Creatine does not just make you hold water! I recommend creatine, but if you have never lifted weights before I wouldn't start taking it right away. Give yourself 6 months to a year of training before you implement it! □□□□□□□□□□□□□□□□

Testoviron is widely available worldwide, with the exception being the U.S. You will not find a lot of Testoviron in the U.S. Numerous black market steroid dealers also carry it. It will not be one of the cheaper Testosterone Enanthate products, but it shouldn't be too expensive either.
