

4 Ways To Change Your Look Without Damaging Your Hair

<https://www.sishair.com/>

Here are 4 easy ways to help you change up your look without damaging hair.

1. Part With Your Regular Hair Part

Changing hair part can make a huge difference and totally reinvent your look. Parting hair can help to add volume and dimension at the roots, framing your face in a totally new way. You can spray some water or styling spray and blow dry the hair to train it to stay in the new direction if your classic hair part is stubborn and keeps overpowering your new part.

2. Pull Hair Back With a Headband

Girls who love hiding behind their bangs can try it out. You can use a headband. Or, you can simply tie your hair back in a high ponytail or bun.

3. Try a Faux Bob

It is a huge commitment to cut all your hair off into a bob.

4. Classy

Classic look is timeless. It is recommended to choose elegant looks which are perfectly combed and executed. You can try a dramatic side part and a low bun or chignon to achieve a classy feel.
