I've googled 2 of my friends from 5-10 yrs ago (I moved from NYC and lost touch with some people) and so I googled them to see if they're on FB and shit.

Well, two of my female friends have criminal records involving some kind of theft. One of them I located this:

Indictment Count: 001

Felony Class: D

Sentence Length: 5 years 0 months 0 days

Historic Percentage of Time Served for Similar Offenders: no matching historical data

Holy fuck, so she's a felon now? Does that mean she's serving jail time? That really blows, man. This is for credit card fraud, she used about 10,000 fraudulently. It's shocking to find people you liked in the past turning into felons. [Van Cam Khang](#)

she has never communicated with me. i saw her 2 weeks ago at a club and she grinder on me and i walked away. since then she's made her instagram private so now i'll never see her again and ruined my one chance to creampie again..the chances of another random encounter in ft laud is very small.
