European Terrorism & response

The first and immediate obligation of terrorist European governments, in their consequences on the European Crime of Apartheid, fascism, genocide, occupation, blockage. The first requirement for proof of the peaceful existence of these governments, and also stop the criminal responsibility of the new government's mandate, therefore, is obliged to ensure the function of a makeshift office Imperium of Diamond's, thus ensuring immediate cessation of all crimes and acts giving rise to conflict or instability meaning of genocide, financial bankruptcies and global terrorism, too. Because of terrorism, and thus caused the destabilization of governments Imperium Diamond's, so is the ability to find a job applicants for temporary office of the state's population with their own labor offices terrorist state.

The same obligation also own state as citizens of the country in the interests of the principles of the European rights as well as international legal obligations and principles of natural rights and the UN Charter. If even state media are not functioning and create blockages or damage name of people, then reaffirmed that the state reactivates terrorism.

If these principles are not used, then it means that European terrorist entities not want to create peaceful cooperation, and therefore their interest and strategies always crime, terrorism and violation of international law, occupation, disinformation and the integrity of the foreign state and genocide, espionage, slavery and other crimes.

Therefore, it is always legally claimed opportunity to give full open duty for the disposal of the entire dimension of this terrorist entity governments and the state, using weapons of mass destruction, such as the obligation of States UNSC and the principle of universal law because of the direct due to the rise of the United Nations precisely for this act and purpose meaning secure an immediate measure for the complete destruction of states and governments of countries that produce the same crimes as fascist Germany during World War II. European terrorist subject 6x much outstrip genocides of the WWII death statistics, and much than 20x much of number of occupied countries be legal form. This means that losing a UNSC veto power, in order to prevent monopolies personal interests of members of the UNSC, and so it is again reminded that the United Nations was founded after the Second World War, and after a full recharge of the fascist Berlin, and therefore begin legal order.

When the UNSC is not sufficiently responsible body for ensuring the ability to immediately liquidate terror organizations, then it is an obligation for all States UNGA ensure the same goal, that is an automatic act of global legalization of all states open rights to mass produce weapons of mass destruction and use nuclear weapons, biological weapons, chemical weapons, asteroid weapons, reality-modifying weapons or other weapons of mass destruction character (today is best for use weapons for continental destruction, plans public on ID's website). Weapons must be used against all countries that are active in terrorism and also against all countries that support such entities in any way.

When the UNSC and the UNGA States will not respond, and destruction of terrorism will not be ensured, then it means the decline of the global political system, the world of the New Occident. Every politician and an official who creates such a threat because of his political irresponsibility, because he threatens your country and the world, threaten of full destruction of Your state be the weapons of mass destruction. Therefore, such policies and criminally liable person may be punished too be the form of Occidental character, criminals responsible, their family, friends, punishments for those because most historic betrayal against our whole world and against the law to secure the life of every human being. Existence "who not can be born" !
