COLLABORATIVE DEGREE PROGRAMMES  
BETWEEN THAI AND FOREIGN HIGHER EDUCATION INSTITUTIONS  
2015

BUREAU OF INTERNATIONAL COOPERATION STRATEGY, OHEC

(BLANK PAGE)

## **FOREWORD**

The Office of the Higher Education Commission has conducted a survey on collaborative degree programmes offered by Thai higher education institutions in the academic year 2015 with a view to notifying the number of collaborative degree programmes delivered jointly between Thai and foreign higher education institutions, benefits gained for the students and institutions, and difficulties faced in managing the programmes. The survey results presented in this publication can be of use as easy reference or lesson learned for institutions wishing to develop a collaborative degree programme with a foreign counterpart, as well as serving personal interest for the choice of study.

The Office of the Higher Education Commission would like to extend its gratitude to each and every Thai higher education institution for the comprehensive information provided which has made this publication possible.

Office of the Higher Education Commission

February 2017

## EXECUTIVE SUMMARY

In 2016, the Office of the Higher Education Commission (OHEC), Ministry of Education, Thailand has conducted a survey on collaborative degree programmes delivered jointly by Thai and foreign higher education institutions in academic year 2015. The survey has shown that there were 135 collaborative degree programmes offered by Thai universities, comprising three major types of degrees conferred, namely joint degree (6%), dual degree (56%), and national degree (37%) while a handful of universities offered triple degree (1%). Most collaborative degree programmes were delivered at the bachelor's level (54%) followed by master's (32%), and doctorate (14%) respectively.

40 out of 156 Thai higher education institutions have delivered collaborative degree programmes. Of this number, Chulalongkorn University remained the top university offering the largest number of collaborative degree programmes (20%), followed by Kasetsart University (15%) and King Mongkut's University of Technology Thonburi (12%) respectively.

In relation to the country of foreign partner institutions delivering collaborative degree programmes, China was Thailand's top foreign partner in terms of the number of collaborative programmes (29%), followed by USA (15%), and the UK holding the third place (10%).

When compared with the figure in 2014, it can be seen that the number of collaborative degree programmes in 2015 has slightly dropped by 10% as smaller number of institutions have responded to OHEC's survey, and a few institutions have renounced the programmes. However, Thai universities were still striving for more collaboration as the number of joint degree and dual degree programmes have increased by 33% and 12% respectively, owing to the rapid growth of transnational education.

## **Reasons why Thai higher education institutions partake in collaborative degree programme**

---

(Sorted by highest frequencies)

1. To develop academic strengths and international atmosphere of the university (127)
2. To attract Thai and international students (81)
3. To provide new programme integrating knowledge and expertise from Thai and Foreign universities (68)
4. Other (18)
  - to develop the quality of university and staff
  - to achieve professional license (for students)
  - to expand multidisciplinary research
  - to produce personnel in fields of scarcity
  - to add value to the programme

---

## **Benefits students/Thai higher education institutions gained from collaborative degree programmes**

---

(Sorted by highest frequencies)

1. Institutions gain academic cooperation/network and programme's strength and acknowledgement (64)
2. Students have experiences to study and/or conduct researches overseas/with leading institutions (60)
3. Students study languages officially used in the host countries (49)
4. Students are exposed to multicultural learning environment (47)
5. Students are equipped with professional readiness and are able to meet employers' demand (38)
6. Students study and/or conduct researches in Thailand with overseas experts (19)
7. Students earn two or more degrees (14)
8. Students save more (tuition fee and living expenses) (5)
9. Students' opportunities to work internationally are maximized (5)
10. Students' opportunities to intern overseas are maximized (4)
11. Students' opportunities to continue their studies at foreign institutions are maximized (3)
12. Students earn foreign professional certification (2)
13. Students gain scholarships from home and/or host universities or third-party sponsor agencies (1)
14. Thai students have opportunity to study in the fields of scarcity in Thailand (1)
15. Students can choose to study in Thailand or overseas partner universities, or e-learning (1)
16. Many selective subjects are available for students at foreign universities (1)

---

## **Constraints found in collaborative degree programme management**

---

(Sorted by highest frequencies)

1. Language barrier (26)
2. Difficulties in cooperation/communication between partner universities (14)
3. Differences in academic systems and regulations between Thailand and other countries (14)
4. Lack of/insufficient financial support to manage the programme/support students (13)
5. Different academic year schedules between Thai and foreign universities (12)
6. A very small proportion of registration (9)
7. High cost for bringing in visiting professors (8)
8. Difficulties in adjusting to cultural/academic differences of some students (6)
9. Familiarity with collaborative programmes/Ability to adjust (staff) (6)
10. High study/living expenses abroad (6)
11. Technical problem (6)  
(i.e. Teleconference, international money transfer, currency swing, foreign lecturers to do TQF)
12. High level of competition due to similar programme offered by many other universities (5)
13. High tuition fees (3)
14. Non-transferable credits of some subjects (3)
15. Lack of foreign students' interest to come to study in Thailand and vice versa (3)
16. Visa/Immigration documents (3)
17. Difficulties in controlling quality of the programme across countries (2)
18. Rigid regulations for managing a joint degree in Thailand (1)
19. Insufficient teaching personnel (1)

09 – Health and welfare	6	5	10	13	12
10 – Services	5	8	14	14	9
<b>Total</b>	<b>92</b>	<b>115</b>	<b>158</b>	<b>150</b>	<b>135</b>

**\*Note**

1. There has been some reassignment of the ISCED Fields of Education and Training 2013 (ISCED-F). The ISCED Fields of Education (ISCED1997) have been modified to eliminate overlapping, and increased to include new fields. Thus, there are now 29 fields of education as compared to 25 in the previous version.
2. Between 2011 and 2014, the categorization of data was based on ISCED1997. Later, the revision of ISCED-F 2013 was introduced and used to classify fields of study in this book.
3. The fields of education in ISCED1997 are: 01 Education, 02 Humanities and Arts, 03 Social Sciences, Business and Law, 04 Science, 05 Engineering, Manufacturing and Construction, 06 Agriculture, 07 Health and Welfare, and 08 Services

(BLANK PAGE)

**Announcement of the Ministry of Education on Guidelines for Academic  
Cooperation  
Between Thai and Foreign Higher Education Institutions  
B.E. 2550 (A.D. 2007)  
(Unofficial translation)**

In order to encourage Thai higher Education institutions to implement good standard and quality academic cooperation agreement with foreign higher education institutions that will lead to capacity building and strengthening academic excellence in congruence with the announcement of the Ministry of Education on Higher Education Standard.

Abiding by the authority prescribed in the Article 8 and Article 16 of the Ministry of Education regulatory Act of B.E. 2546 (2003), the Minister of Education with the recommendation of the Higher Education Board in its second meeting of 2007 on 1 February 2007 issued an announcement as follows:

1. This announcement is called “Announcement of the Ministry of Education on Guidelines for Academic Cooperation Between Thai Higher Education Institutions and Foreign Higher Education Institutions B.E. 2550 (A.D. 2007)”.
2. The announcement shall be effective one day after its promulgation in the Royal Gazette.
3. The Announcement of the Ministry of University Affairs on Policies and Measures for Encouraging Educational Provision of Foreign Institutions in Thailand A.D. 1999 is to be cancelled.
4. In the announcement
  - 4.1 Academic cooperation agreement means any cooperative agreement for the implementation of collaborative teaching and learning activities, joint research, transfer of technology, delivery of academic services, and the exchange of art and culture or other collaborative academic activities which the Council of Thai higher education institution has approved academic cooperation agreement with foreign higher education institution either bilaterally or multilaterally.
  - 4.2 Thai higher education institution does not only refer to public and private higher education institutions but also including their research institutes under jurisdiction and supervision of the Ministry of Education.
  - 4.3 Foreign higher education institution refers to higher education institutions which are not Thai institutions including their research institutes, higher professional training institutions, highly specialized professional institutions. These institutions must be of high quality and meet international standards as well as established

legally. The standard of their curricula must be accredited by legal authorities according to the laws prescribed in their respective countries.

5. Characteristic and implementation

5.1 In implementing academic collaboration agreement, Thai higher education institution must consider the benefits for quality development and academic and professional standard of both parties based on mutual benefits and academic and professional progress in order to achieve academic excellence, development of teaching and learning effectiveness and the exchange of body of knowledge between the parties in pursuance of philosophy and mission of the institution

5.2 Implementation of any academic cooperation agreement must be approved by Council of particular higher education institution. In addition, the Commission on Higher Education must be informed about the agreement within 30 days after the Council of higher education institution had approved the agreement. This is for the purpose of compiling international cooperation agreement database which is crucial factor for formulating policy and making decision for the support of the cooperation and for public announcement.

6. Scope of cooperation

Collaborative activities under academic cooperation agreement are not only limited to teaching and learning in classroom but also include distance learning. On the other hand, distance learning is to have similar standards and can be benchmarked with same curriculum of classroom teaching mode. The curriculum of distance learning must comply with criteria on approval and operation of delivery of degree programme for distance learning curriculum promulgated by the Ministry of Education. In addition research, transfer and development of technology, academic service, art and cultural activities or other academic activities are to be approved by the Council of higher education institution as well.

6.1 Teaching and learning

6.1.1 Scope of academic cooperation includes exchanging of faculty members, educational staffs, students teaching and learning equipments as well as collaborative study programmes delivered jointly by Thai and foreign higher education institutions.

6.1.2 Delivery of collaborative study programmes and joint curricula leading to degree programme must not violate related laws, regulations or announcements such as Private Higher Education Institution Act or Criteria for Standard

Curriculum promulgated by the Ministry of Education. Moreover, the collaborative study programmes must be accredited or certified by relevant authorities in respective countries. Collaborative study programmes could be existing study programme delivered by higher education institutions or new study programme jointly developed by Thai and foreign higher education institutions.

6.1.3 Implementation of collaborative study programme between Thai and foreign higher education institutions must be carried out under agreement mutually agreed by both parties and the agreement must be endorsed by university council of both parties. Thai higher education institution has to submit report of the implementation of the collaborative study programme for the acknowledgement and endorsement of the Commission on Higher Education Board.

6.1.4 Management of teaching and learning of the collaborative study programme must be the responsible by Thai higher education institution and Thai lecturer will be assigned to join teaching in the collaborative study programme while foreign partner can send foreign lecturer to teach in the same programme and also to provide academic assistance to the joint programme. In addition, lecturers who are responsible for the collaborative study programme and other lecturers teaching in the programme must have qualifications in consistent with announcement on curriculum standard of the Ministry of Education.

6.1.5 Granting of degree can be given by either Thai or foreign higher education institutions or a joint degree between Thai and foreign institution depending on academic cooperation agreement or depending on regulations pertaining to degree granting procedure of Thai and foreign partner institutions. In the case of degree granted by foreign institution, Thai student has to enroll in foreign higher education institution of not less than one academic year or half of the full duration of the curriculum or in accordance with the regulations of foreign higher education institution.

## 6.2 Research

6.2.1 In carrying out research cooperation with foreign institutions, Thai higher education institution is to consider all benefits from cooperation in order to obtain facts and new body of knowledge for the development of teaching and learning in degree study programme of Bachelor's, Master's

and Doctoral curriculums. Moreover, beneficial and impact on Thai economic and social development must be taken into consideration.

6.2.2 In carrying out research cooperation, the implementation must not violate regulations on the subject of permission of foreign researcher to do research in Thailand of the National Research Council and other relevant laws.

### 6.3 Technology transfer and development

In implementing academic cooperation with the objective of technology transfer and development, Thai higher education institution must bear in mind the benefit and advantage of academic development and the interest of Thailand and the academic cooperation must conform to the Thai law on intellectual property rights and other pertaining laws.

### 6.4 Academic services

In implementing academic cooperation with the purpose of academic services, Thai higher education institution must take into consideration the cooperation for sustainable development in Thai higher education institution for example for academic development, human resources development, student affairs development, etc..

### 6.5 Art and culture activities

In implementing academic cooperation on art and culture activities, Thai higher education institution must be concerned about exchanges that facilitate the support and promotion of development of knowledge in art and culture as well as preservation, restoration nourishing and dissemination of culture in order to promote better understanding in art and culture among cooperating countries.

### 6.6 Other academic activities

Thai higher education institution may implement other collaborative activities not yet mentioned above, for example sport activities, student affairs, organizing international academic conference and also academic consultancy. However, these activities must be endorsed by the council or higher education institution.

7. Thai higher education institution should report existing academic cooperation agreement signed earlier with foreign countries to the council of higher education institution for reviewing and endorsement. In the instance of particular academic cooperation agreement where no activity has been implemented during the past 3 years after signing of the agreement, such cooperative agreement should be considered

terminated. Thai higher education institution shall carry out follow-up and evaluation of the academic cooperation agreement every 3 years. After the 1<sup>st</sup> and 2<sup>nd</sup> paragraph had been implemented successfully, Thai higher education institution shall report cooperative agreement result to the Commission on Higher Education Board. The academic cooperation agreement report will be beneficial for the development of its database in order to make its information complete and updated for suitable support for policy formulation and decision making for the benefit of the public at large.

8. In case Thai higher education institution cannot follow this guidelines or it is necessary to carry out other activities other than what had been prescribed in the academic cooperation agreement, therefore, discretion shall depend on the judgement of the Commission on Higher Education Board and the Board's decision is considered final.

Announced on March 23, 2007  
Undersigned by Ministry of Education (Prof. Wichit Srisa-an)
