

# The Best Way To Play Multiplayer Minecraft: Pocket Version

Enjoying Minecraft: Pocket Version alone is plenty fun, but add some associates to your display screen and it's even higher. Here's how.

Earlier than you attempt to multi-play, download the game's latest version (0.12.1) so that you and your pals have the newest up-to-date features; the sport prices \$6.99 USD.

## Playing Minecraft: Pocket Version domestically

Enjoying domestically means that you simply and your folks (up to 5 players) can play inside the same world-however only when you're all connected to the same Wi-Fi connection.

Within your recreation settings, toggle the "Local Server Multiplayer" switch to on.

First, resolve whose world you wish to play in and cargo up that recreation on that person's gadget. This machine will now be the host.

For your mates to hitch, they must tap "play" and select the new world (highlighted in blue) that's appeared at the highest of their checklist.

That's it; they're in! Get able to dig, create, discover, or run around chasing creepers- whatever you're into.

## Connect to Minecraft: Pocket Version gaming servers

If you wish to play with more players who aren't on the same Wi-Fi connection, you may want to consider using servers. [CUBPACK88.ORG](http://CUBPACK88.ORG)

Servers are-as a rule-completely online worlds that gamers from across the globe have created and who have graciously opened to other gamers.

Most of these servers require registration whereas few are open to all. To discover a server, strive [MinecraftPocket-Servers](http://MinecraftPocket-Servers) or [Minecraft Pocket Version Servers](http://Minecraft Pocket Version Servers) and browse for a world that you'd like to hitch.

The server details will include an deal with and a port quantity, which you'll have to fill in within Minecraft: Pocket Version on your Lumia. To try this, press:

- Play
- New
- Add external server (high proper, represented by a plus symbol and an arrow)
- And enter a reputation-may be any name
- Enter the deal with
