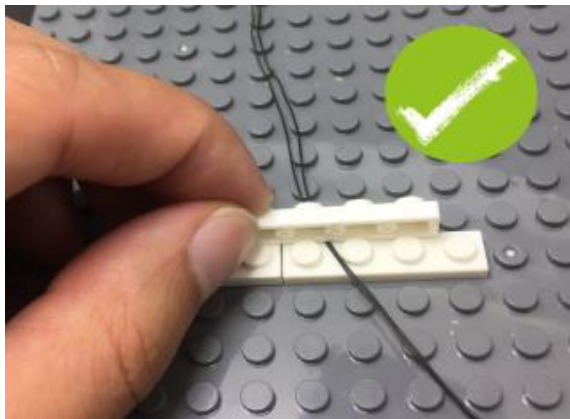

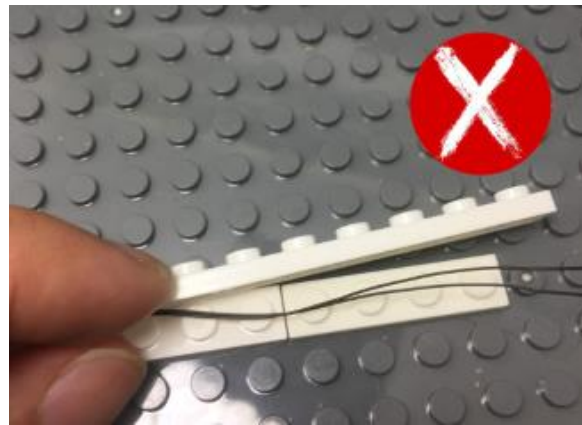

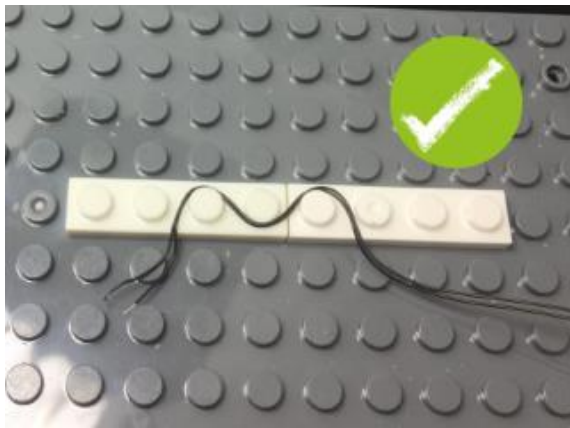

Important things to note:

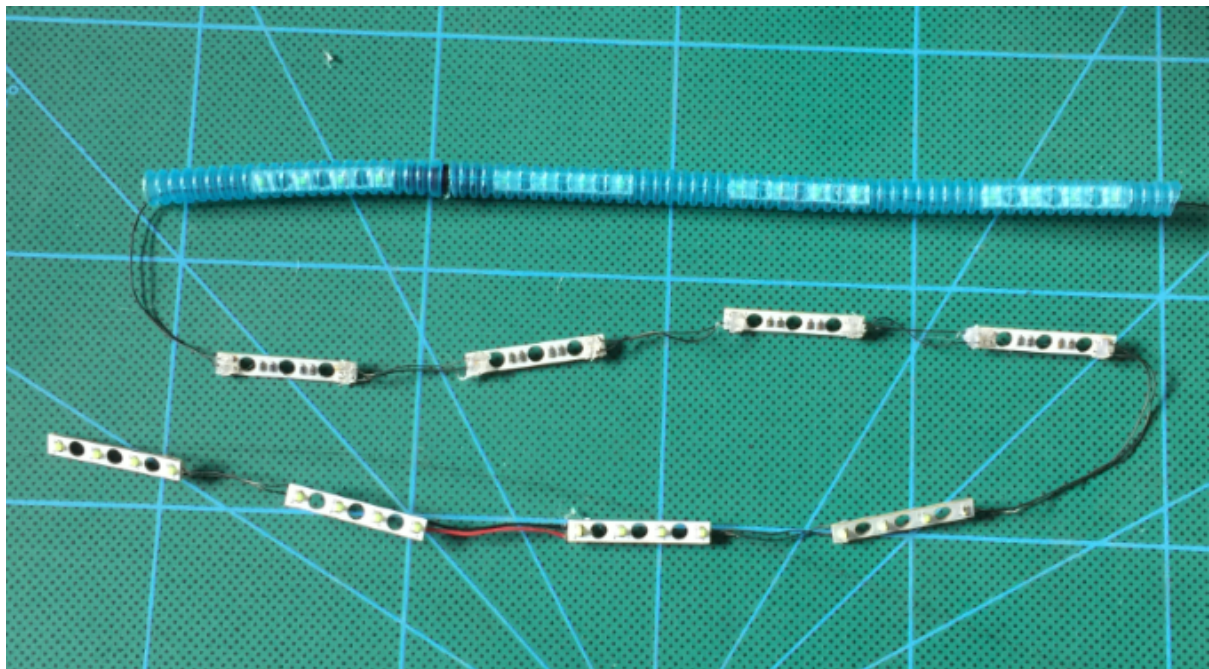

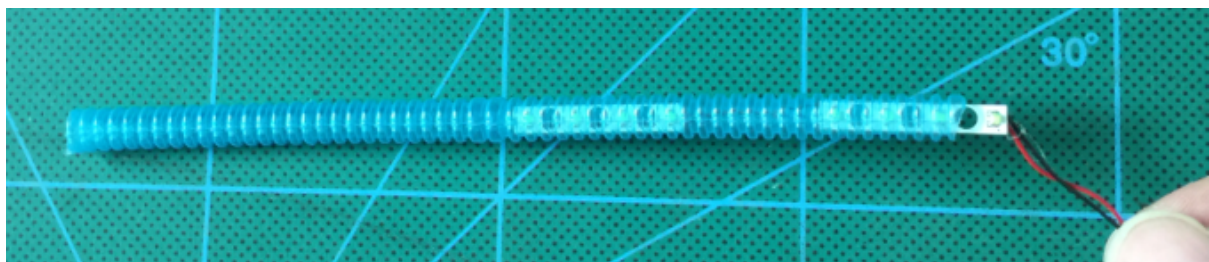

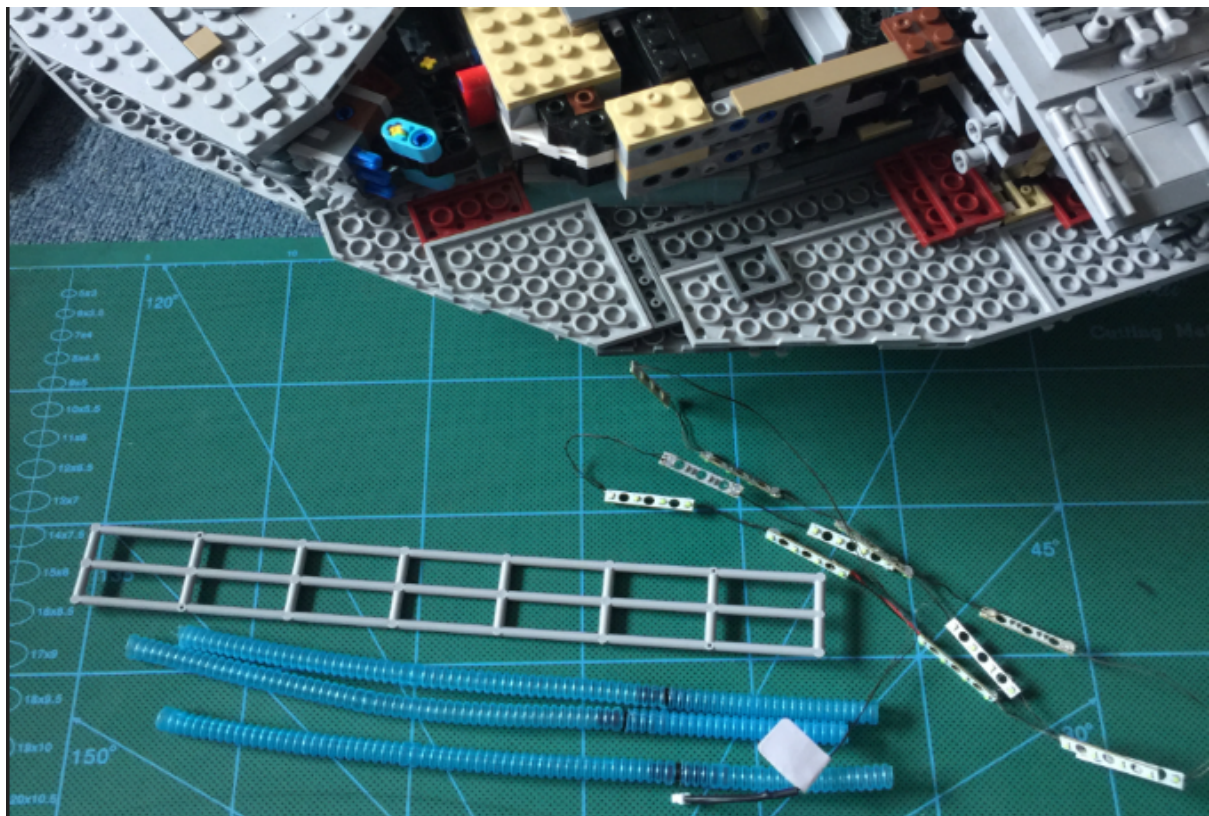

1) the cable is thin enough to hide it between bricks and but it's also easy to be damaged if forcing bricks to connect over a cable or rudely pull the cable

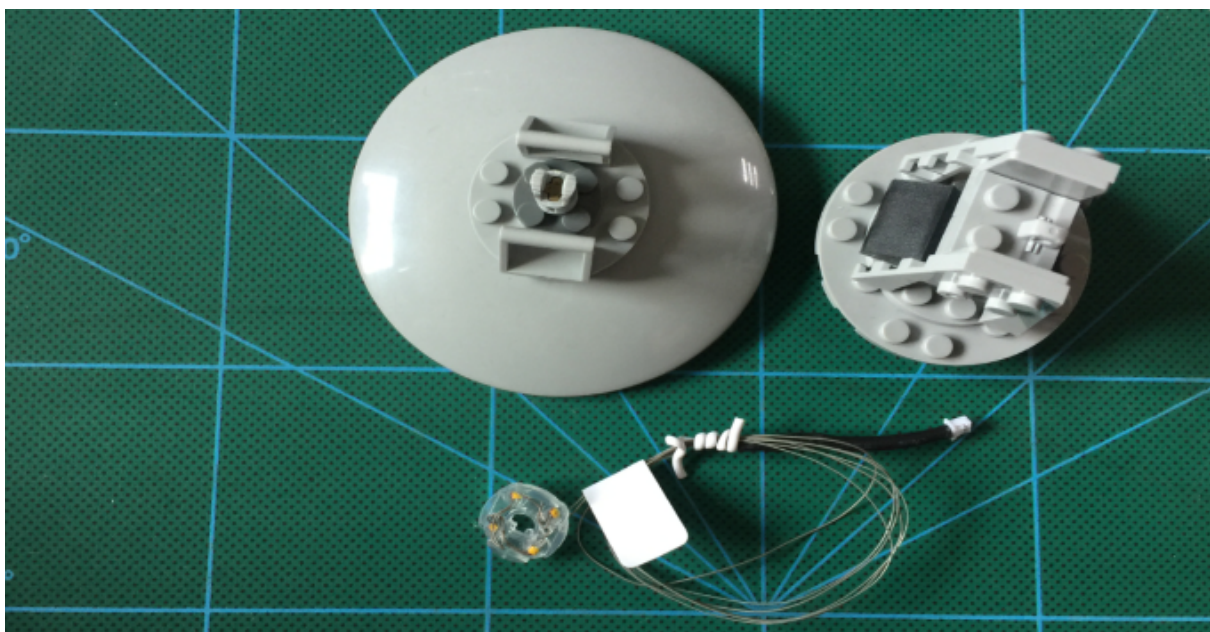

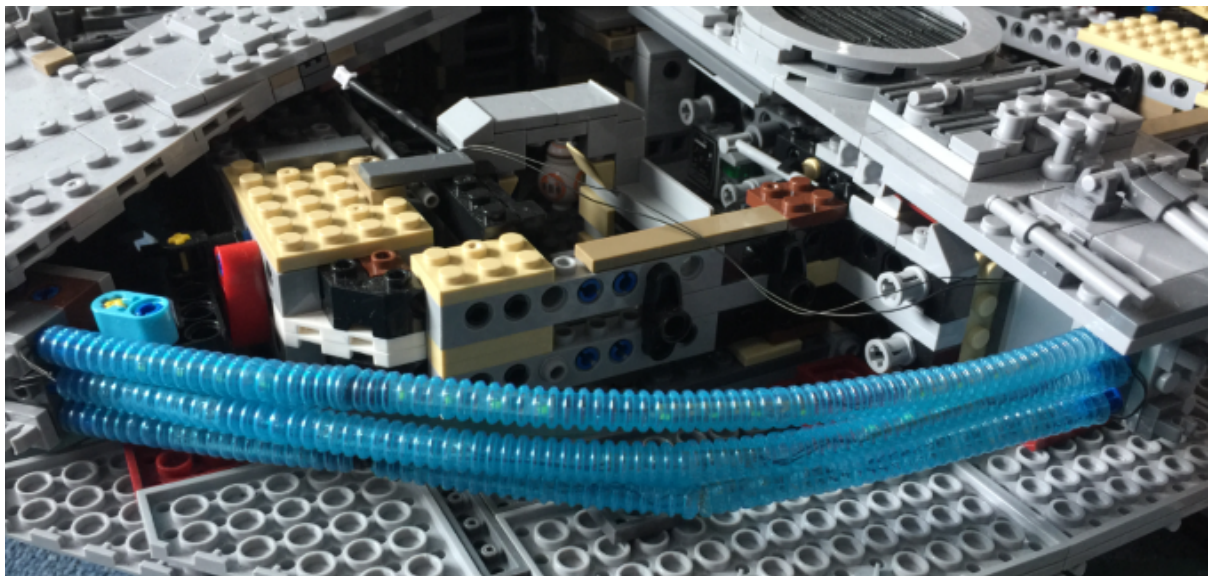

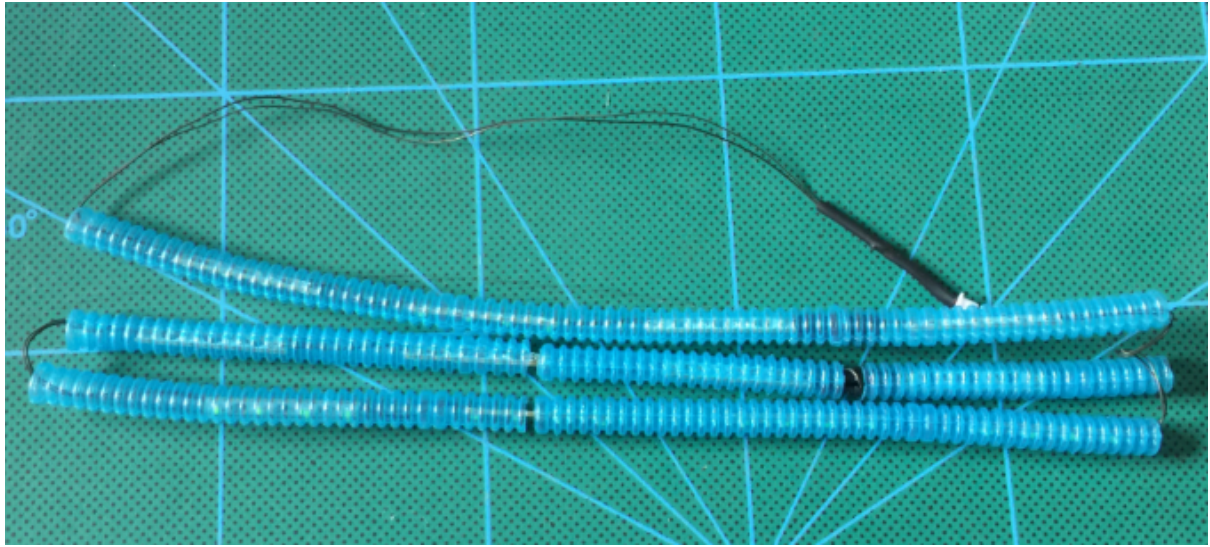

2) Laying cables in between and underneath bricks

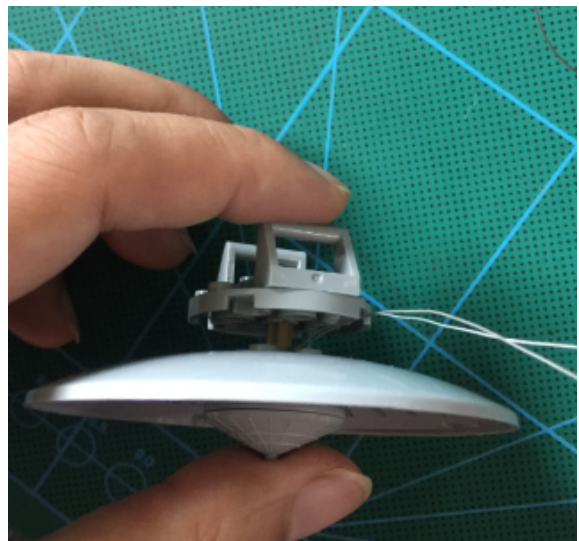

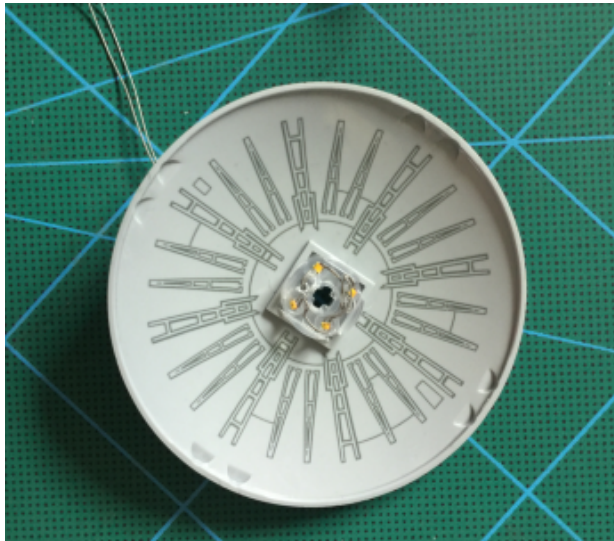

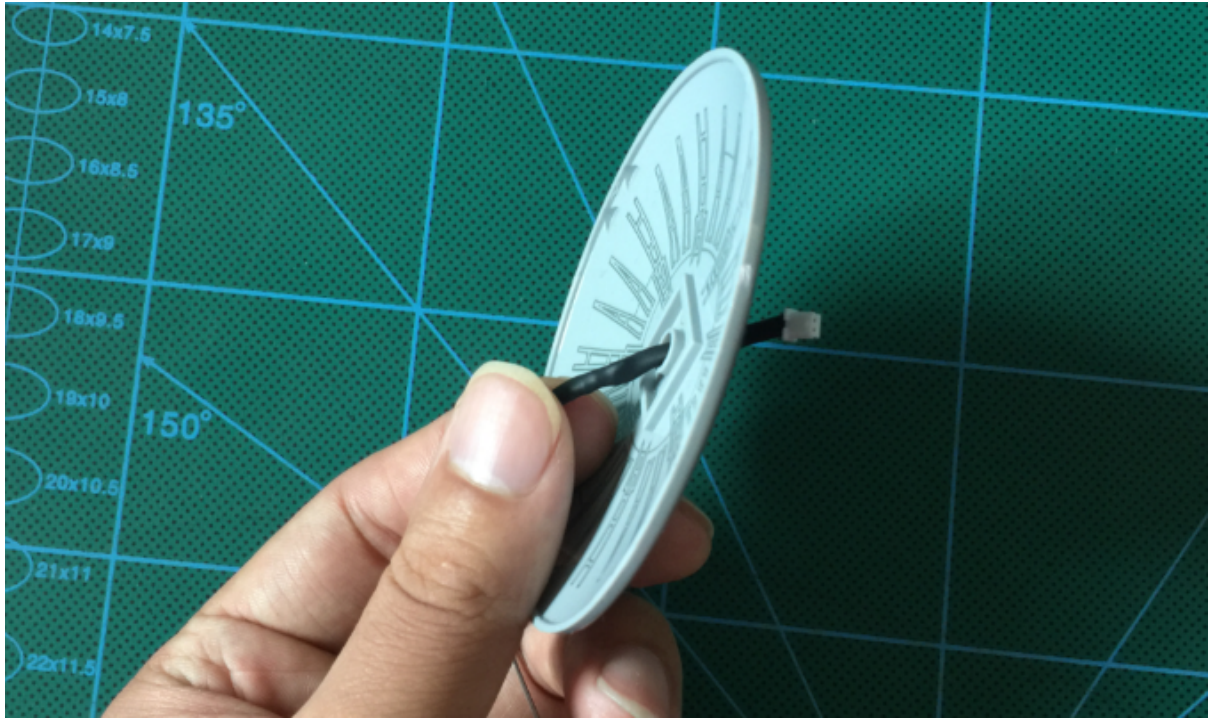

Cables can fit in between and underneath bricks, plates, and tiles providing they are laid correctly between the studs. Do NOT forcefully join bricks together around cables; instead ensure they are laying comfortably in between each stud.

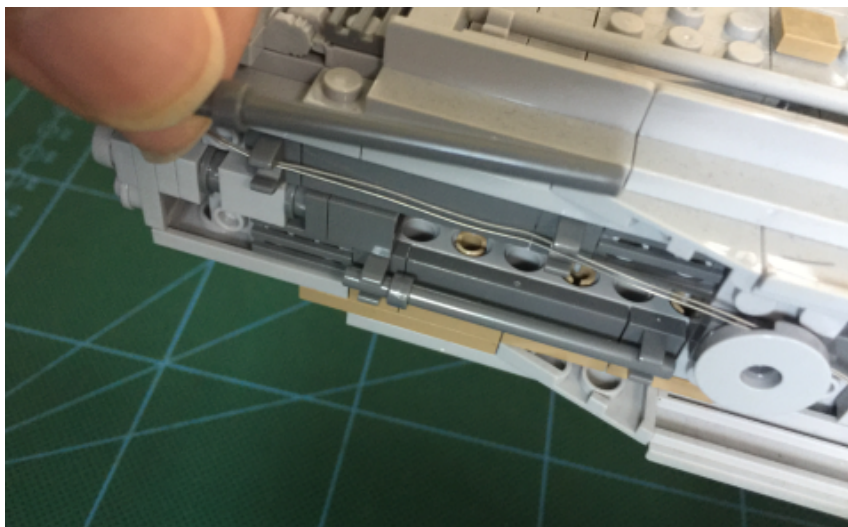

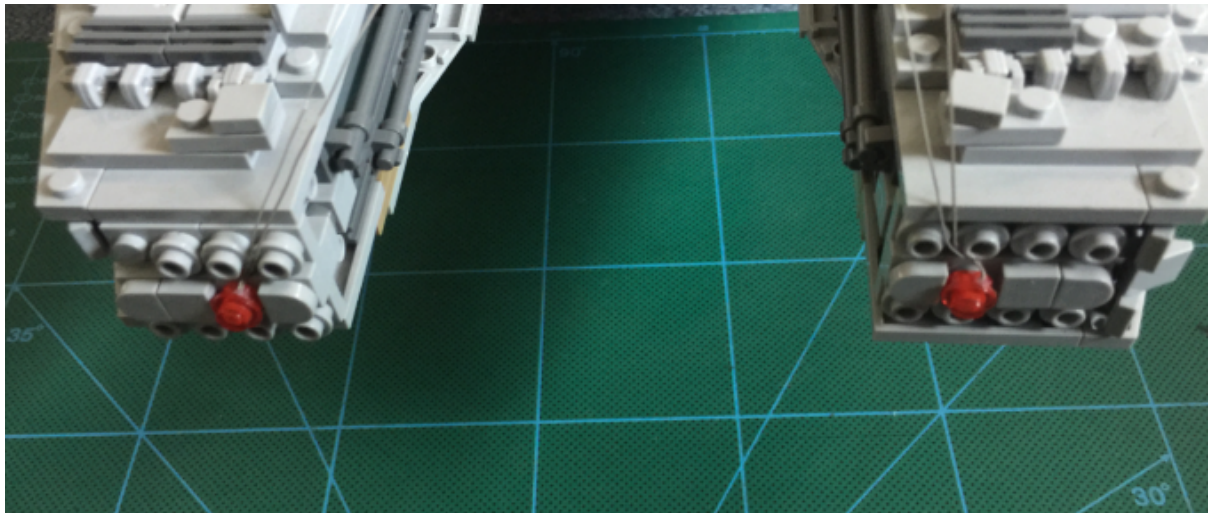

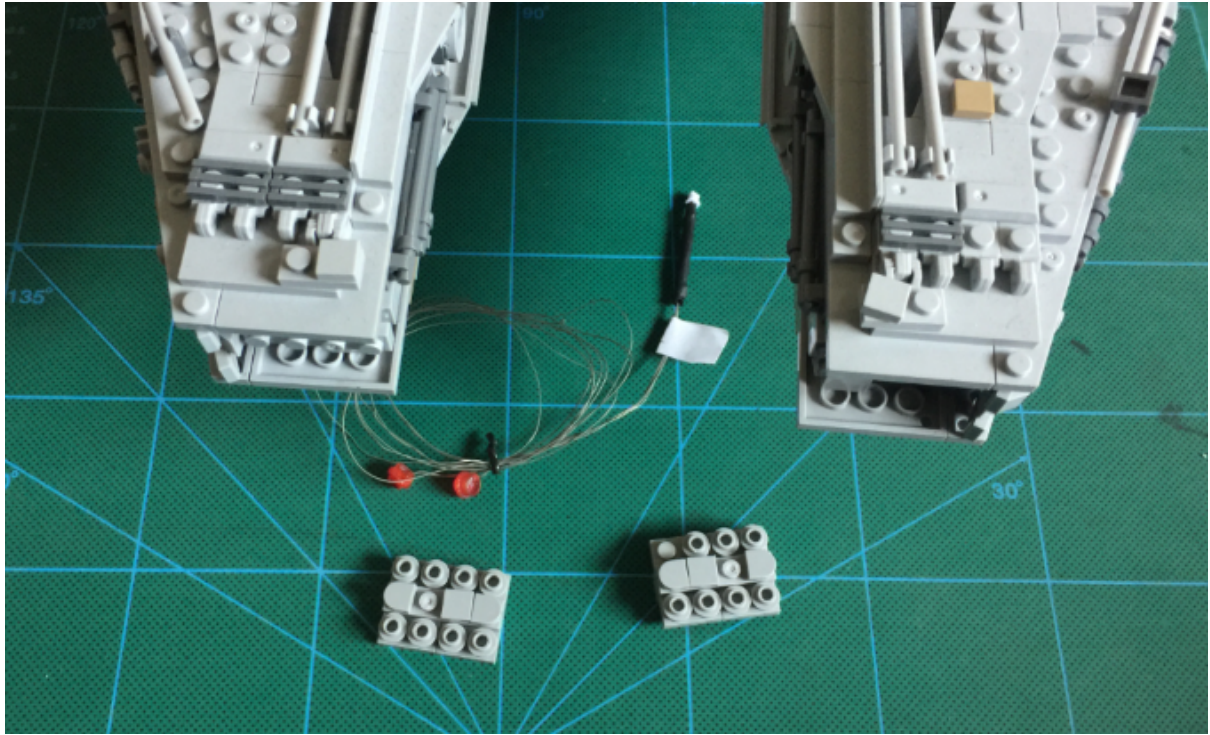

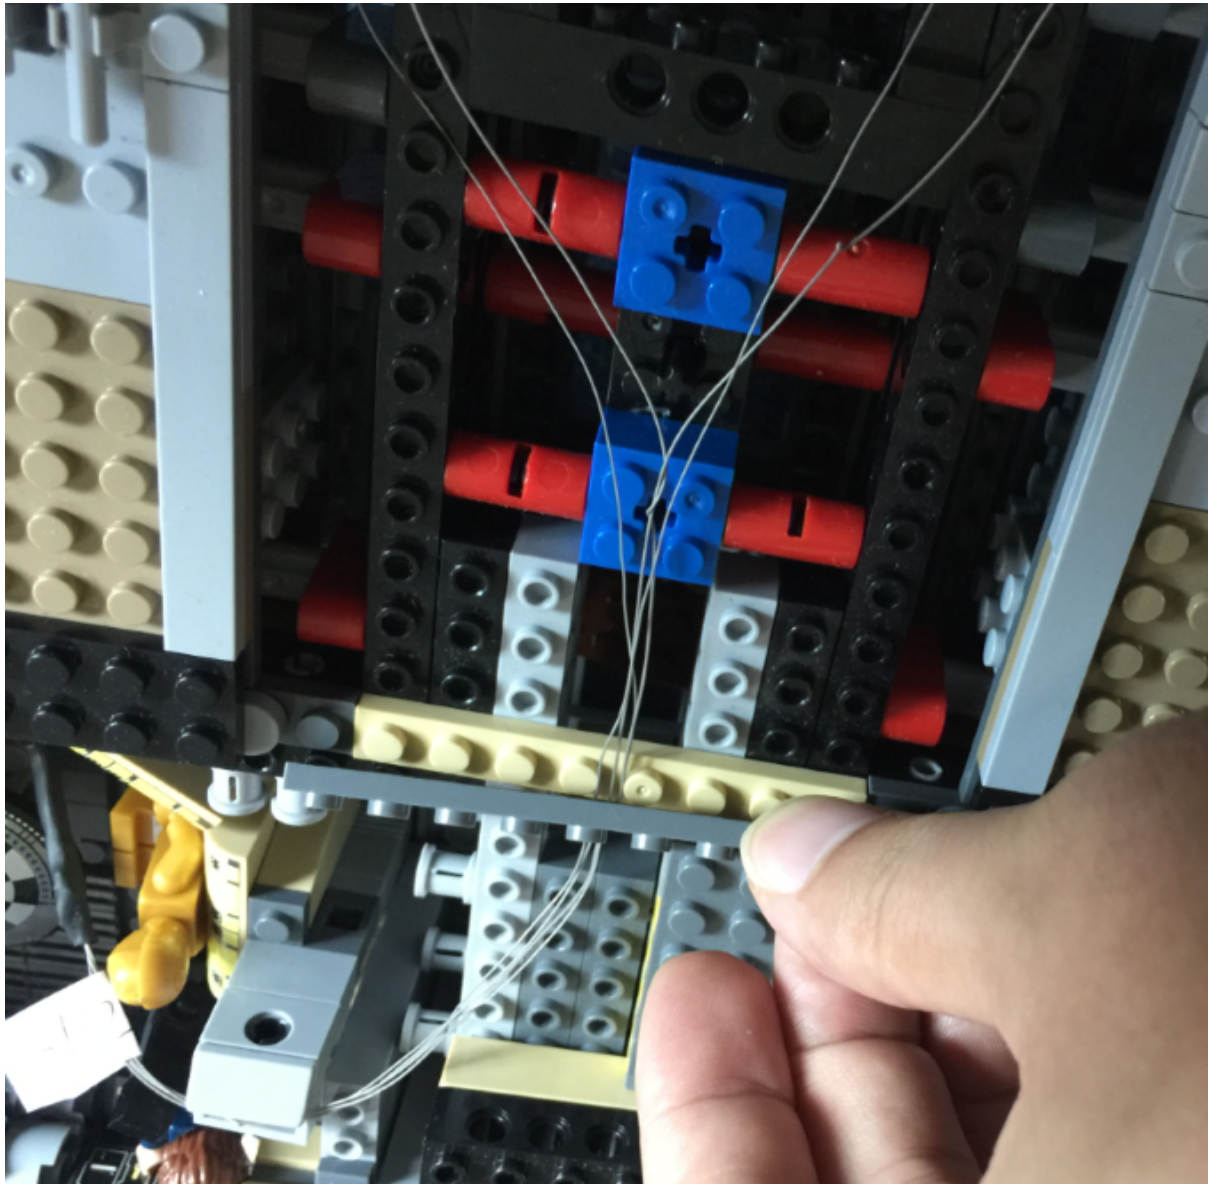

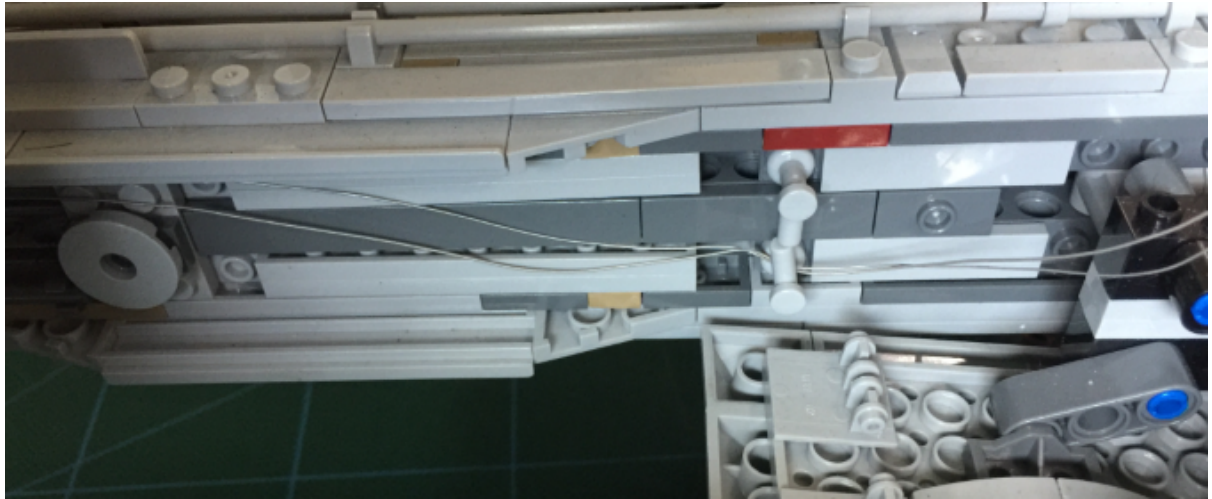

Please follow pictures below in order to instal lighting kit! Thank you

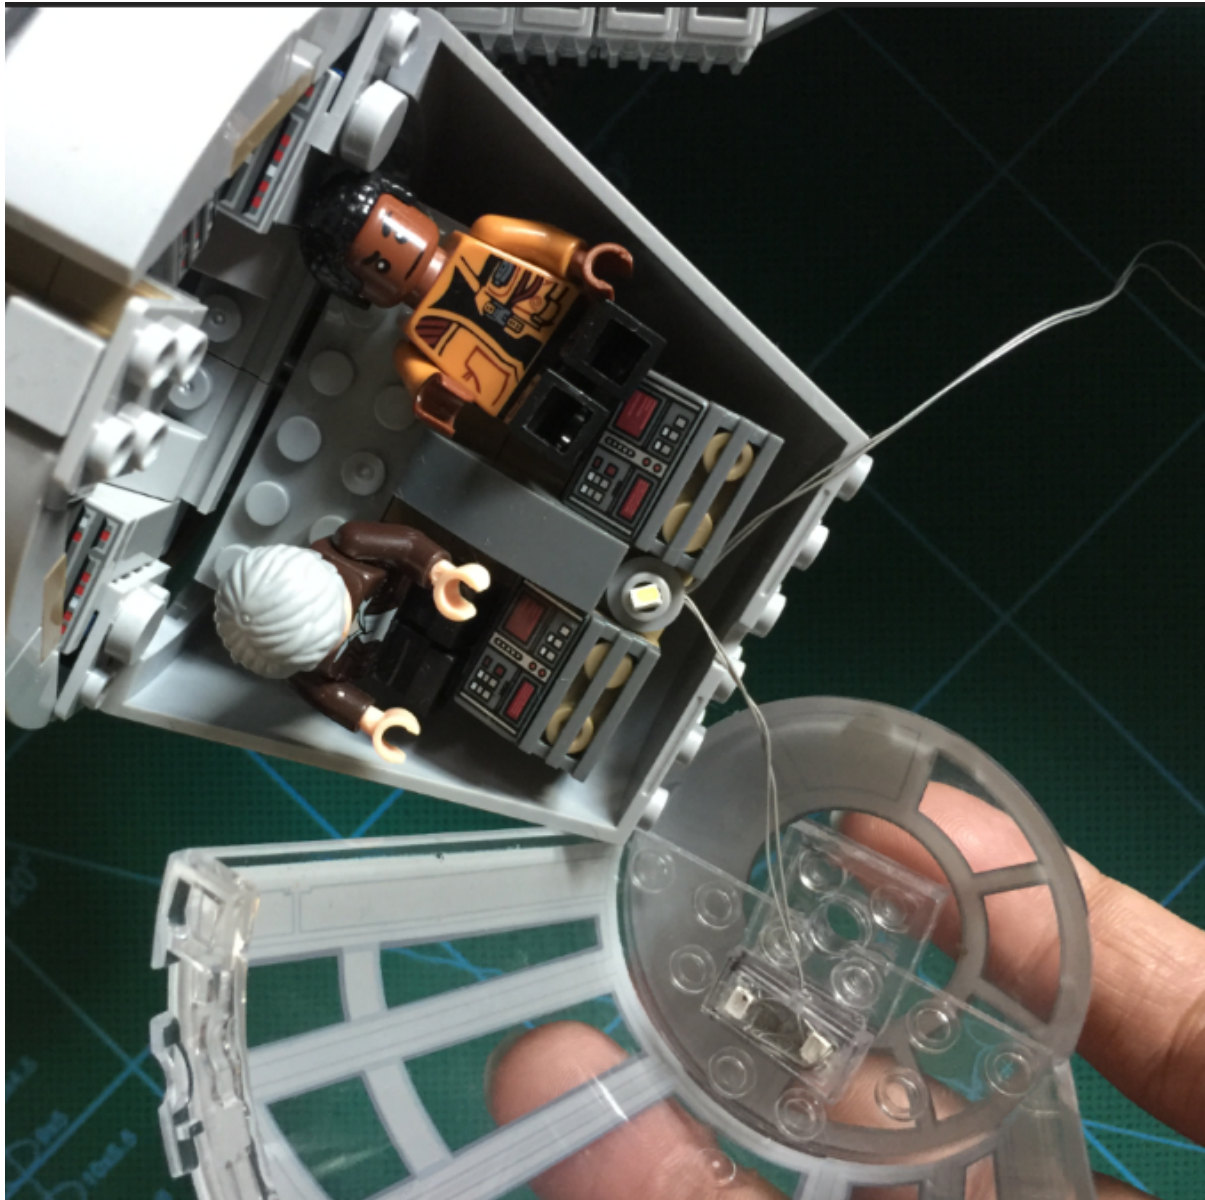

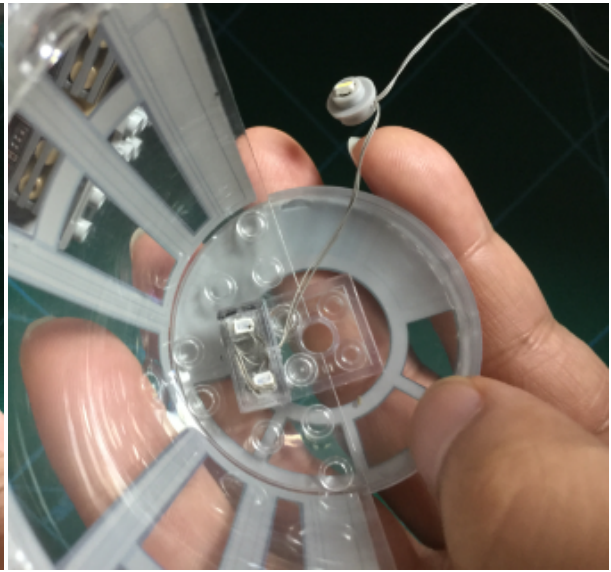

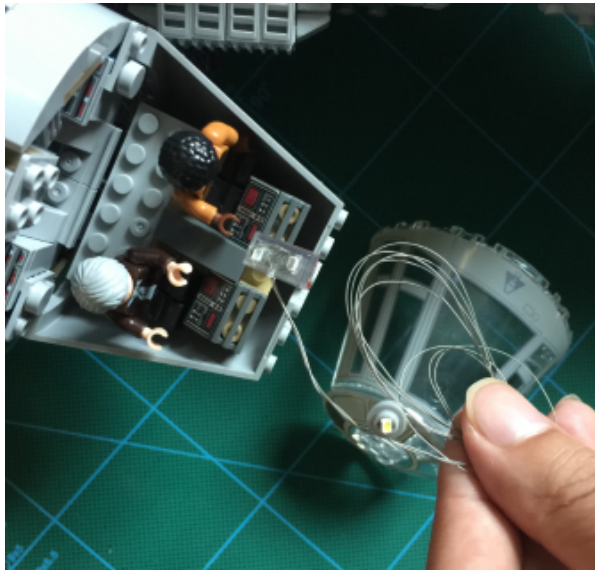

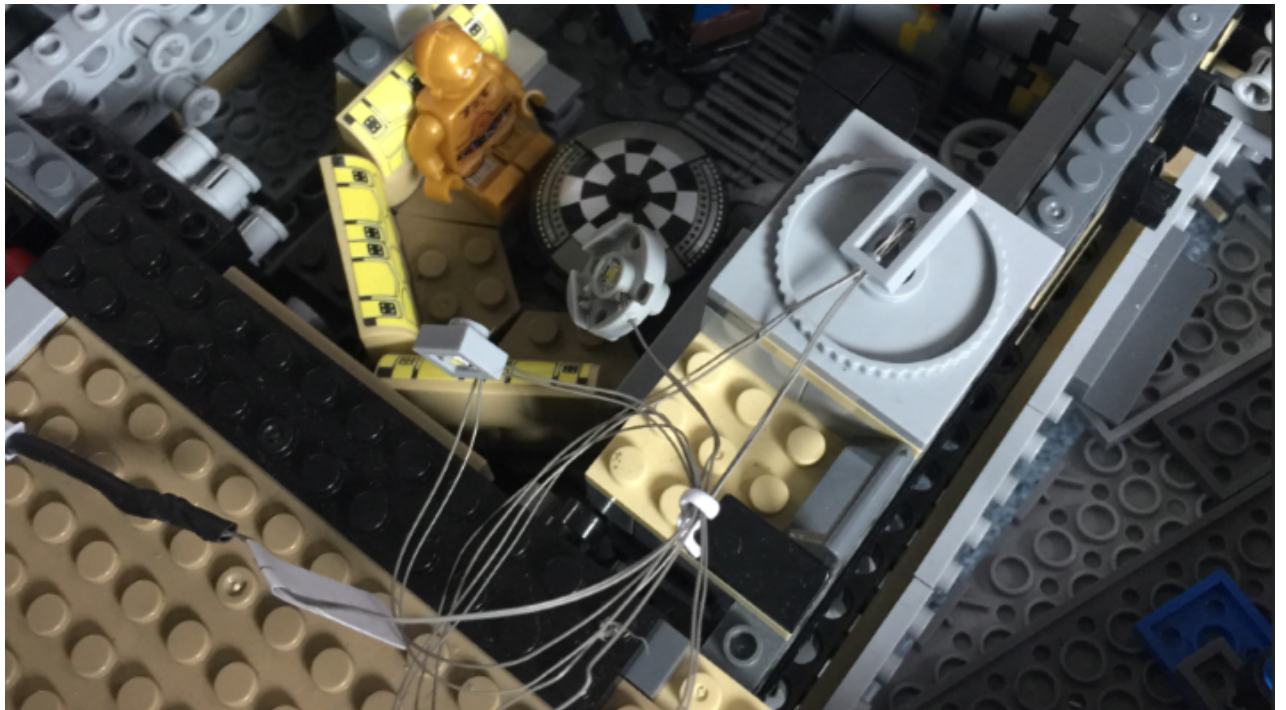

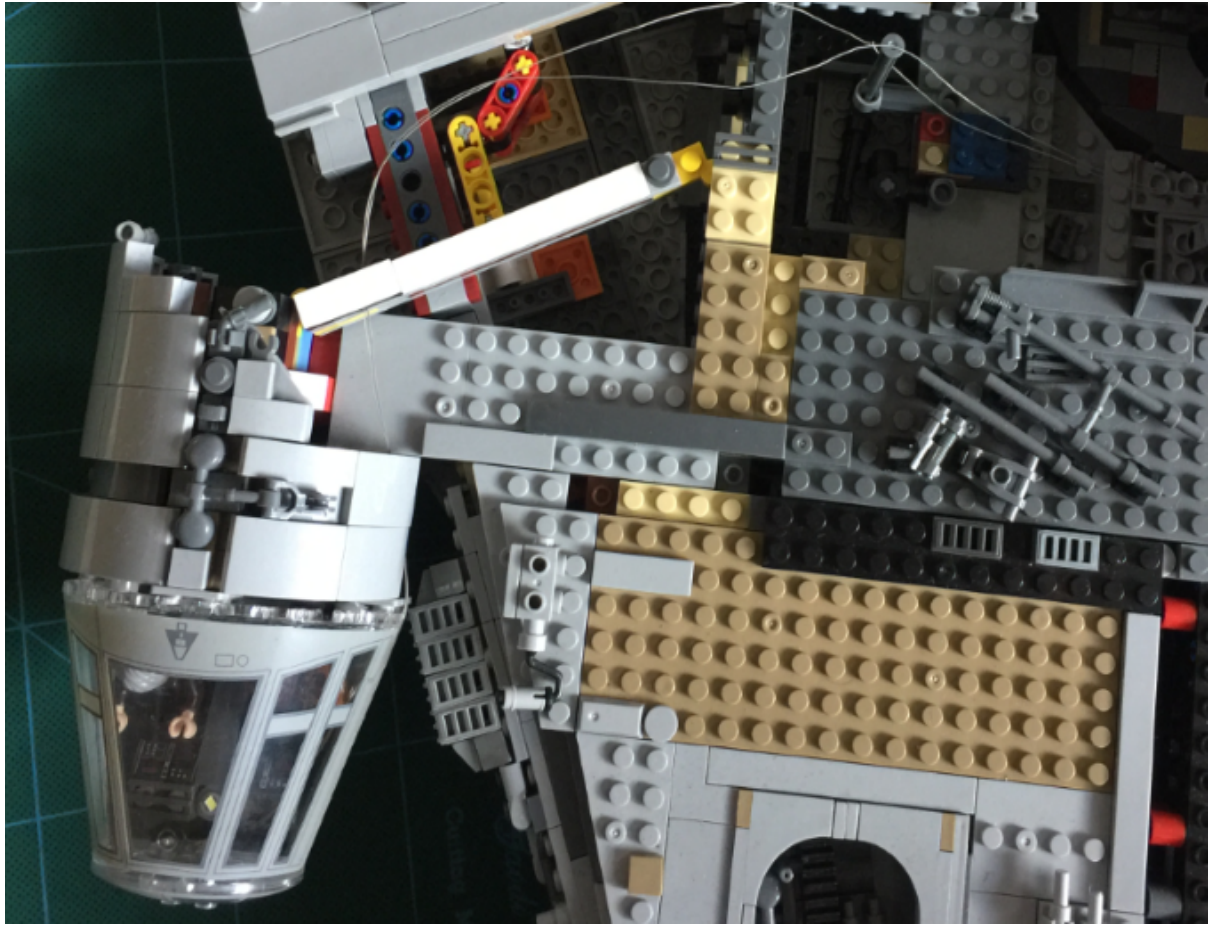

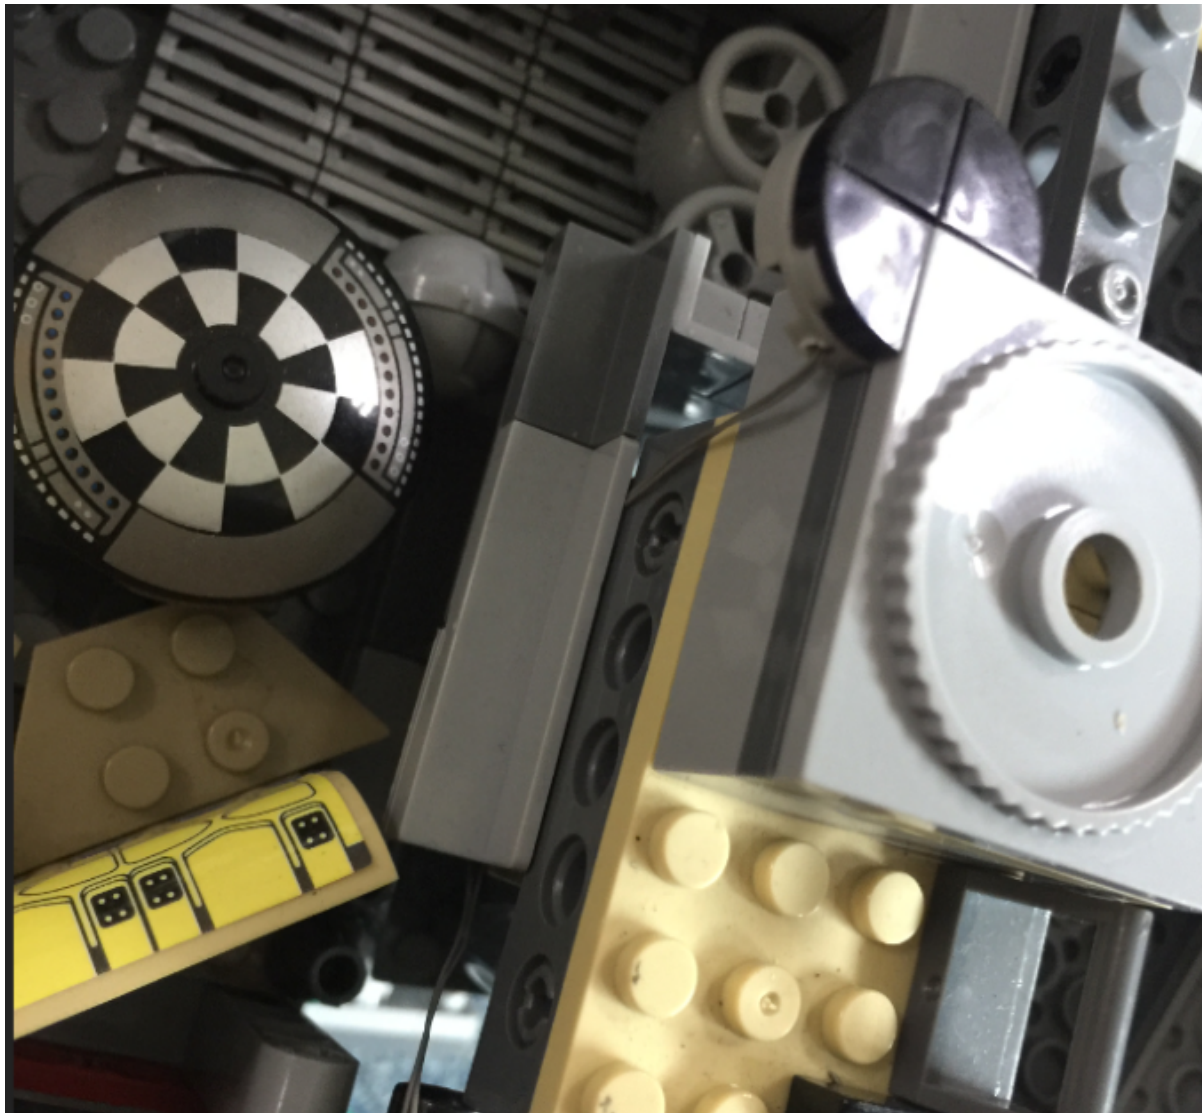

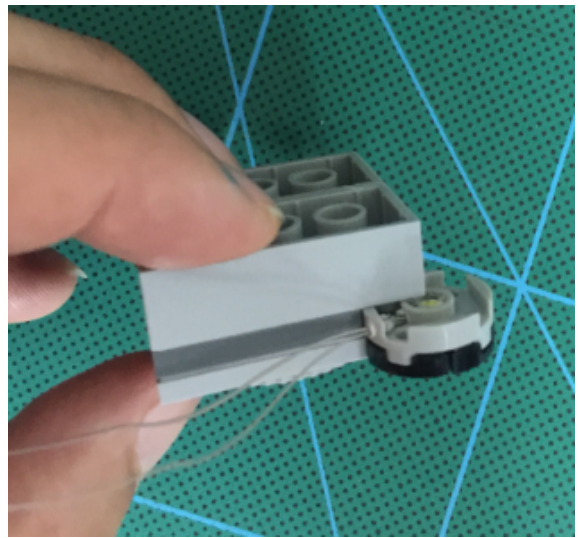

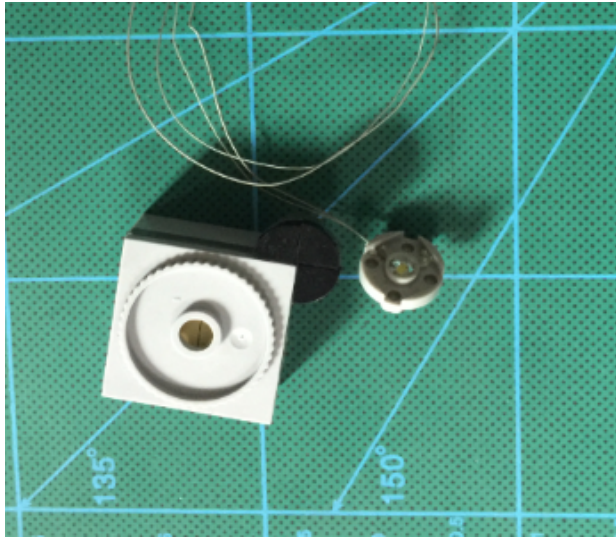

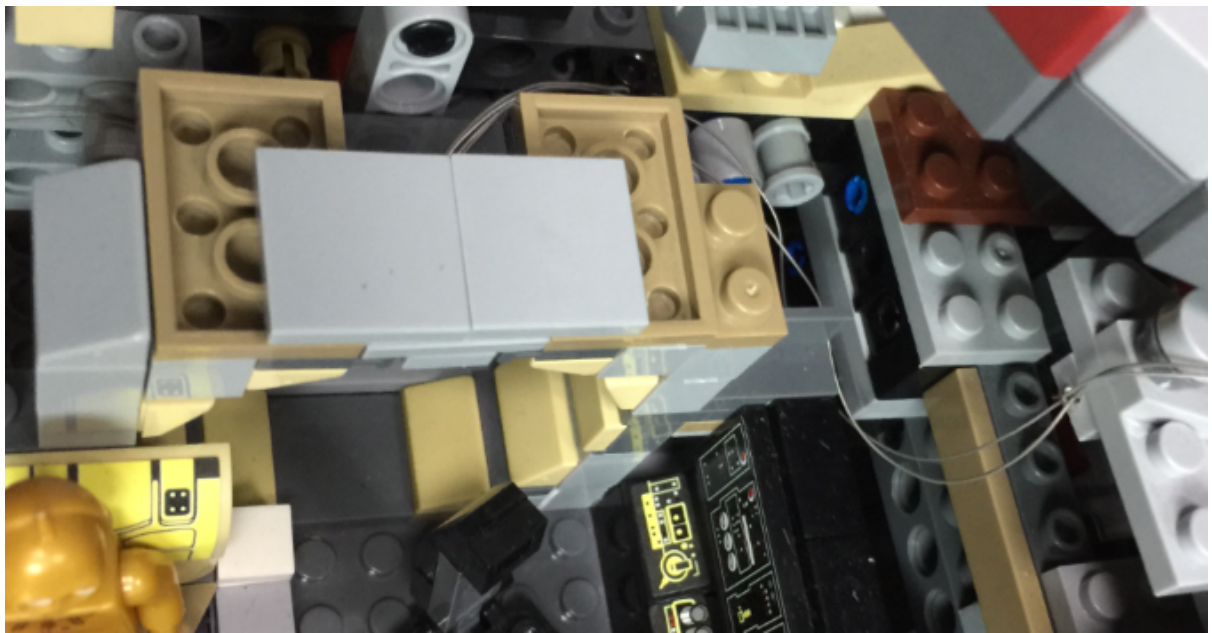

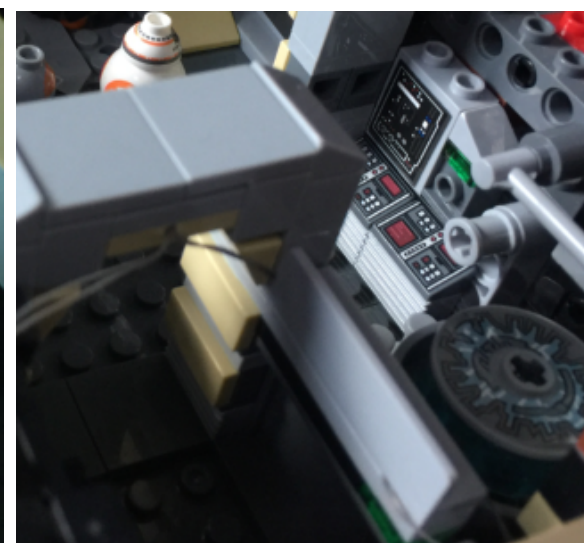

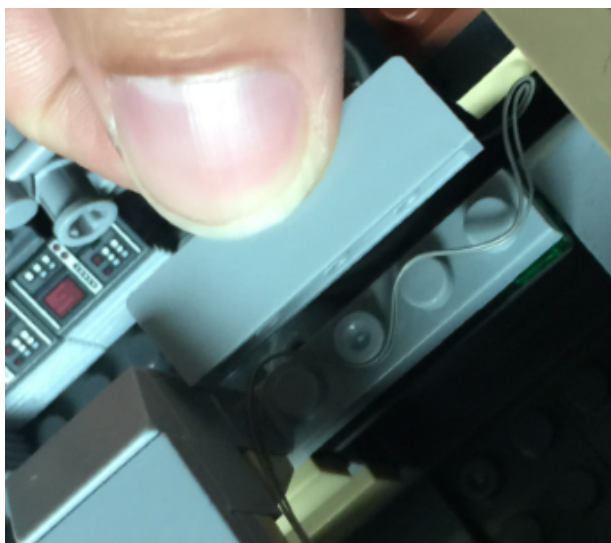

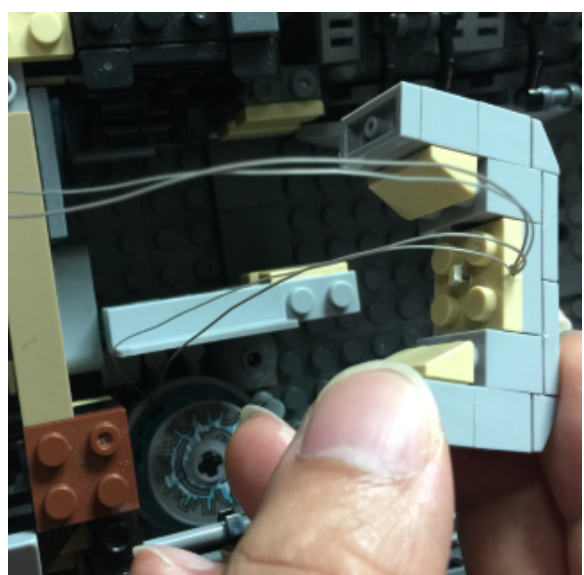

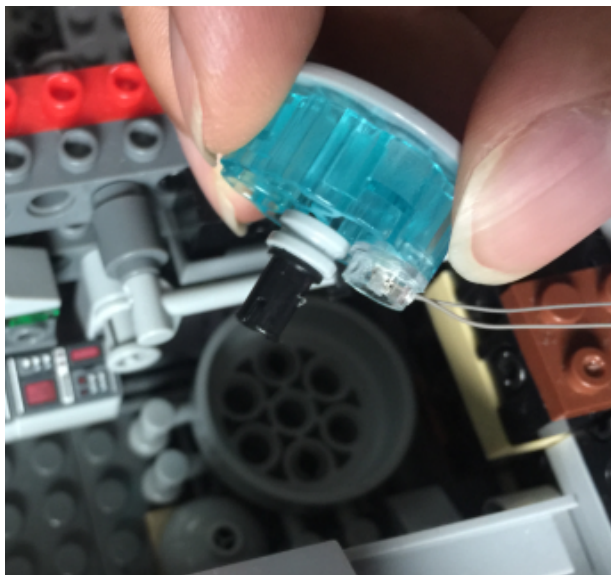

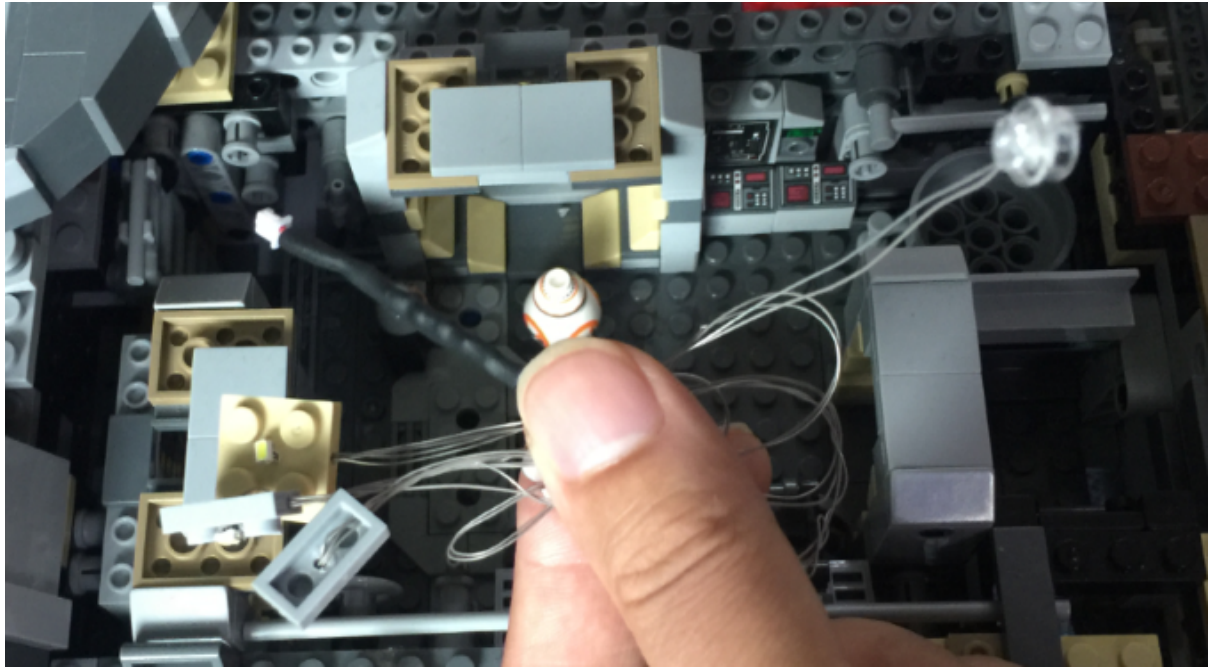

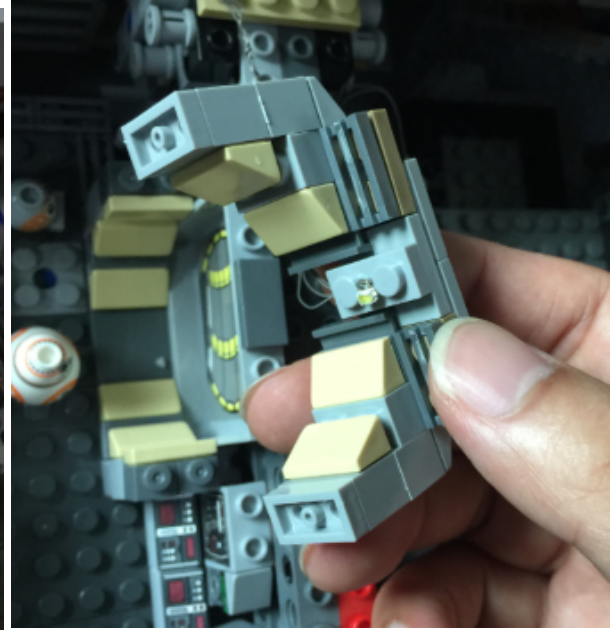

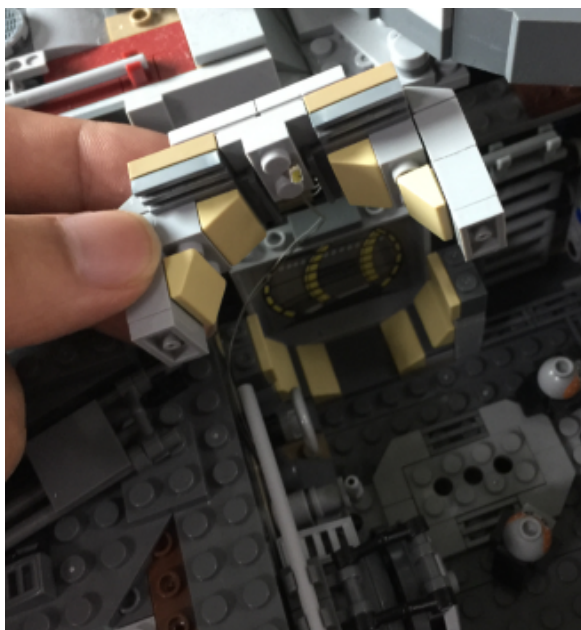

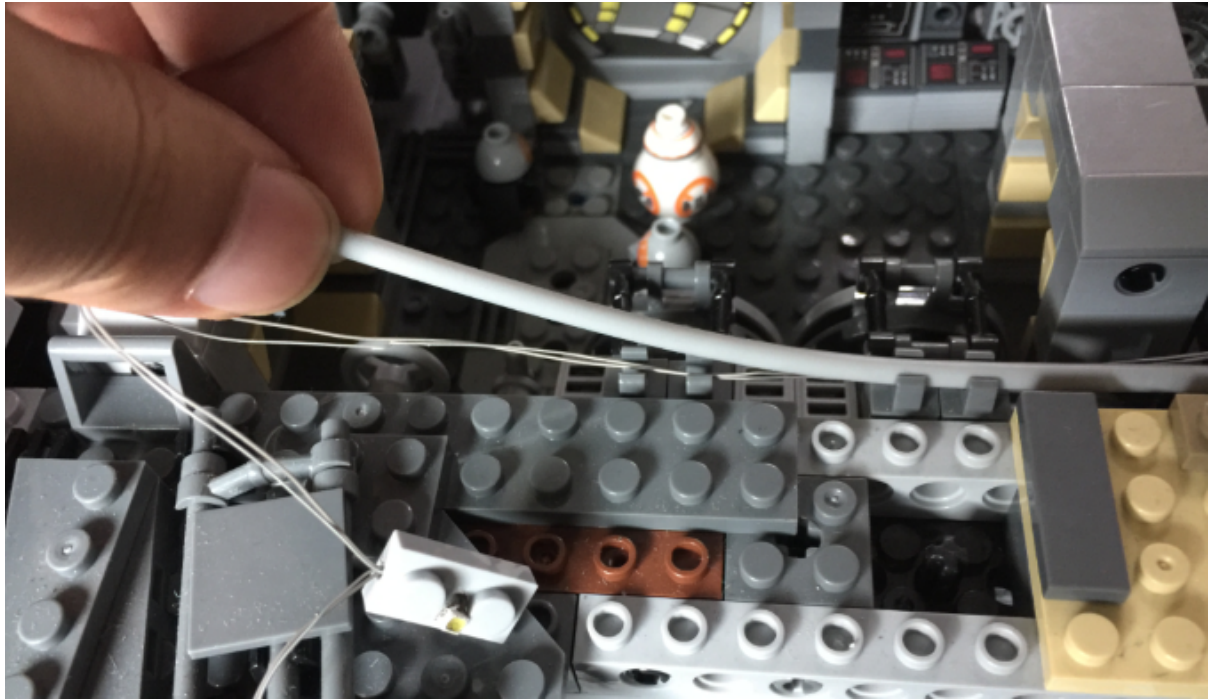

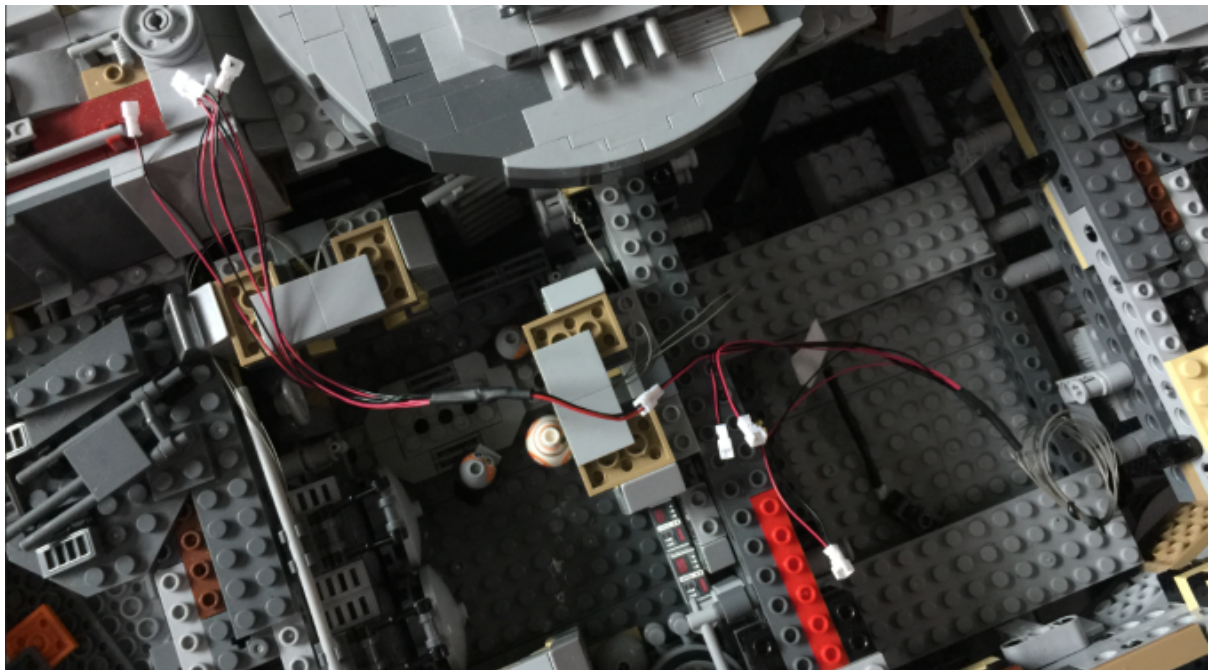

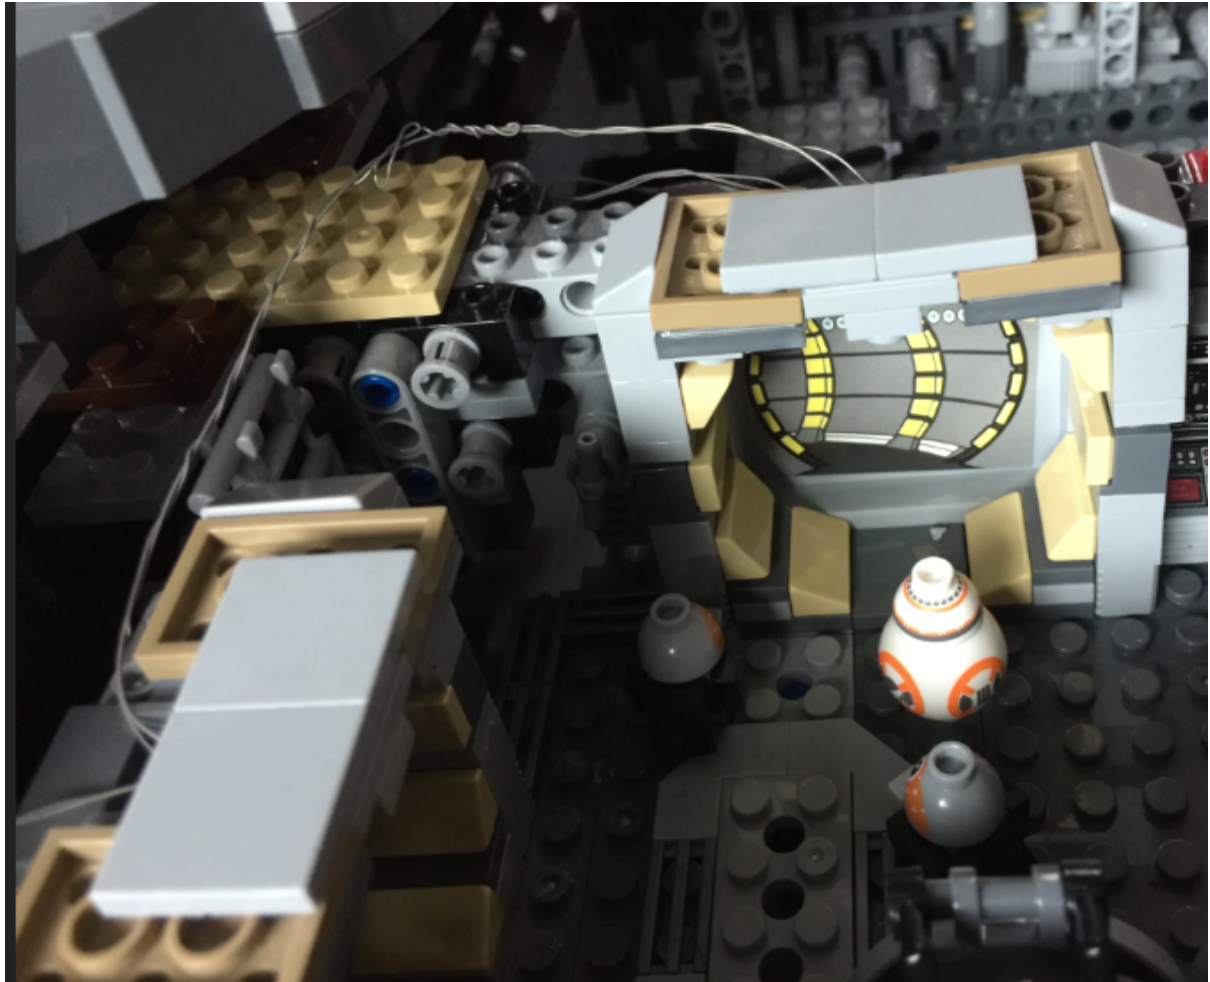

**Congratulations!!!! Lighting has been successfully installed, I am proud of you!!
If you will have any questions, feel free to contact me any time.
Best Regards,
Nikita, your friend at www.lightailing.co**
