Sent on:

Sun

Hello..

Sent on:

Sun

From:

abhinav sogga

I am checking your pdf file.

Sent on:

Sun

From:

abhinav sogga

FILE.txt

Actually there was electricity problem. So I cannot open it on my PC . So now I am checking this on mobile. So please bear with me.

OK..

Sent on:

Sun

From:

abhinav sogga

So, is this the assignment for your school or university?

Sent on:

Sun

Yes..

Sent on:

Sun

From:

abhinav sogga

Ok

Sent on:

Sun

From:

abhinav sogga

So ,you want the dummy products there ?

Not exactly but the admin should be bale to add products and the customer should be able to view and purchase..

Sent on:

Sun

From:

abhinav sogga

FILE.txt

Ok

Sent on:

Sun

From:

abhinav sogga

YOu want it to finish before wednesday.

if you can deliver by 08 Nov morning/Afternoon its fine

Sent on:

Sun

Every detail is in the PDF, if you need time to go through please do so and let me know in 1-2 hours I can wait..

From:

abhinav sogga

As I have to develop your ecommerce website from scratch, So, please give me some time to analyze every thig and also I have to discuss this with my designer .

Sent on:

Sun

no special page design is needed..just basic HTML is good...

Sent on:

Sun

as can be seen in the PDF...

From:

abhinav sogga

Thanks, I will get back you with my understanding and accurate cost and time in next 2 hours.

Sent on:

Sun

From:

FILE.txt

abhinav sogga

yes, but I want to deliver you best.

I need to keep cost down so basic HTML is fine..

Sent on:

Sun

From:

abhinav sogga

No coding, only HTML files.

Sent on:

Sun

I mean basic HTML with PHP AJAX XML and XSLT...

Sent on:

Sun

UI design is not needed as in real ecommerce sites..

From:

abhinav sogga

OK

Sent on:

Sun

From:

abhinav sogga

let me check and discuss this with my designer and will get back to you.

because design will take time as well, using basic HTML will save time as well..

Sent on:

Sun

FILE.txt

OK, I will wait just remember that this is being done in PHP, XML no DB is being used, XSLT and AJAX

all data is saved to XML and read back from XML..

make sure to go through the PDF properly if you dont understand ask I will explain, as certain things are optional and I DONT NEED THEM...

From:
abhinav sogga

OK
Sent on:

Sun
From:
abhinav sogga

Please tell me what is the optional so that I will include that.

optional is NOT to be included...
Sent on:

Sun
From:
abhinav sogga

Oo
Sent on:

Sun

Any updates sir ?
Sent on:

Sun
From:
abhinav sogga

Just give me 15-20 minutes. I will update you

FILE.txt

Sent on:

Sun

OK..

Sent on:

Sun

From:

abhinav sogga

I have few queries

What is the role of manager.txt file that you have written?

You have show a simple table in add new item with 3 simple menu. Page number 3 in pdf

Do you need similar and also do you need logo?

Also as we use PHP then file names will be change. is that Ok with you ?

Sent on:

Sun

Manager.txt file is to keep managers user id password since there will only be 1 manager and no registration

Sent on:

Sun

Which table are you referring to ?

NO logo needed..

why will the file names change if you use PHP ?

From:

abhinav sogga

You have mentioned the files names like login.html, listing.html in pdf

It will be changed to

PHP.

Sent on:

FILE.txt

Sun

Thats not an issue...

Sent on:

Sun

you mean file extension, its not an issue..

which table ?

From:

abhinav sogga

Please check the pdf file page number 3

Sent on:

Sun

This one ?

Sent on:

Sun

shared a photo

Sent on:

Sun

From:

abhinav sogga

Yes

Sent on:

Sun

From:

abhinav sogga

Color combinations should be like this one ?

FILE.txt

This is items for adding by admin, if you are asking whether the items added appear on the same page where items are added its up to you...

Sent on:

Sun

anything basic is fine...

for color combinations..

From:

abhinav sogga

Ok.

Sent on:

Sun

lab7.zip 6.8 KB

Sent on:

Sun

Something looking like this is also fine for me..

Sent on:

Sun

From:

abhinav sogga

What is this ?

Sent on:

Sun

thats the most basic html..

Sent on:

Sun

FILE.txt

its a non functional ecommerce site...

From:
abhinav sogga

Ok
Sent on:

Sun
From:
abhinav sogga

So I need usd 200 for this and will divide the project in 2 milestone.

From:
abhinav sogga

1 - html
2 developing.
From:
abhinav sogga

Is that ok with you?

200 will be more than my budget, I can do \$150...
Sent on:

Sun
From:
abhinav sogga

Give me 5 minutes.
Sent on:

Sun

OK..
Sent on:

Sun

FILE.txt

since its very basic no design, just functionality...

on HTML pages...

From:

abhinav sogga

Ok I will do this in USD 180 excluded portal fees

Sent on:

Sun

From:

abhinav sogga

I am start now working on your project.

Portal fees ?

Sent on:

Sun

I cant do more than \$160 as I'm financing myself and I'm on budget as well...

I will pay direct via with either bank transfer or Western Union for faster money transfer..

If you agree OK, other wise leave it..

From:

abhinav sogga

Ok 160 is ok

Sent on:

Sun

From:

abhinav sogga

But please pay the 50 now as you are not hiring me on portal

From:

abhinav sogga

FILE.txt

So I need. Upfront to be on safe side.

I need the source code because I need to pass the unit, so I wont run away...

Sent on:

Sun

plus just for \$50 the bank will charge me RM25 as transaction fee...

it would not make sense, I can do full 1 time payment , its just 3 days..

From:

abhinav sogga

Ok but deliver the payment in 2 milestone

Sent on:

Sun

milestone ?

Sent on:

Sun

I believe you are not using the site..

From:

abhinav sogga

Html and development and we will deliver the source code after getting the full payment

Sent on:

Sun

I agree to that...so you can show me on 08 Morning, I will verify the requirement and make 1 full payment...

Sent on:

Sun

From:

abhinav sogga

FILE.txt

I will show you the html tomorrow and you will check and release 80

Sent on:

Sun

but what is there to check in the html ?

Sent on:

Sun

From:

abhinav sogga

Any thing

Sent on:

Sun

From:

abhinav sogga

Issue.

From:

abhinav sogga

Mean to say your half work is complet

may be you are not understanding, html is already basic there is nothing in it unless xml and other data input etc is there...

Sent on:

Sun

I did not understand why you would want to split the payment into 2, I need the source code to pass the unit, which I will only get after paying...

From:

abhinav sogga

Ok. make one payment of USD 160 and we will deliver you the source code

Sent on:

FILE.txt

Sun

you need Western Union or bank transfer ?

Sent on:

Sun

From:

abhinav sogga

Bank transfer

Sent on:

Sun

From:

abhinav sogga

I will share the details with you shortly.

I will do bank transfer Morning itself because if the time here is 16:30 the money will only be processed next day...

Sent on:

Sun

So I see progress morning itself, I make the transaction, remember bank transfer money will reach in 2-3 days..

once processed..

From:

abhinav sogga

When ever I get the money . I wil deliver the source code

Sent on:

Sun

Western Union money will reach instantly but somebody has to go and collect it from any Western Union exchange by showing ID..

FILE.txt

Sent on:

Sun

Then choose Western Union as it is instant transfer..

From:

abhinav sogga

No I will share the bank details with you and you will do the bank transfer

Sent on:

Sun

From:

abhinav sogga

I am not interested in Western money transfer

So you want me to make the transaction on 08 Nov after seeing the working pages, so I make the payment on 08 Nov and I wait 2-3 days till you receive the money, you receive the money on 11 Nov...

Sent on:

Sun

my submission is on 08 Nov ?

From:

abhinav sogga

You will share the screen shot with me

Sent on:

Sun

From:

abhinav sogga

That you have transferred the money. So I will be as

From:

abhinav sogga

FILE.txt

Assure

I will send you all the transaction details with screenshots, as mentioned earlier if I make bank transfer anytime before 16:30 it will be processed same day and money will be processed same day only you will receive money after 2-3 days because its international transfer...

Sent on:

Sun

From:

abhinav sogga

I know as I have already deals with international client.

Sent on:

Sun

or you can do it this way, you can show me 07 Nov I will make transfer on 07 Nov evening itself and 08 Nov bank will process transaction first thing in the morning..

Sent on:

Sun

From:

abhinav sogga

Ok

Sent on:

Sun

From:

abhinav sogga

We will show you the progress daily

Can I ask if the bank account is typed in skype or copy and pasted ?

Complete bank account information, is it typed or copy pasted ?

because typing can cause error, if its typed please copy and paste from bank site to be accurate in information..

Because I will make the complete transfer now itself, instea dof waiting till tomorrow...

you can just who me on skype and pass the code..

Sir can I know if the details are accurate so I can perform the transfer now itself..

From:

abhinav sogga

- remove from cart not working
- confirm purchase showing message purchase successful
- Processing page not showing anything in admin, even after adding a new item
- admin log out link not working

Sent on:1:20 am

please refund, I'm tired of testing again...

From:abhinav sogga

Please clear the history and remove the cache.

Sent on:1:21 am

From:abhinav sogga

Then test please

in addition to the above

- cancel purchase removes items from list but does not add up back to list

Sent on:1:25 am

after cache clearing..nothing changed..Please process Refund by tomorrow, at this point I lost 20% marks as well as time, I waited the whole day and still received a not working one..Do NOT send me a new file, just refund, I'm not interested wasting my time I have other assignments pending as well..

From:abhinav sogga

Have you checking the new folder

Sent on:1:27 am

Your final assessment was tested on 3 browsers with all data cleared before running the files, your complete assessment was run on 2 different browsers..

Sent on:7:37 am

PLEASE DO NOT FIX AND SENT ME, I WILL EXPECT REFUND ONLY..BECAUSE NOW ITS NOT ABOUT THE PROJECT ITS ABOUT MY MARKS, SO PLEASE DO NOT WASTE YOURS AND MY TIME..
