An entered Competitor may be replaced by an entered substitute *not later than at the Team Leaders' meeting preceding the draw* for the distance or at a specifically announced deadline. Replacement of a Competitor by an entered substitute *after the draw* may **exceptionally** be accepted, but only if the Referee has been duly informed **at least two hours** before the start of the first race (Division A or Division B) of the distance.

4. Competition Formats

4.1.1. Individual competitions skated in separate Divisions

For each individual competition the entered Skaters compete in two separate divisions with the currently best ranked Skaters competing in Division A, the remaining Skaters in Division B. However, all Skaters compete together in Division A in the following cases:

- a) When the number of entered Skaters does not exceed a certain limit, as indicated in paragraph 4.1.2.

4.1.2. Number of Competitors/Teams in Division A

- a) For 500, 1000 and 1500m, Women and Men:

- If 28 or less Skaters have been entered (according to final entries), all compete in Division A;
- If more than 28 Skaters have been entered (according to final entries), Division A shall consist of 20 Competitors.

- b) For 3000m Women and 5000m Men:

- If less than 20 Skaters have been entered, all compete in Division A;
- If the number of entered Skaters is between 21 and 24, Division A shall consist of 12 Competitors;
- If more than 24 Skaters have been entered, Division A shall consist of 16 Competitors.

- c) For 5000m Women and 10000m Men:

- The number of Competitors in Division A shall be (maximum) 12.

- d) For Mass Start, Women and Men:

- If 24 or less Skaters have been entered, all Skaters will compete in Division A (No Semifinals will be held in such case);
- If more than 24 Skaters have been entered, races will be organized with Semifinals and a Final. In this case Semifinals cannot be canceled even if the total number of Skaters after the draw will be 24 or less in total:
 - Each of the two Semifinals shall then be set up with at least 12 Competitors and with the same number of Skaters, unless there is an odd number of Skaters entered or less than 24 total Skaters are entered after the draw;
 - The entered Skaters are placed in the Semifinals according to their seeding (see Section 5.6), according to the following procedure:
 - Top seeded Skater: Semifinal 1
 - 2nd and 3rd seeded Skater: Semifinal 2
 - 4th and 5th seeded Skater: Semifinal 1, etc.
 - Not more than 1 Skater from the same ISU Member may compete in the same Semifinal. Therefore, the procedure described above for the distribution of Skaters in the two Semifinals may have to be adjusted accordingly. The Final shall consist of the 8 best ranked Skaters from each Semifinal. In the case of a withdrawal of a Skater qualified for the Final, this Skater will be replaced in the Final by the next ranked Skater from the Semifinal concerned.

- e) For Team Pursuit, Women and Men:

- If not more than 8 Teams for Men and not more than 10 Teams for Women have been entered, all Teams compete in the respective Division A;
- If the number of entered Teams for Men are 9 or 10, Division A (for Men) shall consist of 6 Teams;
- If more than 10 Teams have been entered, Division A shall consist of 8 Teams.

In the case of many late withdrawals for a distance (event), the ISU Technical Committee Representative and the ISU Representative may exceptionally determine a different number of participants in Division A than specified above (and summarized in the table below), based on the approved Time schedule for the World Cup Competition.

4.1.3. Selection of Skaters/Teams for Division A (for Mass Start see 4.1.2 d) above)

- a) In the *first Competition* the composition of Division A for the individual distances is determined by the final World Cup 2021/22 ranking for the competition category concerned and by the time ranking of the entered Competitors based on qualification times as described in paragraph 3.1.2.a). Only skaters ranked top 40 for 500/1000/1500m or top 30 for 3000/5000m in this time ranking will be allowed to compete in Division A for the distance concerned. The 2021/22 World Cup ranking determines the number of quota places for the ISU Member in Division A (subject to the entry quotas listed in paragraph 3.1.3, and to the maximum limit of 2 Skaters from the same ISU Member for Mass Start). However, an ISU Member may lose their quota place(s) in Division A for the distance concerned if entered skater(s) will be ranked lower than 40/30 respectively as stated above.
- b) In *all other Competitions* (also for the first competition over 5000m Women and 10000m Men) the selection for Division A shall be based on the current World Cup ranks of the entered Skaters. When 500m are skated with two races in the same World Cup Competition, each race is considered a separate competition regarding the selection of Skaters for Division A.
- c) However, the following entered Skaters/Teams shall compete in Division A (this rule does not apply for the first World Cup (WC-1)):
 - Competitors/Teams placed among the 3 best (ties included) in Division A in the preceding Competition.
 - The winner of Division B from the preceding Competition when Division A will consist of only 12 Skaters (5000m Women and 10000m Men).
 - Competitors who finished among the 3 best (ties included) in Division B in the preceding Competition when Division A will consist of more than 12 Skaters.
 - The winning Team from Division B in the preceding Competition.
 - Competitor/Team with a "Wild Card":
 - A "Wild Card" for Division A may be used only the first time the Skater/Team competes in the competition (category) concerned in the World Cup 2022/23.
 - A "Wild Card" may be granted to a Skater placed among the top 8 in the final World Cup ranking 2021/22, or among the top 6 in the OWG 2022.
 - A "Wild Card" may be granted to a Team placed among the 3 best in the final World Cup ranking 2021/22, or OWG 2022.

4.1.4. Scheduling of Division A races

- a) For each day of an ISU World Cup Competition the races of Division A for all competitions shall be scheduled as one block of races. The starting time for the block of Division A races shall be stated in the announcement.
- b) Quartet starts shall not be used in Division A.

4.1.5. Scheduling of Division B races

- b) The deadline for entry of names of the Skaters that may compete in the team (up to 4 names) will be announced by the Referee during the Team Leaders' meeting.
- c) The final composition of the team shall be declared by the Team Leader and submitted to the Sport Expert or Referee not later than 60 minutes before the start of the Team competition concerned.
- d) For the first ISU World Cup Competition of the season the teams shall be seeded according to the final 2021/22 World Cup Team competition ranking. For the following Competitions the teams shall be seeded according to the current World Cup Team competition ranking.
- e) Depending on the number of entries, higher ranked teams for Team Pursuit will be selected for Division A (see 4.1.1 e). The sequence of races of the Team competitions is determined by seeding or ranking of the teams, with the two best ranked teams competing in the last race in Division A. However, the winning Team of Division B from the preceding World Cup Competition shall be placed in Division A (see paragraph 4.1.3.c) above).

4.2.4. Safety measures

Details on the safety measures of the Team competitions are given in ISU Communication No. 2477 or any further updates.

4.3. Format for Mass Start competitions

Mass Start races will be organized based on the relevant ISU Technical Rules and a special ISU Communication or other documents issued by the ISU Speed Skating Technical Committee.

5. Pairing, Drawing and Starting Order, Issuing of Start Lists

5.1. Team leaders' meeting and draw meetings

- a) A Team leaders' meeting shall take place before the first day of the Competition, with the purpose to confirm the final entries and to present race schedules and other logistical information. On subsequent days the Team leaders' meeting will be replaced by a procedure where Team leaders submit this information by a given deadline, and information on race schedules etc. for the following day will be distributed to the Team leaders by other means.
- b) Before the first day of an ISU World Cup Competition there will be an Opening Draw meeting to announce the composition and starting order of pairs for the first competition day. On subsequent days the start lists for the following day will be determined by the Referee based on the entries confirmed at the Team leaders' meeting or procedure as indicated above in para 5.1.a) and the rules given below in para 5.2.
- c) Each participating ISU Member is obliged to attend the Team leaders' meetings, but participation is restricted to one person (the officially entered Team leader or another person authorized by the Team leader).

5.2. Pairing and drawing at the first ISU World Cup Competition for individual distances

- a) Before noon (12:00) on the day of the *Opening Draw meeting* for the Competition, the Team leaders must confirm to the Sport Expert/Referee their entered Competitors, for all distances to be skated in the Competition. The Referee then places the entered Competitors based on their individual ranking in the time ranking list described in 4.1.2 above, in accordance with the ranking positions of Skaters from the respective ISU Members in the final World Cup ranking 2021/22 in the distance concerned, respecting the entry quotas specified in paragraph 3.1.3 above.
- b) For the short distances (500, 1000 and 1500m) Division A shall consist of the Competitors placed in the top 20; for the long distances (3000/5000m) Division A shall consist of the Competitors placed in the top 16. Division B shall consist of the remaining Competitors. Adjustments will be made in case of an exceptional number of Competitors in Division A as per paragraph 4.1.1.
- c) In each division Competitors will be ranked according to their best achieved qualifying time. The starting order of the pairs shall be opposite to the ranking order of the Competitors so that the Competitors with the lowest ranks will start in the first pair, and so on. The better ranked Competitor in a pair shall start in the inner lane. However, the last 3 pairs (top 6 ranked Competitors) in Division A are to be drawn. In the case of an odd number of Competitors, the first pair will consist of a single Skater.

5.3. Pairing and drawing after the first ISU World Cup Competition

- a) Competitors, both in Division A and in Division B, shall be paired according to their individual World Cup rank. An extended World Cup ranking is established by ranking Competitors with no World Cup points according to their best achieved time in World Cup races during the season 2022/23. Competitors with no results from World Cup races held during the season shall be ranked thereafter, based on their best achieved qualifying time. The starting order of the pairs shall be opposite to the ranking order of the Competitors so that the Competitors with the lowest ranks will start in the first pair, and so on. The better ranked Competitor in a pair shall start in the inner lane. However, the last 3 pairs (top 6 ranked Competitors) in Division A are to be drawn. The better ranked Team in a pair shall start in the finishing straight. The Teams from the four best ranked ISU Members shall be drawn to form the two last races.
- b) The above procedure applies also for the first (and only) competition in 5000m Women and 10000m Men, with the drawing based on the current extended World Cup ranking in the long distances.

5.4. Rearrangements

- a) In case of withdrawals after the draw, rearrangements of pairs will be done according to Rule 245, paragraph 1.
- b) After rearrangement in Division A as described in Rule 245, paragraph 1, the best ranked Competitor(s) from Division B will be promoted to Division A and be placed in the vacant spot(s) before rearrangement in Division B.
- c) In any case if a Substitute(s) is entered, the substitute can only be placed in the vacant spot open in Division B.
- d) Rule 245, paragraph 3 must be respected.

5.5. Composition of quartets

In the case of quartet starts, the four Competitors with the best World Cup ranking shall form the last quartet, and only the first quartet may be incomplete.

5.6. Mass Start: starting orders and composition of semifinals

5.6.1. The first ISU World Cup Competition of the season

- a) If the competition is skated with one race (all Skaters in the Final) only, the seeding of the entered Skaters will be determined by the final World Cup 2021/22 ranking and will determine the starting order (lineup). Skaters not ranked by the final World Cup 2021/22 ranking will be ranked according to their best achieved qualifying time for the 1500m.
- b) If the competition is skated with Semifinals, the same seeding will be used to determine the composition of the Semifinals according to the procedure described in 4.1.2.d) above. The starting

order in the Semifinals will then be determined by the seeding of the Skaters in the race. In the Final, the starting order will be determined by giving the winner of Semifinal 1 starting order no. 1, the winner of Semifinal 2 starting order no. 2, the second ranked Skater in Semifinal 1 starting order no. 3, etc.

5.6.2. After the first ISU World Cup Competition

- a) If the competition is skated with one race (all Skaters in the Final) only, the current World Cup ranking of the entered Skaters will determine the starting order. Skaters without World Cup points will be ranked according to their best achieved qualifying time for the 1500m.
- b) If the competition is skated with Semifinals and a Final, the current World Cup ranking (with extended ranking as defined above) of the entered Skaters will be used for the composition of Semifinals according to the procedure described in 4.1.2.d). This ranking will also be used for the starting order in each Semifinal and in the Final.

5.7. Team competitions

The composition and sequence of races will be determined according to paragraph 4.2.3 above.

6. Points and Ranking System for World Cup Rankings

7. ISU World Cup Speed Skating Ranking Rules

7.1. World Cup ranking for each competition category

The World Cup ranking for each competition category is determined by the number of points the Skaters (or National Teams) accumulate during the season. In the final World Cup ranking, as well as in the intermediate ranking during the season, a tie between Skaters/Teams with the same total of World Cup points will be resolved according to the following criteria, in order of priority, for determining the better ranked Skater/Team:

- The Skater/Team with the higher number of World Cup victories.
- The Skater/Team with the highest score of points in any single competition (race).
- The Skater/Team with the next higher score of points in any single competition (race).
- The Skater/Team with the best time achieved in the World Cup for the distance/competition concerned (except 3000+5000m for Women and 5000+10000m for Men).

7.2. Prizes

For each distance (category) prize money will be awarded for each individual competition and for the final classification at the end of the season. For each competition, prize money is awarded to the top 3 Skaters of Division A and the top 3 Teams in the Team competitions. For the final World Cup ranking, prize money is awarded to the top 10 Skaters in each of the individual distance categories (including Mass Start competitions), and to the top 5 ranked Teams in the Team competitions.
