GRETCHEN WHITMER WILL PROTECT MICHIGAN'S ENVIRONMENT — FOR HER FAMILY AND ALL FAMILIES

Gretchen Whitmer has five good reasons to protect our health and our environment — she wants to make sure her five kids and ALL Michigan kids grow up healthy and able to enjoy our unique natural beauty.

PROTECTING OUR HEALTH IS JOB #1

Whitmer's public health and environmental ratings were among the highest in the state Legislature. As governor, she will prioritize safe drinking water and decommissioning Line 5, the dangerous oil pipeline in the Straits of Mackinac.

STANDING UP TO CORPORATE POLLUTERS

The last eight years, Michigan's governor sold out to corporate polluters — that ends with Gretchen. She will protect the Great Lakes, combat climate change, and prioritize people over polluters.
