

# Hair Transplant For 1 Dirham in Dubai

Welcome to our clinic, where we offer a hair transplant like none other. With our revolutionary technique, you can now get a full head of [Hair Transplant for just 1 Dirham](#). Don't let hair loss hold you back any longer.

# What is Hair Transplant Surgery?

Hair transplant surgery is a cosmetic procedure that helps transplant hair from one part of the scalp to another. It is a popular method for treating hair loss and can result in a full head of hair.

## How it Works

The surgery involves extracting hair follicles from the donor area and transplanting them into the recipient site. The new hair follicles will continue to grow, providing a fuller head of hair.

## Candidacy

Anyone with hair loss can benefit from hair transplant surgery. However, it is important to schedule a consultation with our expert team to determine whether the procedure is the right fit for you.

## Recovery

The recovery process is relatively quick and painless. Patients can expect to return to work in a couple of days and resume regular activities within a week. A follow-up appointment will be scheduled to ensure that the hair is growing properly.

# How Does the 1 Dirham Hair Transplant Work?

Our 1 Dirham Hair Transplant is a new technique that employs a minimally invasive approach, which means you will have a faster recovery and less discomfort. Here's how it works:

## Step 2

Once we have extracted enough hair follicles, we create channels in the recipient area and insert the follicles one by one using a specialized tool.

1

## Step 1

We apply local anesthesia to the donor area and harvest hair follicles using a tiny punch tool.

2

3

## Step 3

Finally, we apply a dressing to the treated area and provide instructions for proper care during the recovery period.

# Benefits and Risks of Hair Transplant Surgery

Like any medical procedure, hair transplant surgery comes with its own set of benefits and risks. Here are some of the key takeaways:

## Benefits

1. Improved self-confidence and self-esteem
2. Natural-looking results
3. Permanent solution to hair loss

## Risks

1. Infection and bleeding
2. Scarring
3. Numbness and itching
4. The cost of the procedure

# Frequently Asked Questions about 1 Dirham Hair Transplant

Here are some of the most common questions we receive about our 1 Dirham hair transplant:

## How is it different from other hair transplant procedures?

Our 1 Dirham hair transplant is less invasive and uses a specialized technique that ensures a faster recovery and lower risk of complications.

## How long does it take to see results?

You will start to see new hair growth within a few months after the procedure and full results within a year.

## Is it painful?

Most patients report little to no pain during the procedure, and any discomfort can be managed with medication.
