That Time I Got Reincarnated As a Slime in SMITE

Rimuru Tempest

Sun Wukong

The Cudgel could be changed into Rimuru's sword

72 Transformations; Rimuru with bat wings, Tempest Star Wolf form, and unsure about the Ox form

Rimuru's slime form as a special emote maybe

Erlang Shen

The spear would have to be Rimuru's sword

72 Transformations; The mink form could be Rimuru's mimiced form of a Tempest Star Wolf and the turtle form could maybe be the slime form

The Celestial Dog could also take the wolf form or just be **Ranga**

Ranga

Fenrir

Although Ranga does have magic, like Black Lightning or Death Storm, Fenrir doesn't have anything like that

Souei

Loki

Souei uses Shadow Movement so he's always disappearing/teleporting

He uses body doubles/clones

Weapons are dual swords, but Loki uses daggers

Souei's magic is Arcane Thread Fetters, but I don't think there's a good way to implicate that into Loki

Benimaru

Gilgamesh

Rather wind and sand turn it to flames since Beni uses his Ogre Flame

He also uses a Japanese style sword, so I guess change the scimitar into that

Hakurou

Ao Kuang

Honestly I don't really know how this could work. I picked him because of sword skills, but I have no clue what to use as the dragons.

Shion

Nike

Could probably work, just change the weapon to match Shion's

Diablo

Hades

From what I can tell he doesn't use a weapon. I could be wrong since I'm basing this off the anime. I'll read the manga when I have time >:(

Idk much else other than the fact that he's a badass and powerful demon
