Wow Look at all the fakes.....

Wow Look at all the fakes.....

all these positive fake reviews should make you even more cautious before investing a single dollar ...just looks at the 2 below - apparently 2 different people from 2 different continents (Europe and America) are so in sync they can write identical reviews. (smells like potential).

👍 Useful

Smells like potential

I saw the Rise CEO in Miami speaking at the Blockchain Shift conference. Really cool to hear how he's leveling the playing field for investors. The advent of Rise means that technology previously only available to the Elite will be accessible for everyone.
