

# Where To Find Minecraft Saved Recreation Files On Mac & Home Windows

Should you or a loved one are a Minecraft consumer, you could also be involved in tracking down game save recordsdata on a Mac or Home windows Laptop.

Saved sport information might be relevant if you're looking to manually again them up, store them in a cloud service for use on a number of gadgets, sharing with others, amongst other functions. With mc list of time many individuals invest into Minecraft, the saved recreation knowledge is reasonably essential. So, let's dig into the place these information are positioned on Mac and Laptop.

## Minecraft Save Sport Recordsdata Location on Mac OS

On all variations of MacOS and Mac OS X, you will discover saved video games at the following location:

```
~/Library/Utility Assist/minecraft
```

You possibly can paste that file path in the Finder's Go To Folder command (Command+Shift+G) or in Spotlight (command+spacebar) to jump to that vacation spot rapidly.

This will also be accessed from Finder by knocking down the Go menu, holding down Option, and deciding on "Library", then navigating to 'Application Support' and to 'Minecraft'.

## Minecraft Save Sport File Location on Windows Laptop

For a Home windows Pc, you could find the placement of Minecraft saved game files at the next location:

```
C:\Users\USERNAME\AppData\Roaming\.minecraft
```

Changing USERNAME with your user account.

You may also navigate to that directory manually by opening Home windows Explorer to your user home directory, going to AppData, then to Roaming, and into .minecraft.

Whether or not on Mac or Pc you may add or remove saved game information into these directories, and they'll be available when you open Minecraft into single participant mode.

Pleased minecrafting!
