Menachem Mendel Schneerson in 1989. He is considered one of the most influential Jewish leaders of the 20th century. Source

This may be a surprise to many readers, but Jews are in a position of virtually total control of all facets of the US government, a control that includes both domestic legislation and foreign policy. This is so true that it is not possible to separate actions or policies initiated by "Americans" from those imposed by their Jewish overlords. However startling this may seem, the truth of it is easily provable.

When the government of Ukraine was overthrown and the country's elected President replaced by a Jew who would instigate a war with Russia, it was another Jew, Victoria Nuland, who was making the selection of the President and pulling all the strings. The US White House and Congress were uninvolved and meekly silent while all this was happening. The "Americans" will suffer the blame for the ensuing chaos, but Americans had no part of this. When Israel wanted the latest version of US military aircraft, US Generals declined, saying they needed the aircraft and that Congress would never approve the transfer. Israel's President Benjamin Netanyahu is quoted as saying, "Just get the aircraft ready. I'll take care of Congress."

We can easily identify the same patterns in finance and banking, in corporate legislation, in social policies dealing especially with abortion, education, gender and sexual matters, in food safety legislation, in the pharmaceutical world, and much more. In all these areas, there are Jews leading the process, very often from behind the scenes but increasingly done in the open. The Jews' absolute domination of all mainstream media, social media, Internet searching, book and magazine publishing, ensures their total information control and thus public perceptions.

As I noted in the previous essay on the Deep State, US Congressmen and Senators are literally forced to sign an oath of allegiance to Israel and the Jews at the risk of losing the next election. Congressman Cynthia McKinney refused to sign this oath, and a flood of Jewish money and media publicity ensured victory for her opponent and she was tossed aside. Cynthia was by no means alone in this, with the result that today the main prerequisite for election to any US government position is a firm public commitment to the Jews' agenda, whatever that may be.

These statements are equally true for all Western countries - and many others as well. The percentage of Jews in the governments of other nations may not be as dramatically high as in the US, but the domination and control exist nevertheless. Many Western nations, Germany being one especially notable example, are in practical terms Jewish colonies. Canada, France, England, Italy, Holland, are not better. This essay deals with only the US. The information here is presented in the hope of giving readers a better understanding of the social forces shaping our world.

When writing of Jewish influence and control of a society's segments, most especially those in the US like Hollywood or the media or the ownership of the FED, there is always a flurry of denial even though the Jews like to boast in private of their control of these same segments. Anticipating this same response (as well as the usual charges of anti-Semitism) to claims of the Jews controlling Washington, we can expect the multitude of Jewish defense organisations to emerge with strident denials, but those denials are false. This essay presents some accumulated evidence garnered from various publicly-available sources. It is by no means complete; a full list would contain many thousands of names. Nevertheless, **Jews do hold an enormous, and enormously disproportionate, number of positions in the US government at all levels from Secretary of State to a communications clerk.** A large number of these people have dual Israeli-US citizenship with clearly concomitant loyalties, **almost all being Zionists as well.**

In reviewing the lists below, a few points should be kept in mind. One is that **each name is just the apex of a Jewish pyramid** since these individuals are almost all in executive positions with large departments under their reign, and will appoint many other Jews in turn. **A Jewish Secretary of State will appoint many Jews to various State Department offices and many Jewish US ambassadors. Similar with Defense, Treasury, Commerce, and so on.** If we add in all the handlers, aides, assistants, deputies and assistants of assistants, lawyers, other advisors, and the multitude of high and middle-level bureaucrats and policy-makers, **the number of ethnic Jews in a typical American administration would likely be 40% to 50%.** This is a fact recognised and admitted by American Jews themselves, one prominent Jew stating, **"The US has no longer a government of Goyim [Gentiles], but an administration in which the Jews are full partners in the decision making at all levels."**

According to the **Jewish Forward**,^[1] when **John Deutsch** was appointed **Director of the CIA**, he immediately **"made a series of personnel changes"**, appointing **David Cohen** as Deputy Director and **Nora Slatkin** as Executive Director, giving her **"broad, unprecedented authority over the deputy directors"**. Jews also filled four of the CIA's seven directorates with another Jew, **Arlen Specter** being appointed **Chairman of the Senate Intelligence Committee**, giving Jews a virtual stranglehold on the workings of the CIA. It was the Jew **Sydney Gottlieb** who was appointed **head of the CIA's inhuman MK-ULTRA program**, with other Jews put in positions of worldwide political murders and assassination projects.^[2] One such person, **Samuel Halpern**, was the **"executive officer of Task Force W" which was established to kill Cuba's Fidel Castro**^{[3][4]} - primarily in **retribution for Castro's expulsion of the Jews after the Revolution**, with "Americans" being blamed for all the failed attempts on Castro's life.

When **Madeleine Albright** was appointed **US Secretary of State**, she immediately organised a slate of candidates for all the top positions in the State Department, **which consisted entirely of Jews. She immediately appointed Dennis Ross, Stuart Eizenstadt, Mark Grossman, Princeton Lyman, Howard Wolpe, Stanley Roth, Karl Indefurth, Jeff Davidow, Martin Indyk and Bonnie Caplan.** Indyk had his security clearance suspended by the State Department for **"suspected violations"** of security norms, "over a long period of time", but that didn't stop Madeleine Albright from clearing him anyway. In related news, something similar occurred with **Donald Trump's handler and bearer of instructions from his masters in The City of London - his son-in-law, Jared Kushner, who apparently failed every category of security examination but was appointed anyway.**

Even when appointees are not Jewish, the Jewish lobby usually has much to celebrate anyway. Early in **Clinton's first term**, in **1993 the MetroWest Jewish News** noted that **"The new [Clinton] administration will also have the added strength of two very strong [non-Jewish] supporters of Israel as Secretary of Defense Les Aspin, and Central Intelligence Agency director James Woolsey. Aspin, as Chairman of the House Armed Services Committee, has been an architect of -- and key figure in -- U.S.-Israel strategic relations. Both men are members of the board of advisors of JINSA, the Jewish Institute for National Security Affairs."**

Since Jews comprise only about 1.5% of the US population, we can legitimately ask why they should expect to be "full partners" in "all levels" of the US government, and I think we could all wish we had "as little influence" as they do. Another factor is that many if not most have Israeli citizenship or otherwise deep connections to Israel, with their prime loyalties generally in that direction. As well, most of these people are avowed Zionists and unlikely to miss an opportunity to further that agenda which will seldom be compatible with US interests. Finally, **most of these individuals have deep contacts with AIPAC, the Rothschild Council on Foreign Relations, the Trilateral Commission, many of the prominent so-called Think Tanks and Foundations, as well as related organisations like the RAND Corporation, and will not only be taking instruction but acting in behalf of the varied agendas of these groups - all of which are staunchly Zionist, and all instruction and control emanating from the cabal of Jewish bankers in The City of London.**

On October 3, 2001, the **Israeli Press Agency** reported on a **Kol Yisrael** radio program where **Shimon Peres** warned **Israeli Prime Minister Ariel Sharon** that **refusing to heed incessant American requests for a cease-fire with the Palestinians would endanger Israeli interests and "turn the US against us."** At this point, a furious **Sharon reportedly turned toward Peres**, saying "Every time we do something you tell me Americans will do this and will do that. I want to tell you something very clear, don't worry about American pressure on Israel.

This issue of the Yiddish socialist daily, the Forward, endorsed Roosevelt for reelection as "Labor's Choice" on the cover of its November 1, 1936, rotogravure section. In 1936, Roosevelt garnered a whopping 85 percent of the Jewish vote. SOURCE

But this attitude was by no means a recent development. The Jewish Daily Bulletin stated in its publication on July 27th, 1935, "There is only one power which really counts. The power of political pressure. We Jews are the most powerful people on earth, because we have this power, and we know how to apply it." Israeli commentator Israel Shahak says Jewish influence on governments, the US in this case, "is due to their great political influence in general and their predominance in the media in particular" and the ability of the "organised American Jews" to use their power for their own interests. Many of the Jews who have obtained positions of power in the US government are also officials of AIPAC and other Jewish pressure groups such as the ADL.

When you add in the almost total control of all forms of mainstream and social media, especially including newspapers and television, of most magazines and all of Hollywood, of most of the book publishers and book sellers, of most of the major international advertising agency conglomerates, of all the large banks and the banking system, the so-called "merchant banks", the hedge funds, the large M&A groups, and the beneficial ownership and control of a majority of the multi-national corporations, to say nothing of their presence in higher education, the extent of influence and control is impressive indeed. And none of this latter is part of what we call the "deep state" or the "hidden government". These are just the people who support it and benefit from it.

This overload of Jews in all US Administrations seriously affects the US position in all foreign relations, not the least of which involves the 70-year-long Jewish travesty in Palestine. The Jerusalem Post wrote that with so many Jews in the upper echelons of American government, "Arabs have repeatedly complained that the United States has not acted as an honest broker" in Middle East peace negotiations. Israeli commentator Meron Benevenisti described an Israeli newspaper's depiction of the 4-member Clinton "peace mission" as "the mission of four Jews", the paper "gloating with pride while talking about the Jewish roots of all its members." But these conditions hold true for what appears to the public as "the American position" on all consequential foreign circumstances, specifically including Iraq, Libya, Syria, Russia, China, Cuba, Iran, Somalia, Venezuela and others. Because of the almost total control of the US Congress and White House by Jews, as well as virtual total control of all the media, what the world sees emanating from the White House is the Jewish position on all these nations, a policy dictated by the Jewish Bankers (led by the Rothschilds) from The City of London. This is so true that there is really no such thing as "a US position" on anything involving foreign nations or policies. The fact that so many, if not most, US "Ambassadors" are also Jewish, is a powerful negative for those nations. At one point, James Zogby, head of the Arab American Institute, wrote with alarm in an article entitled "A Dangerous Appointment", that more than two-thirds of all the work done by or for the US Defense Department involved representing Israeli interests.[5]

"In 1997 Jewish American journalist J. J. Goldberg gave a lecture to the Labor Zionist Alliance of Canada. The Canadian Jewish News reported on the talk, noting that Goldberg proclaimed that Jews were the "players" in the modern world, not "victims:" "[Goldberg] went on to give many examples of American Jewry's influential role in American politics. "We Jews run American Middle East policy." This is so true that when Israeli President Ezer Weizman traveled to the US, all Jewish community leaders were invited to the White House for lunch and to discuss American Middle-East policy, the only non-Jews in the room were Bill and Hilary Clinton.

Gary Aldrich was an FBI agent for 26 years who spent the latter part of his career investigating security clearances to White House staff during the George H. W. Bush and Bill Clinton administrations.[6] In 1996 he wrote a book titled "**Unlimited Access: An FBI Agent Inside the Clinton White House**"[7][8] The Jewish Exponent wrote an article stating "There are uncounted dozens of Jewish White House staffers", adding that **Ira Forman**, director of the National Jewish Democratic organization, "tells of one Jewish staffer who balked at handling the White House Christmas decorations but was told he had to do it because everyone else here is Jewish too." **Hyman Bookbinder**, the former Washington representative of the American Jewish Committee, said "**We've stopped counting the number of Jews in key places in the [US government] because there are so many of them.**"

Aldrich and other authors including Besser, Gross and Matusow, have commented on the Christmas decorations at the "Christian" White House. It is instructive (and I will deal with this at length in another article) to understand the contempt that Jews hold for Christianity in general and Jesus Christ in particular.

In his book, Aldrich tells what it was like **decorating Hilary Clinton's White House Christmas Tree, with ornaments created by various Jewish artists, featuring pornography, "sex toys and self-mutilation devices"**. Aldrich wrote, "I couldn't believe the disrespect that these ornaments represented. Many of the Jewish artists invited to make and send something to hang on the tree must have had nothing but disgust, hatred, and disrespect for the White House and the citizens of this country, a disgust obviously encouraged by the first lady in the name of artistic freedom ... Here was another five golden rings ornament -- five **gold-wrapped condoms**. I threw it in the trash. There were other condom ornaments, some still in the wrapper, some not.[9] Of course, as soon as the book was published, *The Washington Post* published an article by another Jew, **Howard Kurtz**, that "debunked" Aldrich's "defamatory statements". [10] But not really.

Here is a partial list of Jews from recent White House Administrations:

Of the approximately 500 names in the lists below, all but four or five were drawn from Jewish websites boasting of the control and influence Jews now have over the US government, and I assume their ethnic identifications were accurate. If any of the remaining few have been mis-identified, I offer my apologies. It is not always simple to identify an ethnicity with absolute certainty, and many Jews prefer to not be so identified - one reason they change their names. And this is not to mention "Judeophilic Gentiles" like Jake Sullivan, or Gentiles with Jewish spouses, like Samantha Power. **References for this portion are included at the end of this essay.**

Presidents

Source

I will mention here only **Abraham Lincoln**, who was the accidental and illegitimate offspring of a Jewish cotton trader named **Spring(stein)** and a young woman named **Nancy Hanks**. [11] The woman did not want the infant so Springstein named the child Abraham (a good Jewish name) and gave it for adoption to a family named Lincoln. This history was discovered only recently when the man's will was discovered in an archive, containing full details of the encounter and the adoption terms.

Naturally, the Jewish media dislike this version so they spin the story in many different ways. *The Washington Post* [12] refers to **Nancy Hanks as Lincoln's "angel mother"** while **Wikipedia**, lying as always tells us Miss Hanks married Lincoln, so they were a "**family**" after all. [13] It is now very difficult to find accurate information on this matter because so many have concocted so many contradictory stories, changing the names as they proceed. But this version is the only one with a sound ring of truth to it, and I believe it to be correct.

Federal Reserve Board of Governors

When discussing "control of the money", we can't ignore the fact that **the US FED is a private Central Bank owned by one of the Rothschilds and other Jewish European bankers in The City of London.** And through this ownership, they have total control of the US currency and the US economy, including the money supply, interest rates, the values of the stock and bond markets, the housing market, and much more. It is this control which creates all the economic booms and busts, like the 1929 crash and subsequent depression, the 2008 "financial meltdown", and all the others. **For the record, the ultimate beneficial owners of the US Federal Reserve have been reliably documented as follows: the Jewish owners of the Rothschild Banks of London and Berlin, the Warburg Banks of Hamburg and Amsterdam, Lehman Brothers of New York, Lazard Brothers of Paris, Kuhn Loeb Bank of New York, Israel Moses Seif Banks of Italy, Goldman Sachs and the Chase Manhattan Bank.**

Control of the World

In the above, it was people like Henry Kissinger with Vietnam, Madeleine Albright with Yugoslavia and Iraq, and Paul Wolfowitz with the Iraq war, who used the power and influence of their positions to drive US foreign policy where they and their handlers wanted it to go. Wolfowitz was an extreme hawk on Iraq and was apparently pushing to invade a few days after 9-11, using that as an excuse. Madeleine Albright earned fame as the world's most prolific baby-killer, this deranged psychopath directly responsible for the deaths of more than 500,000 infants in Iraq – for which President Obama awarded her the Presidential Medal of Freedom, the highest civilian award of the United States.

Control of COVID and vaccines

Rochelle Walensky

It appears that the American CDC and Health Services were firmly under the control of Jews during the COVID travesty. And this, based on circumstantial evidence alone, had to have been a Jewish program. The most damning evidence is the one that is most obvious - the mass media which worldwide is almost entirely controlled by Jews. The entire Western media and also in much of the rest of the world, were all onside, pushing precisely the same agenda, with the same daily floods of doomsday news, of magnificent falsehoods, tales of death and depression everywhere, with the psychological manipulation for which these people are famous, and the intense push to manipulate everyone to accept the spike injections. There is no Gentile organisation anywhere with the power to assemble and engender the Jewish media as a group to do anything, and certainly nothing of this scale. **Logic alone tells us this had to be a Jewish agenda.** There is no other possibility that fits all the facts. As others have noted, a "normal" epidemic does not require all the media to flood every nation with doomsday reports 24/7, especially not from a mild pathogen. But a propaganda campaign does require it, especially if the underlying purpose is the vaccinations.

Also, the major pharmaceutical companies are all Jewish, and certainly the makers of the vaccines. **A Rothschild owns the huge conglomerate Sanofi, and both Pfizer and Moderna are Jewish companies. As well, the largest apparent shareholders of Pfizer, Moderna and Gilead stock are Blackrock and Vanguard, themselves Jewish companies.** I use the word "apparent" because often shares are held in trust for the actual beneficial owners to shield them from public scrutiny.

Control of Almost Everything Else

Daniel Saul Goldin

And finally, a grab bag of executives who specialise in everything from flooding the nation with GM food to negotiating high profits and criminal immunity for the pharmaceutical industry, gutting social security, killing food stamps and, perhaps most importantly, ensuring the criminalisation of dissent and finding the money for DHS to buy its 3 billion bullets and staff its 800 internment camps. It is of course also responsible for gutting the education system, killing medical care, bullying other UN members into submission and deciding which political or anti-capitalist actions should be criminalised and prosecuted. This group cuts a very large swath through all of American society. Little remains untouched.

One Example from the Clinton Administration

Avinoam Bar-Yosef

An article, "[The Jews Who Run Clinton's Court](#)", by Avinoam Bar-Yosef appeared in the Tel Aviv Hebrew-language daily Ma'ariv on Sept. 2, 1994, and was translated by Dr. Israel Shahak. It began by stating that a Washington rabbi gave a sermon on the Jewish "political center" then being formed in America. According to him, "For the first time in American history, we no longer feel that we live in the diaspora. The U.S. has no longer a government of Goyim [Gentiles], but an administration in which the Jews are full partners in the decision making at all levels. Perhaps the aspects of the Jewish religious law connected with the term 'government of goyim' should be re-examined, since it is an outdated term in the U.S." The article continued: "Jewish political influence was also evident in America in previous decades. We have already seen a Jewish Secretary of State, Henry Kissinger, enjoying the full confidence of President Richard Nixon. There were Jewish Cabinet members also under Carter. However, they were exceptions proving the rule. The picture now has totally changed, and not only about the Middle East. Two of the [Clinton's advisors], Berger and Perle, are warm Jews. They have reached posts that are extremely sensitive for U.S. policy. They are by no means exceptions. In the National Security Council, 7 out of 11 top staffers are Jews. Clinton has especially placed them in the most sensitive junctions in the U.S. security and foreign policy administrations." The article then proceeded to list some of the more notable Jews whose appointments had succeeded, noting that the more important appointments were "joined by a long list of senior Jewish officials in the State Department", and "followed by many deputy secretaries and even more senior secretaries' chiefs of staff." It added as well that "the President's office was full of 'warm Jews'".

Mother Jones reported in an article that "David Steiner, former president of AIPAC, who was forced to resign that position when he was secretly tape-recorded bragging about how he manipulated American government on behalf of Israel. "We have a dozen people in his [Clinton's] headquarters," the then-president of AIPAC had noted for the tape," and they are all going to get big jobs." Besser reported that the Baltimore Jewish Times quoted Stuart Eizenstat as saying, "the Jewish community has reached a kind of critical mass in politics that guarantees that many of the gains of the Clinton years will remain, no matter who occupies the White House. I think the change will last. People in the middle levels [of national government] will move up in the years ahead; younger people who are being trained at junior levels will, in future administrations, take more senior positions." This situation has of course existed for a very long time and has been true to a greater or lesser extent for all US Presidents for perhaps the past 100 or so years but, to illustrate more precisely, here is a truncated list of appointments of Jews during Bill Clinton's presidency. This list, as with the others here, has been obtained from public sources, primarily Jewish publications and websites. In one case, the Israeli magazine boasted that seven of the top ten members of Clinton's National Security Council were Jews. This is the group that advises the US President on all foreign and domestic affairs related to what can loosely be termed "US National Security", which term includes not only military but also banking and commercial concerns. Membership in the NSC generally includes the President, Vice-President, the Secretary of State, Defense Secretary, and the top military man, the Chairman of the Joint Chiefs of Staff. This is not an insignificant group.

Martin Indyk is a special case since he served both as Assistant Secretary of State for Near East Affairs and as the US Ambassador to Israel, as well as being a Director of the NSC. It was seen as unusual that a Jew would be serving as America's Ambassador to Israel, especially while he was also serving as US Special Envoy for Israeli-Palestinian Negotiations, and therefore responsible for framing most US Middle East policy. Indyk was credited to have created the "containment policy" related to Iraq and Iran, which the Western media claimed "were both viewed as the United States' two most important strategic adversaries at the time", but which in fact were totally irrelevant as US adversaries, strategic or otherwise, but were instead Israel's most important adversaries and whom Israel wanted destroyed. Indyk received notoriety for being the first US Ambassador in history to be stripped of his security clearance, which would almost certainly mean he was either detected or suspected of releasing classified information to Israel. However, Madeleine Albright, Clinton's Jewish Secretary of State, was pleased to restore his clearance almost immediately.

In any case, here is a listing of some of the Jews appointed by President Clinton:

Leon Perth - White House Chief of Staff, Ricky Seidman - Deputy Chief of Staff, William Cohen - Secretary of Defense, Madeline Albright - Secretary of State, Mickey Kantor - Secretary of Commerce and National Advisory Council for AIPAC, Robert Rubin - Secretary of the Treasury, Alan Greenspan - Chairman of the Federal Reserve, Arthur Levitt - Chairman of the SEC, John Deutch - Director of the CIA, Dan Glickman - Secretary of Agriculture, Robert Reich - Secretary of Labor, Jack Lew - Director OMB, Janie Gorelick - Assistant Attorney General, Gene Sperling - Chairman of the National Economic Council, Robert Rubin - Chairman of the National Economic Council, Robert Pitofsky - Chairman, Federal Trade Commission, Sandy Berger - Deputy Chairman of the National Security Council (NSC), Martin Indyk - (NSC) Middle East and South Asia, Dan Schiffer - (NSC) Western Europe, Don Steinberg - (NSC) Africa, Richard Feinberg - (NSC) Latin America, Stanley Ross - (NSC) Asia, Stuart Eizenstat - Undersecretary of State, Daniel Kurtzer - Ambassador to Egypt, Aaron Miller - Deputy Middle East Coordinator, James Rubin - Assistant State Secretary, Jeffrey Davidow - Assistant State Secretary, Princeton Lyman - Assistant State Secretary, Stanley Roth - Assistant State Secretary, Marc Grossman - Assistant State Secretary, Abner Mikva - Presidential Schedule and Programs Manager, Bernard Nussbaum - White House Counsel, Phil Leida - Economic Advisor, Evelyn Lieberman - Director of the VOA, Ira Mezina - Health Programs, Rahm Emmanuel - Senior Advisor for coordinating White House Special Projects, Charlene Barshevsy - Special Trade Representative, David Heiser - Staff Director, Stanley Greenberg - Clinton's pollster, Alice Rubin and Eli Segal - Volunteer Programs.

NOTE TO READERS: Below are links to some references on Jewish appointments to various recent US Administrations. They contain lists of only some of the most prominent appointments. It was not possible to provide full references on these appointments because the information is scattered throughout nearly 800 separate articles and reference documents. To provide a complete listing would overwhelm both the essay and the reader. You can perhaps appreciate this from reading the list provided above of the Jews appointed by Bill Clinton, and that list is far from complete.

What part will your country play in World War III?

By Larry Romanoff, May 27, 2021

The true origins of the two World Wars have been deleted from all our history books and replaced with mythology. Neither War was started (or desired) by Germany, but both at the instigation of a group of European Zionist Jews with the stated intent of the total destruction of Germany. The documentation is overwhelming and the evidence undeniable. (1) (2) (3) (4) (5) (6) (7) (8) (9) (10) (11)
