UK Museums Guide

Welcome to *FlyPast's* exclusive - and fully updated - 2018 guide to the UK's aviation museums. Inside you'll find details of collections large and small, the length and breadth of the land, illustrating the great diversity of our aircraft preservation scene. From local heritage centres to the major national museums, they and their exhibits are listed here county by county in this useful travel companion.

Note: This information has been compiled from a variety of sources and, where possible, from information provided by the museums or gleaned from first-hand visits. Details of aircraft on display, opening dates/times and admission prices may change, so please check before planning a museum visit as *FlyPast* cannot accept responsibility for any errors in this supplement. Some admission prices listed include Gift Aid donation, others do not. Admission fees at certain venues differ on special event days. Those museums that are free to enter always appreciate donations. Should you have any updates, please email them to ben.dunnell@keypublishing.com.

ACKNOWLEDGEMENTS: The compiler wishes to thank the museum staff and volunteers who provided updated information, as well as Howard J. Curtis for his assistance. His regular updates to the 'Military Aircraft Markings' book can be found at www.militaryaircraftmarkings.co.uk and 'MAM 2018' will be published by Crécy shortly after this magazine appears. Due credit also to Ken Ellis' 25th edition of 'Wrecks and Relics', published by Crécy.

FAST

Farnborough Air Sciences Trust Museum

The unique A-Z heritage centre celebrating the birthplace of British aviation and a century of air science progress from Airships to Zephyr.

Situated in the historic original Army Balloon School and Headquarters of the Royal Flying Corps, see the Cody Flyer; a full-size replica of the first successful powered aeroplane to fly in Great Britain, and the amazing life of its builder and pilot, Samuel Franklin Cody, from showman to pioneer aviator. Discover the innovations that changed the history of aviation and the world, and examine up close famous combat aircraft, including the Hunter; Lightning and Harrier and, conditions permitting, sit in actual cockpits, including a Trident jetliner. Learn how wind tunnels defined the shape of our most famous aeroplanes, including Concorde. Try out your flying skills on one of our flight simulators including landing Concorde at Heathrow, or making a vertical take-off and landing in a Harrier.

Now offering conducted tours (by advanced booking only) of iconic wind tunnels. Also:

- Helicopters
- Engines
- Unmanned Air Vehicles
- Missiles
- Satellites and space vehicles
- Early history of the Royal Flying Corps and Royal Aircraft Factory
- New exhibition, RAE 100, celebrating the Centenary of the Royal Aircraft Establishment.
- Specialised aerospace equipment and systems
- Coffee shop
- Museum shop for metal and wooden collectors models, plastic kits and extensive selection of pre-owned and new aviation books, plus gifts for younger visitors.

The FAST Museum is open every weekend and bank holiday Mondays (excluding Christmas and the New Year and during the Farnborough International air show).
Opening times 10.00am-4.00pm • MUSEUM ENTRANCE FREE • Donations welcome • Wind tunnel tours subject to charge.

THE VULCAN EXPERIENCE

Tours of Vulcan B2 XH558 (G-VLCN) at its Doncaster Sheffield Airport base are currently in abeyance pending the construction of a new hangar, planning permission for which was granted just before Christmas. Co-located Canberra B2/6 WK163 (G-CTTS) and Swift F4 WK275 are also inaccessible at present.

YORKSHIRE AIR MUSEUM

Another excellent regional museum, famed for its rebuilt Halifax *Friday the 13th*, and recognised as the Allied Air Forces Memorial. Its engine and taxi run events involving the Victor, Buccaneer, Nimrod, Dakota, Devon and other 'live' aircraft are deservedly popular. The Mirage IV is an exciting – and, in the UK, unique – addition.
